As at the Closing Date, the UK Retention Requirement and the EU Retention Requirement will each be satisfied by the Seller holding the first loss tranche and other tranches having the same or a more severe risk profile than those transferred or sold to investors, in this case, represented by the retention by the Seller of the Class Z Notes, (i) in accordance with Article 6(3)(d) of Chapter 2 of the PRA Securitisation Rules and (ii) under the Transaction Documents in connection with Article 6(3)(d) of the EU Securitisation Regulation (as required for the purposes of Article 5(1)(d) of the EU Securitisation Regulation) as though Article 6 of the EU Securitisation Regulation applied to the transaction, not taking into account any relevant national measures, but solely as such articles are interpreted and applied on the Closing Date, **provided that** on and from the applicable SR Equivalency Date (but only for so long as SR Equivalency is maintained), references to, and obligations in respect of, the EU Securitisation Regulation shall not apply. - the Seller will be under no obligation to comply with any amendments to applicable EU technical standards, guidance or policy statements introduced in relation thereto after the Closing Date.

Each potential UK Affected Investor is required to independently assess and determine the sufficiency of the information described above and in the Prospectus generally for the purposes of complying with the applicable due diligence requirements of the UK Securitisation Framework, as prescribed under Article 5 of Chapter 2 of the PRA Securitisation Rules ("**PRA Due Diligence Rules**"), SECN 4 ("**FCA Due Diligence Rules**") and regulations 32B, 32C and 32D of the 2024 UK SR SI ("**OPS Due Diligence Rules**", where OPS means an occupational pension scheme as defined in section 1(1) of the Pension Schemes Act 1993 that has its main administration in the United Kingdom), collectively the "**UK Due Diligence Rules**", and none of the Issuer, the Arranger, the Joint Lead Managers, the Seller or any of the other Transaction Parties makes any representation that any such information described above or elsewhere in this Prospectus is sufficient in all circumstances for such purposes.

Each potential EU Affected Investor is required to independently assess and determine the sufficiency of the information described above and in the Prospectus generally for the purposes of complying with Article 5 of the EU Securitisation Regulation and any corresponding national measures which may be relevant to investors and none of the Issuer, the Arranger, the Joint Lead Managers, the Seller or any of the other Transaction Parties makes any representation that any such information described above or elsewhere in this Prospectus is sufficient in all circumstances for such purposes.

It is not intended that the issue of the Notes comply with the requirements of Articles 18-22 of the EU Securitisation Regulation. change in any Priority of Payment which will materially adversely affect the repayment of the Notes shall be disclosed without undue delay to the extent required under SECN 2.2.23R(3) .

The UK STS Notification, once notified to the FCA, will be available for download on the FCA STS Register website at <https://data.fca.org.uk/#/sts/stssecuritisations> (or its successor website) (the "**FCA STS Register website**"). For the avoidance of doubt, the FCA STS Register website and the contents thereof do not form part of this Prospectus. The UK STS status of the Notes is not static and investors should verify the current status on the FCA STS Register website, which will be updated where the Notes are no longer considered to be UK STS following a decision of competent authorities or a notification by CCFS. In relation to the UK STS Notification, CCFS has been designated as the first contact point for investors and the FCA.

CCFS and the Issuer have used the services of Prime Collateralised Securities (PCS) UK Limited ("**PCS UK**"), a third party authorised pursuant to SECN 2.5.2R in connection with an assessment of the compliance of the Notes with the requirements of SECN 2.2.2R to SECN 2.2.29R (the "**UK STS Verification**"). It is expected that the UK STS Verification prepared by PCS UK will be available on its website at <https://pcsmarket.org/sts-verification-transactions/>. For the avoidance of doubt, the website of PCS UK and the contents of that website do not form part of this Prospectus.

Each potential UK Affected Investor is required to independently verify on transactions notified as STS the compliance of the transaction with the STS Requirements. None of the Issuer, the Arranger, the Joint Lead Managers, the Seller or any of the other Transaction Parties makes any representation that any such information described above or elsewhere in this Prospectus, or in the UK STS Notification or UK STS Verification is sufficient in all circumstances for such purposes.

Note that designation as a UK STS securitisation does not meet, as at the date of this Prospectus, the STS requirements of the EU Securitisation Regulation, and, as such, better or more flexible regulatory treatment under the relevant EU regulatory regimes (in particular, under the EU CRR, the EU LCR Regulation and the EU Solvency II regime) will not be available. For further information please refer to the Risk Factor entitled "*Risk Factors – STS Securitisation and related risks*" below.

No representation or warranty is made by CCFS, the Arranger or any other person as to compliance with the UK STS Requirements. No assurance can be given that the Notes will, on the Closing Date, be compliant and thereafter remain compliant, because the UK STS Requirements may change over time. For further information please refer to the Risk Factor entitled "*Risk Factors – STS Securitisation and related risks*" below.

Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a "**retail investor**" means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of EU MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II; or (iii) not a qualified investor as defined in the EU Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law of

the United Kingdom by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law of the United Kingdom by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law of the United Kingdom by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

RESTRICTIONS OF SALES TO U.S. PERSONS (AS DEFINED BY REGULATION S) – The Notes have not been and will not be registered under the Securities Act or any U.S. State securities laws and may not be offered or sold in the United States or to, or for the account or the benefit of, U.S. persons as defined in Regulation S under the Securities Act unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

RESTRICTIONS OF SALES TO U.S. PERSONS (AS DEFINED BY THE U.S. RISK RETENTION RULES) – Except with the prior written consent of the Seller (a "**U.S. Risk Retention Consent**") and where such sale falls within the exemption provided by section 20 of the final rules promulgated under section 15g of the Securities Exchange Act of 1934, as amended (the "**U.S. Risk Retention Rules**"), the Notes offered and sold by the Issuer may not be purchased by, or for the account or benefit of, any "U.S. Person" as defined in the U.S. Risk Retention Rules ("**Risk Retention U.S. Persons**"). Prospective investors should note that the definition of "U.S. Person" in the U.S. Risk Retention Rules is substantially similar to, but not identical to, the definition of "U.S. Person" in Regulation S. Each purchaser of the Notes or a beneficial interest therein acquired in the initial syndication of the Notes, by its acquisition of the Notes or a beneficial interest therein will be deemed to have made certain representations and agreements, including that it (1) either (i) is not a Risk Retention U.S. Person or (ii) it has obtained a U.S. Risk Retention Consent from the Seller, (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note, and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in section 20 of the U.S. Risk Retention Rules).

Persons into whose possession this Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Prospectus and the

offer or sale of Notes in the United States and the EEA (including, for these purposes, the United Kingdom), see "*Subscription and Sale*".

FORWARD-LOOKING STATEMENTS

Certain matters contained herein are forward-looking statements. Such statements appear in a number of places in this Prospectus, including with respect to assumptions on prepayment and certain other characteristics of the Loans, and reflect significant assumptions and subjective judgements by the Issuer that may not prove to be correct. Such statements may be identified by reference to a future period or periods and the use of forward-looking terminology such as "may", "will", "could", "believes", "expects", "anticipates", "continues", "intends", "plans" or similar terms. Consequently, future results may differ from the Issuer's expectations due to a variety of factors, including (but not limited to) the economic environment and regulatory changes in the residential mortgage industry in the United Kingdom. Moreover, past financial performance should not be considered a reliable indicator of future performance and prospective purchasers of the Notes are cautioned that any such statements are not guarantees of performance and involve risks and uncertainties, many of which are beyond the control of the Issuer. None of the Issuer, CCFS, the Note Trustee, the Security Trustee, the Arranger or the Joint Lead Managers have attempted to verify any such statements, nor does it make any representations, express or implied, with respect thereto. Prospective purchasers should therefore not place undue reliance on any of these forward-looking statements. None of the Issuer, CCFS, the Note Trustee, the Security Trustee, the Arranger or the Joint Lead Managers assume any obligation to update these forward-looking statements or to update the reasons for which actual results could differ materially from those anticipated in the forward-looking statements.

SUITABILITY OF INVESTMENT

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (a) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (b) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understands thoroughly the terms of the Notes and is familiar with the behaviour of financial markets; and
- (e) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

RISK FACTORS

In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due. The Issuer has identified in this Prospectus a number of factors which could materially adversely affect its business and ability to make payments due.

In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Prospective Noteholders should also read the detailed information set out elsewhere in this document and reach their own views prior to making any investment decision.

1. RISKS RELATING TO THE AVAILABILITY OF FUNDS TO MAKE PAYMENTS ON THE NOTES

1.1 The Issuer has a limited set of resources to make payments on the Notes

The Notes will not be obligations of, or the responsibility of, or guaranteed by, any person other than the Issuer. No liability whatsoever in respect of any failure by the Issuer to pay any amount due under the Notes shall be accepted by any of the Relevant Parties or by any person other than the Issuer.

The ability of the Issuer to meet its obligations to pay principal and interest on the Notes and its operating and administrative expenses will be dependent solely on receipts from the English Loans and the Scottish Loans (together, the "**Loans**") in the Portfolio, interest earned on the Issuer Accounts (other than amounts representing interest earned on any Swap Collateral), income from any Authorised Investments and the General Reserve Fund (applied in accordance with the terms of the Cash Management Agreement) and the net receipts under a swap agreement relating to the Swap Transactions between the Issuer and the Swap Provider. Other than the foregoing, the Issuer is not expected to have any significant sources of funds available to it to meet its obligations under the Notes and/or any other payment obligation of the Issuer under the applicable Priority of Payments, including in respect of any increased margin applicable to the Collateralised Notes following the Optional Redemption Date.

If such funds are insufficient, following enforcement and realisation of the Security, the Noteholders, and the other Secured Creditors shall bear such insufficiency in accordance with the Post-Enforcement Priority of Payments and shall have no further claim against the Issuer in respect of any amounts owing to them which remain unpaid and such unpaid amounts shall be deemed to be discharged in full and any relevant payment rights shall be deemed to cease.

Prospective investors should also be aware that following the exercise of the Call Option by the Seller, an amount equal to the Optional Purchase Price (excluding an amount equal to the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger, which such amount shall be paid to the Seller) will be sufficient to redeem the Collateralised Notes only, and will not be sufficient to redeem the Class X Notes in full. Redemption of the Class X Notes in such a scenario will be subject to the availability of funds standing to the credit of the General Reserve Fund at such time.

Further, subject to certain limited exceptions, no Noteholder shall be entitled to (i) take any steps or proceedings (including any action in relation to a composition (judicial or otherwise) or lodge an appeal in any proceedings) to procure the winding up, administration or liquidation of the Issuer or (ii) take any other steps or action against the Issuer or the Charged Assets for the purpose of recovering any of the Secured Obligations (including by exercising any rights of set-off) or enforcing any rights

arising out of the Transaction Documents against the Issuer or take any other proceedings (including lodging an appeal in any proceedings) in respect of or concerning the Issuer or the Charged Assets.

1.2 The Notes will be limited recourse obligations of the Issuer

The Notes will be limited recourse obligations of the Issuer. Other than the source of funds referred to in the foregoing paragraph, the Issuer is not expected to have any other funds available to it to meet its obligations under the Notes. Upon enforcement of the Security by the Security Trustee, if:

- (a) there are no Charged Assets remaining which are capable of being realised or otherwise converted into cash;
- (b) all amounts available from the Charged Assets have been applied to meet or provide for the relevant obligations specified in, and in accordance with, the provisions of the Deed of Charge; and
- (c) there are insufficient amounts available from the Charged Assets to pay in full, in accordance with the provisions of the Deed of Charge, amounts outstanding under the Notes (including payments of principal and interest),

then the Secured Creditors (which include the Noteholders) shall have no further claim against the Issuer or its directors, shareholders, officers or successors in respect of any amounts owing to them which remain unpaid (in the case of the Noteholders, principally payments of principal and interest in respect of the Notes) and such unpaid amounts shall be deemed to be discharged in full and any relevant payment rights shall be extinguished.

1.3 The yield to maturity on the Notes may be affected by, among other things, prepayments made by Borrowers on their Loans

Based on assumed rates of prepayment, the approximate average lives and principal payment windows of each Class of Notes are set out in the section entitled "*Weighted Average Lives of the Notes*". However, the rate of prepayment of the Loans cannot be predicted and is influenced by a wide variety of economic and other factors, including prevailing interest rates, the buoyancy of the finance market, the availability of alternative financing, the availability of retention products from the Seller at the relevant time and local and regional economic conditions. Because these and other relevant factors are not within the control of the Issuer, no assurance can be given as to the level of prepayments that the Portfolio will experience. Further, if the Seller is required to repurchase any Loans (including any relevant Product Switch Loans where the Product Switch Criteria are not met), the payment received by the Issuer will have the same effect as a prepayment in full of the relevant Loan. Conversely, if a Borrower agrees a Product Switch with the Seller and the Product Switch Criteria are satisfied, the relevant Loan will remain in the Portfolio and there will be no related prepayment of principal.

Payments and prepayments of principal on the Loans and any proceeds of repurchased Loans will be applied as Available Redemption Receipts in accordance with the Pre-Enforcement Redemption Priority of Payments (see "*Cashflows*" below). The rate of any prepayments will affect the yield to maturity on the Notes and their weighted average life.

The Issuer has the right to redeem the Notes on or after the Optional Redemption Date, which may limit the market value of the Notes concerned.

If the Call Option is exercised by the Seller, the Issuer will redeem the Collateralised Notes in full on or following the Optional Redemption Date, which is likely to limit the market value of the Notes. Following the Optional Redemption Date, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any

redemption period. See "*Early Redemption of the Collateralised Notes*" below for more information relating to the Call Option.

2. RISKS RELATING TO THE UNDERLYING ASSETS

2.1 Delinquencies or defaults by Borrowers in paying amounts due on their Loans

As noted above, the ability of the Issuer to meet its obligations to pay principal and interest on the Notes is dependent on receipts from the Loans in the Portfolio. As such, if Borrowers make payments on their Loans late, the Issuer may have insufficient funds on any Interest Payment Date to make payments of interest on the Floating Rate Notes. Further, if Borrowers fail to repay some or all of the interest and/or principal due on their Loans and the enforcement procedures fail to realise or recover sufficient funds to discharge all amounts due and owing by the relevant Borrower, the Issuer may have insufficient funds to make payments of interest and/or principal on the Notes. See also "*Information relating to the Regulation of Mortgages in the UK – Mortgage repossession*" below.

Borrowers may default on their Loans for a variety of reasons, including, without limitation:

- changes in the local, national or international macroeconomic climate, political developments and government policies. The economy of the UK and of each geographic region within the UK is dependent on a different mixture of industries and other factors. Any downturn in the local or national economy or a particular industry may adversely affect the regional or national employment levels and consequently the repayment ability of the Borrowers in that region or nationally or the region that relies most heavily on that industry. It is not possible to accurately predict the ultimate extent or duration of any such downturn or the impact it could have on the repayment ability of the Borrowers. See also the Risk Factor entitled "The relationship of the United Kingdom with the EEA may affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or liquidity of the Notes in the secondary market". In addition, UK and global economic conditions may be severely adversely affected by broader geopolitical issues such as the continuation or escalation of conflicts between Russia and Ukraine and/or in the Middle East, as well as the emergence of other regional conflicts and wars with global impact, or US political risks (including tariffs, counter-tariffs, export controls, economic sanctions, currency regulations and other changes driven by US trade policy which have in the past and could in the future trigger retaliatory actions by affected countries and otherwise affect global trade and which could, in turn, lead to increased costs and disrupt supply chains, as well as increasing the risk of inflation or other negative impacts on the global economy or certain sectors thereof). As a consequence of Russia's actions, the EU, the UK and the U.S. have imposed sanctions on Russia and Belarus. An escalation in the conflict could result in new trade restrictions and further sanctions, disruption to supply chains and increased energy prices, leading to increased inflation. Such elevated instability could potentially adversely impact and/or increase volatility in the financial markets and cause a downturn in the global and UK economies;
- a deterioration in economic conditions in a particular area or region, which may adversely affect the regional employment levels and/or house prices and consequently the repayment ability of the Borrowers in that region. To the extent that specific geographic regions within the UK have experienced, or may experience in the future, weaker regional economic conditions (due to local, national and/or global macroeconomic factors) and weaker housing markets than other regions of the UK, a concentration of Loans in one region may be expected to exacerbate such risks. An overview of the geographical distribution of the Loans in the Provisional Portfolio is set out in the table entitled "*Geographical distribution*" in the section "*Characteristics of the Provisional Portfolio*";

- any natural disasters or widespread health crises, government policies in response to such crises or such potential crises (including, but not limited to, coronavirus disease 2019 ("COVID-19") (or any strain of the foregoing)) and/or the fear of any such crises in a particular region or nationwide may weaken economic conditions and reduce house prices, the ability to sell a property in a timely manner, and/or negatively impact the repayment ability of Borrowers within the United Kingdom;
- an increase in the prevailing market interest rate, which, for those Loans subject to a variable rate of interest, would increase a Borrower's monthly payments. Borrowers may seek to avoid any increased monthly payments by refinancing such Loans, as to which see the Risk Factors entitled "*Macroeconomic and Market Risks*" and "*The relationship of the United Kingdom with the EEA may affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or liquidity of the Notes in the secondary market*";
- changes to the Bank of England Base Rate ("**BBR**") , which may, for those Loans subject to a variable interest rate, cause an increase in a Borrower's monthly payments. An increase in such reference rates or in relation to the rate of any prior ranking mortgage loan of the Borrower could result in higher monthly repayments, which, in turn, could reduce Borrowers' capacity to service their Loans. The Issuer could therefore be subject to a higher risk of default in payment by Borrowers over the course of the transaction, which may affect the ability of the Issuer to make payments on the Notes;
- a decline in property values due to, among other things, local, national and/or global macroeconomic factors;
- house price growth continuing to accelerate faster than earnings, which could stretch affordability and leave households more vulnerable to shocks, such as increases in interest rates that could ultimately lead to higher loan losses. There is potential for economic activity and real estate prices to decline should the labour market situation deteriorate, if strains in the financial system re-emerge and impair the flow of credit to the wider economy or other factors (including but not limited to COVID-19 or any strain of the foregoing) cause a deterioration in economic conditions. This risk is particularly relevant to interest-only mortgage loans;
- in respect of interest-only loans, the failure of a Borrower to sell the relevant property or refinance the loan at maturity;
- sustained increase in inflation, resulting in further increases to the cost of living for Borrowers. A sharp increase in energy prices and the overall rate of inflation, particularly since the Ukraine conflict, together with rising interest rates, could adversely impact the Borrowers' ability to repay the Loans and/or their ability to meet the affordability requirements of any replacement loan;
- a Borrower's individual, personal or financial circumstances, for example unemployment, loss of earnings (including as a consequence of strikes and industrial action), illness (including any illness arising in connection with an epidemic), divorce and other similar factors, including and in particular in relation to self-employed Borrowers experiencing more volatile earnings. If the timing and repayment of the Loans is adversely affected by any of the risks described herein, then payments on the Notes could be reduced and/or delayed and could ultimately result in losses on the Notes; and
- a lack of availability of buyers for a property and/or a decline in value of a property, which may affect the ability of a Borrower to sell a property given as security for a Loan at a price sufficient to repay the amounts outstanding under that Loan.

In addition, CCFS provides specialist residential mortgages to owner-occupiers, secured against residential properties, including those unsupported by the high street banks. The rate of delinquencies and/or defaults may be higher in respect of such Borrowers.

Given the unpredictable effect that these factors may have on the local, national or global economy, no assurance can be given as to the impact of any such factors and, in particular, no assurance can be given that such factors would not adversely affect the ability of the Issuer to satisfy its obligations under the Notes. These risks are mitigated to an extent by certain credit enhancement features and liquidity support, as described in the section entitled "*Credit Structure*". However, no assurance can be given as to the effectiveness of such credit enhancement features or liquidity support or that Noteholders would be protected from all risk of loss and/or delayed payment.

2.2 Seller to initially retain legal title to the Loans and risks relating to set-off

Initially, legal title to the Loans and their Related Security in the Portfolio will be held by the Seller and the sale by the Seller to the Issuer of the English Loans and their Related Security takes effect in equity only.

The sale by the Seller to the Issuer of the Scottish Loans and their Related Security is given effect to by a Scots law governed declaration of trust by the Seller (as legal title holder of the Scottish Loans and their Related Security) for the benefit of the Issuer (the "**Scottish Declaration of Trust**"). The holding of a beneficial interest under a Scottish trust has (broadly) equivalent legal consequences in Scotland to the holding of an equitable interest in England and Wales.

Legal title to the Loans and their Related Security in the Portfolio will remain with the Seller until a Perfection Event occurs, and this presents the following risks:

- a *bona fide* purchaser from the Seller for value of any of such Loans and their Related Security without notice of any of the interests of the Issuer might obtain a good title free of any such interest;
- the Issuer would not be able to enforce any Borrower's obligations under a Loan or Related Security itself but would have to join the Seller as a party to any legal proceedings. Prior to perfection of legal title, the Issuer will have power of attorney to act in the name of the Seller and the Seller will undertake that it will lend its name to, and take such other steps as may reasonably be required by the Issuer in relation to, any legal proceedings in respect of the relevant Loans and their Related Security;
- a Borrower may be entitled to exercise certain set-off rights, namely:
 - independent set-off, which may arise in connection with transactions that are unconnected with the relevant Borrower's Loans, for example claims by a Borrower for balances standing to the credit of savings and deposit accounts. In the event of the insolvency of the Seller, a Borrower may be able to set off any amounts held in the relevant deposit account against amounts owed by the Borrower pursuant to the Loan, although the majority of any deposits will be covered by the Financial Services Compensation Scheme ("FSCS") claims limit (as at the date of this Prospectus being £85,000) and as such the Seller will only be exposed to set-off risk over and above this limit with respect to Borrowers that are eligible for the FSCS. Any claim for independent set-off will crystallise (and no new rights of independent set-off could be asserted) upon receipt by the relevant Borrower of notice of the sale of the relevant Loan to the Issuer; and
 - equitable set-off rights, which may arise in connection with a transaction connected with a Loan. An equitable right of set-off could arise, for example, where the Seller

has failed to make a Further Advance to the Borrower after having made a commitment to do so, where the Seller has agreed to Port a Loan or where the Seller is in breach of contract under the relevant Loan. The Seller will represent and warrant in the Mortgage Sale Agreement that the terms and conditions of the Loans do not require the Seller to agree to any Further Advance or any Port.

For the purposes of this Prospectus, references herein to "set-off" shall be construed to include analogous rights in Scotland. If any of the risks described above were to occur then the realisable value of the Portfolio and/or the ability of the Issuer to make payments under the Notes may be affected.

2.3 The value of the Related Security in respect of the Loans may be affected by, among other things, a decline in residential property values in the United Kingdom

The value of the Related Security in respect of the Loans may be affected by, among other things, a decline in residential property values in the United Kingdom, downturns in the performance of the United Kingdom economy (due to local, national and/or global macroeconomic factors, the current cost of living crisis, industrial actions and strikes, the rising interest rate environment, higher inflation and rising energy prices) generally, which may have a negative effect on the housing market. In addition, any natural disasters or widespread health crises (such as a pandemic or epidemic), government policies, action or inaction in response to such crises or such potential crises (including, but not limited to, COVID-19 (or any strain of the foregoing)) and/or the fear of any such crises, whether in the United Kingdom or in any other jurisdiction, may lead to a deterioration in economic conditions in the United Kingdom and also globally and may reduce the value of the affected Properties. If the residential property market in the United Kingdom experiences an overall decline in property values, such a decline could in certain circumstances result in the value of the Related Security being significantly reduced and, in the event that the Related Security is required to be enforced, may result in an adverse effect on payments on the Notes.

Borrowers may have insufficient equity in their properties to refinance their Loans with lenders other than CCFS and may (as a result of the circumstances described in "*Delinquencies or defaults by Borrowers in paying amounts due on their Loans*" or otherwise) have insufficient resources to pay amounts in respect of their loans as and when they fall due. This could lead to higher delinquency rates and to losses, which in turn may adversely affect payments on the Notes.

2.4 Risk of Losses Associated with Interest-only Loans

Each Loan in the Portfolio may be repayable either on a capital repayment basis or an interest-only basis. Where the Borrower is only required to pay interest during the term of the Loan, with the capital being repaid in a lump sum at the end of the term, it is generally recommended that Borrowers ensure that some repayment mechanism such as an investment policy is put in place to ensure that funds will be available to repay the capital at the end of the term. The Seller does not have and the Issuer shall not have the benefit of any investment policies taken out by Borrowers.

The ability of such Borrower to repay an Interest-only Loan at maturity will often depend on such Borrower's ability to refinance or sell the Property or to obtain funds from another source such as pension policies, personal equity plans ("**PEPs**"), new individual savings accounts ("**NISAs**") or endowment policies.

However, the only security that exists in relation to a Loan (including any Interest-only Loans) in the Portfolio will be the Mortgage covering the Property. The ability of a Borrower to refinance the Property will be affected by a number of factors, including the value of the Property, the Borrower's equity in the Property, the Borrower's age and employment status, the financial condition and payment history of the Borrower, tax laws, a rise in the prevailing interest rates and prevailing general economic conditions. In recent times, mortgage lenders have maintained stricter conditions to the advancing of

interest-only loans (and other loans) which are mortgages. In addition, the recent, and any future, cost of living increases, (along with the other pressures discussed above under the section entitled "*The value of the Related Security in respect of the Loans may be affected by, among other things, a decline in residential property values in the United Kingdom*") could also adversely affect Borrowers' disposable income, particularly against a background of price rises for essential goods and services. If inflationary pressure on prices combines with suppressed wage growth, there is the potential for stagflation. Widespread economic impacts have the potential to create contagion effects. These combined pressures may affect the ability of Borrowers to refinance or sell their Property. The inability of the Borrowers to refinance their respective Properties may ultimately result in a reduction in the amounts available to the Issuer and adversely affect its ability to make payments under the Notes.

Borrowers of interest-only loans may not make payment of the premiums due on any relevant investment or life policy taken out in relation to repayment of the relevant interest-only mortgages in full or on time, which policies may therefore lapse, and/or no further benefits may accrue thereunder. In certain cases, the policy may be surrendered but not necessarily in return for a cash payment and any cash received by the Borrower may not be applied in paying amounts due under the Loan. Thus the ability of such a Borrower to repay an Interest-only Loan (as defined in "*The Loans – Repayment Terms*" below) at maturity without resorting to the sale of the underlying property depends on such Borrower's responsibility to ensure that sufficient funds are available from a given source such as pension policies, PEPs, NISAs or endowment policies, as well as the financial condition of the Borrower, tax laws and general economic conditions at the time. If a Borrower cannot repay an Interest-only Loan and a loss occurs, this may affect repayments on the Notes if the resulting Principal Deficiency Ledger entry cannot be cured from Available Revenue Receipts being applied for such purpose in accordance with the Pre-Enforcement Revenue Priority of Payments.

Should a Borrower elect, subject to the consent of the Seller and the Servicer, to amend the terms of its Loan from an Interest-only Loan to a Repayment Loan, the relevant Loan would remain with the Issuer as part of the Portfolio, resulting in the Issuer and the Noteholders receiving redemption payments on the relevant Loan and the relevant Notes respectively earlier than would otherwise be the case.

2.5 Lending Criteria

The Loans have been underwritten generally in accordance with the underwriting standards described in the section entitled "*The Loans – Lending Criteria*". Those underwriting standards consider, among other things, a Borrower's credit history, status and repayment ability as well as the value of the relevant Property and the value of the related rental stream.

While each Loan was originated by the Seller pursuant to underwriting standards that are no less stringent than those that the Seller applied at the time of origination to similar exposures that are not securitised, there can also be no assurance that these underwriting standards were applied in all cases or that Loans originated under different criteria have not been included in the Portfolio, although each Loan was originated in the ordinary course of the Seller's business. These circumstances could negatively affect receipts on the Loans and ultimately adversely affect the Issuer's ability to make payment of interest and/or principal in respect of the Notes.

2.6 Geographic Concentration Risks

Loans in the Mortgage Pool (the "**Mortgage Pool**") may also be subject to geographic concentration risks within certain regions of the United Kingdom. To the extent that specific geographic regions within the United Kingdom have experienced or may experience in the future weaker regional economic conditions and housing markets than other regions in the United Kingdom, a concentration of the Loans in such a region may be expected to exacerbate the risks relating to the Loans described in this section. Certain geographic regions within the United Kingdom rely on different types of

industries. Any downturn in a local economy or a particular industry may adversely affect regional employment levels and consequently the repayment ability of the Borrowers in that region or in the region that relies most heavily on that industry. The Issuer can predict neither when or where such regional economic declines may occur nor to what extent or for how long such conditions may continue. Any natural disasters in a particular region may reduce the value of affected Properties. This may result in a loss being incurred upon the sale of such Properties. These circumstances could affect receipts on the Loans and ultimately adversely affect payment of principal on the Notes. For an overview of the geographical distribution of the Loans in the Mortgage Pool, see "*Characteristics of the Provisional Portfolio*".

2.7 External Wall System – Fire Safety

Following the Grenfell Tower tragedy in June 2017, the UK has introduced enhanced requirements for conducting fire-risk assessments on the external wall systems of certain residential buildings. Where these requirements apply to a Property, depending upon the circumstances, (a) they could result in the Borrower being liable for expenses to comply with the requirements (including, without limitation, removal and/or replacement of building cladding) and/or other requirements (including, without limitation, health and safety measures pending such compliance being effected) and, in turn, such expenses could result in that Borrower defaulting under its related mortgage loan; and (b) they could adversely affect the value and marketability of the Property and/or the ability to rent out the Property.

The Building Safety Act 2022 (BSA 2022) increases the amount of time that Borrowers can seek compensation for substandard construction work from 6 (or, in Scotland, 5) to 15 years. Furthermore, the legislation applies retrospectively to properties built up to 30 years prior to these changes coming to effect (plus a one-year initial buffer for claims perilously close to the end of the 30-year retrospective limitation period). This could mean the Issuer is able to mitigate financial losses associated with the removal and/or replacement of building cladding of affected properties. However, there is no assurance that the negligent contractors will still be in existence or have the necessary funds to compensate for such substandard construction work. If any of these risks materialise they could have an adverse effect on the ability of the Issuer to pay interest and principal on the Notes.

2.8 Insurance Policies

While the Mortgage Conditions require borrowers to have buildings insurance for the relevant property, it will be difficult in practice for the Servicer and/or the Issuer to determine whether the relevant Borrower has valid insurance in place at any time. The Seller will assign the benefit of its Properties in Possession Cover, Lender Interest Only Cover and Failure to Insure Cover on the Closing Date with legal assignment to be perfected upon occurrence of a Perfection Event in accordance with the terms of the Mortgage Sale Agreement, which will give the Issuer certain protection should the relevant Borrower not have any valid insurance in place (subject to an excess charge) only if a Perfection Event has taken place. However, no assurance can be given that the Issuer will always receive the benefit of any claims made under any applicable buildings insurance contracts or contingent insurance contracts or that the amounts received in respect of a successful claim will be sufficient to reinstate the affected Property. This could adversely affect the Issuer's ability to make payment of interest and/or principal in respect of the Notes.

2.9 Searches, Investigations and Warranties in Relation to the Loans

The Seller will give certain warranties to each of the Issuer and the Security Trustee regarding the Loans and their Related Security sold to the Issuer on the Closing Date (see "*Summary of the Key Transaction Documents– Mortgage Sale Agreement*" below for a summary of these).

Neither the Note Trustee, the Security Trustee, the Arranger, the Joint Lead Managers, the Issuer nor any other party has undertaken, or will undertake, any investigations, searches or other actions of any nature whatsoever in respect of any Loan or its Related Security in the Portfolio and each relies instead on the warranties given in the Mortgage Sale Agreement by the Seller. As such, the Loans may be subject to matters which would have been revealed by a full investigation of title and which may have been remedied or, if incapable of remedy, may have resulted in the Related Security not being accepted as security for a Loan had such matters been revealed. The primary remedy of the Issuer against the Seller if any of the warranties made by the Seller is materially breached or proves to be materially untrue as at the Closing Date which breach is not remedied in accordance with the Mortgage Sale Agreement, will be to require the Seller to repurchase any relevant Loan and its Related Security in accordance with the repurchase provisions in the Mortgage Sale Agreement. However, there can be no assurance that the Seller will have the financial resources to honour such obligations under the Mortgage Sale Agreement. In each case, none of the Issuer, the Security Trustee or the Note Trustee will have recourse to any other person in the event that the Seller, for whatever reason, fails to meet such obligations. Furthermore, although the Seller and the Servicer have undertaken, pursuant to the Mortgage Sale Agreement and the Servicing Agreement, to notify the Issuer (and, if applicable, the Servicer) upon becoming aware of a material breach of any Loan Warranty, there shall be no obligation on the part of the Seller or the Servicer to monitor compliance of the Loans with the Loan Warranties following the Closing Date. This may affect the quality of the Loans and their Related Security in the Portfolio and accordingly the ability of the Issuer to make payments due on the Notes.

3. RISKS RELATING TO THE STRUCTURE

3.1 Deferral of Interest Payments on the Notes

If, on any Interest Payment Date, the Issuer has insufficient funds to make payment in full of all amounts of interest (including any accrued interest thereon) that would otherwise be payable in respect of each Class of Notes (other than the Most Senior Class of Notes then outstanding), then the Issuer will be entitled under Condition 17 (*Subordination by Deferral*) to defer payment of that amount (to the extent of the insufficiency) until the following Interest Payment Date or such earlier date as the relevant Class of Notes becomes due and repayable in full in accordance with the Conditions. Any such deferral in accordance with the Conditions will not constitute an Event of Default. If the Issuer has not resumed interest payments on the Notes (other than the Most Senior Class of Notes then outstanding) by the Final Maturity Date, then all deferred interest and accrued interest thereon shall become due and payable.

Any deferral of interest payments will likely have an adverse effect on the market price of the relevant Class of Notes. In addition, as a result of the interest deferral provision of the Notes (other than the Most Senior Class of Notes then outstanding), the market price of those Notes may be more volatile than the market prices of other debt securities that are not subject to such deferrals and may be more sensitive generally to adverse changes in the Issuer's financial condition.

3.2 Subordination of the Class Z Notes and the Class X Notes

The Issuer's obligations under:

- the Class Z Notes rank subordinate to the Class A Notes and certain other Secured Creditors; and
- the Class X Notes rank subordinate to the Class A Notes and the Class Z Notes and certain other Secured Creditors.

Prior to the service of an Enforcement Notice, the Class X Notes rank subordinate to all payments due in respect of items ranking senior thereto in the Pre-Enforcement Revenue Priority of Payments, as provided in the Conditions and the Transaction Documents.

In addition to the above, payments on the Notes are subordinate to payments of certain fees, costs and expenses payable to the other Secured Creditors and certain third parties. For further information on the likely costs payable to such Secured Creditors, please see "*Transaction Overview – Fees*" below.

Although junior Notes may pay a higher rate of interest than those ranking higher in the Priorities of Payment, there is an enhanced risk that an investor in such Notes will lose all or some of his investment should the Issuer become insolvent. Further, there is no assurance that these subordination provisions will protect the holders of the more senior classes of Notes (including the Most Senior Class of Notes) from all or any risk of loss.

4. RISKS RELATING TO CHANGES TO THE STRUCTURE AND DOCUMENTS

4.1 Meetings of Noteholders, Modification and Waivers

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders (including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority). Other than in relation to a Basic Terms Modification, which additionally requires an Extraordinary Resolution of the holders of each affected Class or Classes of Notes then in issue, as applicable, an Extraordinary Resolution of a Class of Notes shall be binding on all other Classes of Notes which are subordinate to such Class of Notes in the Post-Enforcement Priority of Payments, irrespective of the effect upon them. No Extraordinary Resolution of any other Class of Noteholders shall take effect for any purpose while the Most Senior Class remains outstanding unless it shall have been sanctioned by an Extraordinary Resolution of the holders of the Most Senior Class, or the Note Trustee and/or Security Trustee (acting on the direction of the Note Trustee) is of the opinion it would not be materially prejudicial to the interests of the holders of the Most Senior Class.

Notwithstanding the foregoing, any Extraordinary Resolution of the Class A Noteholders to direct the Note Trustee to give an Enforcement Notice pursuant to Condition 11 (*Events of Default*) shall only be capable of being passed at a single meeting of the Class A Noteholders.

Further, the conditions of the Notes also provide that the Note Trustee and/or the Security Trustee may, without the consent of Noteholders and without regard to the interests of particular Noteholders, agree to modifications (other than a Basic Terms Modification) to any Transaction Document and authorise or waive any proposed or actual breach of any Transaction Document in certain circumstances. The Conditions also specify that certain categories of amendments (including changes to the majorities required to pass resolutions or quorum requirements) would be classified as Basic Terms Modifications. Investors should note that a Basic Terms Modification is required to be sanctioned by an Extraordinary Resolution of the holders of each affected Class or Classes of Notes then in issue, as applicable, which are affected by such Basic Terms Modifications.

Further, provided that less than 10 per cent. of the holders of the Most Senior Class of Notes then outstanding have objected to such proposed modifications, the Note Trustee and/or the Security Trustee shall concur with the Issuer, without the consent of Noteholders and without regard to the interests of particular Noteholders, in making any modifications for the purposes specified in Condition 13 (*Meetings of Noteholders, Modification, Waiver and Substitution*). See "*Terms and Conditions of the Notes – Condition 13 (Meetings of Noteholders, Modification, Waiver and Substitution)*" below.

There is no guarantee that any changes made to the Transaction Documents and/or the Conditions pursuant to the obligations imposed on the Note Trustee and the Security Trustee, as described above, would not be prejudicial to the Noteholders.

4.2 The Note Trustee and the Security Trustee are not obliged to act in certain circumstances

Upon the occurrence of an Event of Default, the Note Trustee in its absolute discretion may, and if so directed in writing by the holders of not less than 25 per cent. in aggregate Principal Amount Outstanding of the Most Senior Class or if so directed by an Extraordinary Resolution of the holders of the Most Senior Class outstanding shall (subject, in each case, to being indemnified and/or prefunded and/or secured to its satisfaction), give an Enforcement Notice to the Issuer that all classes of the Notes are immediately due and repayable at their respective Principal Amount Outstanding, together with accrued interest thereon as provided in a trust deed between the Issuer, the Security Trustee and the Note Trustee (the "**Trust Deed**").

Each of the Note Trustee and the Security Trustee may, at any time, at their discretion and without notice, take such proceedings, actions or steps against the Issuer or any other party to any of the Transaction Documents as it may think fit to enforce the provisions of (in the case of the Note Trustee) the Notes or the Trust Deed (including the Conditions) or (in the case of the Security Trustee) the Deed of Charge or (in either case) the other Transaction Documents to which it is a party or in respect of which (in the case of the Security Trustee) it holds security. In respect of and at any time after the service of an Enforcement Notice, the Security Trustee may, at its discretion and without notice, take such steps as it may think fit to enforce the Security. However, neither the Note Trustee nor the Security Trustee shall be bound to take any such proceedings or steps (including, but not limited to, the giving of an Enforcement Notice in accordance with Condition 11 (*Events of Default*)) unless the Note Trustee should have been directed, or should have been directed to direct the Security Trustee, to do so by an Extraordinary Resolution of the holders of the Most Senior Class or directed in writing by the holders of not less than 25 per cent. in aggregate Principal Amount Outstanding of the Most Senior Class and the Security Trustee and the Note Trustee shall have been indemnified and/or secured and/or prefunded to its satisfaction.

See further "*Terms and Conditions of the Notes – Condition 12 (Enforcement)*" below.

In addition, each of the Note Trustee and the Security Trustee benefits from indemnities given to it by the Issuer pursuant to the Transaction Documents which rank in priority to the payments of interest and principal on the Notes.

In relation to the covenant to be given by CCFS to the Issuer and the Security Trustee in the Mortgage Sale Agreement in accordance with (i) the UK Securitisation Framework and (ii) (as a contractual matter only) the EU Securitisation Regulation regarding the material net economic interest to be retained by CCFS in the securitisation and as to certain requirements to provide investor information in connection therewith, neither the Note Trustee nor the Security Trustee will be under any obligation to monitor the compliance by CCFS with such covenant and will not be under any obligation to take any action in relation to non-compliance with such covenant (unless otherwise directed by the Secured Creditors (including the Noteholders) in accordance with the Transaction Documents).

5. COUNTERPARTY AND THIRD PARTY RISKS

5.1 Ratings of the Class A Notes

The ratings assigned to the Class A Notes by both Fitch and Moody's address, *inter alia* (a) the likelihood of full and timely payment to the holders of the Class A Notes and of all payments of interest on each Interest Payment Date and (b) the likelihood of ultimate payment to the Noteholders of principal in relation to the Class A Notes on or prior to the Final Maturity Date. The ratings assigned

to the Class A Notes by Moody's also address, *inter alia*, the expected loss to a Noteholder in proportion to the Principal Amount Outstanding on the Closing Date of the Class A Notes held by such Noteholder on the Final Maturity Date.

The expected ratings of the Class A Notes to be assigned on the Closing Date are set out under "*Ratings*". A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency including if, in its judgement, circumstances in the future so warrant (including a reduction in the perceived creditworthiness of third parties and a reduction in the relevant credit rating of the Swap Provider and/or the Issuer Account Bank and/or the Custodian). See also "*Rating Agency confirmation in relation to the Class A Notes in respect of certain actions*" below.

At any time, any Rating Agency may revise its relevant rating methodology, with the result that any rating assigned to the Class A Notes may be withdrawn, lowered or qualified. A qualification, downgrade or withdrawal of any of the ratings assigned to the Class A Notes may impact upon the value of the Class A Notes.

Further, rating agencies other than the Rating Agencies could seek to rate the Class A Notes and if such unsolicited ratings are lower than the comparable ratings assigned to the Class A Notes by the Rating Agencies, those unsolicited ratings could have an adverse effect on the value of the Class A Notes. For the avoidance of doubt and unless the context otherwise requires, any reference to "**ratings**" or "**rating**" in this Prospectus is to the ratings assigned by the Rating Agencies only. Neither the Issuer nor any other person or entity will have any duty to notify you if any other rating agencies issue, or deliver notice of their intention to issue, unsolicited ratings on one or more Classes of the Notes after the Closing Date.

As highlighted above, the ratings assigned to the Class A Notes by each Rating Agency are based, among other things, on the terms of the Transaction Documents and other relevant structural features of the transaction, including (but not limited to) the short-term and/or long-term unsecured, unguaranteed and unsubordinated debt ratings or issuer default ratings of the Issuer Account Bank, the Custodian and the Swap Provider. In the event one or more of these Transaction Parties are downgraded below the requisite ratings trigger, there can be no assurance that a replacement to that counterparty will be found which has the ratings required to maintain the then current ratings of the Class A Notes (if Class A Notes remain outstanding). If a replacement counterparty with the requisite ratings cannot be found, this is likely to have an adverse impact on the rating of the Class A Notes and, as a consequence, the resale price of the Class A Notes in the market and the prima facie eligibility of the Class A Notes for use in certain liquidity schemes established by, *inter alios*, the Bank of England.

5.2 Rating Agency confirmation in relation to the Class A Notes in respect of certain actions

The terms of certain Transaction Documents provide that certain actions to be taken by the Issuer and/or the other parties to the Transaction Documents are contingent on such actions not having an adverse effect on the ratings assigned to the Class A Notes. In such circumstances, the Note Trustee or the Security Trustee may require the Issuer to seek confirmation from the Rating Agencies that this would be the case (such confirmation being a "**Rating Agency Confirmation**"). A Rating Agency Confirmation does not confirm that any proposed action or inaction (i) is permitted by the terms of the Transaction Documents or (ii) is in the best interests of, or not prejudicial to, the Noteholders. No actual or contingent liability is imposed or extended on the Rating Agencies to the Noteholders or other Secured Creditors by providing a Rating Agency Confirmation, nor does it create any legal relationship (by way of contract or otherwise) between the Rating Agencies, the Issuer and the Noteholders or other Secured Creditors. The Note Trustee and/or the Security Trustee may, but is not required to, have regard to any Rating Agency Confirmation. Any such Rating Agency Confirmation may or may not be given at the sole discretion of each Rating Agency.

To the extent that a Rating Agency Confirmation cannot be obtained, whether or not a proposed action will ultimately take place will be determined in accordance with the provisions of the relevant Transaction Documents and specifically the relevant modification and waiver provisions.

Where the Transaction Documents allow the Note Trustee or the Security Trustee to seek a Rating Agency Confirmation and a written request for such Rating Agency Confirmation or response is delivered to each Rating Agency by or on behalf of the Issuer and (i) (A) one Rating Agency (such Rating Agency, a "**Non-Responsive Rating Agency**") indicates that it does not consider such Rating Agency Confirmation or response necessary in the circumstances or that it does not, as a matter of practice or policy, provide such Rating Agency Confirmation or response or (B) within 30 days of delivery of such request, no Rating Agency Confirmation or response is received and/or such request elicits no statement by such Rating Agency that such Rating Agency Confirmation or response could not be given; and (ii) one Rating Agency gives such Rating Agency Confirmation or response based on the same facts, then such condition to receive a Rating Agency Confirmation or response from each Rating Agency shall be modified so that there shall be no requirement for the Rating Agency Confirmation or response from the Non-Responsive Rating Agency if the Issuer provides to the Note Trustee and the Security Trustee a certificate signed by two directors certifying and confirming that each of the events in sub-paragraphs (i) (A) or (B) and (ii) has occurred, the Issuer having sent a written request to each Rating Agency.

If no such Rating Agency Confirmation is forthcoming within 30 days of such a request and two directors of the Issuer have certified the same in writing to the Security Trustee, the Cash Manager and the Note Trustee (an "**Issuer Certificate**"), upon which Issuer Certificate the Note Trustee and the Security Trustee shall be entitled to rely absolutely without liability to any person for so doing, the Note Trustee and the Security Trustee shall be entitled (but not obliged) to assume that such proposed action:

- (a) (while any of the Class A Notes remain outstanding) has been notified to the Rating Agencies;
- (b) would not adversely impact on the Issuer's ability to make payment when due in respect of the Class A Notes;
- (c) would not affect the legality, validity and enforceability of any of the Transaction Documents or any Security; and
- (d) (while any of the Class A Notes remain outstanding) the then current rating of the Class A Notes would not be reduced, qualified, adversely affected or withdrawn.

It is agreed and acknowledged by the Note Trustee and the Security Trustee that this does not impose or extend any actual or contingent liability for each of the Rating Agencies to the Security Trustee, the Note Trustee, the Noteholders or any other person or create any legal relations between each of the Rating Agencies and the Security Trustee, the Note Trustee, the Noteholders or any other person whether by way of contract or otherwise.

Where a Rating Agency Confirmation is a condition to any action or step under any Transaction Document and it is deemed to be modified as a result of a Non-Responsive Rating Agency not having responded to the relevant request from the Issuer within 30 days, there remains a risk that such Non-Responsive Rating Agency (while the Class A Notes remain outstanding) may subsequently downgrade, qualify or withdraw the then current ratings of the Class A Notes as a result of the action or step. Such a downgrade, qualification or withdrawal to the then current ratings of the Class A Notes may have an adverse effect on the value of the Class A Notes.

5.3 Credit ratings assigned to the Class A Notes may not reflect all the risks associated with an investment in the Class A Notes

One or more independent credit rating agencies may assign credit ratings to the Class A Notes. The ratings may not reflect the potential impact of all risks relating to structure, market, additional factors discussed above, and other factors that may affect the value of the Class A Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

If the status of the rating agency rating the Class A Notes changes for the purposes of the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the UK and the Class A Notes may have a different regulatory treatment, which may impact the value of the Class A Notes and their liquidity in the secondary market.

5.4 Issuer reliance on other third parties

The Issuer is party to contracts with a number of other third parties who have agreed to perform services in relation to the Issuer and/or Notes. In the event that any of the counterparties to the Transaction Documents were to fail to perform their obligations under the respective agreements to which they are a party (including any failure arising from circumstances beyond their control, such as epidemics, pandemics and natural disasters) and/or are removed or if such a party resigns without a sufficiently experienced substitute or any substitute being appointed in its place promptly thereafter, collections on the Portfolio and/or payments to Noteholders may be disrupted and Noteholders may be adversely affected. A third party may be unable to perform its obligations under the agreements to which it is a party as a result of factors outside of its control, including disruptions due to technical difficulties and local, national and/or global macroeconomic factors (such as epidemics and pandemics (including COVID-19)) the ultimate extent, duration and impact of which cannot be accurately predicted.

In particular, the Issuer has appointed the Servicer to service the Loans and their Related Security. It should be noted that the aggregate liability of the Servicer in respect of any claim arising out of or in connection with the Servicing Agreement shall (subject to certain exceptions) be limited to £2,000,000 (two million pounds) for so long as the Servicer is appointed under the Servicing Agreement. If the Servicer is liable to the Issuer for any loss as a result of a claim relating to the Servicer's duties or obligations under the Servicing Agreement, any loss over and above the liability cap may be irrecoverable by the Issuer. This may result in less proceeds being available to meet the obligations of the Issuer in respect of the Notes.

Further, if a Servicer Termination Event occurs, there can be no assurance that a substitute servicer with sufficient experience of servicing the Loans and their Related Security would be found who would be willing and able to service the Loans and their Related Security on the terms, or substantially similar terms, set out in the Servicing Agreement. Any delay or inability to appoint a substitute servicer may affect payments on the Loans and hence the Issuer's ability to make payments when due on the Notes.

For further details on the arrangements with the Servicer, please see "*Summary of the Key Transaction Documents– Servicing Agreement*" below.

In the event of the insolvency of the Swap Provider, the Issuer will be treated as a general creditor of the Swap Provider. Consequently, the Issuer is subject to the credit risk of the Swap Provider. To mitigate this risk, under the terms of the Swap Agreement, in the event that the ratings of the Swap Provider fail to meet the relevant required ratings, the Swap Provider will, in accordance with the terms of the Swap Agreement, be required to elect to take certain remedial measures within the applicable time frame stipulated in the Swap Agreement (at the Swap Provider's own cost) which may

include providing collateral for its obligations under the Swap Transactions, arranging for its obligations under the Swap Transactions to be transferred to an entity with the relevant required ratings, procuring another entity with the relevant required ratings to become guarantor or co-obligor, as applicable, in respect of its obligations under the Swap Agreement or taking other action (which may include inaction) as may be necessary so that the rating of the Class A Notes, following such action or inaction, will be rated no lower than the Class A Notes would be rated but for such downgrade. However, no assurance can be given that, at the time that such actions are required, sufficient collateral will be available to the Swap Provider or that another entity with the relevant required ratings will be available to become a replacement swap provider or guarantor or co-obligor, as applicable.

5.5 Conflicts of interest

Certain of the Relevant Parties and their respective affiliates are acting in a number of capacities in connection with the transaction described herein. Those Relevant Parties and any of their respective affiliates acting in such capacities will have only the duties and responsibilities expressly agreed by each such entity in the relevant capacity and will not, by reason of it or any of its affiliates acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to be held to a standard of care other than as expressly provided with respect to each such capacity. In no event shall such Transaction Parties or any of their respective affiliates be deemed to have any fiduciary obligations to any person by reason of their respective affiliates acting in any capacity.

In addition to the interests described in this Prospectus, the Arranger and the Joint Lead Managers and their respective related entities, associates, officers or employees (each a "**Joint Lead Manager Related Person**"):

- (a) may from time to time be a Noteholder and/or have other interests with respect to the Notes and they may also have interests relating to other arrangements with respect to a Noteholder or a Note;
- (b) may receive (and will not have to account to any person for) fees, brokerage and commission or other benefits and act as principal with respect to any dealing with respect to any Notes;
- (c) may purchase all or some of the Notes and resell them in individually negotiated transactions with varying terms; and
- (d) may be or have been involved in a broad range of transactions, including, without limitation, banking, lending, advisory, dealing in financial products, credit derivative and liquidity transactions, investment management, corporate and investment banking and research in various capacities in respect of the Notes, the Issuer or any other Transaction Party or any related entity, both on its own account and for the account of other persons.

Prospective investors should be aware that:

- (i) each Joint Lead Manager Related Person in the course of its business (including in respect of interests described above) may act independently of any other Joint Lead Manager Related Person or Relevant Party;
- (ii) to the maximum extent permitted by applicable law, the duties of each Joint Lead Manager Related Person in respect of the Notes are limited to the relevant contractual obligations set out in the Transaction Documents (if any) and, in particular, no advisory or fiduciary duty is owed to any person. No Joint Lead Manager Related Person shall have any obligation to account to the Issuer, any Relevant Party or any Noteholder for any profit as a result of any other business that it may conduct with either the Issuer or any Relevant Party;

- (iii) a Joint Lead Manager Related Person may have or come into possession of information not contained in this Prospectus that may be relevant to any Noteholder or to any decision by a potential investor to acquire the Notes and which may or may not be publicly available to potential investors ("**Relevant Information**");
- (iv) to the maximum extent permitted by applicable law no Joint Lead Manager Related Person is under any obligation to disclose any Relevant Information to any other Joint Lead Manager Related Person, to any Relevant Party or to any potential investor and this Prospectus and any subsequent conduct by a Joint Lead Manager Related Person should not be construed as implying that such Joint Lead Manager Related Person is not in possession of such Relevant Information; and
- (v) each Joint Lead Manager Related Person may have various potential and actual conflicts of interest arising in the ordinary course of its business, including in respect of the interests described above. For example, a Joint Lead Manager Related Person's dealings with respect to a Note, the Issuer or a Relevant Party, may affect the value of a Note.

These interests may conflict with the interests of a Noteholder and the Noteholder may suffer loss as a result. To the maximum extent permitted by applicable law, a Joint Lead Manager Related Person is not restricted from entering into, performing or enforcing its rights in respect of the Transaction Documents, the Notes, or the interests described above and may otherwise continue or take steps to further or protect any of those interests and its business even where to do so may be in conflict with the interests of the Noteholders and the Joint Lead Manager Related Persons and in so doing act in its own commercial interests and without notice to, and without regard to, the interests of any such person.

5.6 Interest rate risk

The Fixed Rate Loans in the Portfolio pay or will pay a fixed rate of interest for an initial period of time but the Floating Rate Notes pay a rate of interest based on Compounded Daily SONIA, and as such the Issuer is subject to the risk of a mismatch between the two.

To mitigate this risk, the Issuer will enter into interest rate swap transactions with the Swap Provider under the Swap Agreement, with the initial interest rate swap transaction being entered into on the Closing Date (the "**Initial Swap Transaction**"), whereby the Issuer will pay to the Swap Provider on each Interest Payment Date under a Swap Transaction, an amount equal to the notional amount in respect of the relevant calculation period of the Swap Transaction multiplied by a fixed rate and the Swap Provider will pay to the Issuer an amount equal to the notional amount in respect of the relevant calculation period of the Swap Transaction multiplied by Compounded Daily SONIA (provided that, for the purposes of the Swap Agreement, Compounded Daily SONIA shall be calculated by the Swap Provider as calculation agent under the Swap Agreement) and the relevant day count fraction, although these two payments may be netted against each other.

However, it should be noted that:

- the Swap Provider may default on its obligations to make such payments to the Issuer, which would expose the Issuer to possible variances between the fixed rates payable on the Loans in the Portfolio and Compounded Daily SONIA;
- the notional amount of the Initial Swap Transaction will reduce in line with a pre-agreed amortisation profile, which may be different to the actual rate at which the Fixed Rate Loans in the Portfolio prepay. If the notional amount of such Initial Swap Transaction is less than the Principal Amount Outstanding on the Notes, the Issuer would receive less from the Swap Provider than the interest due and payable on the Notes; and

- the fixed rate applicable to the amounts payable by the Issuer is not an exact match of interest rates that the Issuer receives in respect of the Fixed Rate Loans. As such, the amount payable by the Issuer under the relevant Swap Transaction may exceed the amount that the Issuer receives in respect of the Fixed Rate Loans,

which may result in insufficient funds being made available for the Issuer to make payments on the Notes.

To the extent that the Swap Provider Swap Amount on any Swap Payment Date is a negative amount, the Issuer will be required to pay an amount equal to the absolute value of such negative Swap Provider Swap Amount to the Swap Provider, together with the Issuer Swap Amount, on the relevant Swap Payment Date.

To mitigate the risk between the fixed rate of interest which will be paid under any Relevant Product Switch Loans retained in the Portfolio and the Floating Rate Notes rate of interest based on Compounded Daily SONIA, the Issuer may enter into further interest rate swap transactions under the Swap Agreement from time to time in connection with the Product Switch Criteria (each a "**Product Switch Swap Transaction**"), whereby the notional amount of such Product Switch Swap Transaction would reflect the amortising notional profile corresponding to such Relevant Product Switch Loan(s) included in the Portfolio in respect of that Collection Period for which the Product Switch Swap Transaction is entered into. Alternatively, the Issuer may adjust, amend, vary, supplement and/or modify the notional amount profile of one or more existing Swap Transactions such that the aggregate notional amounts of such relevant Swap Transaction(s) match the amortisation profile of the Fixed Rate Loans in the Portfolio inclusive of the Relevant Product Switch Loans.

"**Swap Transactions**" means each of (i) the Initial Swap Transaction and (ii) each Product Switch Swap Transaction entered into between the Issuer and the Swap Provider from time to time (in each case, as may be adjusted, amended, varied, supplemented and/or modified from time to time).

Further, upon the occurrence of certain events, the Swap Transactions may be terminated and a termination payment by the Issuer or the Swap Provider may be payable. Any termination payment due by the Issuer (other than (where applicable) in respect of any Hedge Subordinated Amounts), to the extent such termination payment is not satisfied by amounts standing to the credit of any Swap Collateral Account which are available to meet such termination payment, will rank prior to payments in respect of the Notes and may lead to a shortfall in amounts available to make payments on the Notes.

5.7 Change of counterparties

Any parties to the Transaction Documents who receive and hold monies or provide support to the transaction pursuant to the terms of such documents (such as the Issuer Account Bank, the Custodian and the Swap Provider) are required to satisfy certain criteria in order that they can continue to be a counterparty to the Issuer, including the requirement to hold certain ratings assigned by the Rating Agencies. If the party concerned ceases to satisfy the applicable criteria, then the Issuer may be required to replace that party with another entity which does satisfy the applicable criteria. In these circumstances, the terms agreed with the replacement entity may not be as favourable as those agreed with the original party pursuant to the relevant Transaction Document and the cost to the Issuer may therefore increase. In addition, it may not be possible to find an entity with the ratings prescribed in the relevant Transaction Document who would be willing to act in the role. This may reduce amounts available to the Issuer to make payments of interest and principal on the Notes and/or lead to a downgrade in the ratings of the Class A Notes. In addition, should the applicable criteria cease to be satisfied, then the parties to the relevant Transaction Document may agree to amend or waive certain of the terms of such document, including the applicable criteria, in order to avoid the need for a

replacement entity to be appointed. The consent of Noteholders may not be required in relation to such amendments and/or waivers.

6. MACROECONOMIC AND MARKET RISKS

6.1 Changes or uncertainty in respect of SONIA may affect the value, liquidity and payment of interest under the Floating Rate Notes

Interest rates and indices which are deemed to be benchmarks (including SONIA) are the subject of recent national and international regulatory guidance and proposals for reform. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any debt referencing such a benchmark.

Under Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**"), which came into force from 1 January 2018 in general, subject to certain transitional provisions, certain requirements apply with respect to the provision of a wide range of benchmarks (including SONIA), the contribution of input data to a benchmark and the use of a benchmark within the European Union. In particular, the EU Benchmarks Regulation, among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of benchmarks and (ii) prevents certain uses by EU-supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU-based, deemed equivalent or recognised or endorsed). Regulation (EU) 2016/1011 as it forms part of domestic law in the United Kingdom by virtue of the EUWA (the "**UK Benchmarks Regulation**"), among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

Continuing benchmark reform and other pressures may cause such benchmarks to disappear entirely or to perform differently than in the past (as a result of a change in methodology or otherwise), create disincentives for market participants to continue to administer or participate in certain benchmarks or have other consequences which cannot be predicted.

Based on the foregoing, prospective investors should in particular be aware that:

- (a) any of these reforms or pressures described above or any other changes to a relevant interest rate benchmark (including SONIA) could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be;
- (b) while an amendment may be made under Condition 13.6 (*Additional Right of Modification*), to change the SONIA rate on the Floating Rate Notes to an alternative base rate under certain circumstances broadly related to SONIA disruption or discontinuation and subject to certain conditions, there can be no assurance that any such amendment will be made or, if made, that it will (i) fully or effectively mitigate interest rate risks or result in an equivalent methodology for determining the interest rates on the Floating Rate Notes or (ii) be made prior to any date on which any of the risks described in this risk factor may become relevant; and
- (c) if SONIA is discontinued, and whether or not an amendment is made under Condition 13.6(f) (*Additional Right of Modification*) to change the SONIA rate on the Floating Rate Notes as described in paragraph (b) above, there can be no assurance that the applicable fall-back provisions under the Swap Agreement would operate so as to ensure that the base floating interest rate used to determine payments under the Swap Transactions is the same as that used to determine interest payments under the Floating Rate Notes, or that any such amendment

made under Condition 13.6 (*Additional Right of Modification*) would allow the Swap Transactions to fully or effectively mitigate interest rate and currency risk on the Floating Rate Notes. This, in turn, could cause a risk of mismatch of interest and reduced payments on the Floating Rate Notes.

Investors should note the various circumstances under which a Base Rate Modification may be made, which are specified in Conditions 13.6(f) (*Additional Right of Modification*). As noted above, these events broadly relate to SONIA's disruption or discontinuation, but also include, *inter alia*, any public statements by the SONIA administrator or its supervisor to that effect, and a Base Rate Modification may also be made if the Servicer (on behalf of the Issuer) reasonably expects any of these events to occur within six months of the proposed effective date of such Base Rate Modification. A Base Rate Modification may also be made if an alternative means of calculating a SONIA-based base rate is introduced which becomes a standard means of calculating interest for similar transactions. Investors should also note the various options permitted as an Alternative Base Rate as set out in Condition 13.6(f) (*Additional Right of Modification*), which include, *inter alia*, a base rate utilised in a publicly-listed new issue of sterling-denominated asset-backed floating rate notes where the originator of the relevant assets is an affiliate of CCFS or such other base rate as the Servicer (on behalf of the Issuer) reasonably determines. Investors should also note the negative consent requirements in relation to a Base Rate Modification (as to which, see Condition 13 (*Meetings of Noteholders, Modification, Waiver and Substitution*) below).

When implementing any Base Rate Modification, the Note Trustee shall not consider the interests of the Noteholders, any other Secured Creditor or any other person, and shall, subject to Condition 13.6 (*Additional Right of Modification*), act and rely solely and without further investigation on any certificate (including, but not limited to, a Base Rate Modification Certificate) or evidence (including, but not limited to, a Rating Agency Confirmation) provided to them by the Issuer or the relevant Transaction Party, as the case may be, pursuant to Condition 13.6 (*Additional Right of Modification*) and shall not be liable to the Noteholders, any other Secured Creditor or any other person for so acting or relying, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such person.

More generally, any of the above matters (including an amendment to change the SONIA rate as described in paragraph (c) above) or any other significant change to the setting or existence of SONIA could affect the ability of the Issuer to meet its obligations under the Floating Rate Notes and/or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes. Changes in the manner of administration of SONIA could result in adjustment to the Conditions, early redemption, delisting or other consequence in relation to the Floating Rate Notes. No assurance may be provided that relevant changes will not be made to SONIA or any other relevant benchmark rate and/or that such benchmarks will continue to exist. Investors should consider these matters when making their investment decision with respect to the Floating Rate Notes.

6.2 The relationship of the United Kingdom with the EEA may affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or liquidity of the Notes in the secondary market

Concerns relating to credit risk (including that of sovereigns and of those entities which have exposure to sovereigns) have recently intensified. In particular, concerns have been raised with respect to current economic, monetary and political conditions in the UK and in the Eurozone which may impact the UK. If such concerns persist and/or the conditions further deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions, or the UK, and/or any changes to, including any break up of, the Eurozone), then these matters may cause further severe stress in the financial system generally and/or may adversely affect the UK housing market, the Issuer, one or more of the other parties to the transaction documents (including the Seller, the Servicer, the Issuer Account Bank and/or the Swap

Provider) and/or any Borrower in respect of the underlying loans. Given the current uncertainty and the range of possible outcomes, no assurance can be given as to the impact of any of the matters described above and, in particular, no assurance can be given that such matters would not adversely affect the rights of the Noteholders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

The UK left the EU on 31 January 2020 at 11pm and the transition period ended on 31 December 2020 at 11pm. As a result, the Treaty on the European Union and the Treaty on the Functioning of the European Union ceased to apply to the UK. The UK is also no longer part of the EEA. The EU-UK Trade and Cooperation Agreement (the "**Trade and Cooperation Agreement**"), which governs the relations between the EU and the UK following the end of the transition period and which had provisional application pending completion of ratification procedures, entered into force on 1 May 2021. The Trade and Cooperation Agreement does not create a detailed framework to govern the cross-border provision of regulated financial services from the UK into the EU and from the EU into the UK. The EUWA (as amended by the European Union (Withdrawal Agreement) Act 2020) and secondary legislation made under powers provided in these Acts ensure that there is a functioning statute book in the UK. While temporary transitional measures introduced by the UK, and in certain cases EU, regulators may be available in certain circumstances, there are no broadly applied arrangements between the UK and the EU that accommodate mutual recognition or equivalence for regulatory purposes and no assurances can be made that any such arrangements will be available in the UK and/or the EU in the future.

Prospective investors should also note that the regulatory treatment, including the availability of any preferential regulatory treatment, of the Notes may be affected (as to which, please refer to the risk factor entitled "*Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes and/or decrease liquidity in respect of the Notes*").

It is difficult to determine what the precise impact of the developing relationship between the UK and the EU will be on general economic conditions in the UK, including any implications for the UK sovereign ratings, ratings of the Issuer and the relevant Transaction Parties and the performance of the UK housing market. In addition, following the UK's withdrawal from the EU, future UK political developments and/or any changes in government structure and policies, could affect the fiscal, monetary and regulatory landscape.

It is also not possible to determine the precise impact that these matters will have on the business of the Issuer (including the performance of the underlying loans), any other party to the transaction documents and/or any borrower in respect of the underlying loans, or on the regulatory position of any such entity or of the transactions contemplated by the transaction documents under European Union regulations or more generally.

No assurance can be given that any of the matters outlined above would not adversely affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or liquidity of the Notes in the secondary market.

6.3 Absence of secondary market or lack of liquidity in the secondary market may affect the market value of the Notes

There is currently a limited secondary market for the Notes, and no assurance is provided that an active and liquid secondary market for the Notes will develop further. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Any investor in the Notes must be prepared to hold its Notes until the Final Maturity Date.

While central bank schemes such as, among others, the Bank of England's Sterling Monetary Framework, the Funding for Lending Scheme, the Term Funding Scheme or the European Central Bank's liquidity scheme provide an important source of liquidity in respect of eligible securities, further restrictions in respect of the relevant eligibility criteria for eligible collateral which apply and will apply in future are likely to adversely impact secondary market liquidity for mortgage-backed securities in general, regardless of whether the Notes are eligible securities. Neither the Issuer nor the Seller gives any representation, warranty, confirmation or guarantee to any investor in the Notes that the Notes will, either upon issue or at any time prior to redemption in full, satisfy all or any of the requirements for such central bank schemes. Any potential investor in the Notes should make their own conclusions and seek their own advice with respect to whether or not the Notes constitute eligible collateral for such central bank schemes, including whether and how such eligibility may be impacted by the UK withdrawal from the EU and the UK no longer being part of the EEA (see also *"The relationship of the United Kingdom with the EEA may affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or liquidity of the Notes in the secondary market"*).

6.4 The market continues to develop in relation to SONIA as a reference rate in the capital markets

Investors should be aware that the market continues to develop in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to London Inter-Bank Offered Rate ("LIBOR"). In particular, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term). As a result, the market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Conditions and used in relation to Floating Rate Notes that reference a SONIA rate issued under this Prospectus. Interest on Floating Rate Notes which reference a SONIA rate is only capable of being determined at the end of the relevant Observation Period and immediately prior to the relevant Interest Payment Date. It may be difficult for investors in the Floating Rate Notes which reference a SONIA rate to reliably estimate the amount of interest which will be payable on such Floating Rate Notes.

7. LEGAL RISKS AND REGULATORY RISKS

7.1 Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes and/or decrease liquidity in respect of the Notes

In Europe, the U.S., and elsewhere, there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in multiple measures for increased regulation which are at various stages of implementation and which may have an adverse impact on the regulatory position of certain investors in securitisation exposures and/or on the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. None of the Issuer, the Joint Lead Managers, the Arranger or the Seller makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory treatment of its investment on the Closing Date or at any time in the future.

Such regulatory initiatives could adversely impact the regulatory position of Noteholders and the market value and/or liquidity of the Notes in the secondary market.

Investors in the Notes are responsible for analysing their own regulatory position and should consult their own advisers in this respect.

7.2 Prudential regulation reforms under Basel or other frameworks may have an adverse impact on the regulatory capital treatment of the Notes

Investors should note in particular that the Basel Committee on Banking Supervision ("BCBS") has approved a series of significant changes to the Basel framework for prudential regulation (such changes being referred to by the BCBS as Basel III, and referred to, colloquially, as Basel III in respect of reforms finalised prior to 7 December 2017 and Basel IV in respect of reforms finalised on or following that date). The Basel III/IV reforms, which include revisions to the credit risk framework in general and the securitisation framework in particular, may result in increased regulatory capital and/or other prudential requirements in respect of securitisation positions. The BCBS continues to work on new policy initiatives. National implementation of the Basel III/IV reforms may vary those reforms and/or their timing. It should also be noted that changes to prudential requirements have been made for insurance and reinsurance undertakings through participating jurisdiction initiatives, such as the Solvency II frameworks in Europe and the UK, both of which are subject to further reform.

Investors should also note that in summer 2025 the European Commission published legislative proposals on wide ranging reforms to the prudential and non-prudential regulation of securitisation including proposals on recalibrated regulatory capital and liquidity treatment of securitisation in the banking and(re)insurance sectors ("**EC Proposals**"). The EC Proposals, if adopted, would provide certain securitisations with certain regulatory benefits provided that a prescribed set of conditions (or other applicable requirements) are met (but would result in less beneficial treatment for certain other securitisations). However, the EC Proposals do not represent the final position. The proposed reforms will now need to go through the relevant legislative process in the EU before the amendments can be finalised. The timing of this process (that is, how quickly the final position will be reached), whether the EC Proposals will be adopted in full or in part or further amended during this legislative process and whether they will benefit the Notes remains to be seen. Investors in the Notes are responsible for analysing their own regulatory position and prudential regulation treatment applicable to the Notes and should consult their own advisers in this respect, noting that such reforms could adversely affect the regulatory treatment of the Notes and the market value and/or liquidity of the Notes in the secondary market.

7.3 Non-compliance with the securitisation framework in the UK and/or the securitisation regulation regime in the EU, as applicable, may have an adverse impact on the regulatory treatment of the Notes and/or decrease the liquidity of the Notes

The EU Securitisation Regulation applies in general (subject to certain grandfathering) from 1 January 2019 and, from 9 April 2021, the EU Securitisation Regulation applies as amended by Regulation (EU) 2021/557. The EU Securitisation Regulation has direct effect in member states of the EU and, from 1 August 2025, it applies in the non-EU EEA member states (Iceland, Norway and Liechtenstein). However, some legislative measures necessary for the full implementation of the EU Securitisation Regulation regime have not yet been finalised and compliance with certain requirements may be subject to the application of transitional provisions. In addition, further amendments are expected to be introduced to the EU Securitisation Regulation regime as a result of its periodic review. In this regard, it should be noted that the EC Proposals in addition to prudential-related securitisation reforms also include proposals on amendments to the EU Securitisation Regulation (the "**EU SR Proposals**"). The EU SR Proposals, among other things, are aimed at potentially reducing the regulatory burden of compliance with the investor due diligence and transparency requirements and include the new mandate for amending the technical standards prescribing the EU reporting templates. However, the parameters for what constitutes a "public" securitisation are proposed to be broadened, potentially capturing all deals with a listing in the EU or deals that are broadly marketed. It is also proposed that all "public" and "private" securitisations are subject to mandatory reporting via an EU-registered securitisation repository, although it is unclear whether mandatory securitisation repository reporting would also apply to third country securitisations where all sell-side parties are outside the EU. The new mandate on amendments to the technical standards on the EU reporting templates

anticipates that "public" securitisations become subject to a more streamlined and less burdensome reporting regime and that privately negotiated securitisations would be required to prepare only a simple supervisor-focused template and would otherwise be subject to less prescriptive asset-level and investor reporting regime with adjusted application of how and what information must be reported on a securitisation repository to protect confidentiality of the deal data. Further consultations on amendments to the relevant technical standards are expected in due course with the uncertainty remaining as to the application of any transitional or grandfathering provisions. It should also be noted that the EU SR Proposals do not represent the final position and that they will be subject to the inter-institutional trilogue negotiation process before a political agreement is reached on all amendments. The timing of this process (that is, how quickly the final position will be reached) and whether the EU SR Proposals will be adopted in full or in part or further amended during this legislative process remains to be seen. It is also unclear how and when such reforms may be implemented in the non-EU EEA member states, as it will require additional legislative procedures to be completed first before any amendments become applicable in such member states. No assurances can be made that these reforms (including amendments to any existing technical standards or the development of new ones) will not introduce new risks, new compliance challenges or will benefit the parties to this Transaction and/or the Notes.

Following the UK's withdrawal from the EU at the end of 2020, Regulation (EU) 2017/2402 as it formed part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK Securitisation Regulation**") became applicable in the UK largely mirroring (with some adjustments) the EU Securitisation Regulation as it applied in the EU at the end of 2020. However, from 1 November 2024, the UK Securitisation Regulation regime was revoked and replaced (subject to certain grandfathering and transitional provisions) with a new recast regime introduced under the FSMA and related thereto (i) the Securitisation Regulations 2024 (SI 2024/102), as amended (the "**2024 UK SR SI**"); as well as (ii) the Securitisation part of the PRA Rulebook (the "**PRA Securitisation Rules**") and the securitisation sourcebook of the FCA Handbook (the "**SECN**"), together with the relevant provisions of the FSMA (collectively, the "**UK Securitisation Framework**"). The UK Securitisation Framework applies to this Transaction. Also note that in Q4 2025 the UK government, the PRA and the FCA will consult on some amendments to the requirements applicable under the UK Securitisation Framework including, but not limited to, amendments to the investor due diligence, risk retention, transparency and reporting requirements. Therefore, at this stage, not all the details are known on the implementation of the UK Securitisation Framework. Please note that some divergence between EU and UK regimes exists already. While the UK Securitisation Framework brings some alignment with the EU regime, it also introduces new points of divergence and the risk of further divergence between EU and UK regimes cannot be ruled out in the longer term as it is not known at this stage how the ongoing reforms or any future reforms will be finalised and implemented in the UK or the EU.

The EU Securitisation Regulation and/or the UK Securitisation Framework requirements will apply to the Notes. As such, certain European-regulated institutional investors or UK-regulated institutional investors, which include relevant credit institutions, investment firms, authorised alternative investment fund managers, insurance and reinsurance undertakings, certain undertakings for the collective investment of transferable securities and certain regulated pension funds (institutions for occupational retirement provision), are required to comply, as applicable, with certain due diligence requirements prior to holding a securitisation position and on an ongoing basis while holding the position under Article 5 of the EU Securitisation Regulation or the relevant due diligence provisions of the UK Securitisation Framework. Among other things, prior to holding a securitisation position, such institutional investors are required to verify under their respective EU or UK regime certain matters with respect to compliance of the relevant Transaction Parties with credit granting standards, risk retention and transparency requirements and, on transactions notified as EU STS or UK STS, compliance of that transaction with the EU or UK STS requirements, as applicable.

If an institutional investor in-scope of the EU Securitisation Regulation or the UK Securitisation Framework elects to acquire or holds the Notes having failed to comply with one or more of the due diligence requirements, as applicable to them under their respective EU or UK regime, this may result in the imposition of a penal capital charge on the Notes for institutional investors subject to regulatory capital requirements or a requirement to take a corrective action, in the case of a certain type of regulated fund investors.

Aspects of the requirements of the EU Securitisation Regulation and the UK Securitisation Framework and what is or will be required to demonstrate compliance to national regulators remain unclear. Furthermore, the EU SR Proposals, if adopted, will make failure to meet investor due diligence requirements subject to the new and additional administrative and remedial measures, including highly punitive financial sanctions. Prospective investors should therefore make themselves aware of the requirements (including any changes arising as a result of the reforms) applicable to them in their respective jurisdictions and are required to independently assess and determine the sufficiency of the information described in this Prospectus generally for the purposes of complying with such due diligence requirements, as applicable.

Various parties to the securitisation transaction described in this Prospectus (including the Issuer and the Seller) are subject to the requirements of the UK Securitisation Framework. However, some uncertainty remains in relation to the interpretation of some of these requirements and what is or will be required to demonstrate compliance to the relevant UK regulators. In the event that the Seller does not comply with its obligations under the UK Securitisation Framework, it could face certain regulatory issues, including fines, which may impact on the Seller's ability to perform its functions under the Transaction Documents. Similarly, in the event that the Issuer does not comply with its obligations under the UK Securitisation Framework, it could also face regulatory issues (including fines). Any fines imposed on the Issuer will rank ahead of amounts payable to Noteholders and may therefore adversely affect the ability of the Issuer to make payments under the Notes.

In addition, various parties to the securitisation transaction described in this Prospectus (including the Issuer and the Seller) have contractually elected and agreed to comply with certain requirements of the EU Securitisation Regulation relating to risk retention, transparency and reporting as such requirements are interpreted and applied solely on the Closing Date (there is no obligation to comply with any amendments to applicable EU technical standards, guidance or policy statements introduced in relation thereto after the Closing Date) and until such time as when a competent EU Authority has confirmed that the satisfaction of the corresponding UK requirements will also satisfy the requirements of the EU Securitisation Regulation due to the application of an equivalence regime or similar analogous concept.

Prospective investors are referred to the section entitled "*Regulatory Disclosures*" for further details and should note that there can be no assurance that undertakings relating to compliance with the UK Securitisation Framework or the EU Securitisation Regulation, the information in this Prospectus or information to be made available to investors in accordance with such undertakings will be adequate for any prospective institutional investors to comply with their due diligence obligations under the EU Securitisation Regulation or the UK Securitisation Framework.

Non-compliance with the UK Securitisation Framework and/or the EU Securitisation Regulation could adversely affect the regulatory treatment of the Notes and the market value and/or liquidity of the Notes in the secondary market.

Prospective investors in the Notes are responsible for analysing their own regulatory position, and should consult their own advisers in this respect.

7.4 STS Securitisation and related risks

The UK Securitisation Framework (and the UK CRR (as defined below)) includes provisions that implement the revised securitisation framework developed by BCBS (with adjustments) and provides, among other things, for harmonised foundation criteria and procedures applicable to securitisations seeking designation as UK STS securitisation.

The UK STS securitisation designation impacts on the potential ability of the Notes to achieve better or more flexible regulatory treatment from the perspective of the applicable UK regulatory regimes, such as the prudential regulation of UK CRR firms and UK Solvency II firms, and from the perspective of the UK EMIR regime, as to which investors are referred to the risk factor entitled "*Prudential regulation reforms under Basel or other frameworks may have an adverse impact on the regulatory capital treatment of the Notes*".

It is intended that a UK STS Notification will be submitted to the FCA by CCFS, as originator. The UK STS Notification, once notified to the FCA, will be available for download on the FCA STS Register website. CCFS and the Issuer have used the services of PCS UK to carry out the UK STS Verification and to provide additional assessments with regard to the status of the Notes for the purposes of Article 243 and Article 270 of the UK CRR and Articles 7 and 13 of the UK LCR Regulation (the "**UK STS Additional Assessments**"). It is expected that the UK STS Verification and the UK STS Additional Assessments prepared by PCS UK will be available on its website at (<https://pcsmarket.org/sts-verification-transactions/>). For the avoidance of doubt, the website of PCS UK and the contents of that website do not form part of this Prospectus.

However, no assurance can be given that the Notes will, on the Closing Date, be compliant and thereafter remain compliant, because the UK STS Requirements may change over time. In addition, no assurance can be given on how the FCA will interpret and apply the UK STS Requirements or other related regulations such as the Regulation (EU) No. 575/2013 as it forms part of domestic law of the United Kingdom by virtue of the EUWA ("**UK CRR**") as amended by Regulation (EU) 2017/2401 as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK CRR Amendment Regulation**") and the Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 (supplementing Regulation (EU) 575/2013 with regard to the Liquidity Coverage Requirement for Credit Institutions, as amended) as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK LCR Regulation**"), and what is or will be required to demonstrate compliance to national regulators remains unclear, any international or national regulatory guidance may be subject to change and, therefore, what is or will be required to demonstrate compliance with the UK STS Requirements to national regulators remains unclear.

Institutional investors are required to make their own assessment with regard to compliance of the securitisation with the UK STS Requirements and such investors should be aware that non-compliance with the UK STS Requirements and the change in the UK STS status of the Notes may result in the loss of better regulatory treatment of the Notes under the applicable UK regulatory regime(s), including in the case of prudential regulation, higher capital charges being applied to the Notes and may have a negative effect on the price and liquidity of the Notes in the secondary market. In addition, non-compliance may result in various sanctions and/or remedial measures being imposed on the relevant transaction parties, including the Issuer and the Seller, which may have an impact on the availability of funds to pay the Notes.

It is important to note that the involvement of PCS UK is not mandatory and the responsibility for compliance with the UK Securitisation Framework (or, if applicable, the EU Securitisation Regulation) remains with the relevant institutional investors, originators, sponsors and issuers, as applicable in each case. A UK STS Verification (and/or UK STS Additional Assessments) will not absolve such entities from making their own assessments with respect to the UK Securitisation Framework (or, if applicable the EU Securitisation Regulation) and other relevant regulatory

provisions, and a UK STS Verification (and/or UK STS Additional Assessments) cannot be relied on to determine compliance with the foregoing regulations in the absence of such assessments by the relevant entities. Furthermore, a UK STS Verification is not an opinion on the creditworthiness of the relevant Notes nor on the level of risk associated with an investment in the relevant Notes. It is not an indication of the suitability of the relevant Notes for any investor and/or a recommendation to buy, sell or hold Notes. Institutional investors that are subject to the due diligence requirements of the UK Securitisation Framework need to make their own independent assessment and may not solely rely on a UK STS Verification, the UK STS Notification or other disclosed information.

Neither the Arranger, the Joint Lead Managers nor the Note Trustee has or shall have any liability to any prospective investor or any other person for any insufficiency of such information or any non-compliance by any such person with the relevant due diligence and retention rules set out in the UK Securitisation Framework or any other applicable legal, regulatory or other requirements, or has any obligation to provide any further information or take any other steps that may be required by any institutional investor to enable compliance by such person with the requirements of any due diligence and investor requirement or any other applicable legal, regulatory or other requirements.

The transaction does not (and will not) fall within the simple, transparent and standardised regime of the EU Securitisation Regulation.

7.5 Change of Law

The transactions described in this Prospectus and the ratings which are to be assigned to the Notes are based on the relevant law and administrative practice in effect as at the date of this Prospectus and have regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to the law (including any change in regulation which may occur without a change in primary legislation) and practice or tax treatment after the date of this Prospectus nor can any assurance be given as to whether any such change would adversely affect the ability of the Issuer to make payments under the Notes. In addition, it should be noted that regulatory requirements (including any applicable retention, due diligence or disclosure obligations) may be recast or amended and there can be no assurance that any such changes will not adversely affect the compliance position of a transaction described in this Prospectus or of any party under any applicable law or regulation.

A change in law or regulatory requirements could affect the compliance position of the transaction as described in this Prospectus or of any party under any applicable law or regulation and/or could affect the ability of the Issuer to make payments under the Notes.

7.6 Risks relating to the Banking Act 2009

The Banking Act 2009 (as amended, the "**Banking Act**") includes provision for a special resolution regime pursuant to which specified UK authorities have extended tools to deal with the failure (or likely failure) of certain UK incorporated entities, including authorised deposit-taking institutions and investment firms, and powers to take certain resolution actions in respect of third country institutions. In addition, powers may be used in certain circumstances in respect of UK-established banking group companies, where such companies are in the same group as a relevant UK or third country institution. Relevant Transaction Parties for these purposes include the Seller, the Swap Provider, the Collection Account Bank, Issuer Account Bank and the Custodian.

The tools available under the Banking Act include share and property transfer powers (including powers for partial property transfers), bail-in powers, certain ancillary powers (including powers to modify contractual arrangements in certain circumstances) and special insolvency procedures which may be commenced by the UK authorities. It is possible that the tools described above could be used prior to the point at which an application for insolvency proceedings with respect to a relevant entity

could be made and, in certain circumstances, the UK authorities may exercise broad pre-resolution powers in respect of relevant entities with a view to removing impediments to the exercise of the stabilisation tools.

In general, the Banking Act requires the UK authorities to have regard to specified objectives in exercising the powers provided for by the Banking Act. One of the objectives (which is required to be balanced as appropriate with the other specified objectives) refers to the protection and enhancement of the stability of the financial system of the UK. The Banking Act includes provisions related to compensation in respect of instruments and orders made under it. In general, there is considerable uncertainty about the scope of the powers afforded to UK authorities under the Banking Act and how the authorities may choose to exercise them.

If an instrument or order were to be made under the provisions of the Banking Act currently in force in respect of a relevant entity as described above, such action may (among other things) affect the ability of such entity to satisfy its obligations under the Transaction Documents and/or result in the cancellation, modification or conversion of certain unsecured liabilities of such entity under the Transaction Documents or in other modifications to such documents. In particular, modifications may be made pursuant to powers permitting: (i) certain trust arrangements to be removed or modified (such as the Scottish Declaration of Trust); (ii) contractual arrangements between relevant entities and other parties to be removed, modified or created where considered necessary to enable a transferee in the context of a property or share transfer to operate the transferred business effectively; and (iii) in connection with the modification of an unsecured liability through use of the bail-in tool, the discharge of a relevant entity from further performance of its obligations under a contract. In addition, subject to certain conditions, powers would apply to require a relevant instrument or order (and related events) to be disregarded in determining whether certain widely defined "default events" have occurred (which events may include trigger events included in the Transaction Documents in respect of the relevant entity, including termination events and (in the case of the Seller) trigger events in respect of perfection of legal title to the Loans). As a result, the making of an instrument or order in respect of a relevant entity as described above may affect the ability of the Issuer to meet its obligations in respect of the Notes.

As noted above, the stabilisation tools may be used in respect of certain banking group companies provided certain conditions are met. If the Issuer was regarded as a banking group company and no exclusion applied, then it would be possible in certain scenarios for the relevant authority to exercise one or more relevant stabilisation tools (including the property transfer powers and/or the bail-in powers) in respect of it, which could result in reduced amounts being available to make payments in respect of the Notes and/or in the modification, cancellation or conversion of any unsecured portion of the liability of the Issuer under the Notes at the relevant time. In this regard, it should be noted that the UK authorities have provided an exclusion for certain securitisation companies, which exclusion is expected to extend to the Issuer, although aspects of the relevant provisions are not entirely clear.

At present, the UK authorities have not made an instrument or order under the Banking Act in respect of the entities referred to above and there has been no indication that any such instrument or order will be made, but there can be no assurance that this will not change and/or that Noteholders will not be adversely affected by any such instrument or order if made. While there is provision for compensation in certain circumstances under the Banking Act, there can be no assurance that Noteholders would recover compensation promptly and equal to any loss actually incurred.

Lastly, as a result of Directive 2014/59/EU (Bank Recovery and Resolution Directive) providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms and any relevant national implementing measures, it is possible that an institution with its head office in an EU state and/or certain group companies could be subject to certain resolution actions in that state. Once again, any such action may affect the ability of any relevant entity to satisfy

its obligations under the Transaction Documents and there can be no assurance that Noteholders will not be adversely affected as a result.

7.7 Security and insolvency considerations

The Issuer will enter into the Deed of Charge pursuant to which it will grant the Security in respect of certain of its obligations, including its obligations under the Notes (as to which, see "*Summary of the Key Transaction Documents – Deed of Charge*"). If certain insolvency proceedings (including administrations or liquidations) are commenced or certain pre-insolvency events occur in respect of the Issuer, the ability to realise the Security may be delayed and/or the value of the Security impaired.

In particular, it should be noted that significant changes to the UK insolvency regime have been enacted under the Corporate Insolvency and Governance Act 2020 ("**CIGA**") which received royal assent on 25 June 2020 and came into effect on 26 June 2020. The changes include, among other things: (i) the introduction of a new moratorium regime that certain eligible companies can obtain which will prevent creditors taking certain action against the company for a specified period; (ii) a ban on operation of or exercise of *ipso facto* clauses preventing (subject to exemptions) termination, variation or exercise of other rights under a contract due to a counterparty entering into certain insolvency or restructuring procedures; and (iii) a new compromise or arrangement under Part 26A of the Companies Act 2006 (the "**Restructuring Plan**") that provides for ways of imposing a restructuring on creditors and/or shareholders without their consent (the so-called cross-class cram-down procedure), subject to certain conditions being met and with a court adjudicating on the fairness of the restructuring proposal as a whole in determining whether or not to exercise its discretionary power to sanction the Restructuring Plan. While the Issuer is expected to be exempt from the application of the new moratorium regime and the ban on *ipso facto* clauses, there is no guidance on how the new legislation will be interpreted and the Secretary of State may by regulations modify the exceptions. For the purposes of the Restructuring Plan, it should also be noted that there are currently no exemptions, but the Secretary of State may by regulations provide for exclusion of certain companies providing financial services and the UK government has expressly provided for changes to the Restructuring Plan to be effected through secondary legislation, particularly in relation to the cross-class cram-down procedure. It is therefore possible that aspects of the legislation may change. While the transaction structure is designed to minimise the likelihood of the Issuer becoming insolvent and/or subject to pre-insolvency restructuring proceedings, no assurance can be given that any modification of the exceptions from the application of the new insolvency reforms referred to above will not be detrimental to the interests of the Noteholders and there can be no assurance that the Issuer will not become insolvent and/or the subject of insolvency or pre-insolvency restructuring proceedings and/or that the Noteholders would not be adversely affected by the application of insolvency laws (including English insolvency laws and, as applicable, Scottish insolvency laws, or the laws affecting the creditors' rights generally).

In addition, it should be noted that, to the extent that the assets of the Issuer are subject only to a floating charge (including any fixed charge recharacterised by the courts as a floating charge), in certain circumstances under the provisions of sections 174A, 176ZA and 176A of the Insolvency Act 1986, certain floating charge realisations which would otherwise be available to satisfy the claims of secured creditors under the Deed of Charge may be used to satisfy any expenses of the insolvency proceeding, claims of unsecured creditors or creditors who otherwise take priority over floating charge recoveries. While certain of the covenants given by the Issuer in the Transaction Documents are intended to ensure it has no significant creditors other than the secured creditors under the Deed of Charge, it will be a matter of fact as to whether the Issuer has any other such creditors at any time. There can be no assurance that the Noteholders will not be adversely affected by any such reduction in floating charge realisations upon the enforcement of the Security.

In addition, CIGA may impact the ability of the Servicer (acting on behalf of the Issuer) to bring proceedings against a Borrower which is a corporate entity or to enforce Mortgages and other Related

Security in case of a moratorium (unless the relevant Borrower is a corporate entity which is an ineligible company under CIGA). The inability of the Servicer (acting on behalf of the Issuer) to obtain timely and complete payment of debts from Borrowers may in turn have a material adverse effect on the ability of the Issuer to make timely and complete payments under the Notes.

7.8 Insolvency proceedings and subordination provisions

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor. In particular, recent cases have focused on provisions involving the subordination of a hedging counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty (so-called "**flip clauses**"). Such provisions are similar in effect to the terms which will be included in the Transaction Documents relating to the subordination of Hedge Subordinated Amounts.

The Supreme Court of the United Kingdom has held that a flip clause as described above is valid under English law. Contrary to this, however, in parallel proceedings, a U.S. Bankruptcy Court has held that such a subordination provision is unenforceable in cases under the U.S. Bankruptcy Code and that any action to enforce such provision would violate certain structures that apply under such law in the case of a U.S. bankruptcy of the creditor. However, a subsequent 2016 decision of a U.S. Bankruptcy Court held that, in certain circumstances, flip clauses are protected under the U.S. Bankruptcy Code and are therefore enforceable in bankruptcy. The 2016 decision was affirmed on 14 March 2018 by the U.S. District Court for the Southern District of New York, which 2018 decision was further affirmed on 11 August 2020 by the U.S. Court of Appeals for the Second Circuit. Nevertheless, the implications of this conflict are not fully resolved.

If a creditor of the Issuer (such as the Swap Provider) or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales (including, but not limited to, the U.S.), and it is owed a payment by the Issuer, a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the English law-governed Transaction Documents (such as a provision of the applicable Priority of Payments which refers to the ranking of the Swap Provider's payment rights in respect of Hedge Subordinated Amounts). In particular, based on the decision of the U.S. Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under U.S. bankruptcy laws. Such laws may be relevant in certain circumstances with respect to the Swap Provider given that it has assets and/or operations in the U.S., notwithstanding that it is a non-U.S.-established entity and/or with respect to any replacement counterparty, depending on certain matters in respect of that entity.

In general, if a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction outside England and Wales and any relevant foreign judgment or order was recognised by the English courts, there can be no assurance that such actions would not adversely affect the rights of the Noteholders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

Lastly, given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents will include terms providing for the subordination of Hedge Subordinated Amounts, there is a risk that the final outcome of the dispute in such judgments (including any recognition action by the English courts) may result in negative rating pressure in respect of the Notes. If any rating assigned to the Notes is lowered, the market value of the Notes may reduce.

7.9 Liquidation expenses

Prior to the House of Lords' decision in the case of *Re Leyland Daf* [2004] UKHL 9 ("*Re Leyland Daf*"), the general position was that, in a liquidation of a company, the liquidation expenses ranked ahead of unsecured debts and floating chargees' claims. *Re Leyland Daf* reversed this position so that liquidation expenses could no longer be recouped out of assets subject to a floating charge. However, section 176ZA of the Insolvency Act 1986, which came into force on 6 April 2008, effectively reversed by statute the House of Lords' decision in *Re Leyland Daf*. As a result, costs and expenses of liquidation will be payable out of floating charge assets in priority to the claims of the floating charge-holder. In respect of certain litigation expenses of the liquidator only, this is subject to the approval of the amount of such expenses by the floating charge-holder (or, in certain circumstances, the court) pursuant to rules 4.218A to 4.218E of the Insolvency Rules 1986. In general, the reversal of *Re Leyland Daf* applies in respect of all liquidations commenced on or after 6 April 2008.

Therefore, floating charge realisations upon the enforcement of the floating charge security to be granted by the Issuer which would otherwise have been available to the Secured Creditors would be reduced by the amount of all, or a significant proportion of, any liquidation expenses which could have an adverse effect on the ability of the Issuer to make payments in respect of the Notes.

7.10 Fixed charges may take effect under English law as floating charges

The law in England and Wales relating to the characterisation of fixed charges is unsettled. The fixed charges purported to be granted by the Issuer (other than by way of assignment or assignation in security) may take effect under English law as floating charges only, if, for example, it is determined that the Security Trustee does not exert sufficient control over the Charged Assets (although it should be noted that there is no equivalent concept of recharacterisation of fixed security as floating charges under Scots law). If the charges take effect as floating charges instead of fixed charges, then, as a matter of law, certain claims would have priority over the claims of the Security Trustee in respect of the floating charge assets.

The interest of the Secured Creditors in property and assets over which there is a floating charge will rank behind the expenses of any administration or liquidator and the claims of certain preferential creditors on enforcement of the Security. Section 250 of the Enterprise Act 2002 abolishes Crown Preference in relation to all insolvencies (and thus reduces the categories of preferential debts that are to be paid in priority to debts due to the holder of a floating charge) but section 176A of the Insolvency Act 1986 requires a "prescribed part" (up to a maximum amount of £600,000) of the floating charge realisations available for distribution to be set aside to satisfy the claims of unsecured creditors. This means that the expenses of any administration, the claims of preferential creditors and the beneficiaries of the prescribed part will be paid out of the proceeds of enforcement of the floating charge ahead of amounts due to Noteholders. The prescribed part will not be relevant to property subject to a valid fixed security interest or to a situation in which there are no unsecured creditors. Pursuant to the terms of the Deed of Charge, the Issuer has purported to grant fixed charges in favour of the Security Trustee over, among other things, its interests in the Loans and their respective Related Security, the Issuer's interest in its bank accounts maintained with the Issuer Account Bank and the Custodian, and the Issuer's interest in all Authorised Investments purchased from time to time.

7.11 Limited Secondary Market for Loans

The ability of the Issuer to redeem all of the Notes in full, including following the occurrence of an Event of Default (as defined in the Conditions) in relation to the Notes while any of the Loans are still outstanding, may depend upon whether the Loans can be realised to obtain an amount sufficient to redeem the Notes. There is not, at present, an active and liquid secondary market for mortgage loans of this type in the United Kingdom. None of the Notes have been, or will be, registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, or any other

applicable securities laws and they are subject to certain restrictions on the resale and other transfer thereof as set forth under "*Subscription and Sale*" and "*Transfer Restrictions and Investor Representations*". There can be no assurance that a secondary market for the Loans will develop or, if a secondary market does develop, that it will provide sufficient liquidity of investment for the Loans to be realised or that if it does develop it will continue for the life of the Notes. The Issuer and, following the occurrence of an Event of Default, the Security Trustee may not, therefore, be able to sell the Loans for an amount sufficient to discharge amounts due to the Secured Creditors (including the Noteholders) in full should they be required to do so, which would adversely affect payments on the Notes.

7.12 Impact of UK EMIR on the Swap Agreement

The European Market Infrastructure Regulation (EU) No 648/2012 of the European Parliament and Council on OTC derivatives, central counterparties and trade repositories as it forms part of domestic law in the United Kingdom by virtue of the EUWA ("**UK EMIR**") came into force on 1 January 2021. UK EMIR and EU EMIR (each as amended from time to time) prescribes a number of regulatory requirements for counterparties to derivatives contracts including: (i) a mandatory clearing obligation for certain classes of OTC derivatives contracts (the "**Clearing Obligation**"); (ii) margin posting (the "**Collateral Obligation**"); (iii) daily valuation and other risk mitigation requirements for OTC derivatives contracts not subject to clearing (the "**Risk Mitigation Requirements**"); and (iv) certain reporting requirements ("**Reporting Obligations**"). In general, the application of such regulatory requirements in respect of the Swap Agreement will depend on the classification of the counterparties to such derivative transactions. In addition, regardless of the Issuer's classification under UK EMIR, the Issuer may need to appoint a third party and/or incur costs and expenses to enable it to comply with the regulatory requirements imposed by UK EMIR.

Pursuant to UK EMIR and EU EMIR, counterparties can be classified as: (i) financial counterparties ("**FCs**") (which includes a sub-category of small FCs ("**SFCs**")); and (ii) non-financial counterparties ("**NFCs**"). The category of NFC is further split into: (i) non-financial counterparties above the "clearing threshold" ("**NFC+s**"); and (ii) non-financial counterparties below the "clearing threshold" ("**NFC-s**"). Whereas FCs and NFC+ entities may be subject to the Clearing Obligation or, to the extent that the relevant swaps are not subject to clearing, to the Collateral Obligation and the daily valuation obligation under the Risk Mitigation Requirements, such obligations do not apply in respect of NFC-entities. In addition, in respect of the Reporting Obligations, UK FCs are solely responsible and legally liable for reporting the details of OTC derivative contracts concluded with NFC-s for the purpose of UK EMIR on behalf of both counterparties as well as for ensuring the correctness of the reported details (known as "mandatory reporting"). Note that the calculation of the UK EMIR clearing threshold (together with other aspects of UK EMIR) may be impacted in due course by reforms although the scope of the UK EMIR reforms is yet to be confirmed.

On the basis that the Issuer is currently an NFC- for the purposes of UK EMIR, neither the Clearing Obligation nor the Collateral Obligation should apply to it. However, a change in its status cannot be ruled out and no assurances can be given that any future changes made to UK EMIR would not cause the status of the Issuer to change and lead to the imposition of regulatory requirements under UK EMIR in respect of the Swap Agreement and to potentially adverse consequences as outlined above. Should the status of the Issuer change to NFC+ or FC for the purposes of UK EMIR, this may result in the application of the Clearing Obligation or (more likely) the Collateral Obligation and daily valuation obligation under the relevant Risk Mitigation Requirements, as it seems unlikely that the Swap Agreement would be a relevant type of OTC derivative contract that would be subject to any Clearing Obligation under UK EMIR to date. Certain other of the Risk Mitigation Requirements may also apply in a different way (for example, the portfolio reconciliation requirement may increase in frequency). In respect of the Reporting Obligations, "mandatory reporting" would also cease to apply which means that Issuer would be legally liable and responsible for their own Reporting Obligations under UK EMIR (although this requirement can be delegated). It should also be noted that the

Collateral Obligation should not apply in respect of any interest rate swaps entered into prior to the relevant application date, unless such interest rate swap is materially amended on or after that date.

Prospective investors should note that there is some uncertainty with respect to the ability of the Issuer to comply with the Clearing Obligations, the daily valuation obligation, the Collateral Obligation and the Reporting Obligations were they to be applicable, which may: (i) lead to regulatory sanctions; (ii) adversely affect the ability of the Issuer to continue to be party to a swap agreement (possibly resulting in a restructuring or termination of the interest rate swap under such swap agreement) or to enter into swap agreements; and/or (iii) significantly increase the cost of such arrangements, thereby negatively affecting the ability of the Issuer to hedge certain interest rate risks. As a result, the amounts available to the Issuer to meet its obligations may be reduced, which may in turn result in investors receiving less interest or principal than expected.

Prospective investors should also note that uncertainty remains as to the full impact on the Swap Agreement and the Swap Transactions thereunder of the reforms to UK EMIR.

The Issuer will be required to continually comply with UK EMIR while it is party to any interest rate swaps, including any additional provisions or technical standards which may come into force after the Closing Date, and this may necessitate amendments to the Transaction Documents as detailed above in "Risks relating to changes to the structure and documents – Meetings of Noteholders, Modification and Waivers". Subject to receipt by the Note Trustee and the Security Trustee of a certificate from: (i) the Issuer signed by two directors; or (ii) the Servicer on behalf of the Issuer, in each case, certifying to the Note Trustee and the Security Trustee that the amendments requested by the Issuer are to be made solely for the purpose of enabling the Issuer and/or the Swap Provider to satisfy its requirements under UK EMIR, the Note Trustee with the written consent of the Secured Creditors which are a party to the relevant Transaction Documents shall, without the consent or sanction of the Noteholders or any of the other Secured Creditors, agree to (or direct the Security Trustee to agree to) any modification to the Transaction Documents and/or the Conditions that are requested in writing by the Issuer (acting in its own discretion or at the direction of any Transaction Party) in order to enable the Issuer to comply with any requirements which apply to it under UK EMIR. The Conditions of the Notes require this to be done irrespective of whether such modifications are: (i) materially prejudicial to the interests of the Noteholders of any Class of Notes or any other Secured Creditor; or (ii) in respect of a Basic Terms Modification. Neither the Note Trustee nor the Security Trustee shall be obliged to agree to any modification if it would have the effect of exposing the Note Trustee and/or the Security Trustee to any liability against which it has not been indemnified and/or secured and/or prefunded to its satisfaction or increasing the obligations or duties, or decreasing rights or the protections of the Note Trustee and/or the Security Trustee in the Transaction Documents and/or the Conditions of the Notes. The UK government has indicated that UK EMIR will be repealed with domestic legislation under the FSMA. However, UK EMIR is not subject to immediate policy review or reform and so substantive requirements are not expected to change as a result of the repeal and replacement of UK EMIR.

In respect of any modifications to any of the Transaction Documents which would have the effect of altering the amount, timing or priority of any payments due from the Issuer to the Swap Provider: (i) the prior written consent of the Swap Provider; or (ii) written notification from the Issuer to the Note Trustee and the Security Trustee that Swap Provider consent is not needed, is also required prior to such amendments being made.

In respect of UK EMIR, it should be noted that, given the intention to seek the UK STS designation for the Notes, should the status of the Issuer change to an NFC+ or FC, another exemption from the Clearing Obligation and a partial exemption from the collateral exchange obligation may be available for the Swap Transactions, provided the applicable conditions are satisfied.

7.13 Effects of the Volcker Rule on the Issuer

The enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**"), which was signed into law on 21 July 2010, imposed a new regulatory framework over the U.S. financial services industry and U.S. consumer credit markets in general. On 10 December 2013, U.S. regulators adopted final regulations to implement section 619 of the Dodd-Frank Act. Section 619 of the Dodd-Frank Act added a new section 13 to the Bank Holding Company Act of 1956, commonly referred to as the Volcker Rule.

The Volcker Rule generally prohibits "banking entities" (which is broadly defined to include U.S. banks and bank holding companies and many non-U.S. banking entities, together with their respective subsidiaries and other affiliates) from: (i) engaging in proprietary trading; (ii) acquiring or retaining an ownership interest in or sponsoring a "covered fund"; and (iii) entering into certain relationships with a "covered fund", subject to certain exceptions and exclusions.

See "*Regulatory Disclosures – The Volcker Rule*" for information on the Issuer's status under the Volcker Rule. Any prospective investor in the Notes, including a U.S. or foreign bank or a subsidiary or other affiliate thereof, should consult with its own legal advisers regarding such matters and other effects of the Volcker Rule.

7.14 U.S. Risk Retention Requirements

Section 941 of the Dodd-Frank Act amended the Exchange Act to generally require the "securitizer" of a "securitization transaction" to retain at least 5 per cent. of the "credit risk" of "securitized assets", as such terms are defined for the purposes of that statute, and generally prohibit a securitizer from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the securitizer is required to retain. The U.S. Risk Retention Rules came into effect on 24 December 2016 with respect to all classes of asset-backed securitizations. The U.S. Risk Retention Rules provide that the securitizer of an asset-backed securitization is its sponsor. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The Seller, as the sponsor under the U.S. Risk Retention Rules, does not intend to retain at least 5 per cent. of the credit risk of the securitized assets for the purposes of compliance with the U.S. Risk Retention Rules, but rather intends to rely on an exemption provided for in section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that: (i) the transaction is not required to be and is not registered under the Securities Act; (ii) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the "ABS interests" (as defined in section 2 of the U.S. Risk Retention Rules) are issued) of all classes of ABS interests issued in the securitization transaction are sold or transferred to, or for the account or benefit of, U.S. persons (as defined in the U.S. Risk Retention Rules, "**Risk Retention U.S. Persons**"); (iii) neither the sponsor nor the issuer of the securitization transaction is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (iv) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Portfolio will comprise mortgage loans and their related security, all of which are originated by the Seller, being a company incorporated in England. See the section entitled "*The Seller and the Servicer*".

Prior to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit of, any Risk Retention U.S. Person, the purchaser of such Notes must first disclose to the Joint Lead Managers that it is a Risk Retention U.S. Person and obtain the written consent of the Seller in the form of a U.S. Risk Retention Consent. Prospective investors should note that the definition of

U.S. person in the U.S. Risk Retention Rules is substantially similar to, but not identical to, the definition of U.S. person under Regulation S, and that persons who are not "U.S. Persons" under Regulation S may be U.S. persons under the U.S. Risk Retention Rules. The definition of U.S. person in the U.S. Risk Retention Rules is excerpted below. Particular attention should be paid to paragraphs (b) below and (h)(i) below, which are different from comparable provisions from Regulation S.

Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" (and "**Risk Retention U.S. Person**" as used in this Prospectus) means any of the following:

- (a) any natural person resident in the United States;
- (b) any partnership, corporation, limited liability company, or other organisation or entity organised or incorporated under the laws of any State or of the United States^[1];
- (c) any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- (d) any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- (e) any agency or branch of a foreign entity located in the United States;
- (f) any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- (g) any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated, or (if an individual) resident in the United States; and
- (h) any partnership, corporation, limited liability company, or other organisation or entity if:
 - (i) organised or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act^[2].

Each holder of a Note or a beneficial interest therein acquired on the Closing Date, by its acquisition of a Note or a beneficial interest in a Note, will be deemed, and, in certain circumstances, will be required to represent to the Issuer, the Seller and the Joint Lead Managers that it: (1) either; (i) is not a Risk Retention U.S. Person; or (ii) it has obtained a U.S. Risk Retention Consent; (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distributing such Note; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10 per cent. Risk Retention U.S. Person limitation in the exemption provided for in section 20 of the U.S. Risk Retention Rules described herein).

There can be no assurance that the requirement to request the Seller to give its prior written consent to any Notes which are offered and sold by the Issuer being purchased by, or for the account or benefit

^[1] The comparable provision from Regulation S is "(ii) any partnership or corporation organised or incorporated under the laws of the United States".

^[2] The comparable provision from Regulation S: "(vii)(B) formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organised or incorporated, and owned, by accredited investors (as defined in 17 CFR 230.501(a)) who are not natural persons, estates or trusts".

of, any Risk Retention U.S. Person will be complied with or will be made by such Risk Retention U.S. Persons.

There can be no assurance that the exemption provided for in section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. No assurance can be given as to whether a failure by the Seller to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) may give rise to regulatory action which may adversely affect the Notes or the market value of the Notes. Furthermore, the impact of the U.S. Risk Retention Rules on the securitization market generally is uncertain, and a failure by the Seller to comply with the U.S. Risk Retention Rules could therefore negatively affect the market value and secondary market liquidity of the Notes.

None of the Arranger, the Joint Lead Managers or any of its affiliates makes any representation to any prospective investor or purchaser of the Notes as to whether the transactions described in this Prospectus comply as a matter of fact with the U.S. Risk Retention Rules on the Closing Date or at any time in the future. Investors should consult their own advisers as to the U.S. Risk Retention Rules.

7.15 Loans are subject to certain legal and regulatory risks

Certain additional regulatory risks exist in relation to the Loans, including in relation to the legal and regulatory considerations relating to the Loans and their Related Security, changes in law, regulation, the possibility of complaints by Borrowers in relation to terms of the Loans and in relation to the policies and procedures of CCFS. If any of these risks materialise, they could have an adverse effect on the ability of the Issuer to satisfy its obligations under the Notes. Further detail on certain considerations in relation to the regulation of mortgages in the UK is set out in the section headed "*Information relating to the Regulation of Mortgages in the UK*" below and certain specific risks are set out below:

Guidance Issued by the Regulators. Guidance issued by the regulators has changed over time and it is possible that it may change in the future. No assurance can be given that any changes in legislation, guidance or case law (including changes in regulators' responsibilities) as it relates to the Portfolio will not have a material adverse effect on the Loans, which may adversely affect the Issuer's ability to make payments in full when due on the Notes. Any such changes (including changes in regulators' responsibilities) may also adversely affect the Issuer's operating results, financial condition and prospects. Further detail is included in the section headed "*Information relating to the Regulation of Mortgages in the UK – Potential effects of any additional regulatory changes*" below.

Distance Marketing. The Financial Services (Distance Marketing) Regulations 2004 allow, in certain specified circumstances, a borrower to cancel a credit agreement it has entered into with lenders. If a significant proportion of the Loans are treated as being cancellable under these regulations, there could be an adverse effect on the Issuer's receipts in respect of the Loans affecting the Issuer's ability to make payments under the Notes. Further detail is included in the section headed "*Information relating to the Regulation of Mortgages in the UK – Distance Marketing*" below.

UTCCR and Consumer Rights Act. The UTCCR and the Consumer Rights Act 2015 provide that a consumer may, in certain circumstances, challenge a term in an agreement on the basis that it is unfair. The broad and general wording of the UTCCR and Consumer Rights Act makes any assessment of the fairness of terms largely subjective and makes it difficult to predict whether or not a term would be held by a court to be unfair. It is therefore possible that any Loans which have been made to Borrowers covered by the UTCCR or Consumer Rights Act may contain unfair terms which may result in the possible unenforceability of the terms of the underlying loans. If any term of the Loans entered into between 1 July 1995 and 30 September 2015 is found to be unfair for the purpose of the UTCCR or entered into from 1 October 2015 is found to be unfair for the purpose of the Consumer Rights Act, this may reduce the amounts available to meet the payments due in respect of the Notes, including by

way of non-recovery of a Loan, a claim made by the Borrower or the exercise by the Borrower of a right of set-off arising as a result of a term of a loan being found to be unfair (and therefore not binding on the consumer).

No assurance can be given that any changes in legislation, guidance or case law on unfair terms will not have a material adverse effect on CCFS and/or the Issuer and their respective businesses and operations. No assurance can be given that any such changes in guidance on the UTCCR or the Consumer Rights Act, or reform of the UTCCR or the Consumer Rights Act, will not affect the Loans and will not have a material adverse effect on the Issuer's ability to make payments on the Notes. Further detail in relation to the UTCCR and the Consumer Rights Act is included in the section headed *"Information relating to the Regulation of Mortgages in the UK – Unfair Terms in Consumer Contracts Regulations 1994 and 1999 "* below.

Consumer Protection from Unfair Trading Regulations 2008 and Digital Markets, Competition and Consumers Act 2024. The Consumer Protection from Unfair Trading Regulations 2008 ("CPUTR") prohibits certain practices which are deemed unfair within the terms of the CPUTR. Breach of the CPUTR may lead to liability for misrepresentation or breach of contract in relation to the underlying credit agreements, which may result in irrecoverable losses on amounts to which such agreements apply and which may adversely affect the Issuer's ability to make payments on the Notes. Further, in May 2024 some parts of the Digital Markets, Competition and Consumers Act 2024 (the "DMCCA") came into force. From 6 April 2025, the DMCCA has revoked the CPUTR rules and recreated their effect, with some amendments. The new regime has introduced new rules on consumer reviews, drip pricing and consumer vulnerability, new powers to expand the list of automatically unfair practices and a new enforcement regime. The possibility of the new regime having an adverse impact on the Loans cannot be excluded.. Further detail in relation to the CPUTR is included in the section headed *"Information relating to the Regulation of Mortgages in the UK – Consumer Protection from Unfair Trading Regulations 2008"* below.

Financial Ombudsman Service. Under the FSMA, the Ombudsman is required to make decisions on, among other things, complaints relating to activities and transactions under its jurisdiction. The Ombudsman is required to make decisions on the basis of, among other things, the principles of fairness, and may order a money award to a borrower. Given the way the Ombudsman makes its decisions, it is not possible to predict how any future decision of the Ombudsman would affect the ability of the Issuer to make payments to Noteholders. Further detail is included in the section headed *"Information relating to the Regulation of Mortgages in the UK – Financial Ombudsman Service"* below.

Mortgage reposessions. The protocols for mortgage repossession may have adverse effects in relation to the ability of CCFS to repossess properties in markets experiencing above average levels of possession claims. Delays in the initiation of responsive action in respect of the Loans may result in lower recoveries and may adversely affect the ability of the Issuer to make payments to Noteholders. Further detail is included in the section headed *"Information relating to the Regulation of Mortgages in the UK – Mortgage repossession"* below.

FCA response to the cost of living crisis. On 10 April 2024, the FCA published PS24/2: Strengthening protections for borrowers in financial difficulty: Consumer credit and mortgages and the related Consumer Credit and Mortgages (Tailored Support) Instrument 2024 (FCA 2024/7). It also published FG24/2: Guidance for firms supporting existing mortgage borrowers impacted by rising living costs. The FCA stated that they wanted to build on the Mortgages Tailored Support Guidance (issued on 25 March 2021 to address exceptional circumstances arising out of coronavirus) and provide a stronger framework for lenders to protect customers facing payment difficulties, they would do this by incorporating relevant aspects of the Mortgages Tailored Support Guidance into their Handbook, as well as introducing further targeted changes. For mortgages, the FCA changed their guidance to allow lenders more scope to capitalise payment shortfalls where appropriate and to improve disclosure for

all customers in payment shortfall. The new rules came into force on 4 November 2024 and the Mortgages Tailored Support Guidance was withdrawn at that time.

Assured Shorthold Tenancy (AST). Depending on the level of ground rent payable at any one time it is possible that a long leasehold in England and Wales may also be an Assured Tenancy (AT) or Assured Shorthold Tenancy (AST) under the Housing Act 1988. There is a risk that in certain circumstances, where a long lease is also an AT/AST due to the level of the ground rent, the long lease will come to an end and the landlord will be able to re-enter the relevant property. This may adversely affect the realisable value of the Portfolio, and/or the ability of the Issuer to make payments in full on the Notes when due. Further detail is included in the section headed "*Information relating to the Regulation of Mortgages in the UK – Assured Shorthold Tenancy (AST)*" below.

FCA Consumer Duty. The FCA has published final rules on the introduction of a new consumer duty on regulated firms (the "**Consumer Duty**"), which aims to set a higher level of consumer protection in retail financial markets. The FCA published its final rules on the Consumer Duty in July 2022, which provide that it will apply from 31 July 2023 for products and services that remain open to sale or renewal and from 31 July 2024 for closed products and services. It is unclear, despite the guidance from the FCA, how the Consumer Duty will operate in respect of the Loans owing to the outcomes based nature of the duty. If (for example) the obligations relating to fair value or not causing harm are not met in relation to the Loans, it could adversely affect the amounts received or recoverable in relation to the Loans. This may adversely affect the ability of the Issuer to meet its obligations under the Notes. Further detail is included in the section headed "*Information relating to the Regulation of Mortgages in the UK – FCA Consumer Duty*" below.

Private Residential Tenancies in Scotland. The provisions of the Private Housing (Tenancies) Scotland Act 2016 could result in longer periods for recovery of possession of Scottish Properties securing Buy-to-Let Loans and thereby result in lower recoveries in relation to Mortgages secured over such Scottish Properties. This may adversely affect the ability of the Issuer to make payments in full on the Notes when due. Further detail is included in the section headed "*Information relating to the Regulation of Mortgages in the UK – Private Housing (Tenancies) (Scotland) Act 2016*".

Breathing Space Regulations. The Breathing Space Regulations established a scheme which gives eligible individuals in England and Wales the ability to apply for a breathing space or mental health crisis moratorium during which creditors may not demand payment of interest or fees that accrue, or enforce a debt owed by the applicant. The Breathing Space Regulations do not apply to mortgages, except for arrears which are uncapitalised at the date of the application for breathing space under the Breathing Space Regulations. There is a risk that delays in the initiation of enforcement action in respect of the Loans as a result of the Breathing Space Regulations in England and Wales may result in lower recoveries and may adversely affect the ability of the Issuer to make payments due under the Notes. Further detail is included in the section headed "*Information relating to the Regulation of Mortgages in the UK – Breathing Space Regulations*" below.

8. TAX RISKS

8.1 UK Taxation treatment of the Issuer

The Issuer has been advised that it should fall within the permanent regime for the taxation of securitisation companies (as introduced by the Taxation of Securitisation Companies Regulations 2006 (SI 2006/3296) (as amended) (the "**Securitisation Tax Regulations**")), and, as such, should be taxed only on the amount of its "retained profit" (as that term is defined in the Securitisation Tax Regulations), for so long as it satisfies the conditions of the Securitisation Tax Regulations. However, if the Issuer does not satisfy the conditions of the Securitisation Tax Regulations (or subsequently ceases to satisfy those conditions), then the Issuer may be subject to tax liabilities not contemplated in the cashflows for the transaction described in this Prospectus. Any such tax liabilities may reduce

amounts available to the Issuer to meet its obligations under the Notes and may result in investors receiving less interest and/or principal than expected.

8.2 Withholding tax under the Notes

Provided that the Notes are and continue to be "listed on a recognised stock exchange" (within the meaning of section 1005 of the Income Tax Act 2007) (the "**Act**") for the purposes of section 987 of the Act, as at the date of this Prospectus no withholding or deduction for account of United Kingdom income tax will be required on payments of interest on the Notes. However, there can be no assurance that the law in this area will not change during the life of the Notes.

In the event that any withholding or deduction for or on account of any tax is imposed on payments in respect of the Notes, neither the Issuer nor any other person is obliged to gross up or otherwise compensate the Noteholders for such withholding or deduction. However, in such circumstances, the Issuer will, in accordance with Condition 8.4 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*) of the Notes, be required (subject to certain conditions) to appoint a Paying Agent in another jurisdiction or use its reasonable endeavours to arrange the substitution of a company incorporated and/or tax-resident in another jurisdiction approved in writing by the Note Trustee, as principal debtor under the Notes and the Trust Deed or, if such action would not avoid such withholding or deduction, the Seller would be entitled to exercise the Call Option, following which the Issuer will redeem the Notes.

The applicability of any withholding or deduction for or on account of United Kingdom tax on payments of interest on the Notes is discussed further under "*Taxation – United Kingdom Taxation*" below.

9. RISKS RELATING TO THE CHARACTERISTICS OF THE NOTES

9.1 Registered Definitive Notes and denominations in integral multiples

The Notes have a denomination consisting of a minimum authorised denomination of £100,000 plus higher integral multiples of £1,000. Accordingly, it is possible that the Notes may be traded in amounts in excess of the minimum authorised denomination that are not integral multiples of such denomination. In such a case, if Registered Definitive Notes are required to be issued, a Noteholder who holds a principal amount less than the minimum authorised denomination at the relevant time may not receive a Registered Definitive Note in respect of such holding and may need to purchase a principal amount of Notes such that their holding amounts to the minimum authorised denomination (or another relevant denomination amount).

If Registered Definitive Notes are issued, Noteholders should be aware that Registered Definitive Notes which have a denomination that is not an integral multiple of the minimum authorised denomination may be particularly illiquid and difficult to trade.

9.2 Book-Entry Interests

Unless and until Registered Definitive Notes are issued in exchange for the Book-Entry Interests, holders and beneficial owners of Book-Entry Interests will not be considered the legal owners or holders of the Notes under the Trust Deed. After payment to the Principal Paying Agent, the Issuer will not have responsibility or liability for the payment of interest, principal or other amounts in respect of the Notes to Euroclear or Clearstream, Luxembourg or to holders or beneficial owners of Book-Entry Interests.

A nominee for the common safekeeper for Euroclear and Clearstream, Luxembourg (such common safekeeper, the "**Common Safekeeper**") will be considered the registered holder of the Notes as

shown in the records of Euroclear or Clearstream, Luxembourg and will be the sole legal holder of the Global Note under the Trust Deed while the Notes are represented by the Global Note. Accordingly, each person owning a Book-Entry Interest must rely on the relevant procedures of Euroclear and Clearstream, Luxembourg and, if such person is not a participant in such entities, on the procedures of the participant through which such person owns its interest, to exercise any right of a Noteholder under the Trust Deed.

Except as noted in the previous paragraphs, payments of principal and interest on, and other amounts due in respect of, the Global Note will be made by the Principal Paying Agent to a nominee of the Common Safekeeper. Upon receipt of any payment from the Principal Paying Agent, Euroclear and Clearstream, Luxembourg, as applicable, will promptly credit participants' accounts with payments in amounts proportionate to their respective ownership of Book-Entry Interests as shown on their records. The Issuer expects that payments by participants or indirect participants to owners of Book-Entry Interests held through such participants or indirect participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers registered under a "street name", and will be the responsibility of such participants or indirect participants. None of the Issuer, the Note Trustee, the Security Trustee, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, the Book-Entry Interests or for maintaining, supervising or reviewing any records relating to such Book-Entry Interests.

Unlike Noteholders, holders of the Book-Entry Interests will not have the right under the Trust Deed to act upon solicitations by or on behalf of the Issuer for consents or requests by or on behalf of the Issuer for waivers or other actions from Noteholders. Instead, a holder of Book-Entry Interests will be permitted to act only to the extent it has received appropriate proxies to do so from Euroclear or Clearstream, Luxembourg (as the case may be) and, if applicable, their participants. There can be no assurance that procedures implemented for the granting of such proxies will be sufficient to enable holders of Book-Entry Interests to vote on any requested actions on a timely basis. Similarly, upon the occurrence of an Event of Default under the Notes, holders of Book-Entry Interests will be restricted to acting through Euroclear and Clearstream, Luxembourg unless and until Registered Definitive Notes are issued in accordance with the relevant provisions described herein under "*Terms and Conditions of the Notes*" below. There can be no assurance that the procedures to be implemented by Euroclear and Clearstream, Luxembourg under such circumstances will be adequate to ensure the timely exercise of remedies under the Trust Deed.

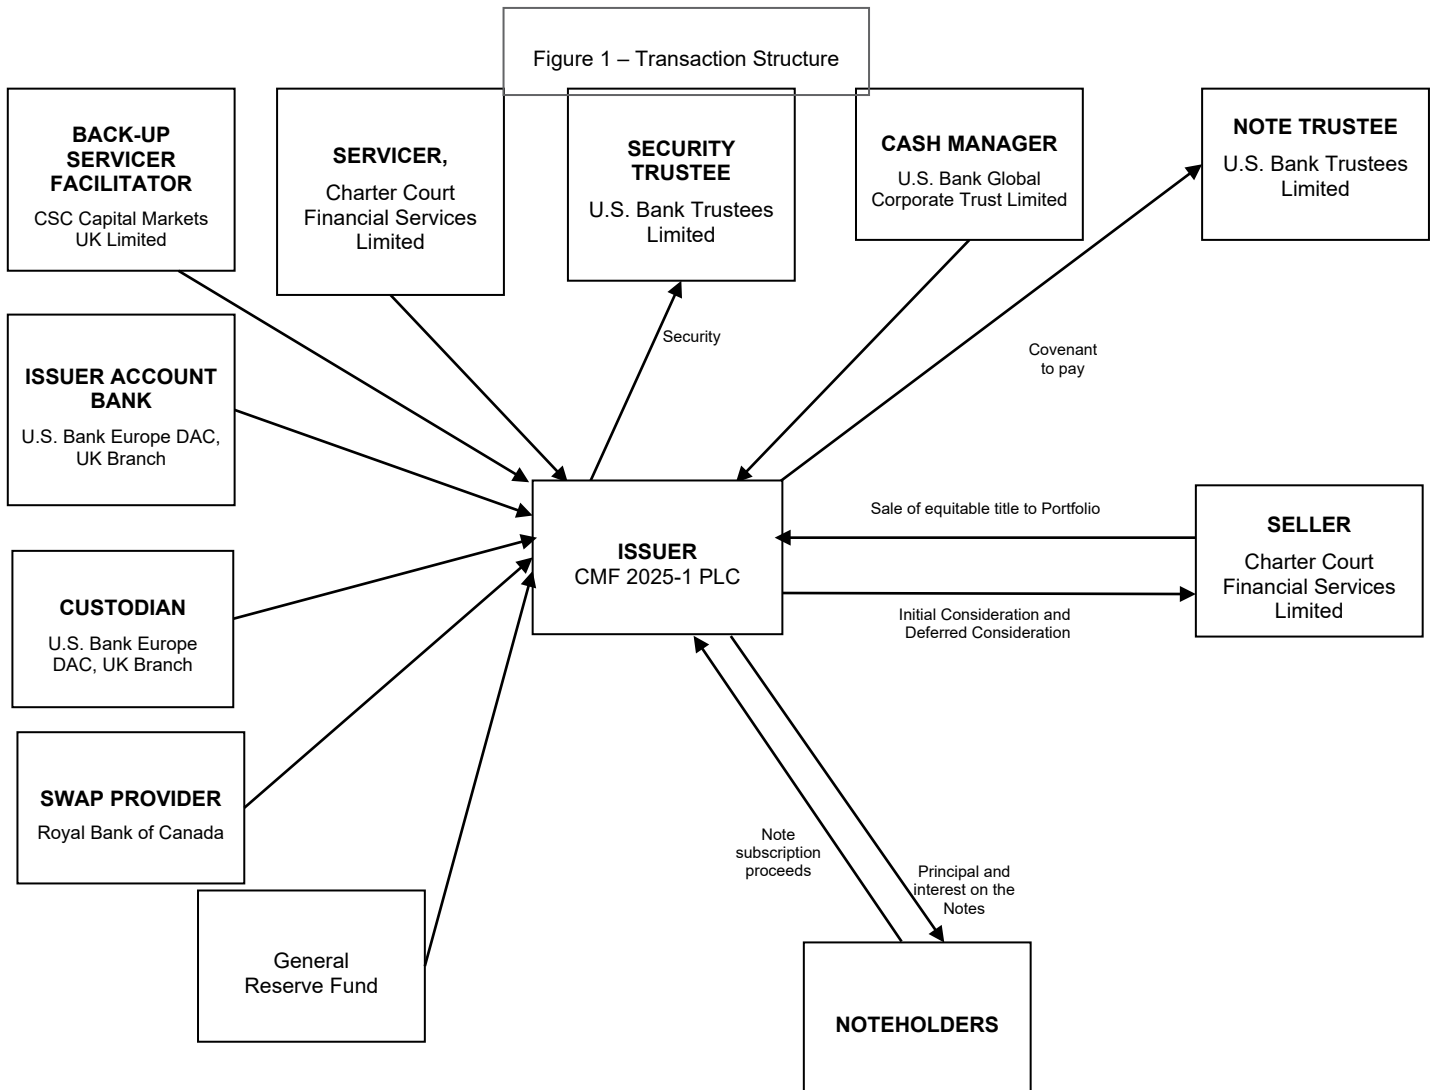

Although Euroclear and Clearstream, Luxembourg have agreed to certain procedures to facilitate transfers of Book-Entry Interests among account holders of Euroclear and Clearstream, Luxembourg, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Note Trustee, the Security Trustee, any Paying Agent, the Registrar or any of their agents will have any responsibility for the performance by Euroclear or Clearstream, Luxembourg or their respective participants or account holders of their respective obligations under the rules and procedures governing their operations.

The lack of Notes in physical form could also make it difficult for a Noteholder to pledge such Notes if Notes in physical form are required by the party demanding the pledge and hinder the ability of the Noteholder to recall such Notes because some investors may be unwilling to buy Notes that are not in physical form.

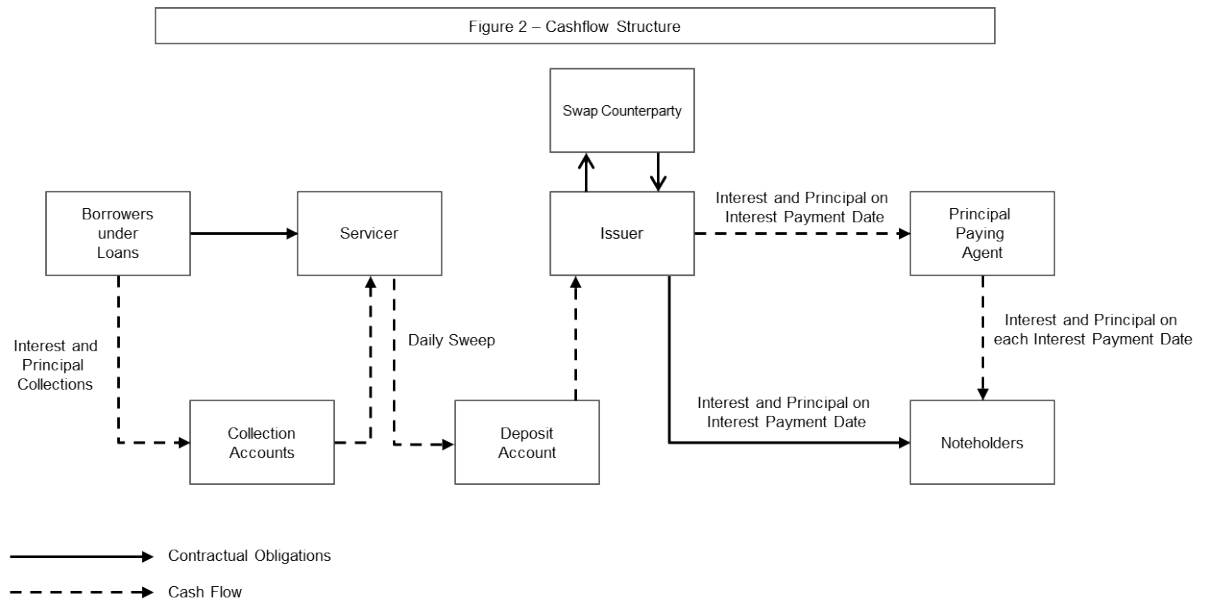

Certain transfers of Notes or interests therein may only be effected in accordance with, and subject to, certain transfer restrictions and certification requirements.

TRANSACTION OVERVIEW – PORTFOLIO AND SERVICING

Please refer to the sections entitled "Summary of the Key Transaction Documents – Mortgage Sale Agreement", "Summary of the Key Transaction Documents – Servicing Agreement", "Characteristics of the Provisional Portfolio" and "The Loans" for further detail in respect of the characteristics of the Portfolio and the sale and the servicing arrangements in respect of the Portfolio.

Sale of Portfolio:

The Portfolio will consist of the Loans and their Related Security which will be sold by the Seller to the Issuer on the Closing Date pursuant to the Mortgage Sale Agreement. The English Loans and their Related Security are governed by English law and the Scottish Loans and their Related Security are governed by Scots law.

The sale by the Seller to the Issuer of each English Loan and its Related Security in the Portfolio will be given effect by an equitable assignment.

The sale by the Seller to the Issuer of each Scottish Loan and its Related Security in the Portfolio will be given effect by a Scottish Declaration of Trust by the Seller (as the legal title holder of the Scottish Loans and their Related Security) in favour of the Issuer granted on the Closing Date.

The terms "**sale**", "**sell**" and "**sold**" when used in this Prospectus in connection with the Loans and their Related Security shall be construed to mean each such creation of an equitable interest and the beneficial interest created under and pursuant to the Scottish Declaration of Trust, as applicable. The terms "**repurchase**" and "**repurchased**" when used in this Prospectus in connection with a Loan and its Related Security shall be construed to include (A) the repurchase of the equitable interest of the Issuer in respect of such Loan and its Related Security (to the extent that it is an English Loan) and the repurchase of the beneficial interest in respect of such Loan and its Related Security (to the extent that it is a Scottish Loan) under the Scottish Declaration of Trust and release of such Loan and its Related Security from the Scottish Declaration of Trust and (B) the purchase by the Seller of such Loan and its Related Security from the Issuer pursuant to the terms of the Mortgage Sale Agreement.

Prior to the occurrence of a Perfection Event as set out below, notice of the sale of the Loans and their Related Security comprising the Portfolio will not be given to the relevant individual or individuals specified as borrowers in the Mortgage Conditions in respect of a Loan, or the individual or individuals from time to time assuming an obligation to repay (under a guarantee or otherwise) such Loan or any part of it (collectively, the "**Borrowers**" and each a "**Borrower**") and the Issuer will not apply to the Land Registry or to the Registers of Scotland to register or record its equitable or beneficial interest in the English Mortgages or take any steps to complete or perfect its title to the Scottish Mortgages.

Prior to the occurrence of a Perfection Event, the legal title to each Loan and its Related Security in the Portfolio will be held by the Seller on bare trust for the Issuer (including, in respect of a Scottish Loan, under the Scottish Trust). Following a Perfection Event and notice of the transfer of the Loans and their Related Security to the Issuer being sent to the relevant Borrowers, legal title to the Loans and their Related Security (subject to

appropriate registration or recording at the Land Registry or the Registers of Scotland (as appropriate)) will pass to the Issuer.

Please refer to the section entitled "*Summary of the Key Transaction Documents – Mortgage Sale Agreement*" for further details.

The "**Current Balance**" of a Loan means, on any date, the aggregate balance of the Loan at such date (but without double counting) including:

(a) the original principal amount advanced to the relevant Borrower secured or intended to be secured by the related Mortgage and which has not been paid, repaid or prepaid by the relevant Borrower; and

(b) any interest, disbursement, legal expense, fee, charge, rent, service charge, premium or payment which has not been paid by the relevant Borrower and which has been properly capitalised in accordance with the relevant Mortgage Conditions or with the relevant Borrower's consent and added to the amounts secured or intended to be secured by the related Mortgage; and

(c) any other amount (including, for the avoidance of doubt, Accrued Interest and Arrears of Interest) which is due or accrued (whether or not due) and which has not been paid by the relevant Borrower and has not been capitalised in accordance with the relevant Mortgage Conditions or with the relevant Borrower's consent but which is secured or intended to be secured by the related Mortgage other than any administrative fee that is paid by the Borrower for the benefit of any third party and/or retained by the Servicer in accordance with the terms of the Servicing Agreement,

on the basis of the start of day position on such date (which for the avoidance of doubt is inclusive of any interest rate accrual amount relating to the previous month or otherwise that has been applied on such day but is exclusive of any other payments or postings on such date) and any reference to the Current Balance of a loan contained in the Provisional Portfolio shall be construed as if it were a Loan contained in the Portfolio.

Consideration:

The consideration from the Issuer to the Seller in respect of the sale of the Portfolio shall be: (a) the Initial Consideration, which is due and payable on the Closing Date; and (b) Deferred Consideration payable to the Seller (or the Seller's nominee as the Seller may direct from time to time) from excess Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments or the Post-Enforcement Priority of Payments, as applicable.

"**Initial Consideration**" means £579,634,087.24.

Representations and Warranties:

The Seller will make certain Loan Warranties regarding the Loans and Related Security to the Issuer and the Security Trustee in relation to the Loans and their Related Security comprised in the Portfolio on the Closing Date.

In addition to representations and warranties in respect of the legal nature of the Loans and their Related Security, there are also asset Loan Warranties which include the following (with the complete list of warranties set out in full in the section entitled: "*Summary of the Key Transaction Documents – Mortgage Sale Agreement – Representations and Warranties*")

- (a) all of the Borrowers are individuals and were aged 21 years or older as at the date of execution of the Loan;

- (f) subject in certain appropriate cases to the completion of an application for registration or recording at the Land Registry or (as appropriate) the Registers of Scotland, the whole of the Current Balance on each Loan and all future interest, fees, costs and expenses payable under or in respect of such Loan is secured by a Mortgage or Mortgages over a residential property and each Mortgage constitutes a valid and subsisting first charge or first ranking security by way of legal mortgage or (in Scotland) standard security;

See the sections entitled "*Summary of the Key Transaction Documents – Mortgage Sale Agreement – Representations and Warranties*" and "*The Loans*" for further details.

Repurchase of the Loans and Related Security:

The Seller is liable for the repurchase of the relevant Loans and their Related Security in the following circumstances:

- upon a material breach of Loan Warranties (which the Seller fails to remedy within the agreed grace period); or
- any Loan and its related Security in respect of which a Further Advance, Port and/or, where applicable (see "*Repurchase for Product Switch Loans and Related Security*" below), a Product Switch is made.

If the Servicer is CCFS, where the Related Security in relation to a Loan has been enforced, and no further amounts are payable or are expected to be recovered in relation to that Loan and Related Security ("**Written Off Loans**"), the Seller may, at its discretion, purchase for the sum of £0.01 any residual claim that it, as the legal title holder, may have against that Borrower, provided that the shortfall debt in respect of that Written Off Loan is greater than £25. Following such purchase, the Loan and the Related Security will be released from the Security and the Secured Creditors will have no claim or further recourse to any additional amounts recovered in relation to such Written Off Loan by the Seller.

Repurchase for Product Switch Loans and Related Security:

The Seller (or the Servicer on its behalf) may offer a Borrower, or a Borrower may request, a Product Switch from time to time.

In respect of any Loans which become Product Switch Loans during a Collection Period:

- (a) if it is determined that such Product Switch Loans will not comply with the Product Switch Criteria on the Interest Payment Date following the Collection Period during which such Product Switch Loans had their Product Switch Effective Date; or

- (b) if subsequent to the Interest Payment Date referred to in paragraph (a) above it is determined that a Product Switch Loan did not comply with the Product Switch Warranties on its Product Switch Effective Date,

then the Seller will be required to repurchase:

- (c) in respect of paragraph (a) above, sufficient Product Switch Loan(s) from the Issuer on or prior to the last calendar day of the month immediately following the end of such Collection Period so that if the determination in paragraph (a) above was re-determined following such repurchase (on the basis that such repurchase shall be deemed for this purpose to occur prior to the relevant Interest Payment Date) the Seller would not be required to repurchase such Product Switch Loan(s) under this paragraph (c); or
- (d) in respect of paragraph (b) above, the relevant Product Switch Loan(s) from the Issuer on or prior to the last calendar day of the month immediately following the Collection Period during which such determination is made.

See the section entitled "*Summary of the Key Transaction Documents – Mortgage Sale Agreement – Further Advances, Porting and Product Switches – Product Switches*" for further information.

Consideration for repurchase:

The consideration payable by the Seller in respect of the repurchase of an affected Loan and its Related Security (other than in respect of Written Off Loans) shall be equal to the sum of: (a) the Current Balance of the relevant Loan (or the aggregate of the Current Balances of the relevant Loans, as the case may be) as at the last day of the Collection Period immediately preceding the date of repurchase minus (i) the amount of any reduction in Current Balance as a result of the exercise of any set-off right which the relevant Borrower(s) have against the Seller, (ii) in respect of any repurchase arising in respect of a Loan subject to a Further Advance, a Porting and/or a Product Switch, the amount of any product fee payable by the relevant Borrower in relation to such Further Advance, Porting and/or Product Switch which has been capitalised and (iii) the amount of any Further Advance; and (b) an amount equal to the Repurchase Costs (if any) in connection with such repurchase. See the section entitled "*Summary of the Key Transaction Documents – Mortgage Sale Agreement – Repurchase by the Seller*" for further information.

Perfection Events:

Transfer of the legal title of the Loans and their Related Security in the Portfolio (other than any Loan and its Related Security which has been repurchased by the Seller) to the Issuer will be completed on the occurrence of certain Perfection Events which include, *inter alia*, the insolvency of the Seller. See "*Perfection Events*" in the section entitled "*Transaction Overview – Triggers Tables – Non-Rating Triggers Table*".

Prior to the completion of the transfer of legal title of the Loans and their Related Security to the Issuer, the Issuer will hold only the equitable title or, in relation to any Scottish Loans and their Related Security, the beneficial interest in those Loans and their Related Security pursuant to the

Scottish Declaration of Trust and will therefore be subject to certain risks as set out in the risk factor entitled "*Risk Factors – Seller to initially retain legal title to the Loans and risks relating to set-off*".

Servicing of the Portfolio:

The Servicer will be appointed by the Seller and the Issuer (and, in certain circumstances, the Security Trustee) to service the Portfolio on a day-to-day basis. The appointment of the Servicer may be terminated by the Issuer and the Security Trustee upon the occurrence of certain Servicer Termination Events, which include, *inter alia*, the insolvency of the Seller (see "*Servicer Termination Events*" in the "*Transaction Overview – Triggers Tables – Non-Rating Triggers Table*").

The Servicer may also resign by giving not less than three months' notice to the Issuer and the Security Trustee and subject to, *inter alia*, a replacement servicer having been appointed. See the section entitled "*Summary of the Key Transaction Documents – Servicing Agreement*" below.

Seller may exercise the Call Option:

On or after: (i) the Optional Redemption Date; (ii) any Collection Period Start Date on which the aggregate Current Balance of the Loans (excluding any Enforced Loans) was equal to or less than 10 per cent. of the aggregate Principal Amount Outstanding of the Collateralised Notes on the Closing Date; or (iii) a change in tax law that results in the Issuer or the Swap Provider being required to make a deduction or withholding for or on account of tax or the occurrence of certain illegality events, the Seller may, pursuant to and subject to the terms of the Mortgage Sale Agreement, require the Issuer to sell and transfer to a Beneficial Title Transferee the beneficial title to all (but not some) of the Loans and their Related Security comprising the Portfolio in consideration of the Optional Purchase Price, which will result in the Collateralised Notes being redeemed in full.

See the section entitled "*Early Redemption of the Collateralised Notes*" below.

See Condition 12 (*Enforcement*) in the section entitled "*Terms and Conditions of the Notes*" for more detail.

**Relationship between
Classes of Noteholders:**

Subject to the provisions governing a Basic Terms Modification, an Extraordinary Resolution of the holders of a relevant Class of Notes shall be binding on all other holders of Classes of Notes which are subordinate to such Class of Notes in the Post-Enforcement Priority of Payments, irrespective of the effect upon them. No Extraordinary Resolution of any other Class of Noteholders shall take effect for any purpose while the Most Senior Class remains outstanding unless it shall have been sanctioned by an Extraordinary Resolution of the holders of the Most Senior Class or the Note Trustee and/or the Security Trustee (acting on the directions of the Note Trustee) is of the opinion that it would not be materially prejudicial to the interests of the holders of the Most Senior Class.

A Basic Terms Modification requires an Extraordinary Resolution of the holders of the relevant affected Class or Classes of Notes then in issue, as applicable (unless the Note Trustee and/or the Security Trustee (acting on the directions of the Note Trustee) is of the opinion that it would not be materially prejudicial to the respective interests of the holders of those affected Classes of Notes).

Subject to the provisions governing a Basic Terms Modification and the foregoing paragraphs, a resolution which, in the opinion of the Note Trustee, affects the interests of the holders of:

- (a) Notes of only one Class shall be deemed to have been duly passed if passed at a separate meeting (or by a separate resolution in writing or by a separate resolution passed by way of consents received through the relevant Clearing System(s)) of the holders of that Class of Notes so affected;
- (b) Notes of more than one Class but does not give rise to a conflict of interest between the holders of such Notes of more than one Class shall be deemed to have been duly passed if passed at a single meeting (or by a single resolution in writing or by a single resolution passed by way of consents received through the relevant Clearing System(s)) of the holders of the Notes of each such Class;
- (c) one or more Classes of Notes, and gives or may give rise to an actual or potential conflict of interest between the holders of such Notes, shall be deemed to have been duly passed only if passed at separate meetings (or by separate resolutions in writing or by separate resolutions passed by way of consents received through the relevant Clearing System(s)) of the holders of each such Class of Notes so affected;
- (d) one or more Classes of Notes, but does not give rise to an actual or potential conflict of interest between the holders of such Notes, shall be deemed to have been duly passed if passed at a single meeting (or by a single resolution in writing or by a single resolution passed by way of consents received through the relevant Clearing System(s)) of the holders of each such Class of Notes so affected; and
- (e) two or more Classes of Notes, and gives or may give rise to an actual or potential conflict of interest between the holders of such Classes of Notes, shall be deemed to have been duly passed only if passed at separate meetings (or by separate resolutions in writing or by separate resolutions passed by way of consents received through the relevant Clearing System(s)) of the holders of each such Class of Notes so affected.

"Clearing System" means Euroclear and/or Clearstream, Luxembourg and includes in respect of any Note any clearing system on behalf of which such Note is held or which is the holder or (directly or through a nominee) registered owner of a Note, in either case, whether alone or jointly with any other Clearing System(s).

Relationship between Noteholders and other Secured Creditors:

So long as any of the Notes are outstanding and there is a conflict between the interest of the Noteholders and the other Secured Creditors, the Security Trustee and the Note Trustee shall have regard to the interests of the Noteholders only.

So long as the Notes are outstanding, if there is a conflict between the interests of any Classes of Notes, the Note Trustee will have regard solely to the interests of the holders of the relevant affected Class of Notes ranking in priority to the other relevant Classes of Notes.

So long as any Notes are outstanding and there is a conflict between the interests of the Noteholders, and the other Secured Creditors, the Security Trustee will take into account the interests of the Noteholders only in the exercise of its discretion.

"Secured Obligations" means any and all of the monies and liabilities which the Issuer covenants and undertakes to pay or discharge under the Issuer's covenant to pay as set out in the Deed of Charge.

Seller as Noteholder:

For certain purposes, including the determination as to whether Notes are deemed outstanding, and for the purposes of convening a meeting (including by way of conference call, including by use of a videoconference platform) of the Noteholders, those Notes (if any) which are for the time being held by or on behalf of or for the benefit of the Seller, any holding company as defined in section 1159 of the Companies Act 2006 (a **"Holding Company"**) of any of them or any other subsidiary as defined in section 1159 of the Companies Act 2006 (a **"Subsidiary"**) of either such Holding Company (each such entity a **"Relevant Person"**), in each case as a beneficial owner, shall (unless and until ceasing to be so held) be deemed not to remain outstanding or in issue, except where all of the Notes of any Classes are held by or on behalf of or for the benefit of one or more Relevant Persons, in which case such Classes of Notes (the **"Relevant Class"**) shall be deemed to remain outstanding or in issue (as the case may be), except that, if there is any other Class of Notes ranking (with regard to the definition of Most Senior Class) *pari passu* with, or junior to, the Relevant Class and one or more Relevant Persons are not the beneficial owners of all the Notes of such Class, then the Relevant Class shall be deemed not to remain outstanding and provided that in relation to a matter relating to a Basic Terms Modification any Notes which are for the time being held by or on behalf of or for the benefit of a Relevant Person, in each case as beneficial owner, shall be deemed to remain outstanding or in issue, as applicable.

Provision of Information to the Noteholders:

CCFS as Originator shall make available or procure on demand, from the Closing Date until the Notes have been redeemed in full, a liability cashflow model (the "**Cash Flow Model**") to investors, either directly or indirectly through one or more entities which provide such Cash Flow Models, which precisely represents the contractual relationship between the Loans and the payments flowing between the Seller, investors in the Notes, other third parties and the Issuer. The Cash Flow Model shall be made available (i) prior to pricing of the Notes to potential investors, and (ii) on an ongoing basis and to investors in the Notes and to potential investors in the Notes upon request on the Reporting Website.

Based upon the requirements of the UK Securitisation Framework and EU Securitisation Regulation that are applicable as at the date of this Prospectus, until the Servicer and the Cash Manager are notified in writing by the Issuer of any differences and/or deviations from the prescribed templates to be used pursuant to the EU Securitisation Regulation or the UK Securitisation Framework (as applicable) it is expected that each EU Investor Report will be the same as each UK Investor Report (in which case the Servicer will only be required to produce one report for both requirements) and each EU Investor Report will be the same as each UK Investor Report (in which case the Cash Manager will only be required to produce one report for both requirements).

In addition, CCFS: (i) (as designated entity for the purposes of Article 7(2) of Chapter 2 of the PRA Securitisation Rules and SECN 6.3.1R(1)) will provide (or will procure the provision of) certain information and reports required pursuant to the UK Securitisation Framework; and (ii) subject to certain conditions, has contractually agreed to provide (or to procure the provision of) certain information and reports required pursuant to the EU Securitisation Regulation as such requirements exist on the Closing Date, as more fully set out under "*General Information – UK Securitisation Framework Reporting*" and "*General Information – EU Securitisation Regulation Reporting*".

The Servicer or another third party will publish, without delay, any: (i) inside information relating to the Issuer which the Issuer determines it is obliged to make in accordance with Article 17 of Regulation (EU) No. 596/2014 as it forms part of UK law by virtue of the EUWA and in accordance with the UK Transparency Rules and will be disclosed to the public by the Issuer; or (ii) any significant event pursuant to the UK Transparency Rules, in each case in accordance with the UK Transparency Rules.

The Servicer or another third party will publish, without delay, any: (i) inside information relating to the Issuer which the Issuer determines it is obliged to make in accordance with Article 17 of Regulation (EU) No. 596/2014 and in accordance with Article 7(1)(f) of the EU Securitisation Regulation and will be disclosed to the public by the Issuer; or (ii) any significant event pursuant to Article 7(1)(g) of the EU Securitisation Regulation, in each case in accordance with the EU Article 7 Technical Standards (provided that the Servicer or other third party shall comply with

any amendments to such articles and technical standards following the Closing Date at its discretion), **provided that** on and from the applicable SR Equivalency Date, references to, and obligations in respect of, the EU Securitisation Regulation shall not apply.

Please refer to the sections entitled "Credit Structure" and "Cashflows" for further detail in respect of the credit structure and cashflow of the transaction.

- payments of certain insurance premia in respect of the Block Insurance Policies (to the extent referable to the Loans);
- amounts under a Direct Debit which are repaid to the bank making the payment if such bank is unable to recoup or recall such amount itself from its customer's account or is required to refund an amount previously debited; and

General Credit Structure:

The credit structure of the transaction includes the following elements:

- the availability of the General Reserve Fund, funded on the Closing Date by part of the proceeds of the Noteholders' subscription of the Class X Notes. An amount equal to the General Reserve Fund Excess Amount will be debited from the General Reserve Fund and will be applied as Available Revenue Receipts on each Interest Payment Date. On each Interest Payment Date, to the extent that there would be a Revenue Deficit on such Interest Payment Date, an amount equal to the General Reserve Fund Release Amounts shall be debited from the General Reserve Fund Ledger immediately prior to the application of Available Revenue Receipts pursuant to the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date and applied to cure such Revenue Deficit. Any General Reserve Fund Release Amounts will be applied to meet any Revenue Deficit (subject

to the limitations set out in the definition of Revenue Deficit) against the relevant items in the Pre-Enforcement Revenue Priority of Payments in such order of priority as such items appear in the Pre-Enforcement Revenue Priority of Payments. After the Closing Date, the General Reserve Fund will be replenished up to the General Reserve Fund Required Amount on each Interest Payment Date up to and including the Final Redemption Date from Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments.

See the section "*Credit Structure – General Reserve Fund and General Reserve Fund Ledger*";

- a Principal Deficiency Ledger will be established to record any notional principal Losses corresponding to each Class of Collateralised Notes and/or any Principal Addition Amounts in reverse sequential order. Available Revenue Receipts and any General Reserve Fund Release Amounts will be applied in accordance with the Pre-Enforcement Revenue Priority of Payments to make up the relevant Principal Deficiency Ledger in sequential order. See the section "*Credit Structure – Principal Deficiency Ledger*" below;
- on or after the Optional Redemption Date or on or after the Final Redemption Date, the Issuer will treat an amount equal to the lesser of: (i) all remaining Available Revenue Receipts after payment of items (a) to (j) of the Pre-Enforcement Revenue Priority of Payments; and (ii) the amount required by the Issuer to pay in full all amounts payable under items (a) to (c) (inclusive) of the Pre-Enforcement Redemption Priority of Payments, less any Available Redemption Receipts (other than item (c) of the definition thereof) otherwise available to the Issuer, as Enhanced Amortisation Amounts and such amounts will be applied as Available Redemption Receipts;
- pursuant to item (a) of the Pre-Enforcement Redemption Priority of Payments, to the extent that, after application of the Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments, and the use of any General Reserve Fund Release Amount to meet any Revenue Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order they appear in the Pre-Enforcement Revenue Priority of Payments, there is a Senior Expenses Deficit, the Issuer shall apply an amount of Available Redemption Receipts as Principal Addition Amounts to meet any Senior Expenses Deficit (subject to the limitations set out in the definition of Senior Expenses Deficit), against the relevant items in the Pre-Enforcement Revenue Priority of Payments in such order of priority as such items appear in the Pre-Enforcement Revenue Priority of Payments. Any Available Redemption

Receipts applied as Principal Addition Amounts will be recorded as a debit to the Principal Deficiency Ledger;

- the availability of interest in respect of monies held in the Issuer Accounts and income from any Authorised Investments (other than any amount of interest and/or income received in respect of the Swap Collateral) (see the section "*Cashflows*" for further details); and
- availability of the fixed rate swap provided by the Swap Provider to hedge against the possible variance between the rates of interest payable on (i) the Fixed Rate Loans in the Portfolio or (ii) any Relevant Product Switch Loans, and a rate of interest calculated by reference to Compounded Daily SONIA.

See the section "*Credit Structure – Interest Rate Risk for the Notes*" for further details.

Bank Accounts and Cash Management:

The Issuer will open a deposit account (the "**Deposit Account**") and a swap collateral cash account (the "**Swap Collateral Cash Account**") pursuant to the Bank Account Agreement with the Issuer Account Bank on or prior to the Closing Date.

The Issuer will open a swap sterling collateral securities account (the "**Swap Collateral Securities Account**", together with the Swap Collateral Cash Account, the "**Swap Collateral Accounts**") pursuant to the Custody Agreement with the Custodian.

The Issuer may from time to time open additional or replacement accounts (including, if applicable, any securities accounts (such accounts, together with the Deposit Account and the Swap Collateral Accounts, the "**Issuer Accounts**")) pursuant to the Bank Account Agreement, the Custody Agreement and the Transaction Documents.

On each Interest Payment Date, the Cash Manager will transfer monies from the Deposit Account to be applied in accordance with the applicable Priority of Payments.

Swap Agreement:

Payments received by the Issuer under certain of the Loans will be subject to fixed rates of interest for an initial period of time. The interest amounts payable by the Issuer in respect of the Floating Rate Notes will be calculated by reference to Compounded Daily SONIA. To hedge against the potential variance between the fixed rates of interest received on (i) certain of the Loans in the Portfolio or (ii) any Relevant Product Switch Loans and the rate of interest payable on the Floating Rate Notes, the Issuer will enter into the Swap Transactions with the Swap Provider under the Swap Agreement.

- (g) the Seller is in breach of its obligations under the Mortgage Sale Agreement, but only if such breach, where capable of remedy, is not remedied to the reasonable satisfaction of (prior to the delivery of an Enforcement Notice) the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee (acting in accordance with the Deed of Charge) within 90 calendar days provided that (A) this provision shall not apply if none of the then outstanding Notes are UK STS; and (B) this provision shall be subject to such amendment as the Seller may require so long as the Seller delivers a certificate to the Note Trustee that the amendment of such provision does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework) in respect of any series or class of Notes then outstanding which are intended to satisfy the UK STS requirements; or
- (h) an encumbrancer takes possession or a Receiver is appointed to any part of the undertaking, property and assets of the Seller having an aggregate value in excess of 10% of the total assets of the Seller or a distress, diligence or execution is levied or enforced upon or sued out against any part of the chattels or property of the Seller having an aggregate value in excess of

10% of the total assets of the Seller and, in the case of any of the foregoing events, is not discharged within 30 days (the "**Attached Assets**"), unless such Attached Assets (i) relate to a different business of the Seller to that generating and/or servicing the Loans and the attachment of the encumbrance over the Attached Assets did not adversely impact the credit quality of the Seller and (ii) are not required by the Seller to enable it to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Loans,

provided that the provisions of paragraphs (g) and (h) above shall (A) not apply if the Seller has delivered a certificate to the Security Trustee that the occurrence of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework); and (B) be subject to such amendment as the Seller may require so long as the Seller delivers a certificate to the Security Trustee that the amendment of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework). The Security Trustee shall be able to rely on such certificate without further enquiry and without liability to any person.

Servicer Termination Events:

Subject to the prior written consent of the Security Trustee, the Issuer may, by notice in writing to the Servicer (with a copy to the Security Trustee and the Back-Up Servicer Facilitator), terminate the Servicer's appointment under the Servicing Agreement if any of the following events (each a "**Servicer Termination Event**") occurs and is continuing:

- (a) the Servicer defaults in the payment on the due date of any payment due and payable by it under the Servicing Agreement and such default continues unremedied for a period of 10 Business Days after:
 - (i) where the failure to pay has arisen other than as a result of a Disruption Event, upon the earlier of the Servicer becoming aware of such default and the receipt by the Servicer of written notice from the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee, as the case may be, (with a copy to the Back-Up Servicer Facilitator) requiring the same to be remedied; or
 - (ii) where the failure to pay has arisen as a result of a Disruption Event, the cessation of the Disruption Event or, if earlier, 20 Business Days following the Servicer becoming aware of such default and receipt by the Servicer of written notice from the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee, as the case may be, (with a copy to the Back-Up Servicer Facilitator) requiring the same to be remedied;

- (b) the Servicer defaults in the performance or observance of any of its other covenants and obligations under the Servicing Agreement, which failure in the reasonable opinion of the Issuer (prior to the delivery of an Enforcement Notice) or the opinion of the Security Trustee (after the delivery of an Enforcement Notice) is materially prejudicial to the interests of the Noteholders, and the Servicer does not remedy that failure within 35 Business Days after the earlier of the Servicer becoming aware of the failure or of receipt by the Servicer of written notice from the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee, as the case may be, (with a copy to the Back-Up Servicer Facilitator) requiring the Servicer's non-compliance to be remedied;
- (c) an Insolvency Event occurs in relation to the Servicer; or
- (d) it becomes unlawful in any applicable jurisdiction for the Servicer to perform any of its obligations as contemplated by the Servicing Agreement provided that this does not result or arise from compliance by the Servicer with any instruction from the Issuer or the Security Trustee.

In determining whether to give or withhold consent to the termination of the Servicer by the Issuer, the Security Trustee will have regard to factors it deems relevant (including, for this purpose, the availability of a substitute servicer and the effect (including any potential regulatory implications) on the Issuer of not having a servicer in place at any time).

The Servicer may also resign upon giving not less than three months' written notice to the Issuer, the Security Trustee and the Back-Up Servicer Facilitator, provided that, *inter alia*, a replacement servicer has been appointed by the Issuer (subject to the prior written consent of the Security Trustee).

The resignation of the Servicer is conditional on, *inter alia*:

- (a) (if the Class A Notes remain outstanding) the resignation having no adverse effect on the then current ratings of the Class A Notes unless the Security Trustee and the Class A Noteholders (the Class A Noteholders acting by way of Extraordinary Resolution) agree otherwise; and
- (b) a substitute servicer assuming and performing all the material duties and obligations of the Servicer.

"Disruption Event" means either or both of:

- (a) a material disruption to those payment or communications systems or to those financial markets which are, in each case, required to operate in order for the payments to be made in connection with a Transaction Document (or otherwise in order for the transactions contemplated by the Transaction Documents to be carried out) which disruption is not caused by, and is

beyond the control of, the relevant party seeking to rely on such disruption; and/or

- (b) the occurrence of any other event which results in the disruption (of a technical or systems related nature) to the treasury or payments operations of the party seeking to rely on such disruption which prevents that party, or any other party to the Transaction Documents, from:
 - (i) performing its payment obligations under the Transaction Documents; or
 - (ii) communicating with any other party to a Transaction Document in accordance with the terms of the relevant Transaction Documents.

See "*Summary of the Key Transaction Documents – Servicing Agreement*" below.

Risk Retention

On the Closing Date, CCFS (in its capacity as originator for the purposes of: (i) the UK Securitisation Framework and (ii) under the Transaction Documents in connection with the EU Securitisation Regulation and subject to the EU Retained Interest Conditions (defined below)) will retain on an ongoing basis a material net economic interest of not less than 5 per cent. in the securitisation (the "**Retained Interest**"): (i) in accordance with the UK Retention Rules (the "**UK Retention Requirement**"); and (ii) under the Transaction Documents in connection with Article 6(1) of the EU Securitisation Regulation (as required for the purposes of Article 5(1)(d) of the EU Securitisation Regulation) and any binding technical standards, not taking into account any relevant national measures (as contractual obligations only), but solely as such articles are interpreted and applied on the Closing Date (the "**EU Retention Requirement**" and, together with the UK Retention Requirement, the "**Retention Requirements**").

As at the Closing Date, the UK Retention Requirement and EU Retention Requirement will each be satisfied by the Seller holding the first loss tranche and other tranches having the same or a more severe risk profile than those transferred or sold to investors, in this case, represented by the retention by the Seller of the Class Z Notes: (i) in accordance with Article 6(3)(d) of Chapter 2 of the PRA Securitisation Rules; and (ii) under the Transaction Documents in connection with Article 6(3)(d) of the EU Securitisation Regulation (as required for the purposes of Article 5(1)(d) of the EU Securitisation Regulation) as though Article 6 of the EU Securitisation Regulation applied to the transaction, not taking into account any relevant national measures (as contractual obligations only), but solely as such articles are interpreted and applied on the Closing Date **provided that** on and from the applicable SR Equivalency Date (but only for so long as SR Equivalency is maintained), references to, and obligations in respect of, the EU Securitisation Regulation shall not apply. Any change to the manner in which such interest is held will be notified to investors. Certain undertakings in respect of the UK Retention Requirement and EU Retention Requirement are given by the Seller in the Mortgage Sale Agreement. Notwithstanding the above, each prospective EU Affected Investor should note that in respect of the EU Retention Requirement:

- the obligation of the Seller to comply with the EU Retention Requirement is strictly contractual pursuant to the terms of the Mortgage Sale Agreement and applies with respect to Article 6 of the EU Securitisation Regulation (as required for the purposes of Article 5(1)(d) of the EU Securitisation Regulation) and any binding technical standards, not taking into account any relevant national measures, as such articles are interpreted and applied on the Closing Date only, until the applicable SR Equivalency Date; and
- the Seller will be under no obligation to comply with any amendments to applicable EU technical standards, guidance or policy statements introduced in relation thereto after the Closing Date,

the **"EU Retained Interest Conditions"**.

Any change to the manner in which such interest is held will be notified to the Noteholders.

The Seller (in its capacity as originator for the purposes of the UK Securitisation Framework and the EU Securitisation Regulation) has provided undertakings with respect to the interest to be retained by it to: (i) the Joint Lead Managers and the Arranger in the Subscription Agreement; and (ii) the Issuer and the Security Trustee in the Mortgage Sale Agreement that, for so long as any Notes remain outstanding, it will:

- retain the Retained Interest in accordance with the applicable Retention Requirements (subject, in the case of the EU Retention Requirement, to the EU Retained Interest Conditions);

- not change the manner or form in which it holds the Retained Interest.

Transparency and Reporting

CCFS has been appointed as the designated entity under Article 7(2) of Chapter 2 of the PRA Securitisation Rules and SECN 6.3.1R(1) and has accepted such appointment.

In addition, subject to certain conditions, CCFS has contractually agreed to provide (or to procure the provision of) certain information and reports under Article 7 of the EU Securitisation Regulation as such requirements exist solely on the Closing Date (provided that it may comply with any amendments to such requirements at its discretion).

Under the Servicing Agreement, the Servicer has agreed to perform certain of CCFS's obligations under the UK Transparency Rules and certain of CCFS's contractually agreed obligations under Article 7 of the EU Securitisation Regulation, in each case as more fully set out in the sections entitled *"General Information – UK Securitisation Framework Reporting"* and *"General Information – EU Securitisation Regulation Reporting"* are published with the frequency and in the manner set out in such sections.

STS

For the purposes of the UK Transparency Rules, CCFS, being the entity responsible for reporting the information (including as applicable under SECN 6.2.1(R)) will either fulfil such requirements itself or shall procure that such requirements are complied with on its behalf, provided that CCFS will not be in breach of such undertaking if CCFS fails to so comply due to events, actions or circumstances beyond CCFS's control. For the purposes of SECN 2.2.25R to 2.2.29R (as applicable), CCFS and the Issuer are responsible for compliance with the UK Transparency Rules.

CCFS, as originator, will submit a UK STS Notification to the FCA, on or about the date of this Prospectus in accordance with SECN 2.5, confirming that the UK STS Requirements have been satisfied with respect to the Notes. It is expected that the UK STS Notification will be available on the website of the FCA (<https://data.fca.org.uk/#/sts/stssecuritisations>). For the avoidance of doubt, this website and the contents thereof do not form part of this Prospectus.

CCFS has obtained an STS assessment from PCS UK, the third party authorised under SECN 2.5.2R in connection with the STS verification and STS assessment. It is expected that the STS assessment prepared by PCS UK, together with detailed explanations of its scope, will be available on the website of PCS UK at <https://www.pcsmarket.org/sts-verification-transactions/>, together with detailed explanations of its scope at <https://www.pcsmarket.org/disclaimer/> on and from the Closing Date. For the avoidance of doubt, the websites and the contents thereof do not form part of this Prospectus. No assurance can be provided that the securitisation transaction described in this Prospectus does or will continue to qualify as a UK STS securitisation under the UK Securitisation Framework as at the date of this Prospectus or at any point in time in the future.

The Notes are not intended to be designated as a simple, transparent and standardised securitisation for the purposes of the EU Securitisation Regulation ("EU STS"). Prospective investors are themselves responsible for analysing their own regulatory position, and should consult their own advisers in this respect and should consider (and where appropriate, take independent advice on) the consequence from a regulatory perspective of the Notes not being considered an EU STS securitisation, including (but not limited to) that the lack of such designation may negatively affect the regulatory position of, and the capital charges on, the Notes and, in addition, have a negative effect on the price and liquidity of the Notes in the secondary market.

Adverse selection

Loans have not been selected to be sold to the Issuer with the aim of rendering losses on the Loans sold to the Issuer, measured over a period of four years, higher than the losses over the same period on comparable assets held on the balance sheet of CCFS.

Investors to assess compliance

Each prospective investor is required to independently assess and determine the sufficiency of the information described above and in the Prospectus generally for the purposes of complying with the UK Due Diligence Rules in the case of prospective UK Affected Investors or Article 5 of the EU Securitisation Regulation in the case of prospective EU Affected Investors, as applicable, and any corresponding national measures which may be relevant and none of the Issuer, the Arranger, the Joint Lead Managers, the Seller nor any of the other Transaction Parties makes any representation that the information described above or in the Prospectus is sufficient in all circumstances for such purposes.

For the purposes of the UK Due Diligence Rules and Article 5 of the EU Securitisation Regulation, CCFS has made available the following information (or has procured that such information is made available):

- (a) confirmation that CCFS at the time of origination of the Loans in the Portfolio originated on or after 6 January 2015 was a credit institution as defined in point (1) of Article 4.1 of the UK CRR;

- (b) confirmation that CCFS (as originator) will retain on an ongoing basis the Retained Interest in accordance with the applicable Retention Requirements (subject, in the case of the EU Retention Requirement, to the EU Retained Interest Conditions); and
- (c) confirmation that the Issuer will make available the information required by: (i) the UK Transparency Rules; and (ii) Article 7 of the EU Securitisation Regulation as such requirements exist solely on the Closing Date (provided that CCFS may comply with any amendments to such requirements at its discretion), in accordance with the frequency and modalities provided for in such articles.

Please refer to the risk factors entitled "*Risk Factors – Legal Risks and Regulatory Risks – Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes and/or decrease liquidity in respect of the Notes*" for further information on the implications of the EU Securitisation Regulation and the UK Securitisation Framework and certain other related matters.

UK CRA Regulation

The credit ratings included or referred to in this Prospectus are expected to be assigned, on issue, by Fitch and Moody's.

The UK CRA Regulation may require, among other things, issuers or related third parties intending to solicit a credit rating of a structured finance instrument to appoint at least two credit rating agencies to provide credit ratings independently of each other. As such, UK-regulated investors are required to use, for UK regulatory purposes, ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to: (i) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended; and (ii) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use, for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied. Additionally, the UK CRA Regulation requires certain additional disclosure to be made in respect of structured finance transactions. The credit ratings included or referred to in this Prospectus have been issued by Moody's and Fitch, each of which is established in the UK and is registered under the UK CRA Regulation.

For further information, please refer to the sections entitled "*Risk Factors – Regulatory initiatives may have an adverse impact on the regulatory treatment of the Notes and/or decrease liquidity in respect of the Notes*" and "*The Loans*".

The Volcker Rule

The Issuer is of the view that it is not, and solely after giving effect to any offering and sale of Notes and the application of the proceeds thereof will not be, a "covered fund" for the purposes of the Volcker Rule.

In reaching this conclusion, although other statutory or regulatory exemptions under the Investment Company Act of 1940, as amended (the "**Investment Company Act**"), and under the Volcker Rule and its related regulations, may be available, the issuing entity has relied on the determinations that: (i) it may rely on an exemption from the definition of investment company under section 3(c)(5)(C) of the Investment Company Act; and (ii) it is not structured to be a "covered fund" as defined for the purposes of the Volcker Rule. Any prospective investor in the Notes, including a U.S. or foreign bank or a subsidiary or other affiliate thereof, should consult its own legal advisers regarding such matters and other effects of the Volcker Rule.

WEIGHTED AVERAGE LIVES OF THE NOTES

The term "**weighted average life**" refers to the average amount of time that will elapse from the date of issuance of a security to the date of distribution to the relevant investor of amounts sufficient to fully repay principal in respect of such security (assuming no losses on the Loans and weighted by the principal amortisation of the Notes on each Interest Payment Date). The weighted average lives of the Notes will be influenced by, among other things, the actual rate of repayment of the Loans in the Portfolio. In addition, the weighted average lives of the Notes, should they not be called on or after the Optional Redemption Date, will be influenced by, *inter alia*, the amount of Available Revenue Receipts used as Enhanced Amortisation Amounts in accordance with item (k) of the Pre-Enforcement Revenue Priority of Payments.

The actual weighted average lives of the Notes cannot be stated, as the ultimate rate of prepayment of the Loans and a number of other relevant factors are unknown. However, calculations of the possible average lives of the Notes can be made based on certain assumptions.

The following tables were prepared based on the characteristics of the loans included in the Provisional Portfolio, the provisions of the Conditions, and the following additional assumptions (the "**Modelling Assumptions**").

Modelling Assumptions:

- (a) no Loan becomes delinquent or is enforced for so long as the Notes remain outstanding;
- (b) no Loan is required to be repurchased by the Seller, whether as a result of a breach of Loan Warranty, or otherwise;
- (c) the Notes are issued on 5 September 2025 and all payments on the Notes are received on the 16th day (or on a day specified by the swap schedule provided) of each month, with the first Interest Payment Date falling on 16th October 2025;
- (d) the Portfolio as at the beginning of the first Collection Period is the same as the Provisional Portfolio as at the Portfolio Reference Date;
- (e) no interest accrues on the Deposit Account;
- (f) Compounded Daily SONIA is equal to 3.95 per cent.;
- (g) the fixed rate under the Swap Agreement is 3.65 per cent.;
- (h) the weighted average margin over Compounded Daily SONIA of the Collateralised Notes is 0.20 per cent. on the Closing Date and from (and including) the Optional Redemption Date, the Class A Note margin over Compounded Daily SONIA is multiplied by 1.5;
- (i) no Enforcement Notice is served on the Issuer, no Event of Default has occurred and the Security is not enforced;
- (j) amounts required to pay items (a) to (c) and (e) of the Pre-Enforcement Revenue Priority of Payments on each Interest Payment Date are:
 - (i) £228,000, per annum; and
 - (ii) 0.25 per cent. of the aggregate Current Balance of the Loans at the start of each Collection Period, per annum, where each Interest Period consists of the actual number of days in the relevant period and 365 days in the relevant year;

- (k) the Swap Agreement is not terminated and the Swap Provider fully complies with its obligations under the Swap Agreement;
- (l) with respect to the Loans, each month consists of 30 calendar days, and each year, 360 days, and with respect to the Notes and the Swap Transactions, each month consists of the actual number of days in the relevant month and 365 days in the relevant year;
- (m) the Principal Amount Outstanding of the Notes as at the Closing Date is, in the respect of the Class A Notes 91.25 per cent. and, in respect of the Class Z Notes 8.75 per cent. and, in respect of the Class X Notes 1.25 per cent. of the aggregate current balance of the Loans assuming current balance of the Loans is £592,197,957.84;
- (n) BBR is equal to 4.00 per cent.; and
- (o) no Loan is the subject of any Product Switch.

The actual characteristics and performance of the Loans are likely to differ from the Modelling Assumptions. The following tables are hypothetical in nature and are provided only to give a general sense of how the principal cashflows might behave under various prepayment scenarios. For example, the Issuer does not expect that the Loans will prepay at a constant rate until maturity, or that there will be no defaults or delinquencies on the Loans. Any difference between the Modelling Assumptions and, *inter alia*, the actual prepayment or loss experience on the Loans will affect the redemption profile of the Notes and cause the weighted average lives of the Notes to differ (which difference could be material) from the corresponding information in the tables for each indicated CPR.

"CPR" means, on any Calculation Date, the annualised principal prepayment rate of all the Loans during the previous Collection Period calculated as follows:

$$1 - ((1-R)^{(12))}$$

where R equals the result (expressed as a percentage) of the total principal prepayments received by the Issuer during the immediately preceding Collection Period divided by the aggregate outstanding principal balance of the Loans as at the first day of that Collection Period.

EARLY REDEMPTION OF THE COLLATERALISED NOTES

The Seller may exercise the Call Option granted by the Issuer pursuant to the Mortgage Sale Agreement, requiring the Issuer to sell the Portfolio. The Issuer is not permitted to dispose of the Portfolio in any other circumstances (other than in relation to an enforcement of the Security or the repurchase of a Loan and its Related Security by the Seller pursuant to the Mortgage Sale Agreement).

Pursuant to and subject to the terms of the Mortgage Sale Agreement, the Issuer will grant to the Seller the following rights (collectively, the "**Call Option**"), which may be exercised at any time on or after the Optional Purchase Commencement Date, the right to require the Issuer to sell and transfer to the Seller or a Third Party Purchaser (as identified in the Exercise Notice, the "**Beneficial Title Transferee**") the beneficial title to all (but not some) of the Loans and their Related Security comprising the Portfolio (the "**Whole Beneficial Title**") in consideration for the Optional Purchase Price.

The Call Option may be exercised at any time on or after the Optional Purchase Commencement Date by notice from the Seller to the Issuer, with a copy to the Security Trustee and each of the Rating Agencies (such notice, an "**Exercise Notice**"), that the Seller wishes to exercise the Call Option, for effect on an Interest Payment Date following the service of the Exercise Notice (the Interest Payment Date identified as the date on which the purchase by the Beneficial Title Transferee of the Whole Beneficial Title is expected to be completed pursuant to the terms of the Mortgage Sale Agreement being the "**Optional Purchase Completion Date**").

Optional Purchase Price

The purchase price for the Loans and their Related Security comprising the Portfolio pursuant to the Call Option shall be an amount equal to the greater of:

- (a) the aggregate Current Balance of the Loans (excluding any Enforced Loans) comprising the Portfolio determined as at the Collection Period Start Date immediately preceding the Optional Purchase Completion Date; and
- (b) without double counting, the greater of:
 - (i) zero; and
 - (ii) an amount equal to:
 - (A) the amount required by the Issuer to pay in full all amounts payable under items (a) to (j) (inclusive) of the Pre-Enforcement Revenue Priority of Payments and items (a) to (c) (inclusive) of the Pre-Enforcement Redemption Priority of Payments, in each case on the immediately following Interest Payment Date;

less
 - (B) any Available Revenue Receipts and Available Redemption Receipts otherwise available to the Issuer, excluding any amounts standing to the credit of the General Reserve Fund,

in each case, plus: (i) the Issuer's costs and expenses associated with transferring its interests in any Loan and its Related Security to the Seller or its nominee (if any); (ii) an amount agreed between the Issuer and the Seller in respect of costs anticipated to be incurred by the Issuer after the Optional Purchase Completion Date and (iii) the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger on the Optional Purchase Completion Date (such amount being for the account of the Seller) (the "**Optional Purchase Price**").

Redemption of the Collateralised Notes

On the Optional Purchase Completion Date, the Optional Purchase Price (excluding an amount equal to the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger, which such amount shall be paid directly to the Seller without regard to the Priorities of Payments) will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments and will result in the Collateralised Notes being redeemed in full.

Any Revenue Receipts or Redemption Receipts received by the Issuer from and including the Collection Period Start Date immediately prior to the Optional Purchase Completion Date up to and including the Optional Purchase Completion Date (such amounts being "**Optional Purchase Collections**") will be payable to or for the account of the Beneficial Title Transferee and the Issuer shall transfer all such amounts to or for the account of the Beneficial Title Transferee on the Optional Purchase Completion Date.

THE LOANS

The Portfolio

Introduction

The following is a description of some of the characteristics of the Loans including details of loan types and selected statistical information.

The Seller procured the selection of the Loans for transfer into the Provisional Portfolio, using a system containing defined data on each of the qualifying loans. This system allows the setting of exclusion criteria, among others, corresponding to relevant Loan Warranties that the Seller will make in the Mortgage Sale Agreement in relation to the Loans. Once the criteria have been determined, the system identifies all loans owned by the Seller that are consistent with the criteria. The Loans selected for transfer into the Provisional Portfolio are representative of the residential owner-occupied loans meeting the selection criteria which the Seller holds immediately prior to the sale of the Portfolio. After a pool of Loans is selected in this way, the constituent Loans are monitored so that they continue to comply with the Loan Warranties on the Closing Date.

Unless otherwise indicated, the description that follows relates to types of loans that could be sold to the Issuer as part of the Portfolio as at the Closing Date.

The Portfolio

The Portfolio from time to time after the Closing Date will comprise loans advanced to the Borrowers upon the security of owner-occupied residential property situated in England, Wales or Scotland, such loans acquired pursuant to the Mortgage Sale Agreement and the Scottish Declaration of Trust (as applicable), other than Loans which have been repaid or which have been purchased from the Issuer pursuant to the Mortgage Sale Agreement and the Scottish Declaration of Trust (as applicable).

There has been no revaluation of any Property for the purposes of the issuance of the Notes and the valuations quoted are those obtained prior to the origination of the Loans in accordance with the Lending Criteria.

Origination of the Portfolio

The Portfolio comprises Loans originated by CCFS under its trading names of Precise or Precise Mortgages.

Security

All of the Loans are secured by first ranking mortgages.

Characteristics of the Loans

Interest Rate Types

The Portfolio consists of Loans which have a fixed rate of interest for an initial specific period, and after that initial specific period, a variable interest rate (the "**Floating Mortgage Rate**") that is based on BBR plus, for each mortgage, a fixed margin expressed as a percentage over the Floating Mortgage Rate.

The assessment of a Borrower's creditworthiness is conducted in accordance with the Lending Criteria and, where appropriate, shall meet the requirements set out in Article 8 of Directive 2008/48/EC or paragraphs 1 to 4, point (a) of paragraph 5, and paragraph 6 of Article 18 of Directive 2014/17/EU. In the UK, the FCA has equivalent requirements, including under the Consumer Credit Sourcebook (CONC 5.2A) and MCOB 11.6.

Repayment Terms

Loans may combine one or more of the features listed in this section. Other customer incentives may be offered with the product including free valuations and payment of legal fees. Overpayments are allowed on all products, within certain limits. See "*Overpayments and Early Repayment Charges*" below.

Loans are typically repayable on one of the following bases:

- **Repayment Loan:** the Borrower makes monthly payments of both interest and principal so that, when the Loan matures, the full amount of the principal of the Loan will have been repaid;
- **Interest-only Loan:** the Borrower makes monthly payments of interest but not of principal so that, when the Loan matures, the entire principal amount of the Loan is still outstanding and is payable in one lump sum; and
- a combination of both these options.

The required monthly payment in respect of the Loans may alter from month to month for various reasons, including changes in interest rates.

For Interest-only Loans, because the principal is repaid in a lump sum at the maturity of the loan, the Borrower is required to have a credible repayment strategy (such as an investment plan or the sale of the property) which is intended to provide sufficient funds to repay the principal at the end of the term.

Principal prepayments may be made in whole or in part at any time during the term of a Loan, subject to the payment of any Early Repayment Charges (as described in "*Overpayments and Early Repayment Charges*" below). A prepayment of the entire outstanding balance of a loan discharges the mortgage. Any prepayment in full must be made together with all accrued interest, arrears of interest, any unpaid expenses and any applicable repayment fee(s).

Various methods are available to Borrowers for making payments on the Loans, including:

- Direct Debit from a bank or building society account; and
- Standing Order from a bank or building society account.

Overpayments and Early Repayment Charges

Overpayments – Overpayments of principal in full or in part are allowed on all products, although an Early Repayment Charge may be payable. Borrowers may either increase their regular monthly payments above the normal monthly payment then applicable or make lump sum payments at any time.

Early Repayment Charges – The Borrower may be required to pay an Early Repayment Charge if certain events occur during an initial predetermined product period and the Servicer has not waived or revised its policy with regards the payment of early repayment charges. These events include a full or partial unscheduled repayment of principal (above a nominal amount) prior to the loan's reversion date. If all or part of the principal owed by the Borrower, other than the scheduled monthly payments, is repaid before the end of the initial product period, the Borrower will be liable to pay to the Seller (for the benefit of the Issuer) a repayment fee based on the amount repaid.

Title to the Portfolio

Pursuant to and under the terms of the Mortgage Sale Agreement and the Scottish Declaration of Trust (as applicable) dated on or about the Closing Date, the Seller will transfer to the Issuer the equitable or (in respect of the Scottish Loans will procure the transfer of) beneficial title to the Loans and their Related Security. The

Seller has agreed to transfer legal title to the Loans and their Related Security to the Issuer, and the Issuer has undertaken to seek the transfer of legal title, only following the occurrence of a Perfection Event (as set out below).

None of the above-mentioned transfers to the Issuer is to be completed by registration at the Land Registry or the Registers of Scotland (as the case may be) or notice given to the relevant Borrowers until the occurrence of one of the events mentioned below. The English Loans in the Portfolio and their Related Security are accordingly owned in equity only by the Issuer and the Scottish Loans in the Portfolio and their Related Security are accordingly held on trust for the Issuer, in each case, pending such registration and notification. Legal title in the Loans and their Related Security will continue to be vested in the Seller until the occurrence of a Perfection Event. In the case of the Loans secured over registered land in England or Wales or registered or recorded land in Scotland which will be transferred to the Issuer on the Closing Date, the Seller has agreed to remain on the Land Registry or the Registers of Scotland, as applicable, as the legal mortgagee or as heritable creditor. Following the occurrence of a Perfection Event, the Seller has agreed, in the Mortgage Sale Agreement, to transfer legal title to the Issuer, which transfer will be perfected by steps including filing forms and assignments of standard securities at the Land Registry or the Registers of Scotland, as applicable, and notifying the Borrowers of such transfer, as applicable, by the Issuer.

The Issuer will grant a first fixed charge in favour of the Security Trustee over its interest in the Loans (being, in respect of the Scottish Loans, an assignation in security of its interest in and to the Scottish Declaration of Trust and the trust constituted thereunder).

Save as mentioned below, the Security Trustee has undertaken not to effect any registration at the Land Registry to perfect the sale of the Loans to the Issuer or the granting of security over the Loans by the Issuer in favour of the Security Trustee nor, save as mentioned below, to obtain possession of Title Deeds to the properties the subject of the Loans.

Notices of the equitable assignments or declarations of trust in favour of the Issuer and the security in favour of the Security Trustee will not, save as mentioned below, be given to the Borrowers under the Loans.

As noted above, until the occurrence of a Perfection Event, the Issuer and the Security Trustee will not take actions to effect a transfer of legal title to the Loans and their Related Security to the Issuer. The following events constitute Perfection Events:

- (a) the Seller being required to perfect legal title to the Loans by an order of a court of competent jurisdiction or by a regulatory authority which has jurisdiction over the Seller or by any organisation of which the Seller is a member, or whose members comprise (but are not necessarily limited to) mortgage lenders and with whose instructions it is customary for the Seller to comply, to perfect legal title to the Loans and their Related Security; or
- (b) it becoming necessary by law to do any or all of the acts referred to in paragraph (a) above; or
- (c) the security created under or pursuant to the Deed of Charge or any material part of that security being, in the opinion of the Security Trustee, in jeopardy; or
- (d) the Seller calling for perfection by serving notice in writing to that effect on the Issuer and the Security Trustee; or
- (e) an Insolvency Event occurring in relation to the Seller; or
- (f) it becoming unlawful in any applicable jurisdiction for the Seller to hold legal title in respect of any Loan in the Portfolio; or
- (g) the Seller is in breach of its obligations under the Mortgage Sale Agreement, but only if such breach, where capable of remedy, is not remedied to the reasonable satisfaction of (prior to the delivery of an

Enforcement Notice) the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee (acting in accordance with the Deed of Charge) within 90 calendar days provided that (A) this provision shall not apply if none of the then outstanding Notes are UK STS; and (B) this provision shall be subject to such amendment as the Seller may require so long as the Seller delivers a certificate to the Note Trustee that the amendment of such provision does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework) in respect of any series or class of Notes then outstanding which are intended to satisfy the UK STS requirements; or

- (h) an encumbrancer takes possession or a Receiver is appointed to any part of the undertaking, property and assets of the Seller having an aggregate value in excess of 10% of the total assets of the Seller or a distress, diligence or execution is levied or enforced upon or sued out against any part of the chattels or property of the Seller having an aggregate value in excess of 10% of the total assets of the Seller and, in the case of any of the foregoing events, is not discharged within 30 days (the "**Attached Assets**"), unless such Attached Assets (i) relate to a different business of the Seller to that generating and/or servicing the Loans and the attachment of the encumbrance over the Attached Assets did not adversely impact the credit quality of the Seller and (ii) are not required by the Seller to enable it to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Loans,

provided that the provisions of paragraphs (g) and (h) above shall (A) not apply if the Seller has delivered a certificate to the Security Trustee that the occurrence of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework); and (B) be subject to such amendment as the Seller may require so long as the Seller delivers a certificate to the Security Trustee that the amendment of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework). The Security Trustee shall be able to rely on such certificate without further enquiry and without liability to any person.

"**OSB Group**" means the consolidated group regulated by the PRA of which CCFS is a member.

Following the occurrence of a Perfection Event, the Issuer and the Security Trustee will each be entitled to take all necessary steps to perfect legal title to its interests in the Loans and their Related Security, including the carrying out of any necessary registrations, recordings and notifications. In furtherance of these rights, the Seller has granted the Issuer and the Security Trustee an irrevocable power of attorney to take certain action in the name of the Seller (including action required to perfect a legal transfer of the Loans and their Related Security).

Warranties and Breach of Warranties in relation to the Loans

The Mortgage Sale Agreement contains certain representations and warranties given by the Seller in favour of the Issuer in relation to the Loans and their Related Security sold to the Issuer pursuant to the Mortgage Sale Agreement.

No searches, enquiries or independent investigation of title of the type which a prudent purchaser or mortgagee would normally be expected to carry out have been or will be made by the Issuer. The Issuer will rely entirely on the benefit of the representations and warranties given to it under the Mortgage Sale Agreement.

If there is an unremedied material breach of any of the Loan Warranties given under the Mortgage Sale Agreement, then the Seller is required to repurchase the relevant Loan pursuant to the Mortgage Sale Agreement for consideration in cash equal to the sum of: (a) the Current Balance of the relevant Loan (or the aggregate of the Current Balances of the relevant Loans, as the case may be) as at the last day of the Collection Period immediately preceding the date of repurchase minus (i) the amount of any reduction in Current Balance as a result of the exercise of any set-off right which the relevant Borrower(s) have against the Seller, and (ii)

the amount of any Further Advance; and (b) an amount equal to the Repurchase Costs (if any) in connection with such repurchase. If a Loan has never existed, or has ceased to exist, such that it is not outstanding on the date on which it is due to be repurchased then the Seller shall indemnify the Issuer and the Security Trustee against any loss, costs or expenses suffered by reason of any Loan Warranty relating to or otherwise affecting that Loan being untrue or incorrect.

Lending Criteria

As at the date of this Prospectus, CCFS offers a number of different products, including first ranking mortgage loans and bridging loans.

Security

The loans comprised in the Portfolio will all consist of loans originated by the Seller and secured by (in the case of English Loans) a first charge or (in the case of Scottish Loans) a first ranking standard security against residential properties located in England or Wales (in the case of English Loans) or Scotland (in the case of Scottish Loans). All relevant Borrowers are required to have (in respect of an English Loan) good and marketable title or (in respect of a Scottish Loan) valid and marketable heritable or long lease title to the relevant Property free from any encumbrance (except the relevant Mortgage) which would adversely affect such title.

Only properties of suitable construction are considered acceptable as security and properties including (but not limited to) the following are not acceptable to CCFS:

- property where commercial usage exceeds 20 per cent.;
- flats or maisonettes in blocks exceeding 15 storeys (before to July 2015) and 20 storeys (thereafter);
- mobile homes and houseboats;
- property where saleability may be adversely affected by local planning or by an unsatisfactory mining search; and
- any other property deemed unsuitable security by the valuer.

CCFS does not accept any re-mortgage applications within 12 months of either the original purchase date of the property or (before August 2022) the last re-mortgage date, other than (i) where the application is to exit a bridging loan which, before May 2024 must have been provided by CCFS or (ii) from December 2015, where the property in question has recently been inherited.

Borrowers

In relation to its residential owner-occupied lending, CCFS lends to individuals only and not to companies. Individuals are required to (a) be a national of the UK, (b) be a national of a Member State of the European Economic Area, or (c) otherwise have permanent rights to reside in the UK. Where individuals qualify under either (b) or (c) they are also required to have been a resident in the UK for the last 3 years.

The minimum age of borrowers at the time of application is 21 years old. The maximum age of contributory borrowers at the end of the mortgage term is 75 years old or (from May 2024) a borrower's stated retirement age. Non-contributory applicants (i.e., income not required to support the loan) may be up to 85 years old at the end of the mortgage term.

The maximum number of applicants for a loan is two.

Loan amount

The minimum loan amount is £25,001 and the maximum single loan amount was £2,000,000 before March 2025 and £5,000,000 thereafter.

Loan term

The minimum term of a loan is five years, and the maximum term was 30 years (before February 2016) or 35 years (thereafter).

Loan to value

The loan to value ("LTV") in relation to purchases is calculated by dividing the total amount of the loan (net of fees) by the current market value determined by the valuation or the purchase price of the property (whichever is the lower). The maximum LTVs are indicated in the following table (net of any amounts added to the loan in respect of fees):

<u>Loan size</u>	<u>Up to April 2018</u>	<u>From April 2018 to March 2025</u>	<u>From March 2025</u>
Up to £300,000	85%	85%	95%
Up to £500,000	80%	85%	95%
Up to £750,000	70%	80%	95%
Up to £1,000,000	70%	70%	95%
Up to £2,000,000	60%	60%	95%
Up to £3,000,000	N/A	N/A	90%
Up to £5,000,000	N/A	N/A	85%

Any arrangement (product) fees and bank transfer fees could be added to the balance of the Loan resulting in a higher maximum LTV (capped at 88% (before March 2025) and 97% (thereafter)). In relation to re-mortgages, the maximum LTV available is calculated based on the current market value determined by the valuation.

Valuations are carried out in accordance with a valuation methodology as would be acceptable to a Reasonable, Prudent Residential Mortgage Lender. The valuers panel is maintained (including the appointment of valuer firms to the panel) by the credit risk department of CCFS with no involvement of sales or product staff. Likewise, sales and product staff are not involved in the selection of the valuer firm from the valuers panel engaged to carry out the valuation of the Properties in connection with each Loan.

Repayment basis

Until May 2017, Interest-Only Loans and Loans which were partially a Repayment Loan and partially an Interest-Only Loan were not permitted. From May 2017, loans originated on an Interest-Only Loans were acceptable up to a maximum of 65% LTV and Loans which were partially a Repayment Loan and partially an Interest-Only Loan were acceptable up to a maximum of 75% LTV (subject to a maximum 50% Interest-Only Loan element). Each Help to Buy Loan was required to be a Repayment Loan.

Where there was any element of interest-only repayment, the means of ultimate repayment was required to be validated and recorded to the Servicer's system.

For Interest-Only Loans, the Borrower was required to have a credible repayment strategy, which was intended to provide sufficient funds to repay the principal at the end of the term. The value of the repayment vehicle must be at least equal to the net loan amount at the time of application.

Acceptable repayment vehicles are:

- sale of security – subject to a minimum £150,000 equity at origination;
- savings / investments;
- sale of an additional property; and
- pension.

Affordability

All borrowers must pass affordability in consideration of the total amount of the loan (i.e., inclusive of application fees). The interest rate applied to the affordability calculation is defined as follows:

- if the product is a floating rate product, the higher of the incentive or reversion rate stressed by a figure determined by the 60-months Bank of England forward sterling rate (subject to a 3% minimum);
- if the product is a fixed rate product for less than 5 years:
 - before March 2025, the reversion rate stressed by a figure determined by the 60-months Bank of England forward sterling rate (subject to a 3% minimum). However, if the reversion rate plus the stress rate is less than the incentive rate, then the incentive rate applies; and
 - thereafter, the higher of the incentive or reversion rate stressed by 1.25%; and
- if the product is a fixed rate product for a period equal to or more than five years, the incentive rate.

Adverse credit history

The normal allowable adverse credit requirements for Loans comprising the Portfolio were as follows

- county court judgments (or the Scottish equivalent): none in the preceding 72 months;
- defaults: none in the preceding two years;
- bankruptcy, individual voluntary arrangement (IVA), debt relief order, repossession or debt management plan: none in the preceding 72 months;
- missed mortgage/secured loan payments: none in the preceding 12 months, one month in the preceding 36 months (worst status); and
- unsecured arrears: not counted but may affect credit score.

Servicing of the Portfolio

The Servicer will be required from the Closing Date to service the Portfolio as an agent of the Issuer and the Security Trustee and, where applicable, the Seller under and in accordance with the terms of the Servicing Agreement. The duties of the Servicer will include, among other things:

- service the Loans and their Related Security with due and proper regard to the principles and procedures set out in the Servicing Agreement and the Servicing Policies;
- operating the Collection Accounts and ensuring that payments are made into and from the Collection Accounts in accordance with the Servicing Agreement;
- notifying the Borrowers of any change in their Monthly Instalments;
- providing a redemption statement upon the request of a Borrower or the Borrower's solicitor or licensed or (in Scotland) qualified conveyancer;
- taking all reasonable steps to recover all sums due to the Issuer, including by the institution of proceedings and/or the enforcement of any Mortgage or any Related Security; and
- taking all action and doing all things which it would be reasonable to expect a Reasonable, Prudent Residential Mortgage Servicer to do in administering its mortgages.

The Servicer may, from time to time and at its own cost and without the consent of any other party to Servicing Agreement, make any modifications to the Servicing Policies in accordance with the standard of a Reasonable, Prudent Residential Mortgage Servicer.

"CMF 2025-1 Collection Account" means the account held in the name of CCFS with the Collection Account Bank into which amounts received in respect of the Loans from the Borrowers shall be paid.

"Collection Accounts" means (i) the CMF 2025-1 Collection Account and (ii) the Non-DD Collection Account, and any other replacement or additional collection account of CCFS in respect of which amounts are received in respect of the Loans and their Related Security in the Portfolio.

"Collections" means Revenue Receipts and Redemption Receipts.

"Non-DD Collection Account" means the account held in the name of CCFS with the Collection Account Bank into which amounts received in respect of certain of the Loans arising by way of non-Direct Debit payments from the Borrowers shall be paid.

"Reasonable, Prudent Residential Mortgage Servicer" means a reasonably prudent residential mortgage servicer who is servicing residential mortgage loans and their collateral security in respect of residential property in England, Wales or Scotland and which have in all material respects the same or similar characteristics to the Portfolio and are originated, administered and held to maturity to lending standards, lending criteria and procedures as ought to have been applied in relation to the Portfolio or, if the relevant context relates to a specific Loan, as ought to have been applied in relation to such Loan.

"Servicing Policies" means the Servicer's servicing, arrears, forbearance and enforcement policies applied by the Servicer from time to time to the Seller's loans and the security for their repayment.

Product Switches

As at the date of this Prospectus, Precise offers retention products to its customers to support them in accessing more suitable or cost-effective options where available. Starting approximately three months prior to the end of a borrower's initial rate period, Precise writes to all borrowers that are up to date or become up to date stating that their product is coming to the end of the initial term and that they should contact their broker about options. Borrowers that were previously in arrears but are now up to date are also eligible for a Product Switch. If a borrower contacts a broker, the broker will contact Precise who will confirm Product Switch rates over the phone or via email, and the broker will then make the borrower aware of the products currently on offer. Brokers can also view current product offers on Precise's website but cannot start the Product Switch process before contacting Precise directly. A borrower may change their mind as to whether or not to accept a Product

Switch from Precise at any point up to (but excluding) the date on which their new rate becomes effective, without any fee or penalty being paid.

Precise does not re-underwrite a loan subject to a Product Switch. No new valuation is conducted nor is the loan re-checked against the Lending Criteria described above, although if a loan is known to be in material breach of the Mortgage Conditions, a Product Switch would not be offered until such breach is remedied. Further, Precise does not reassess affordability on a Product Switch on the basis that the borrower will pay a lower rate on the new product when compared to their reversion rate of their current product. Nonetheless, if a loan or borrower is found to have been in material breach of the Mortgage Conditions as at the Product Switch Effective Date, the Seller will be required to repurchase any relevant Loan and its Related Security in accordance with the repurchase provisions in the Mortgage Sale Agreement. See the section entitled "*Summary of the Key Transaction Documents – Mortgage Sale Agreement – Repurchase by the Seller*" for further information.

Arrears management and forbearance policy

Delinquency and default of debtors, debt restructuring, debt forgiveness, forbearance, payment deferrals, losses, charge offs, recoveries and other asset performance remedies are defined in accordance with the Servicer's Servicing Policies.

The Servicer proactively monitors accounts for missed payments in order to act quickly to avoid foreseeable harm. A loan is identified as being in arrears when the aggregate of all amounts overdue is at least equal to the monthly payment then due. The arrears are reported monthly after the amount has been identified, unless the arrears have been reduced in the meantime to an amount less than the monthly payment then due.

The aim of the Servicer's financial support approach is to support customers who find themselves in financial difficulty and to proactively manage the collection of overdue payments by seeking to identify the cause of the payment difficulties at the earliest opportunity (including whether the issue is long or short term) and by helping the customer to gain control of the situation, preventing unnecessary deterioration. The Servicer will act in good faith when dealing with customers that have missed payments or are in financial difficulty and the arrears will be handled sympathetically with a view to providing good outcomes, and in accordance with regulatory guidance and rules.

The Servicer will effectively engage with the customer to resolve the arrears/payment difficulty taking into account the customer's individual financial circumstances, including other secured and unsecured borrowing, and their ability to maintain / sustain any proposed payment plan.

The Servicer will be transparent about the range of options available and discuss all suitable options with the customer in order to agree the most appropriate and fair treatment that is in the best interests, supports their financial objectives, and avoids foreseeable harm. This may involve a mosaic approach to forbearance, where a combination of different measures are used in tandem. These tools are intended to be used in conjunction with each other, potentially incorporating both short-term and long-term options to provide a comprehensive solution.

Regular reviews are undertaken to ensure that any plan continues to be suitable and, where appropriate, an account will be referred to the appropriate mandate holder to agree next steps.

Initial contact will be attempted at the earliest opportunity following a failed payment. Whilst the account remains in arrears and no contact or arrangement has been made, the Servicer will proactively attempt to contact the customer, send regular letters to make the customer aware of the consequences of continued non-payment and will proactively continue to attempt contact throughout the collections and litigation process in order to manage the account until the arrears are cleared or an acceptable arrangement has been made.

In all instances (except where other methods are required due to characteristics of vulnerability), telephone contact will be attempted to endeavour to resolve the situation early, prevent further decline, establish the

reasons for the arrears/payment difficulty, understand the customer's individual financial circumstances. Alternative contact methods of letter, SMS (where facility exists) and email will be attempted where appropriate. The Servicer will act in good faith and build an early rapport with the customer with the ultimate goal of agreeing an affordable and sustainable solution that is in their best interests and helps them towards their financial objectives.

The Servicer has adopted various approaches to maximise the potential of helping customers to repay their Loan should they fall into arrears, or foresee future difficulties. This may include, if appropriate, the use of forbearance tools e.g. conversion to interest only, extending the mortgage term, capitalisation of arrears, allowing a reasonable period of time for a sale of a property to proceed upon the receipt of certain documents from solicitors/estate agents, or a mutually agreed means tested arrangement for the repayment of the arrears, some of which are described in more detail below. The use of all available forbearance tools will be considered for all accounts (both up to date and in arrears) where the customer is in financial difficulty and applied where appropriate to the customer's individual circumstances. This may comprise a single or multiple tools used together at a point in time or throughout the life of the account as the customer's circumstances require.

The primary aim of forbearance is to provide support as appropriate to the customer's circumstances for those yet to miss a payment and those in arrears and where possible enable the complete recovery of the mortgage through the full repayment of arrears. In circumstances where this cannot be achieved, the secondary aim would be to recover the customer into a sustainable terms position on their mortgage. The customer will be given sufficient time, opportunity and information to consider and assess their options and efforts will be made to ensure any steps the customer has to take are not unreasonably onerous or complex and that information or evidence is only requested if it is necessary. The Servicer will ensure there are no unreasonable delays in requesting or processing information or evidence received from customers.

The Servicer will act in good faith and in the customer's best interests to avoid foreseeable harm such as that caused by agreeing inappropriate forbearance arrangements and, as such, forbearance will not be applied where it is clear that the customer's account is not sustainable despite forbearance being considered, or where the customer is clearly not taking steps to deal with their financial difficulties.

Where a borrower passes away, the Servicer will provide support to surviving customers who held a joint account with the deceased, and, in the case of sole borrowers, to personal representatives who are dealing with the deceased estate. The Servicing Policies set out the minimum support available where a customer has passed away. Further support can be offered on a case-by-case basis and in line with the Servicing Policies, for example, additional forbearance may be offered on a joint account. Surviving borrowers and personal representatives are under no obligation to accept any or all of the remedies offered to them.

Arrangements

In the event that the customer cannot repay the full arrears outstanding, the Servicer will act in good faith and in accordance with the best interests of the customer in order to agree an appropriate arrangement to support and help them to recover their position. The aim of the arrangement is to pay an additional amount over and above the contractual monthly payment therefore reducing the arrears balance over a reasonably agreed period of time.

Any money received from the customer will first be used to clear missed payments. Once arrears have been cleared, focus will be aimed to ensure the customer can maintain their contractual monthly instalment and remaining money will be used to clear fees and charges.

The Servicer will adopt a reasonable and sustainable approach to the length of time over which the arrears will be repaid depending on the circumstances of individual customers, and in some instances, if it is appropriate for the customer, consideration will be given to this being over the remaining term of the mortgage. This may be appropriate where the customer can only afford to pay a small amount each month off the arrears however the customer will be made aware of the increase in overall costs.

Arrangements will be reviewed on a regular basis to ensure that any changes in customer circumstances, including where the customer develops characteristics of vulnerability and indications that the arrangement is not sustainable, are captured and the terms of the arrangement are updated accordingly. Once the arrangement has been agreed and set up with the customer it is important to monitor the customer's account. Arrangements with a customer should not be renewed on the same basis without considering whether this is appropriate. The Group will also:

- monitor the account for broken arrangements – if a customer has broken a previous arrangement and requires a new one, evidence of bank statements is required.
- take account of any information that the Group becomes aware of that may affect the customer's ability to maintain the arrangement/forbearance agreed, such as material changes to the interest rates charged or information provided by a debt advisor.

Capitalisation of arrears

This section describes how the Servicer deals with a 'standard' capitalisation, which is a means of clearing arrears from an account. Given the criteria required for a standard capitalisation (as described below), the Servicer would not normally expect there to be more than one standard capitalisation during the life of a mortgage.

Capitalising the arrears means adding the arrears balance to the total capital balance outstanding on the mortgage/loan and recalculating the contractual monthly payment. The amount of the arrears will be repaid over the remaining term and, as a result, this will increase the amount of interest paid and the contractual monthly payment for the remaining term.

Capitalisation may be provided selectively to those cases where the recovery of historical arrears or monies due under the contract is not possible, all other forbearance options have been exhausted and capitalisation is the only option realistically available to assist the customer.

This type of modification may be appropriate where the customer has demonstrated a sustained ability, intent and track record to pay their contractual monthly payment and the affordability assessment demonstrates the revised monthly payments can be maintained over the term of the mortgage. A minimum of six months payments at the level of the contractual monthly payment is usually required before an account will be considered for capitalisation of arrears.

Arrears will not automatically be capitalised. The Servicer must not automatically capitalise a payment shortfall where the impact would be material, however, it may be appropriate to agree to capitalise a payment shortfall if:

- the Servicer reasonably considers (taking into account the root cause of the payment shortfall) that the customer can afford the capitalised monthly payments;
- other options to repay the payment shortfall more quickly have been considered; and
- taking account of the customer's individual circumstances, the Servicer reasonably considers that capitalisation is in accordance with the customer's best interests.

Capitalisation is a strategy that should be considered for customers who have recovered (i.e. have regained their financial stability or improved their financial situation after experiencing difficulties) but remain in arrears. If capitalisation would result in an inability to pay other debts, this is unlikely to be appropriate. The Servicer will take into account a customer's wider indebtedness including taking into account other priority debts, and the consequences of falling behind on them, when considering or offering forbearance.

The customer(s) will receive a letter making them aware of the overall impact of the change, including the additional interest that would be charged over the term of the mortgage. All parties to the mortgage will need to sign to accept the impact of capitalisation before any changes are made. Where the impact of capitalisation is not material (being where the interest payable over the term increases by less than £50 or the contractual monthly payment increases by less than £1), the Servicer may apply capitalisation without all parties' agreement, if it is considered in the best interests of the customer.

Term extension

A term extension on a repayment or part and part mortgage will reduce the customer's contractual monthly payment but will increase the length of time over which they will be repaying and the total amount repayable over the term will increase, due to the payment of more interest. However, this type of modification may be appropriate where the reduced contractual monthly payment suits the customer's current financial and personal circumstances. Where appropriate, regular reviews will also consider the best way to support the further recovery of the mortgage once the customer's circumstances allow.

An affordability assessment will be carried out based on the current payment rate and, where appropriate, any known or expected changes including retirement will be considered, with a view to ensuring, where possible, the repayments will be sustainable over the life of the mortgage.

Conversion to interest only

The option to convert to interest only terms, either permanently or temporarily, may be appropriate for customers during periods of financial stress. The conversion would provide a reduction in the customer's monthly payment, giving them the opportunity to manage their current financial circumstances. However, the customer's circumstances will need to be assessed to determine whether it is appropriate to use this type of forbearance to avoid the mortgage moving into a long term non-sustainable position.

Should the customer convert to this repayment method permanently, this will reduce the customer's contractual monthly payment but their payment will only cover the interest owed and the outstanding balance will need to be repaid at the end of the term. In these circumstances, the customer will need to be able to provide the Servicer with sufficient evidence to assess that a credible and plausible capital repayment strategy is in place and that they can afford and sustain the interest only repayment plus the cost of the proposed repayment strategy, taking into account any known future changes to the customer's personal financial circumstances (such as retirement). This would only be an option in limited circumstances and if considered appropriate, customers will be asked to seek and obtain independent financial advice as to whether this is suitable for them and to determine how they will repay the capital balance at the end of the term.

The option to convert to interest only terms temporarily may be appropriate for customers during periods of financial stress. The conversion would provide a reduction in the customer's monthly payment, giving them the opportunity to manage their current financial circumstances. An active review process will be put in place to work with the customer to transfer the mortgage back on to sustainable repayment terms within a reasonable timeframe that is appropriate to the customer's individual circumstances. Evidence of repayment strategy is not required where conversion to interest only is temporary. To avoid foreseeable harm, an extension would not be agreed if the customer's situation is not likely to improve or there is clear indication that the customer will not have the affordability to return to sustainable contractual terms.

Payment deferral

In some circumstances it may be appropriate to consider a payment deferral/holiday, whereby payments due are suspended for a period of time (and therefore arrears do not accrue), although interest will still be charged. This approach will be adopted where it is clear the customer has a lack of affordability in the short term, but is taking steps to address matters. An active review process will be put in place to work with the customer to transfer the mortgage back on to sustainable repayment terms within a reasonable time frame that is appropriate to the customer's individual circumstances.

If an extension, or longer period is requested this will be subject to a full review of circumstances including potential vulnerability indicators and an up to date income and expenditure assessment before referring to the appropriate mandate holder for consideration. At the end of the payment deferral/holiday, the Servicer will process a repayment capitalisation in respect of the forborne monthly payments, unless an alternative arrangement is agreed.

An extension would not be agreed if the customer's situation is not likely to improve or there is clear indication that the customer will not have the affordability to return to sustainable contractual terms. A payment deferral/holiday will not affect the arrears position on an account, as the capitalisation of the deferred payments will not include any outstanding arrears accumulated prior to the payment deferral being agreed.

Partial debt write-off

Where appropriate, the Servicer will consider writing off part of the loan balance owed by a customer. This may occur where a customer has an agreed property sale and a shortfall remains in the amount required to redeem the Servicer's legal charge, or where possession has been taken by the Servicer and a subsequent sale has a shortfall loss. In these cases, repayment of the shortfall may be agreed over a period of time subject to an affordability assessment.

Interest rate reduction

The Servicer may, in certain customer circumstances, transfer the mortgage to a lower contractual interest rate (including reducing to zero). The interest rate applied must be sustainable for both the customer and the Servicer. The customer will be given a rate which aligns to the product transfer rate (the rate that was available as at the start of the current month). A lower rate can be utilised where it is felt appropriate with approval provided in line with the mandate.

Consideration will be given to whether the interest rate applied is fixed or variable on the basis of the customer's circumstances and the impact of potential future interest rate rises on affordability. Interest rate reductions should be applied for a maximum of six months and then the account reviewed to determine whether further forbearance is required.

Assisted Sales

The Servicer may support the customer with an assisted sale, allowing them to remain in the property for a reasonable period of time to sell the property as an alternative to repossession.

Consent to Let

Where residential customers (including shared ownership) are living in properties affected by building safety issues (e.g. defective cladding), the Servicer will take such circumstances into account when determining the duration of the period for which the property can be let. Consent to let is the formal approval given by the mortgage lender allowing the homeowner to rent out the property, as typically required by the terms of residential mortgage agreement.

Enforcement Procedures

Despite all reasonable attempts made to resolve the situation with a customer, there are occasions when litigation is the only course of action that is appropriate, with the aim being to secure a possession order. The Servicer will only commence possession proceedings in England and Wales as a last resort, when it is satisfied that it has complied with the requirements of the Civil Justice Council's Pre-Action Protocol (PAP) for possession claims. In order to realise its security in respect of a Property, the relevant mortgagee or, as applicable, heritable creditor (be it the legal owner (the Seller), the equitable or, as the case may be, the beneficial owner (the Issuer), the Security Trustee or its appointee (if the Security Trustee has taken enforcement action against the Issuer)) will need to obtain possession. There are two means of obtaining

possession for this purpose: first, by taking physical possession (seldom done in practice), and, second, by obtaining a court order.

If a mortgagee or, as applicable, heritable creditor takes physical possession, it will, as mortgagee or, as applicable, heritable creditor in possession, have an obligation to account to the Borrower for the income obtained from the Property, be liable for any damage to the Property, have a limited liability to repair the Property and, in certain circumstances, may be obliged to make improvements.

Actions for possession are regulated by statute and the courts have certain powers to adjourn possession proceedings, to stay any possession order or postpone the date for delivery of possession. The court will exercise such powers in favour of a Borrower, broadly, where it appears to the court that such Borrower is likely to be able, within a reasonable period, to pay any sums due under the loan or to remedy any default consisting of a breach of any other obligation arising under or by virtue of the loan and/or mortgage.

The court has a very wide discretion and may adopt a sympathetic attitude towards a Borrower faced with eviction. If a possession order or decree in favour of the relevant mortgagee or, as applicable, heritable creditor is granted, it may be suspended to allow the Borrower more time to pay. Once possession of the Property has been obtained, the relevant mortgagee or, as applicable, heritable creditor has a duty to the Borrower to take reasonable care to obtain a proper price for the Property. Any failure to do so will put the relevant mortgagee or, as applicable, heritable creditor at risk of an action for breach of such duty by the Borrower, although it is for the Borrower to prove breach of such duty. There is also a risk that a Borrower may also take court action to force the relevant mortgagee or, as applicable, heritable creditor to sell the Property within a reasonable time.

In some instances, the Seller may decide to appoint a Law of Property Act ("**LPA**") Receiver to protect its interest in a Property in England and Wales under its powers under the Law of Property Act 1925 or the Mortgage (no such enforcement option being available in Scotland). The LPA Receiver will act as an agent of the Borrower and the Seller will not influence the actions of the LPA Receiver.

Insurance Contracts

Buildings Insurance

Buildings insurance at the date of completion of the relevant Loan is confirmed through the relevant conveyancer confirming the policy number on the relevant certificate of title. After the date of completion of the relevant Loan, to the extent that a Borrower does not maintain buildings insurance, the OSB GROUP PLC currently maintains on behalf of itself and its subsidiaries (including the Seller) the following forms of contingency insurance cover:

- "**Properties in Possession Cover**", being the block properties in possession insurance policy of OSB GROUP PLC and its subsidiaries (including the Seller), and any other insurance contracts in replacement, addition or substitution thereof from time to time, for any possessed Properties;
- "**Lender Interest Only Cover**", being a policy of OSB GROUP PLC and its subsidiaries (including the Seller), and any other insurance contracts in replacement, addition or substitution thereof from time to time, whereby the Seller (or the Servicer on its behalf) places Borrowers on such Lender Interest Only Cover when the Seller or the Servicer becomes aware that the Borrower's own insurance in respect of the Property referable to its Loan has expired or lapsed. The premium of the Lender Interest Only Cover is charged back to the Borrower on a monthly basis; and
- "**Failure to Insure Cover**", being a policy of OSB GROUP PLC and its subsidiaries (including the Seller), and any other insurance contracts in replacement, addition or substitution thereof from time to time, covering all loans originated by the Seller, the premium being paid by the Seller or an affiliate. The Failure to Insure Cover would pay out if a Borrower's own policy has been cancelled but the Seller has not been notified of such an event and so Lender Interest Only Cover has not been put in place,

the Properties in Possession Cover, Lender Interest Only Cover and Failure to Insure Cover together being the "**Block Insurance Policies**", which remain subject to change (including as to the scope of coverage of each Block Insurance Policy).

Other Characteristics

The Loans comprised in the Provisional Portfolio as at the Portfolio Reference Date are homogeneous for purposes of SECN 2.2.9R(1), on the basis that all such Loans: (i) have been underwritten by the Seller, in accordance with similar underwriting standards applying similar approaches with respect to the assessment of a potential borrower's credit risk; (ii) are repayment loans or Interest-Only Loans or a combination of both entered into substantially on the terms of similar standard documentation for residential mortgage loans; (iii) are serviced by the Servicer pursuant to the Servicing Agreement in accordance with the same servicing procedures with respect to monitoring, collections and administration of cash receivables generated from such Loans; and (iv) form one asset category, namely residential loans secured with one or several mortgages or (in Scotland) standard securities on residential immovable property in England, Wales and Scotland.

The Loans comprised in the Provisional Portfolio as at the Portfolio Reference Date do not include: (i) any transferable securities for the purposes of SECN 2.2.9R(5); (ii) any securitisation positions for the purposes of SECN 2.2.10R; or (iii) any derivatives for the purposes of SECN 2.2.16R(2)(b), in each case on the basis that such Loans have been entered into substantially on the terms of similar standard documentation for residential mortgages loans. For the purposes of SECN 2.2.9R(3), the Loans contain obligations that are in all material respects contractually binding and enforceable, with full recourse to Borrowers and, where applicable, guarantors, subject to any laws from time to time in effect relating to bankruptcy, liquidation or any other laws or other procedures affecting generally the enforcement of creditors' rights.

The Loans comprised in the Provisional Portfolio as at the Portfolio Reference Date do not include: (A) at the time of origination any Loans that were marketed and underwritten on the premise that the loan applicant or, where applicable, intermediaries were made aware that the Seller might not verify the information provided for the purposes of SECN 2.2.11R(3); or (B) at the time of selection for inclusion in the Provisional Portfolio any exposures in default within the meaning of Article 178(1) of Regulation (EU) No 575/2013 for the purposes of SECN 2.2.12R(2). The Loans comprised in the Provisional Portfolio (as at the Portfolio Reference Date) will be transferred to the Issuer without undue delay after selection for inclusion in the Portfolio for the purposes of SECN 2.2.23R(3).

Credit Risk Mitigation

The Seller has internal policies and procedures in relation to the granting of credit, administration of credit risk-bearing portfolios and risk mitigation.

The policies and procedures of the Seller in this regard broadly include the following:

- (a) criteria for the granting of credit and the process for approving, amending, renewing and re-financing credits (as to which, in relation to the Loans, please see the information set out in this Prospectus headed "*The Loans – Lending Criteria*" and "*Summary of the Key Transaction Documents – Servicing Agreement*");
- (b) systems in place to administer and monitor the various credit risk-bearing portfolios and exposures (as to which it should be noted that the Portfolio will be serviced in line with the servicing procedures of the Seller and the Servicer, please see further the section of this Prospectus headed "*Summary of the Key Transaction Documents– Servicing Agreement*");
- (c) diversification of credit portfolios taking into account the Seller's target market and overall credit strategy (as to which, in relation to the Portfolio, please see the section of this Prospectus headed "*Characteristics of the Provisional Portfolio*"); and

- (d) policies and procedures in relation to risk mitigation techniques (as to which, please see further the sections of this Prospectus headed "*The Loans – Lending Criteria*" and "*Summary of the Key Transaction Documents – Servicing Agreement*").

Governing Law

Each of the English Loans and any non-contractual obligations arising out of or in connection with them are governed by English law. Each of the Scottish Loans and any non-contractual obligations arising out of or in connection with them are governed by Scots law.

CHARACTERISTICS OF THE PROVISIONAL PORTFOLIO

The statistical and other information contained in this Prospectus (including the tables below) has been compiled by reference to loans originated by the Seller in a provisional portfolio (the "**Provisional Portfolio**") and extracted from the systems of the Seller on the Portfolio Reference Date.

As at the Portfolio Reference Date, the Provisional Portfolio comprised 3,261 loans originated by the Seller and secured over properties located in England, Wales and Scotland. The aggregate Current Balance of the loans in the Provisional Portfolio as at the Portfolio Reference Date was £592,197,957.84. Having removed any loans which were no longer eligible or had been redeemed in full as at the Cut-Off Date, the Seller randomly selected the transaction Portfolio from the Provisional Portfolio. The Portfolio that will be sold to the Issuer on the Closing Date comprises all loans in the transaction Portfolio. The Properties over which the loans in the Provisional Portfolio are secured have not been revalued for the purposes of the issue of the Notes. The characteristics of the Portfolio will differ from those set out below as a result of, among other things, repayments and redemptions of loans in the Provisional Portfolio from the Portfolio Reference Date to the Closing Date and removal of any loans that do not comply with the Loan Warranties as at the Closing Date. In respect of the first Interest Payment Date only, the excess of the proceeds of the Collateralised Notes over the Current Balance of the Portfolio as at the Cut-Off Date will be paid into the Deposit Account on the Closing Date and will form part of the Available Redemption Receipts to be applied in accordance with the Pre-Enforcement Redemption Priority of Payments. If loans selected for the Portfolio are repaid in full between the Cut-Off Date and the Closing Date, the principal recoveries from that loan will form part of the Available Redemption Receipts. Except as otherwise indicated, these tables have been prepared using the Current Balance of each loan in the Provisional Portfolio as at the Portfolio Reference Date, which includes all principal and accrued interest for the loans in the Provisional Portfolio.

CHARACTERISTICS OF THE UNITED KINGDOM RESIDENTIAL MORTGAGE MARKET

The UK housing market is primarily one of owner-occupied housing, with the remainder in some form of public, private landlord or social ownership. The mortgage market, whereby loans are provided for the purchase of a property and secured on that property, is the primary source of household borrowings in the United Kingdom.

Set out in the following tables are certain characteristics of the United Kingdom mortgage market. No assurance can be given that the Loans in the Portfolio are or will be representative of the information set out in the tables or generally to the performance of the UK housing market. For information relating to the loans contained in the Provisional Portfolio (from which the Portfolio will be selected), see further the section entitled "*Characteristics of the Provisional Portfolio*".

Industry PPR rates

In the following tables, quarterly industry principal payment rate ("**Industry PPR**") data was calculated by dividing the amount of scheduled and unscheduled repayments of mortgages made by banks, building societies and other specialist mortgage lenders in a quarter by the quarterly balance of mortgages outstanding for banks, building societies and other specialist mortgage lenders in the United Kingdom. These quarterly repayment rates were then annualised using standard methodology.

UK residential property prices are based on data from the Land Registry that incorporates property data for The United Kingdom (the "Housing Index").

The UK housing market has been through various economic cycles in the recent past, with large year-to-year increases in the Housing Index occurring from the mid-1990s through to early 2008 and decreases occurring since then until mid-2009, following which the Housing Index has fluctuated.

Static and dynamic historical performance data in relation to loans originated by the Seller was made available prior to pricing on the Reporting Website. Such information will cover the period from Q3 2014 to Q2 2025. The loans which are included in such data are originated under and serviced in accordance with the same policies and procedures as the loans comprising the Portfolio and, as such, it is expected that the performance of such loans, over a period of 5 years, would not be significantly different to the performance of the loans in the Portfolio.

STATIC POOL INFORMATION

The tables in the following pages set out, to the extent material, static pool information with respect to all mortgage loans originated by CCFS. The tables show the distribution of loans designated as prime by CCFS by delinquency category as at each year end.

The information in the following tables has been sourced and extracted from the systems of CCFS and the Servicer. The loans which are included in the tables below are originated under and serviced in accordance with substantially the same policies and procedures as the Loans in the Portfolio. In the following tables, delinquency category corresponds to the number of monthly contractual repayment amounts in arrears. Delinquency rates represent the closing balances of loans in a particular category as a percentage of aggregate closing balances.

INFORMATION RELATING TO THE REGULATION OF MORTGAGES IN THE UK

Regulated Mortgage Contracts

In the UK, regulation of residential mortgage business under the FSMA came into force on 31 October 2004 (the date known as the "**Regulation Effective Date**"). Entering into a regulated mortgage contract as a lender, arranging a regulated mortgage contract or advising in respect of a regulated mortgage contract, and administering a regulated mortgage contract, (or agreeing to do any of those activities) are (subject to applicable exemptions) regulated activities under the FSMA and the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 (SI 2001/544) (as amended) (the "**RAO**") requiring authorisation and permission from the FCA.

The original definition of a regulated mortgage contract was such that if a mortgage contract was entered into on or after the Regulation Effective Date but prior to 21 March 2016, it will be a Regulated Mortgage Contract under the RAO if: (i) the lender provides credit to an individual or to trustees; (ii) the obligation of the Borrower to repay was secured by a first legal mortgage on land (other than timeshare accommodation) in the UK; and (iii) at least 40 per cent. of which was used, or was intended to be used, as or in connection with a dwelling by the Borrower or (in the case of credit provided to trustees) by an individual who was a beneficiary of the trust, or by a related person.

The current definition of a Regulated Mortgage Contract (a "**Regulated Mortgage Contract**") is such that if the mortgage contract was entered into on or after 21 March 2016, it will be a Regulated Mortgage Contract if it meets the following conditions (when read in conjunction with and subject to certain relevant exclusions): (a) the borrower is an individual or trustee; and (b) the contract provides for the obligation of the borrower to repay is secured by a mortgage on land, at least 40 per cent. of which is used, or is intended to be used: (i) in the case of credit provided to an individual, as or in connection with a dwelling; or (ii) (in the case of credit provided to a trustee who is not an individual) as or in connection with a dwelling by an individual who is a beneficiary of the trust, or by a Related Person. In relation to a contract entered into before 23:00 on 31 December 2020, 'land' means land in the United Kingdom or within the territory of an EEA State and in relation to a contract entered into on or after 23:00 on 31 December 2020, 'land' means land in the United Kingdom. A related person (in relation to a borrower, or in the case of credit provided to trustees, a beneficiary of the trust) is (1) that person's spouse or civil partner; (2) a person (whether or not of the opposite sex) whose relationship with that person has the characteristics of the relationship between husband and wife; or (3) that person's parent, brother, sister, child, grandparent or grandchild (a "**Related Person**").

On and from the Regulation Effective Date, subject to any exemption, persons carrying on any specified regulated mortgage-related activities by way of business must be authorised under the FSMA. The specified activities currently are: (a) entering into a Regulated Mortgage Contract as lender; (b) "administering" a Regulated Mortgage Contract (administering in this context broadly means notifying borrowers of changes in mortgage payments and/or taking any necessary steps for the purposes of collecting payments due under the mortgage loan); (c) advising in respect of Regulated Mortgage Contracts; and (d) arranging Regulated Mortgage Contracts. Agreeing to carry on any of these activities is also a regulated activity. If requirements as to the authorisation of lenders and brokers involved in the origination of a Regulated Mortgage Contract are not complied with, a Regulated Mortgage Contract will be unenforceable against the borrower except with the approval of a court and the unauthorised person may commit a criminal offence. An unauthorised person who carries on the regulated mortgage activity of administering a Regulated Mortgage Contract that has been validly entered into may commit an offence, although this will not render the contract unenforceable against the borrower. The regime under the FSMA regulating financial promotions covers the content and manner of the promotion of agreements relating to qualifying credit and who can issue or approve financial promotions. In this respect, the FSMA regime not only covers financial promotions of Regulated Mortgage Contracts but also promotions of certain other types of secured credit agreements under which the lender is a person (such as an originator) who carries on the regulated activity of entering into a Regulated Mortgage Contract. Failure to comply with the financial promotion regime (as regards who can issue or approve financial promotions) is

a criminal offence and will render the Regulated Mortgage Contract or other secured credit agreement in question unenforceable against the borrower except with the approval of a court.

The Servicer is required to hold, and holds, authorisation and permission to administer Regulated Mortgage Contracts. Subject to any exemption, brokers are required to hold authorisation and permission to arrange and, where applicable, to advise in respect of Regulated Mortgage Contracts.

The Issuer is not and does not propose to be an authorised person under the FSMA with respect to Regulated Mortgage Contracts and related activities. The Issuer does not require authorisation in order to acquire legal or beneficial title to a Regulated Mortgage Contract or a Regulated Credit Agreement. The Issuer does not carry on the regulated activity of administering Regulated Mortgage Contracts by having them administered pursuant to a servicing agreement by an entity having the required FCA authorisation and permission under the FSMA. If such a servicing agreement terminates, however, the Issuer will have a period of not more than one month (beginning with the day on which such arrangement terminates) in which to arrange for mortgage administration to be carried out by a replacement servicer having the required authorisation and permission under the FSMA. In addition, no variation may be made to the Loans and no further advance or product switch has been or will be made in relation to a loan, where this would result in the Issuer arranging, advising in respect of, administering or entering into a Regulated Mortgage Contract, or agreeing to carry on any of these activities, if the Issuer would be required to be authorised under the FSMA to do so. Pursuant to the Servicing Agreement, the Servicer administers the loans and the Servicer has the requisite FSMA authorisation and permission to enable it to undertake such activities. In addition, no variation may be made to the Loans and no further advance or product switch has been or will be made in relation to a loan, where this would result in the Issuer arranging, advising in respect of, administering or entering into a Regulated Mortgage Contract, or agreeing to carry on any of these activities, if the Issuer would be required to be authorised under the FSMA to do so.

The Issuer will only hold beneficial title to the Loans and their Related Security. In the event that legal title is transferred to the Issuer upon the occurrence of a Perfection Event, the Issuer will have arranged for a servicer to administer these Loans and is not expected to enter into any new Regulated Mortgage Contracts as lender under Article 61(1) of the RAO. However, in the event that a mortgage is varied, such that a new contract is entered into and that contract constitutes a Regulated Mortgage Contract, then the arrangement of, advice on, administration of and entering into of such variation would need to be carried out by an appropriately authorised entity.

FCA Consumer Duty

The FCA published final rules on the introduction of a new consumer duty on regulated firms (the "**Consumer Duty**"), which aims to set a higher level of consumer protection in retail financial markets. The FCA published its final rules on the Consumer Duty in July 2022, which provide that the Consumer Duty applies from 31 July 2023 for products and services that remain open to sale or renewal and from 31 July 2024 for closed products and services.

The Consumer Duty applies to the regulated activities and ancillary activities of all firms authorised under the FSMA.

There are three main elements to the new Consumer Duty, comprising a new consumer principle, that "a firm must act to deliver good outcomes for the retail consumers of its products", cross-cutting rules supporting the consumer principle, and four outcomes, relating to the quality of firms' products and services, price and value, consumer understanding and consumer support.

The Consumer Duty applies not only at origination of a product but throughout its subsistence (so in the case of a mortgage loan, throughout the period the mortgage loan is outstanding). The cross-cutting rules include an obligation to avoid causing foreseeable harm to the consumer and the outcomes include an obligation to ensure that the product (for example, a mortgage loan) provides fair value to the retail customer. These

obligations (as with the remainder of the Consumer Duty) must be assessed on a regular basis throughout the life of the product.

The Consumer Duty applies in respect of Regulated Mortgage Contracts. It applies to product manufacturers and distributors, which include purchasers of in scope mortgage loans, as well as firms administering or servicing those mortgage loans. Although the Consumer Duty will not apply retrospectively, the FCA will require firms to apply the Consumer Duty to existing products on a forward-looking basis.

Distance Marketing

In the United Kingdom, the Financial Services (Distance Marketing) Regulations 2004 (the "**Distance Marketing Regulations**") apply to, among other things, credit agreements entered into on or after 31 October 2004 by a "consumer" within the meaning of the Distance Marketing Regulations and by means of distance communication (i.e., without any substantive simultaneous physical presence of the originator and the borrower).

The Distance Marketing Regulations (and MCOB in respect of activities related to Regulated Mortgage Contracts) require suppliers of financial services by way of distance communication to provide certain information to consumers. This information generally has to be provided before the consumer is bound by a distance contract for the supply of financial services in question and includes, but is not limited to, general information in respect of the supplier and the financial service, the contractual terms and conditions, and whether or not there is a right of cancellation.

A regulated mortgage contract under the FSMA, if originated by a United Kingdom lender (who is authorised by the FCA) from an establishment in the United Kingdom, will be subject to related pre-contract disclosure requirements in MCOB or the MCD Order (as applicable) but will not be cancellable under the Distance Marketing Regulations. Failure to comply with MCOB pre-contract disclosure rules could result in, among other things, disciplinary action by the FCA and claims for damages under section 138D of FSMA.

Certain other agreements for financial services will be cancellable under the Distance Marketing Regulations if the borrower does not receive prescribed information at the prescribed time. Where the credit agreement is cancellable under the Distance Marketing Regulations, the borrower may send notice of cancellation at any time before the expiry of 14 days beginning with: (i) the day after the day on which the contract is made (where all of the prescribed information has been provided prior to the contract being entered into); or (ii) the day after the day on which the last of the prescribed information is provided (where all of the prescribed information was not provided prior to the contract being entered into).

Compliance with the Distance Marketing Regulations may be secured by way of injunction (interdict in Scotland) obtained by an enforcement authority, granted on such terms as the court thinks fit to ensure such compliance, and certain breaches of the Distance Marketing Regulations may render the originator or intermediaries (and their respective relevant officers) liable to a fine.

If the borrower cancels the contract under the Distance Marketing Regulations, then: (a) the borrower is liable to repay the principal and any other sums paid by or on behalf of the originator to the borrower, under or in relation to the contract, within 30 calendar days of cancellation; (b) the borrower is liable to pay interest, early repayment charges and other charges for services actually provided in accordance with the contract only if: (i) the amount is in proportion to the extent of the service provided before cancellation and is not such that it could be construed as a penalty; (ii) the borrower received certain prescribed information at the prescribed time about the amounts payable; and (iii) the originator did not commence performance of the contract before the expiry of the relevant cancellation period (unless requested to do so by the borrower); and (c) any security provided in relation to the contract is to be treated as never having had effect.

Unfair Terms in Consumer Contracts Regulations 1994 and 1999

In the United Kingdom, the Unfair Terms in Consumer Contracts Regulations 1999 as amended (the "**1999 Regulations**"), together with (insofar as applicable) the Unfair Terms in Consumer Contracts Regulations 1994 (together with the 1999 Regulations, the "**UTCCR**"), applies to business to consumer agreements made on or after 1 July 1995 but prior to 1 October 2015 where the terms have not been individually negotiated. The Consumer Rights Act 2015 (the "**CRA**" or the **Consumer Rights Act**) has revoked the UTCCR in respect of contracts that: (a) were entered into on or after 1 October 2015; or (b) were, since 1 October 2015, subject to a material variation such that they are treated as new contracts falling within the scope of the Consumer Rights Act; the Consumer Rights Act now applies. The Consumer Rights Act is also applicable on or after 1 October 2015, to notices of variation, such as variation of interest rate under contracts (see "*Consumer Rights Act 2015*" below).

The UTCCR and the CRA provide that a consumer (which would include a borrower under all or almost all of the Loans) may challenge a term in an agreement on the basis that it is "unfair" within the UTCCR or the CRA as applicable and therefore not binding on the consumer (although the rest of the agreement will remain enforceable if it is capable of continuing in existence without the unfair term) and provide that a regulator may take action to stop the use of terms which are considered to be unfair. The FCA has stated that the finalised FCA guidance "Fairness of variation terms in financial services consumer contracts under the Consumer Rights Act 2015" (see "*Consumer Rights Act 2015*" below) applies equally to factors that firms should consider to achieve fairness under the UTCCR.

The UTCCR will not generally affect terms which define the main subject matter of the contract, such as the borrower's obligation to repay the principal under a loan, provided that these terms are written in plain and intelligible language and are drawn adequately to the consumer's attention. The UTCCR may affect terms that are not considered to be terms which define the main subject matter of the contract, such as the lender's power to vary the interest rate and certain terms imposing early repayment charges and mortgage exit administration fees. For example, if a term permitting the lender to vary the interest rate (as the originator is permitted to do) is found to be unfair, the borrower will not be liable to pay interest at the increased rate or, to the extent that the borrower has paid it, will be able, as against the lender, or any assignee such as the Issuer, to claim repayment of the extra interest amounts paid or to set off the amount of the claim against the amount owing by the borrower under the loan or any other loan agreement that the borrower has taken with the lender (or exercise analogous rights in Scotland).

Historically the OFT, FSA and FCA (as appropriate) have issued guidance on the UTCCR. This has included: (i) OFT guidance on fair terms for interest variation in mortgage contracts dated February 2000; (ii) an FSA statement of good practice on fairness of terms in consumer contracts dated May 2005; (iii) an FSA statement of good practice on mortgage exit administration fees dated January 2007; and (iv) FSA finalised guidance on unfair contract terms and improving standards in consumer contracts dated January 2012.

On 2 March 2015, the FCA updated its online unfair contract terms library by removing some of its material (including the abovementioned guidance) relating to unfair contract terms. The FCA stated that such material "no longer reflects the FCA's views on unfair contract terms" and that firms should no longer rely on the content of the documents that had been removed.

The extremely broad and general wording of the UTCCR and CRA makes any assessment of the fairness of terms largely subjective and makes it difficult to predict whether or not a term would be held by a court to be unfair. It is therefore possible that any Loans which have been made to Borrowers covered by the UTCCR and CRA may contain unfair terms which may result in the possible unenforceability of the terms of the underlying loans. If any term of the Loans entered into between 1 July 1999 and 30 September 2015 is found to be unfair for the purpose of the UTCCR, this may reduce the amounts available to meet the payments due in respect of the Notes.

The guidance issued by the FSA (and, as of 1 April 2013, the FCA), the OFT and the CMA has changed over time and it is possible that it may change in the future.

Consumer Rights Act 2015

The main provisions of the CRA came into force on 1 October 2015 and apply to agreements made on or after that date. The CRA significantly reforms and consolidates consumer law in the UK. The CRA involves the creation of a single regime out of the Unfair Contract Terms Act 1977 (which essentially deals with attempts to limit liability for breach of contract) and the UTCCR for contracts entered into on or after 1 October 2015. The CRA has revoked the UTCCR and introduced a new regime for dealing with unfair contractual terms as follows:

Under Part 2 of the CRA an unfair term of a consumer contract (a contract between a trader and a consumer) is not binding on a consumer (an individual acting for purposes that are wholly or mainly outside that individual's trade, business, craft or profession). Additionally, an unfair notice is not binding on a consumer, although a consumer may rely on the term or notice if the consumer chooses to do so. A term will be unfair where, contrary to the requirement of good faith, it causes significant imbalance in the parties' rights and obligations under the contract to the detriment of the consumer. In determining whether a term is fair it is necessary to: (i) take into account the nature of the subject matter of the contract; (ii) refer to all the circumstances existing when the term was agreed; and (iii) refer to all of the other terms of the contract or any other contract on which it depends.

Schedule 2 of the CRA contains an indicative and non-exhaustive "grey list" of terms of consumer contracts that may be regarded as unfair. Notably, paragraph 11 lists "a term which has the object or effect of enabling the trader to alter the terms of the contract unilaterally without a valid reason which is specified in the contract" although paragraph 22 of Schedule 2 provides that this does not include a term by which a supplier of financial services reserves the right to alter the rate of interest payable by or due to the consumer, or the amount of other charges for financial services without notice where there is a valid reason if the supplier is required to inform the consumer of the alteration at the earliest opportunity and the consumer is free to dissolve the contract immediately.

A term of a consumer contract which is not on the "grey list" may nevertheless be regarded as unfair.

Where a term of a consumer contract is "unfair" it will not bind the consumer. However, the remainder of the contract, will, so far as is practicable, continue to have effect in every other respect. Where a term in a consumer contract is susceptible to multiple different meanings, the meaning most favourable to the consumer will prevail. It is the duty of the court to consider the fairness of any given term. This can be done even where neither of the parties to proceedings has explicitly raised the issue of fairness.

On 19 December 2018, the FCA published finalised guidance: "Fairness of variation terms in financial services consumer contracts under the Consumer Rights Act 2015" (FG18/7), outlining factors the FCA considers firms should have regard to when drafting and reviewing variation terms in consumer contracts. This follows developments in case law, including at the Court of Justice of the EU. The finalised guidance relates to all financial services consumer contracts entered into since 1 July 1995. The FCA stated that firms should consider both this guidance and any other rules that apply when they draft and use variation terms in their consumer contracts. The FCA stated that the finalised guidance will apply to FCA-authorised persons and their appointed representative in relation to any consumer contracts which contain variation terms.

The Unfair Contract Terms Regulatory Guide (UNFCOG in the FCA Handbook) explains the FCA's policy on how it uses its formal powers under the CRA and the Competition and Markets Authority (the "CMA") published guidance on the unfair terms provisions in the CRA on 31 July 2015 (the "**CMA Guidance**"). The CMA indicated in the CMA Guidance that the fairness and transparency provisions of the CRA are regarded as being "effectively the same as those of the UTCCR" (save in applying the consumer notices and negotiated terms). The document further notes that "the extent of continuity in unfair terms legislation means that existing

case law generally, and that of the Court of Justice of the European Union particularly, is for the most part as relevant to the Act as it was to the UTCCR's".

In general, the interpretation of the UTCCR and/or the CRA is open to some doubt, particularly in light of sometimes conflicting reported case law between the English courts and the CJEU. The extremely broad and general wording of the CRA makes any assessment of the fairness of terms largely subjective and makes it difficult to predict whether or not a term would be held by a court to be unfair. It is therefore possible that any Loans which have been made to Borrowers covered by the CRA may contain unfair terms which may result in the possible unenforceability of the terms of the underlying loans. If any term of the Loans entered into on or after 1 October 2015 is found to be unfair for the purpose of the CRA, this may reduce the amounts available to meet the payments due in respect of the Notes. The guidance issued by the FSA (and as of 1 April 2013, the FCA), the OFT and the CMA has changed over time and it is possible that it may change in the future.

Financial Ombudsman Service

Under the FSMA, the Financial Ombudsman Service (the "**Ombudsman**"), an independent adjudicator, is required to make decisions on, among other things, complaints relating to activities and transactions under its jurisdiction on the basis of what, in the Ombudsman's opinion, would be fair and reasonable in all circumstances of the case, taking into account, among other things, law and guidance, rather than strictly on the basis of compliance with law.

Complaints properly brought before the Ombudsman for consideration must be decided on a case-by-case basis, with reference to the particular facts of any individual case. Each case would first be adjudicated by an adjudicator. Either party to the case may appeal against the adjudication. In the event of an appeal, the case proceeds to a final decision by the Ombudsman.

Consumer Protection from Unfair Trading Regulations 2008 and the Digital Markets, Competition and Consumers Act 2024

The CPUTR came into force on 26 May 2008 and prohibits certain practices which are deemed "unfair" within the terms of the CPUTR. Breach of the CPUTR, does not (of itself) render an agreement void or unenforceable, but is a criminal offence punishable by a fine and/or imprisonment.

Under the terms of the CPUTR, the possible liabilities for misrepresentation or breach of contract in relation to the underlying credit agreements may result in irrecoverable losses on amounts to which such agreements apply. The Consumer Protection (Amendment) Regulations 2014 (SI No. 870/2014) came into force on 1 October 2014 and amended the CPUTR. In certain circumstances, these amendments to the CPUTR give consumers a right to redress for misleading or aggressive commercial practices (as defined in the CPUTR), including a right to unwind agreements.

From 6 April 2025, the CPUTR have been revoked and replaced by the DMCCA. However, the CPUTR will still apply to any conduct occurring prior to 6 April 2025.

In addition to some minor amendments to the CPUTR rules, the new regime introduces new rules on consumer reviews, drip pricing and consumer vulnerability. In addition, the DMCCA largely replicates the list of specified banned practices contained in the CPUTR and creates new powers to expand the list of automatically unfair practices. Under the DMCCA, the unfair commercial practices regime, along with all other consumer protection legislation, has become subject to a new enforcement regime under which the CMA has new direct enforcement powers, which will operate in parallel with a court-based enforcement regime.

It cannot be excluded that the new rules and enforcement regime under the DMCCA will have an adverse impact on the Loans.

FCA response to the cost of living crisis

On 10 April 2024, the FCA published PS24/2: Strengthening protections for borrowers in financial difficulty: Consumer credit and mortgages and the related Consumer Credit and Mortgages (Tailored Support) Instrument 2024 (FCA 2024/7). It also published FG24/2: Guidance for firms supporting existing mortgage borrowers impacted by rising living costs. The FCA have stated that they want to build on the Mortgages Tailored Support Guidance and provide a stronger framework for lenders to protect customers facing payment difficulties, they would do this by incorporating relevant aspects of the Mortgages Tailored Support Guidance into their Handbook, as well as introducing further targeted changes. For mortgages, the FCA changed their guidance to allow lenders more scope to capitalise payment shortfalls where appropriate and to improve disclosure for all customers in payment shortfall. The new rules came into force on 4 November 2024 and the Mortgages Tailored Support Guidance was withdrawn at that time.

It should be noted that the FCA are consulting on retiring the FG24/2 guidance because they state that it is a restatement of the FCA handbook and does not create additional protection for consumers.

Mortgage Charter

On 26 June 2023, HM Treasury published the 'Mortgage Charter' in light of the current pressures on households following interest rate rises and the cost-of-living crisis. The Mortgage Charter states that the UK's largest mortgage lenders and the FCA have agreed with the Chancellor a set of standards that they will adopt when helping their regulated mortgage borrowers worried about high interest rates (the "**Mortgage Charter**"). OSB Group PLC, trading as Precise Mortgages and Kent Reliance (OSB GROUP PLC being the ultimate parent of CCFS) is a signatory to the Mortgage Charter and has agreed that, among other things, a borrower will not be forced to leave their home without their consent unless in exceptional circumstances, in less than a year from their first missed payment. In addition, lenders will permit borrowers who are up to date with their payments to: (i) switch to interest-only payments for six months (the "**MC Interest-only Agreement**"); or (ii) extend their mortgage term to reduce their monthly payments and give borrowers the option to revert to their original term within six months by contacting their lender (the "**MC Extension Agreement**"). These options can be taken by borrowers who are up to date with their payments without a new affordability check or affecting their credit score.

With the effect on and from 30 June 2023, the FCA has amended the Mortgages and Home Finance: Conduct of Business Sourcebook ("**MCOB**") to allow (rather than require) lenders to give effect to the MC Interest-only Agreement and the MC Extension Agreement. The amendments made by the FCA do not apply to second ranking mortgages or bridging loans. The FCA announced that it intends to review the impact of the rule changes within 12 months.

There can be no assurance that the FCA or other UK government or regulatory bodies, will not take further steps in response to the rising cost of living in the UK which may impact the performance of the Loans, including further amending and extending the scope of the Mortgage Charter or related rules.

Mortgage repossession

A pre-action protocol for mortgage repossession cases in England and Wales came into force on 19 November 2008 (the **Pre-action Protocol**), which sets out the steps that judges will expect any lender to take before starting a claim. A number of mortgage lenders have confirmed that they will delay the initiation of repossession action for at least three months after a borrower, who is an owner-occupier, is in arrears. The application of such a moratorium may be subject to the wishes of the relevant borrower and may not apply in cases of fraud. In addition, under the protocol the lender must consider whether to postpone the start of a possession claim where the borrower has made a genuine complaint to the Ombudsman about the potential possession claim.

Part I of the Home Owner and Debtor Protection (Scotland) Act 2010 came into force on 30 September 2010 and imposes additional requirements on heritable creditors (the Scottish equivalent of a mortgagee) in relation to the enforcement of standard securities over residential property in Scotland. Under Part I of the Act, the heritable creditor, which may be the Seller or, in the event of it taking legal title to the Scottish loans and their Related Security, the Issuer, has to obtain a court order to exercise its power of sale (in addition to initiating the enforcement process by the service of a two month "calling up" notice), unless the borrower and any other occupiers have surrendered the property voluntarily. In applying for the court order, the heritable creditor also has to demonstrate that it has taken various preliminary steps to attempt to resolve the borrower's position, and comply with further procedural requirements which may restrict the ability of the Seller (or the Issuer, as applicable) as heritable creditor in respect of the Scottish Loans and their Related Security to exercise its power of sale.

The MCOB requirements for mortgage possession cases) may have adverse effects in markets experiencing above-average levels of possession claims.

Land Registration Reform in Scotland

The Land Registration etc. (Scotland) Act 2012 (the "**2012 Act**") came into force in Scotland on 8 December 2014. One of the policy aims of the 2012 Act is to encourage the transfer of property titles recorded in the historic General Register of Sasines to the more recently established Land Register of Scotland with the aim of eventually closing the General Register of Sasines.

Previously, title to a residential property that was recorded in the General Register of Sasines would usually only require to be moved to the Land Register of Scotland (a process known as "first registration") when that property was sold or if the owner decided voluntarily to commence first registration. The 2012 Act provides additional circumstances which will trigger first registration of properties recorded in the General Register of Sasines, including (i) the recording of a standard security (which will extend to any standard security granted by the Issuer in favour of the Security Trustee over Scottish Mortgages in the Portfolio recorded in the General Register of Sasines, pursuant to the terms of the Deed of Charge following a Perfection Event (a "Scottish Sasine Sub-Security")) or (ii) the recording of an assignation of a standard security (which would extend to either an assignation granted by the Seller in favour of the Issuer or its nominee in respect of Scottish Mortgages in the Portfolio recorded in the General Register of Sasines, pursuant to the terms of the Mortgage Sale Agreement following a Perfection Event (a "**Scottish Sasine Transfer**")).

The relevant provisions of the 2012 Act relating to the recording of standard securities came into force on 1 April 2016. As of this date, the General Register of Sasines is now closed to the recording of standard securities. As a result of this, if a Scottish Sasine Sub-Security is granted by the Issuer this may lead to higher legal costs and a longer period being required to complete registration than would previously have been the case. However, for the time being other deeds such as assignations of standard securities (including Scottish Sasine Transfers) will continue to be accepted in the General Register of Sasines indefinitely (although Registers of Scotland have reserved the right to consult further on this issue in the future).

Given that the proportion of residential properties in Scotland which remain recorded in the General Register of Sasines continues to decline (the Registers of Scotland estimate that, as of June 2025 around 87.5 per cent. of functional property titles in Scotland were registered in the Land Register of Scotland), it is likely that, in relation to the Provisional Portfolio, where, as at the Cut-Off Date, approximately 8.00 per cent. (by Current Balance) of the Properties are located in Scotland, only a minority of the Scottish Mortgages will be recorded in the General Register of Sasines.

Assured Shorthold Tenancy (AST)

Depending on the level of ground rent payable at any one time it is possible that a long leasehold in England and Wales may also be an Assured Tenancy ("**AT**") or Assured Shorthold Tenancy ("**AST**") under the Housing Act 1988 ("**HA 1988**"). If it is, this could have the consequences set out below.

A tenancy or lease in England and Wales will be an AT if granted after 15 January 1989 and:

- (a) the tenant or, as the case may be, each of the joint tenants is an individual;
- (b) the tenant or, as the case may be, at least one of the joint tenants occupies the dwelling-house as their only or principal home;
- (c) if granted before 1 April 1990:
 - (i) the property had a rateable value at 31 March 1990 lower than £1,500 in Greater London or £750 elsewhere; and
 - (ii) the rent payable for the time being is greater than two-thirds of the rateable value at 31 March 1990; and
- (d) if granted on or after 1 April 1990, the rent payable for the time being is between £251 and £100,000 inclusive (or between £1,001 and £100,000 inclusive in Greater London).

There is no maximum term for an AT and therefore any lease can constitute an AT if it satisfies the relevant criteria.

Since 28 February 1997, all ATs will automatically be ASTs (unless the landlord serves notice to the contrary) which gives landlords the right to recover the property at the end of the term of the tenancy. The HA 1988 also entitles a landlord to obtain an order for possession and terminate an AT/AST during its fixed term on proving one of the grounds for possession specified in section 7(6) of the HA 1988. The ground for possession of most concern in relation to long leaseholds is Ground 8: namely that if the rent is payable yearly (as most ground rents are), at least three months' rent is more than three months in arrears both at the date of service of the landlord's notice and the date of the hearing.

Most leases in England and Wales give the landlord a right to forfeit the lease if rent is unpaid for a certain period of time but the courts normally have power to grant relief, cancelling the forfeiture as long as the arrears are paid off. There are also statutory protections in place to protect long leaseholders from unjustified forfeiture action. However, an action for possession under Ground 8 is not the same as a forfeiture action and the court's power to grant relief does not apply to Ground 8. In order to obtain possession, the landlord will have to follow the notice procedure in section 8 of the HA 1988 and, if the tenant does not leave on expiry of the notice, apply for a court order. However, as Ground 8 is a mandatory ground, the court will have no discretion and will be obliged to grant the order if the relevant conditions are satisfied. This issue is addressed and resolved (bringing to an end the so-called "AST trap") in the Renters' Rights Bill which is expected to come into effect towards the end of 2025 or the beginning of 2026.

Currently, however, there is a risk that where:

- (a) a long lease is also an AT/AST due to the level of the ground rent;
- (b) the tenant is in arrears of ground rent for more than three months;
- (c) the landlord chooses to use the HA 1988 route to seek possession under Ground 8; and
- (d) the tenant does not manage to reduce the arrears to below three months' ground rent by the date of the court hearing,

the long lease in England and Wales will come to an end and the landlord will be able to re-enter the relevant property.

In Scotland, the corresponding provisions of the Housing (Scotland) Act 1988 that govern assured tenancies and short assured tenancies (being broadly the Scottish equivalent of ATs and ASTs in England and Wales) do not apply to long leases in respect of residential property in Scotland that are capable of being registered in the Registers of Scotland and secured by a standard security.

Breathing Space Regulations

The Debt Respite Scheme (Breathing Space Moratorium and Mental Health Crisis Moratorium) (England and Wales) Regulations 2020 (SI 2020/1311) ("**Breathing Space Regulations**") (which came into force on 4 May 2021) gives eligible individuals in England and Wales the right to legal protection from their creditors, including almost all enforcement action, during a period of "breathing space". A standard breathing space will give an individual in England and Wales with problem debt legal protection from creditor action for up to 60 days; and a mental health crisis breathing space will give an individual in England and Wales protection from creditor action for the duration of their mental health crisis treatment (which is not limited in duration) plus an additional 30 days.

However, the Breathing Space Regulations do not apply to mortgages, except for arrears which are uncapitalised at the date of the application under the Breathing Space Regulations. Interest can still be charged on the principal secured debt during the breathing space period, but not on the arrears. Any mortgage arrears incurred during any breathing space period are not protected from creditor action. The Borrower must continue to make mortgage payments in respect of any mortgage secured against their primary residence (save in respect of arrears accrued prior to the moratorium) during the breathing space period, otherwise the relevant debt adviser may cancel the breathing space period.

In February 2021, the FCA issued a policy statement (PS21/1) on the application of the Breathing Space Regulations, in which they confirm that no changes are currently being made to the rules under MCOB, in relation to how mortgage lenders should treat a "breathing space" as an indicator of payment difficulties. The FCA's view is that this is something that firms should take into account, but should not be treated more specifically than other potential indicators of payment difficulties.

In Scotland, eligible individuals are afforded similar legal protection under the Bankruptcy (Scotland) Act 2016 although the moratorium period of 6 months is longer than in England and Wales and does not make any accommodation for mental health crisis. However, the Scottish Parliament has passed The Bankruptcy and Diligence (Scotland) Act 2024 which permits regulations to be made for the introduction of a similar form of moratorium in Scotland as currently exists under the Breathing Space Regulations. The timescale for the introduction of regulations on the proposed moratorium is currently unknown.

Matters relating to Help To Buy Loans

In November 2020, the UK Government announced a new "Help to Buy" scheme to be made available to eligible borrowers from April 2021 to March 2023. The scheme involves a shared equity loan made available by the UK Government to Borrowers for the purchase of new homes of up to 20% of the cost of the new build home or up to 40% in London. The scheme is restricted to first-time buyers and includes regional upper limits on the full property purchase price. Loans made by the UK Government under the 2021-2023 Help to Buy equity scheme are each a "**Help to Buy Government Loan**". Approximately 14.65 per cent. of the Loans by Current Balance in the Portfolio as at the Cut-Off Date are Loans where the Borrower also has a Help to Buy Government Loan in respect of the relevant property (each a "**Help to Buy Loan**").

The Help to Buy Government Loan is secured by way of a second charge mortgage on the relevant property. Following a sale of a property which benefits from a Help to Buy Government Loan, the UK Government (through Homes England) will be repaid a pro rata amount of the disposal proceeds of the property equal to the percentage of the original purchase price funded by the Help to Buy Government Loan regardless of whether the disposal value has increased or decreased relative to the original purchase price. In circumstances where the disposal proceeds are insufficient to discharge in full both the Help to Buy Loan and the Help to

Buy Government Loan secured on the property, the disposal proceeds will be applied to discharge the first ranking legal Mortgage and the remaining proceeds (if any) applied to discharge the Help to Buy Government Loan. Any disposal of a property which benefits from a Help to Buy Government Loan (including following an enforcement), will require the consent of Homes England which may result in a delay to the enforcement of the relevant Mortgage. In Scotland, equivalent "Help to Buy (Scotland)" schemes previously applied which were run by the Scottish Government and under which a contribution of up to 15 per cent. of the purchase price was available to qualifying participants, subject to certain maximum threshold prices. The contribution is secured by a second ranking standard security in favour of the Scottish Ministers and a ranking agreement is put in place to regulate the application of proceeds between the mortgage lender as first ranking creditor and the Scottish Ministers as second ranking creditor. No new applications are currently being accepted under the primary Help to Buy (Scotland) schemes.

The second proposal announced by the UK Government to assist home buyers involves a guarantee provided by the UK Government for loans made to borrowers allowing for borrowings by potential purchasers with an up to 95 per cent. loan to value ratio (the "**Mortgage Guarantee Scheme**"). None of the Loans in the Portfolio benefit from the Mortgage Guarantee Scheme.

Potential effects of any additional regulatory changes

No assurance can be given that additional regulatory changes by or guidance from the CMA, the FCA, the Ombudsman or any other regulatory authority will not arise with regard to the mortgage market in the United Kingdom generally, the Seller's particular sector in that market or specifically in relation to the Seller.

SUMMARY OF THE KEY TRANSACTION DOCUMENTS

Mortgage Sale Agreement

Portfolio

Under a mortgage sale agreement entered into on or around the Closing Date between, among others, the Seller, the Issuer, the Security Trustee and the Servicer (the "**Mortgage Sale Agreement**"), on the Closing Date the Seller shall, subject to certain conditions being satisfied:

- (a) sell, assign or otherwise transfer to the Issuer pursuant to the Mortgage Sale Agreement a portfolio of English and Welsh residential mortgage loans each secured by an English Mortgage and, where applicable, other Related Security (the "**English Loans**"); and
- (b) sell, assign or otherwise transfer to the Issuer or hold on trust under a Scottish Declaration of Trust for the benefit of the Issuer pursuant to the Mortgage Sale Agreement a portfolio of Scottish residential mortgage loans each secured by a Scottish Mortgage and, where applicable, other Related Security (the "**Scottish Loans**").

The English Loans and their Related Security comprising the Portfolio will be assigned by way of equitable assignment to the Issuer while the Scottish Loans and their Related Security comprised in the Portfolio will be held on trust by the Seller for the Issuer under (in respect of the Scottish Loans and their Related Security comprised in the Portfolio) a Scottish Declaration of Trust dated the Closing Date and, in each case, this is referred to as the "**sale**" by the Seller to the Issuer of the Loans and Related Security. The Loans and Related Security and all monies derived therefrom from time to time are referred to herein as the "**Portfolio**".

The consideration due to the Seller in respect of the sale of the Portfolio shall be:

- (a) the Initial Consideration, which is due and payable on the Closing Date;
- (b) deferred consideration comprising any Capitalised Borrower Product Fees Amount (together with, to the extent sufficient Redemption Receipts are so available, the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger) payable to the Seller;
- (c) deferred consideration (excluding any amounts payable pursuant to paragraph (b) above) from excess Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments or the Post-Enforcement Priority of Payments (the "**Deferred Consideration**"), as applicable.

The Seller shall transfer to the Issuer within two Business Days of the Closing Date an amount equal to all Collections received on the Loans from (but excluding) the Cut-Off Date to (but excluding) the Closing Date.

Title to the Mortgages, Registration and Notifications

The completion of the transfer, or, in the case of Scottish Loans and their Related Security, assignment of the Loans and their Related Security (and, where appropriate, their registration or recording) to the Issuer is, save in the limited circumstances referred to below, deferred. Legal title to the Loans and their Related Security therefore remains with the Seller until the occurrence of a Perfection Event. Notice of the sale of the Loans and their Related Security to the Issuer will not be given to any Borrower until the occurrence of a Perfection Event.

The transfers to the Issuer will be completed by or on behalf of the Seller on or before the 20th Business Day after any of the following Perfection Events occur:

- (a) the Seller being required to perfect legal title to the Loans and/or for the Related Security by an order of a court of competent jurisdiction or by a regulatory authority which has jurisdiction over the Seller

or by any organisation of which the Seller is a member, or whose members comprise (but are not necessarily limited to) mortgage lenders and with whose instructions it is customary for the Seller to comply; or

- (b) it becoming necessary by law to do any or all of the acts referred to in paragraph (a) above; or
- (c) the security created under or pursuant to the Deed of Charge or any material part of that security being, in the opinion of the Security Trustee, in jeopardy; or
- (d) the Seller calling for perfection by serving notice in writing to that effect on the Issuer and the Security Trustee; or
- (e) an Insolvency Event occurring in relation to the Seller; or
- (f) it becoming unlawful in any applicable jurisdiction for the Seller to hold legal title in respect of any Loan or its Related Security in the Portfolio; or
- (g) the Seller is in breach of its obligations under the Mortgage Sale Agreement, but only if such breach, where capable of remedy, is not remedied to the reasonable satisfaction of (prior to the delivery of an Enforcement Notice) the Issuer or (after the delivery of an Enforcement Notice) the Security Trustee (acting in accordance with the Deed of Charge) within 90 calendar days provided that (A) this provision shall not apply if none of the then outstanding Notes are UK STS; and (B) this provision shall be subject to such amendment as the Seller may require so long as the Seller delivers a certificate to the Note Trustee that the amendment of such provision does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework) in respect of any series or class of Notes then outstanding which are intended to satisfy the UK STS requirements; or
- (h) an encumbrancer takes possession or a Receiver is appointed to any part of the undertaking, property and assets of the Seller having an aggregate value in excess of 10% of the total assets of the Seller or a distress, diligence or execution is levied or enforced upon or sued out against any part of the chattels or property of the Seller having an aggregate value in excess of 10% of the total assets of the Seller and, in the case of any of the foregoing events, is not discharged within 30 days (the "**Attached Assets**"), unless such Attached Assets (i) relate to a different business of the Seller to that generating and/or servicing the Loans and the attachment of the encumbrance over the Attached Assets did not adversely impact the credit quality of the Seller and (ii) are not required by the Seller to enable it to observe or perform its obligations under the Transaction Documents or the enforceability or collectability of the Loans,

provided that the provisions of paragraphs (g) and (h) above shall (1) not apply if the Seller has delivered a certificate to the Security Trustee that the occurrence of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework); and (2) be subject to such amendment as the Seller may require so long as the Seller delivers a certificate to the Security Trustee that the amendment of such event does not impact the designation as a 'simple, transparent and standardised' securitisation (within the meaning of the UK Securitisation Framework). The Security Trustee shall be able to rely on such certificate without further enquiry and without liability to any person (each of the events set out in paragraphs (a) to (h) above inclusive being a "**Perfection Event**"). Until such Perfection Event occurs, the Seller will hold legal title to the Loans and their Related Security.

An "**Insolvency Event**" will occur in respect of a relevant entity in the following circumstances:

- (a) an order is made or an effective resolution is passed for the winding up of the relevant entity (or it proposes or makes any compromise or arrangement with its creditors); or

- (b) the relevant entity stops or threatens to stop payment to its creditors generally or the relevant entity ceases or threatens to cease to carry on its business or substantially the whole of its business; or
- (c) an encumbrancer takes possession or a Receiver is appointed to the whole or any material part of the undertaking, property and assets of the relevant entity or a distress, diligence or execution is levied or enforced upon or sued out against the whole or any material part of the chattels or property of the relevant entity and, in the case of any of the foregoing events, is not discharged within 30 days; or
- (d) the relevant entity is unable to pay its debts as they fall due or it is deemed under section 123 (1)(a) of the Insolvency Act 1986 to be unable to pay its debts (in the case of the Seller only, on the basis that the reference in such section to £750 was read as a reference to £10 million), section 123(1)(b), (d) and (e), 123(1)(c), (in the case of the Seller only, on the basis that the words "for a sum exceeding £10 million" were inserted after the words "extract registered bond" and "extract registered protest") and 123(2) (as that section may be amended); or
- (e) if proceedings are initiated against the relevant entity under any applicable liquidation, insolvency, composition, reorganisation or other similar laws or an application is made (or documents filed with a court) for the appointment of an administrative or other receiver, manager, administrator or other similar official, or an administrative or other receiver, manager, administrator or other similar official is appointed, in relation to the relevant entity or, as the case may be, in relation to the whole or any part of the undertaking or assets of any relevant entity, and in any such case (other than the appointment of an administrator or an administrative receiver appointed following presentation of a petition for an administration order), unless initiated by the relevant entity, is not discharged within 30 days or if the relevant entity takes steps with a view to obtaining a moratorium in respect of any indebtedness.

Following a Perfection Event, notice of the legal assignments and assignments will be given to the Borrowers and the Issuer will take steps to register and record such legal assignments and assignments at the Land Registry and at the Registers of Scotland (as applicable).

Save for Title Deeds held at the Land Registry or the Registers of Scotland (as the case may be), all the Title Deeds and any relevant mortgage files and computer tapes relating to each of the Loans and their Related Security are held by the Seller or the Servicer (on behalf of the Seller) or its solicitors or agents and the Title Deeds are held in dematerialised form or are returned to the relevant instructed solicitors.

"Lending Criteria" means, in respect of a Loan, the lending criteria of the Seller as at the date such Loan was granted.

"Loan Files" means the file or files relating to each Loan (including files kept in microfiche format or in a similar electronic data retrieval system or the substance of which is transcribed and held on an electronic data retrieval system) containing, *inter alia*, correspondence between the Borrower and the Seller and including mortgage documentation applicable to each Loan, each letter of offer for that Loan, the Valuation Report (if applicable), any MHA/CP Documentation and, to the extent available, the solicitor's or licensed or qualified conveyancer's certificate of title.

"Reasonable, Prudent Residential Mortgage Lender" means a reasonably prudent residential mortgage lender lending to borrowers in England, Wales or Scotland of the type contemplated in the Lending Criteria from time to time on terms similar to those set out in the relevant Lending Criteria.

"Title Deeds" means, in relation to each Loan and its Related Security and the Property relating thereto, all conveyancing deeds, certificates and all other documents which relate to the title to the Property and the security for the Loan and all searches and enquiries undertaken in connection with the grant by the relevant Borrower of the related Mortgage.

"Valuation Report" means the valuation report or reports for mortgage purposes, obtained by the Seller from a valuer in respect of each Property or a valuation report in respect of a valuation made using a methodology

which would be acceptable to a Reasonable, Prudent Residential Mortgage Lender and which has been approved by the relevant officers of the Seller.

Representations and Warranties

On the Closing Date, the Loan Warranties will be given by the Seller in respect of the Loans and their Related Security sold by the Seller to the Issuer on that day. Neither the Security Trustee nor the Issuer has made or has caused to be made on its behalf any enquiries, searches or investigations, but each is relying entirely on the representations and warranties made by the Seller contained in the Mortgage Sale Agreement.

The warranties that will be given to the Issuer and separately to the Security Trustee by the Seller pursuant to the Mortgage Sale Agreement (the "**Loan Warranties**") are as follows:

- (a) each Loan was originated by the Seller and was at the time of origination, and continues to be, denominated in Sterling;
- (b) the particulars of the Loans set out in Exhibit 2 (Details of the Portfolio) of the Mortgage Sale Agreement were complete, true and accurate in respect of the data fields described in the Mortgage Sale Agreement;
- (c) each Loan and its Related Security was made on the terms of the Standard Documentation without any material variation thereto (other than any such variation as would be acceptable to a Reasonable, Prudent Residential Mortgage Lender) and nothing has been done subsequently to add to, lessen, modify or otherwise vary the express provisions of any of the same in any material respect (other than in cases where the Seller's prior consent was obtained);
- (d) all of the Borrowers are individuals and were aged 21 years or older as at the date of execution of the Loan;
- (e) the rate of interest under each Loan is charged monthly in accordance with the Standard Documentation, including any offer letter and the terms thereof;
- (f) all fees are either charged to the relevant Borrower in accordance with the Standard Documentation or waived in accordance with the practice of a Reasonable, Prudent Residential Mortgage Servicer;
- (g) at least one Monthly Instalment due in respect of each Loan has been paid by the relevant Borrower;
- (h) no Borrower is an employee or director of the Seller;
- (i) each Loan has a positive Current Balance;
- (j) each Loan is either a Fixed Rate Loan or a Floating Rate Loan;
- (k) each Loan has a term ending no later than June 2060;
- (l) no Loan is a Flexible Loan;
- (m) the Mortgage Conditions for each Loan do not require the Seller to agree to any Further Advance or any Port;
- (n) as at the Cut-Off Date, the total amount of interest or principal in arrears, together with any fees, commissions and premiums payable at the same time as that interest payment or principal repayment on any Loan did not exceed more than the amount of the Monthly Instalment then due;

- (o) the amount outstanding under each Loan is a valid debt to the Seller (as holder of the legal title to the Loan) from the Borrower arising from advances of money to the Borrower and, except for any Loan and its Related Security which is not binding by virtue of UTCCR or Consumer Rights Act, the terms of each Loan and its Related Security constitute valid, binding and legally enforceable obligations of the relevant parties except that (i) enforceability may be limited by bankruptcy, insolvency or other similar laws of general applicability affecting the enforcement of creditors' rights generally and the courts' discretion in relation to equitable remedies and (ii) the warranty only applies in relation to interest and principal payable by the Borrower;
- (p) subject in certain appropriate cases to the completion of an application for registration or recording at the Land Registry or (as applicable) the Registers of Scotland, the whole of the Current Balance on each Loan and all future interest, fees, costs and expenses payable under or in respect of such Loan is secured by a Mortgage or Mortgages over a residential property and each Mortgage constitutes a valid and subsisting first charge by way of legal mortgage or (in Scotland) a first ranking standard security;

"EWS1 Form" means the form published by the RICS from time to time in relation to an external wall system (EWS) or attachments and provided to valuers or lenders by a building owner to confirm assessment by a suitable expert;

"Further Advance" means, in relation to a Loan, any advance of further money to the relevant Borrower following the advance of the initial principal amount by the Seller to the relevant Borrower under a Loan (**"Initial Advance"**) which is secured by the same Mortgage as the Initial Advance, but does not include the amount of any retention advanced to the relevant Borrower as part of the Initial Advance after completion of the Mortgage.

"Indexed LTV" means the indexed loan to value ratio of the relevant Property, calculated by dividing the Current Balance of a Loan as at the Portfolio Reference Date by the indexed valuation (using the Nationwide House Price Index as of 30 June 2025 (regional quarterly indices, non-seasonally adjusted)) of the Property securing that Loan.

"Port" or "Porting" means the transfer of the Mortgage in respect of a Loan from an existing Property to a new Property where the new Property provides replacement security for the repayment by the Borrower of the relevant Loan.

"Product Switch" means any variation in the financial terms and conditions applicable to a Loan other than any variation:

- (b) required by applicable law, statute, regulation or regulatory guidance; or
- (c) in the rate of interest payable in respect of a Loan as a result of the operation and effect of and/or as contemplated by the existing terms of the Loan.

If the variation in the financial terms and conditions applicable to a Loan results in a Fixed Rate Loan, such variation will constitute a "Product Switch".

The addition or release of a party to a Loan (including but not limited to transfers of equity, changes in guarantor and/or changes in legal title) shall not be considered to be a "Product Switch" (save where, subject to paragraphs (a) to (c) above, such addition or release involves a variation in the financial terms and conditions applicable to such Loan).

"RICS Valuation Standards" means the Professional Standards UK January 2014 (revised April 2015) (or, if a subsequent edition of the RICS Valuation Standards has been published at the relevant time, the relevant valuation standard of the then most recently published edition of the RICS Valuation Standards).

Further Advances, Porting and Product Switches

Further Advances: The Seller shall be solely responsible to fund any Further Advance which is advanced to a Borrower. The Issuer shall purchase Further Advances from the Seller on the date that the relevant Further Advance is advanced to the relevant Borrowers by the Seller. The Seller will have an obligation to repurchase

each Loan and its Related Security in respect of which a Further Advance has been made in accordance with the provisions of the Mortgage Sale Agreement (see "*Repurchase by the Seller*" below for more details).

Neither the Servicer nor the Seller shall make an offer to a Borrower for a Further Advance if it would result in the Issuer arranging or advising in respect of, administering (servicing) or entering into a regulated mortgage contract or agreeing to carry on any of these activities or if the Issuer would be required to be authorised under the FSMA to do so.

Porting: The Seller (or the Servicer on behalf of the Seller) may offer a Borrower (and the Borrower may accept), or a Borrower may request, a Port. The Seller has an obligation to repurchase each Loan and its Related Security which has been subject to a Port (see "*Repurchase by the Seller*" below for more details).

The Seller (or the Servicer on its behalf) will be solely responsible for offering and documenting any Port. Neither the Servicer nor the Seller shall make an offer to, or accept an application from, a Borrower for a Port if it would result in the Issuer arranging or advising in respect of, administering (servicing) or entering into a regulated mortgage contract or agreeing to carry on any of these activities or if the Issuer would be required to be authorised under the FSMA to do so.

Product Switches: While there is no obligation under the Mortgage Sale Agreement in respect of the Loans in the Portfolio to grant a Product Switch, the Seller (or the Servicer on its behalf) may offer a Borrower, or a Borrower may request, a Product Switch from time to time. In respect of any Loans which become Product Switch Loans during a Collection Period:

- (a) if it is determined that such Product Switch Loans will not comply with the Product Switch Criteria on the Interest Payment Date following the Collection Period during which such Product Switch Loans had their Product Switch Effective Date; or
- (b) if subsequent to the Interest Payment Date referred to in paragraph (a) above it is determined that a Product Switch Loan did not comply with the Product Switch Warranties on its Product Switch Effective Date,

then the Seller will be required to repurchase:

- (c) in respect of paragraph (a) above, sufficient Product Switch Loan(s) from the Issuer on or prior to the last calendar day of the month immediately following the end of such Collection Period so that if the determination in paragraph (a) above was re-determined following such repurchase (on the basis that such repurchase shall be deemed for this purpose to occur prior to the relevant Interest Payment Date) the Seller would not be required to repurchase such Product Switch Loan(s) under this paragraph (c); or
- (d) in respect of paragraph (b) above, the relevant Product Switch Loan(s) from the Issuer on or prior to the last calendar day of the month immediately following the Collection Period during which such determination is made.

For these purposes the "**Product Switch Criteria**" are as follows:

- (a) the Product Switch Warranties are satisfied in respect of such Product Switch Loan and its Related Security on the Product Switch Effective Date for such Product Switch Loan;
- (b) where the Product Switch Loan is a Relevant Product Switch Loan, on or prior to the Interest Payment Date following the Collection Period during which such Product Switch Loan has its Product Switch Effective Date, the Issuer (with the assistance of the Servicer) has (x) entered into a Product Switch Swap Transaction with the Swap Provider and/or (y) made such adjustments, amendments, variations, supplements and/or modifications to existing Product Switch Swap Transactions as are necessary, to hedge the interest rate risk arising from the variance in the fixed rates of interest payable on the

Relevant Product Switch Loans in the Portfolio at the end of such Collection Period and the floating rate of interest payable on the Notes provided that:

- (i) in the case of (x), where the Issuer (with the assistance of the Servicer) elects to enter into a new Product Switch Swap Transaction with the Swap Provider in respect of the Relevant Product Switch Loans, the notional schedule of such new transaction reflects the amortising notional profile corresponding to such Relevant Product Switch Loans in respect of which the new Product Switch Swap Transaction is entered into; and
- (ii) in the case of (y), where the Issuer (with the assistance of the Servicer) elects to amend one or more existing Swap Transactions with the Swap Provider in respect of any Relevant Product Switch Loans, the Issuer (with the assistance of the Servicer) may adjust, amend, vary, supplement and/or modify the notional amount profile of one or more existing Swap Transactions such that the aggregate notional amounts match the amortisation profile of the Fixed Rate Loans in the Portfolio inclusive of the Relevant Product Switch Loans. The "Fixed Rate" payable by the Issuer in respect of each such new Product Switch Swap Transaction (or any adjusted, amended, varied, supplemented and/or modified Product Switch Swap Transaction) shall be agreed between the Issuer (with the assistance of the Servicer) and the Swap Provider, and subject to the Product Switch Criteria,

the "**Product Switch Swap Condition**";

- (c) there are sufficient Redemption Receipts standing to the credit of the Deposit Account (as determined by the Cash Manager on the related Calculation Date in respect of such Interest Payment Date (prior to the application of amounts under the relevant Priority of Payments) to effect the payment to the Seller (such payment to be made to the Seller as deferred consideration prior to the application of amounts under the relevant Priority of Payments) of an amount equal to the aggregate amount of Capitalised Borrower Product Switch Fees which relate to Product Switch Loans in respect of which the Product Switch Effective Date has occurred within that Collection Period (the "**Capitalised Borrower Product Switch Fees Amount**") (provided that if on any Interest Payment Date there is a shortfall in the amount of such Redemption Receipts available to pay in full the Capitalised Borrower Product Switch Fees Amount due to the Seller (for the avoidance of doubt, together with the amount of any shortfall deferred from any previous Interest Payment Date), such shortfall shall be deferred to the next Interest Payment Date in respect of which sufficient Redemption Receipts are so available, provided further that any such shortfall shall in any event be due and payable on a date no later than the Final Redemption Date);
- (d) the Product Switch Loan contains a new fixed rate or fixed rate period and the last day of any such new fixed rate period of that Product Switch Loan is not later than 5.5 years after the Product Switch Effective Date;
- (e) following a Product Switch (i) the Current Balance of the Product Switch Loan excluding any Capitalised Borrower Product Switch Fee (if applicable) is not greater than the Current Balance of such Product Switch Loan immediately prior to the Product Switch Effective Date, (ii) the final maturity date of the Product Switch Loan is the same as the final maturity date of such Product Switch Loan immediately prior to the Product Switch Effective Date, (iii) there is no transfer of equity and (iv) the repayment type of the Product Switch Loan does not change from repayment to interest-only (though for the avoidance of doubt, a change of repayment type from interest-only to repayment is permitted);
- (f) the Product Switch Loan was not more than one month in arrears at the time of the Product Switch Effective Date;

- (g) the identity of the Borrower(s) and/or guarantor(s) of the Product Switch Loan remains the same as the Borrower(s) and/or guarantor(s) of such Product Switch Loan immediately prior to the Product Switch Effective Date;
- (h) the Product Switch Effective Date does not occur after the Optional Redemption Date;
- (i) the aggregate Current Balance of the Product Switch Loans in the Portfolio does not exceed 20 per cent. of the aggregate Current Balance of the Portfolio as at the Cut-Off Date; and
- (j) the net interest margin of the Relevant Product Switch Loans (calculated as the weighted average interest rate of the Relevant Product Switch Loans minus the fixed rate of the relevant Swap Transaction in respect of the relevant Product Switch Loans as at a Calculation Date prior to the Interest Payment Date) is not less than 1.50 per cent. per annum.

For the avoidance of doubt, a Product Switch Loan may be subject to one or more further Product Switches (subject to the Product Switch Criteria).

The Seller will be entitled to retain any administration fee, broker procurement fee or Borrower Product Switch Fees payable in respect of a Product Switch Loan. On each Interest Payment Date, prior to the application of the applicable Priority of Payments, the Servicer will instruct the Cash Manager to transfer to the Seller an amount equal to the aggregate amount of any such administration fee, broker procurement fee or Borrower Product Switch Fees which relate to Product Switch Loans in respect of which the Product Switch Effective Date has occurred within that Collection Period (which for the avoidance of doubt (i) the Seller is not already in receipt of and (ii) comprise Third Party Amounts). Where already paid to the Deposit Account, an amount equal to such administration fee, broker procurement fee or Borrower Product Switch Fee may be withheld by the Servicer from future transfers from the Collection Accounts to the Deposit Account for the account of the Seller (if not otherwise received by the Seller). In addition, in accordance with paragraph (c) of the definition of Product Switch Criteria, on each Interest Payment Date the Cash Manager will transfer to the Seller the amount of any Capitalised Borrower Product Switch Fees Amount (together with, to the extent sufficient Redemption Receipts are so available, the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger) and for the avoidance of doubt such payment shall be made direct to the Seller as deferred consideration and without regard to and prior to the application of amounts under the relevant Priorities of Payment.

In accordance with the terms of the Servicing Agreement the Servicer will be required to provide to the Issuer and the Security Trustee on or prior to the relevant Interest Payment Date with the relevant agreed details in relation to each and every Product Switch Loan that was subject to a Product Switch during the Collection Period prior to such Interest Payment Date for the purposes of recording the details of such Product Switch Loan and ensuring compliance with the Product Switch Criteria. The Servicer shall also notify the Issuer, the Security Trustee and the Seller as soon as reasonably practicable upon becoming aware that a Product Switch Loan did not meet the Product Switch Warranties on its Product Switch Effective Date.

The Seller (or the Servicer on its behalf) will be solely responsible for offering and documenting any Product Switch. Neither the Servicer nor the Seller shall make an offer to a Borrower for a Product Switch if it would result in the Issuer arranging or advising in respect of, administering (servicing) or entering into a regulated mortgage contract or agreeing to carry on any of these activities or if the Issuer would be required to be authorised under the FSMA to do so.

Repurchase by the Seller

The Seller will agree to be liable for the repurchase of any Loan and its Related Security sold pursuant to the Mortgage Sale Agreement in the following circumstances:

- (a) *Breach of Loan Warranties on the Closing Date.* If any Loan Warranty made by the Seller in relation to that Loan and/or its Related Security proves to be materially untrue as at the Closing Date and that default has not been remedied in accordance with the Mortgage Sale Agreement;
- (b) *Further Advance.* The Seller shall repurchase any Loan and its Related Security in respect of which a Further Advance was made by no later than the last calendar day of the month immediately following the end of the Collection Period in which such Further Advance is made in accordance with the terms of the Mortgage Sale Agreement;
- (c) *Product Switches.* Any Product Switch Loan which is subject to repurchase will be repurchased by the Seller, together with its Related Security, by no later than the last calendar day of the month immediately following the end of the Collection Period in accordance with the Mortgage Sale Agreement (see "*Product Switches*" above) ; and
- (d) *Porting.* Any Loan which has been subject to a Port will be repurchased by the Seller, together with its Related Security, by no later than the last calendar day of the month immediately following the end of the Collection Period in which such Port is made in accordance with the terms of the Mortgage Sale Agreement.

If there is a material breach of any of the Loan Warranties, the Issuer will notify the Seller (with a copy to the Security Trustee) as soon as reasonably practicable and in any event within 30 days of discovery of such breach or breaches, specifying the Loans and/or the Related Security to which such breach or breaches relate and (in reasonable detail having regard to its level of knowledge) the facts giving rise to such breach or breaches and where practicable what, in its reasonable opinion, is its best estimate (on a without prejudice basis) of the amount of any warranty claim, and, if such matter is capable of remedy, the Seller shall use all reasonable endeavours to remedy such matter within 35 days from and including the date upon which the Issuer or Security Trustee notifies it of the relevant breach.

If the matter giving rise to the breach of a Loan Warranty is capable of being remedied but the Seller fails to remedy such matter within the above 35-day period or the relevant breach is not capable of being remedied, then the Issuer shall serve upon the Seller (with a copy to the Security Trustee) a loan repurchase notice in duplicate substantially in the form set out at Schedule 4 (*Loan Repurchase Notice*) of the Mortgage Sale Agreement (the "**Loan Repurchase Notice**"), requiring the Seller to repurchase the relevant Loan and its Related Security.

In respect of Product Switch Loans, if the Issuer receives a notice from the Servicer that a Product Switch Loan does not comply with the Product Switch Criteria (or that it is subsequently determined that the Product Switch Loan did not comply with the Product Switch Warranties on its Product Switch Effective Date), the Issuer shall serve a Loan Repurchase Notice on the Seller as soon as reasonably practicable. The Seller shall be required to repurchase such Product Switch Loan(s) in accordance with the terms of the Mortgage Sale Agreement (see "*Product Switches*" above).

Upon receipt of a Loan Repurchase Notice duly signed on behalf of the Issuer, the Seller shall promptly sign and return the Loan Repurchase Notice, and the Seller shall be required to repurchase from the Issuer, and the Issuer shall accordingly assign or transfer to the Seller free from the Security created by or pursuant to the Deed of Charge, the relevant Loan or Loans and its (or their) Related Security. The repurchase of the relevant Loan and the payment of the purchase price shall take place on the date specified by the Issuer in the Loan Repurchase Notice, provided that the date so specified by the Issuer shall be: (i) in respect of each Loan subject to a Further Advance and/or Port, a date no later than the last calendar day of the month immediately following the end of the Collection Period in which such Further Advance and/or Port was made; (iii) in respect of each Product Switch Loan, as set out under "*Product Switches*" above; or (iv) in respect of all other repurchases, a date no earlier than 15 days and no later than 35 days after receipt by the Seller of the Loan Repurchase Notice.

The consideration payable by the Seller in respect of the repurchase of an affected Loan and its Related Security (other than in respect of Written Off Loans) shall be equal to the sum of: (a) the Current Balance of the relevant Loan (or the aggregate of the Current Balances of the relevant Loans, as the case may be) as at the last day of the Collection Period immediately preceding the date of repurchase minus (i) the amount of any reduction in Current Balance as a result of the exercise of any set-off right which the relevant Borrower(s) have against the Seller; (ii) in respect of any repurchase arising in respect of a Loan subject to a Further Advance, a Porting and/or a Product Switch, the amount of any product fee payable by the relevant Borrower in relation to such Further Advance, Porting and/or Product Switch which has been capitalised and (iii) the amount of any Further Advance; and (b) an amount equal to the Repurchase Costs (if any) in connection with such repurchase.

Following a repurchase of the relevant Loan or Loans and its (or their) Related Security, the Servicer (on behalf of the Seller) shall be entitled to withhold an amount equal to all Collections received in respect of the relevant Loan or Loans and its (or their) Related Security from (but excluding) the last day of the Collection Period immediately preceding the date of such repurchase to (but excluding) the date of such repurchase from future transfers of Collections to the Deposit Account under the Servicing Agreement.

If the Call Option is exercised by the Seller, the Issuer will redeem the Collateralised Notes in full on or following the Optional Redemption Date, which is likely to limit the market value of the Notes. See *"Early Redemption of the Collateralised Notes"* above for more information relating to the Call Option.

Designated entity

CCFS has been appointed as the designated entity under Article 7(2) of Chapter 2 of the PRA Securitisation Rules and SECN 6.3.1R(1) and has accepted such appointment.

Governing Law

The Mortgage Sale Agreement and any non-contractual obligations arising out of or in connection with it shall be governed by English law (provided that those terms of the Mortgage Sale Agreement specific to the law of Scotland relating to the Scottish Loans and their Related Security shall be construed in accordance with Scots law).

Servicing Agreement

The Issuer, the Security Trustee, the Seller, the Servicer and the Back-Up Servicer Facilitator will enter into, on or around the Closing Date, an agreement pursuant to which the Servicer agrees to service the Loans and their Related Security (the **"Servicing Agreement"**). The services to be provided by the Servicer are set out in the Servicing Agreement and include any services incidental thereto as may be agreed to in writing by the Issuer, the Seller, the Security Trustee and the Servicer (the **"Services"**).

On or about the Closing Date, the Servicer will be appointed by the Issuer and, as applicable, the Seller (including in its capacity as a trustee of the relevant trust declared and created by the Scottish Declaration of Trust (the **"Scottish Trust"**)) to be its agent to service the Loans and their Related Security. The Servicer must comply with any proper directions and instructions that the Issuer or, following the Security Trustee notifying

the Servicer that an Enforcement Notice has been served, the Security Trustee may from time to time give to it in accordance with the provisions of the Servicing Agreement.

The Servicer's actions in servicing the Loans and their Related Security in accordance with the terms of the Servicing Agreement (including the procedures of the Servicer set out therein) are binding on the Issuer.

Powers

The Servicer has the power, among other things:

- (a) to exercise the rights, powers and discretions of the Issuer and the Seller in relation to the Loans and their Related Security and to perform the obligations of the Issuer and the Seller in relation to the Loans and their Related Security; and
- (b) to do or cause to be done any and all things which it reasonably considers necessary, convenient or incidental to the servicing of the Loans and their Related Security or the exercise of such rights, powers and discretions.

If the Borrower requests that the Loan is re-calculated following such overpayment, following the re-allocation of such overpayment amounts, the Servicer shall be entitled to make all necessary adjustments to reflect the allocation of the overpayment amounts and will include such adjustments in the Servicer Report for that Collection Period.

Undertakings by the Servicer

The Servicer has undertaken, among other things, to:

- (a) service the Loans and their Related Security sold by the Seller to the Issuer as if the same had not been sold to the Issuer (or, in respect of the Scottish Loans and their Related Security, held on trust under the Scottish Trust) but had remained with the Seller in accordance with the Servicer's servicing, arrears and enforcement policies and procedures applicable to the Seller's loans from time to time as they apply to those Loans;
- (b) use reasonable endeavours to assist the Issuer in complying with the UK Securitisation Framework and its contractual obligations in relation to the EU Securitisation Regulation;
- (c) give such time and attention and exercise such skill, care and diligence in the performance of the Services and any other obligation contained in the Servicing Agreement and will provide those Services and perform such other obligations to the same standard as a Reasonable, Prudent Residential Mortgage Servicer;
- (d) comply with any proper orders and instructions which the Issuer may from time to time give to it in accordance with the provisions of the Servicing Agreement;
- (e) keep in force all approvals, authorisations, permissions, consents and licences required in order properly to service the Loans and their Related Security and to perform or comply with its obligations under the Servicing Agreement, and to prepare and submit all necessary applications and requests for any further approvals, authorisations, permissions, registrations, consents and licences required in connection with the performance of the Services under the Servicing Agreement and in particular any necessary notification or payment of fees under the Data Protection Laws and any authorisation and permissions under the FSMA;
- (f) not knowingly fail to comply with any applicable legal and regulatory requirements in the performance of the Services; and

- (g) make all payments required to be made by it pursuant to the Servicing Agreement (as to which see further below) on the due date for payment in Sterling (or as otherwise required under the Transaction Documents) in immediately available funds for value on such day without any set-off (including in respect of any fees owed to it) except any deductions required by law (or as expressly permitted under the Servicing Agreement).

Back-Up Servicer Facilitator

The Issuer will appoint the Back-Up Servicer Facilitator in accordance with the Servicing Agreement. If the Servicer's appointment is terminated, the Back-Up Servicer Facilitator shall use best efforts to identify, on behalf of the Issuer, and assist the Issuer in the appointment of a suitable substitute servicer in accordance with the Servicing Agreement.

Setting of Interest Rates on the Loans

Subject to the terms of the Mortgage Sale Agreement, each of the Issuer and the Seller grants the Servicer full right, liberty and authority from time to time, in accordance with the relevant Mortgage Conditions, to determine and set the Floating Mortgage Rates in relation to the Floating Rate Loans sold by the Seller to the Issuer which have not at the relevant date of determination been repurchased by the Seller, provided that the interest due on the Floating Rate Loans is set by reference to BBR as determined in accordance with the relevant Mortgage Conditions.

Further Advances, Porting and Product Switches

The Servicer will undertake with the Issuer and the Security Trustee that, where the Servicer is not the same entity as the Seller, it will not agree to pay or make a Further Advance, or a Port or a Product Switch without first having received confirmation in writing from the Seller that the Seller will repurchase the relevant Loan and its Related Security from the Issuer in accordance with the Mortgage Sale Agreement.

Operation of the Collection Accounts

The Servicer will operate the Collection Accounts, opened in the name of the Seller with the Collection Account Bank in accordance with the terms of the Servicing Agreement and the Collection Accounts Declaration of Trust (as to which, see "*The Collection Accounts Declaration of Trust*" below). Revenue Receipts and Redemption Receipts arising in relation to the Loans will be paid directly into the relevant Collection Account. The Servicer shall transfer to the Deposit Account all Collections received into the Non-DD Collection Account arising in respect of non-Direct Debit payments received from Borrowers within five Business Days of the identification of such amounts received into the Non-DD Collection Account.

Replacement of Collection Account Bank

The Servicer shall monitor the Collection Account Bank for any Insolvency Event and confirms that in the event of the occurrence of an Insolvency Event of the Collection Account Bank, the Servicer shall, as directed by the Issuer and as agreed in writing by the Seller, assist the Seller in opening one or more replacement Collection Accounts in the name of the Seller with a financial institution which: (i) is approved in writing by the Issuer and the Security Trustee; (ii) is a bank as defined in section 991 of the Income Tax Act 2007; and (iii) is of a reputable standing, as soon as reasonably practicable and in any event within 30 calendar days.

In the event a replacement collection account is opened, the Servicer shall procure that (i) all Direct Debit mandates are transferred to such replacement collection account; (ii) all Monthly Instalments made by a Borrower under a payment arrangement other than the Direct Debiting Scheme are made to such replacement collection account from the date on which the replacement collection account is opened; and (iii) all amounts standing to the credit of the relevant Collection Account be transferred to the replacement collection account(s) promptly after the replacement collection account is opened.

"Direct Debiting Scheme" means the system for the manual or automated debiting of bank accounts by Direct Debit operated in accordance with the principal rules of certain members of the Association for Payment Clearing Services.

Cash Flow Model

The Servicer will make available to the holders of the Notes a cash flow model, either directly or indirectly through one or more entities which provide such cash flow models to investors generally. The Servicer shall procure that such Cash Flow Model precisely represents the contractual relationship between the Loans and the payments flowing between the Seller, investors in the Notes, other third parties and the Issuer. The Cash Flow Model shall be made available via the Reporting Website until the Notes have been redeemed in full on an ongoing basis to investors in the Notes and potential investors upon request.

Compensation of the Servicer

The Servicer receives fees under the terms of the Servicing Agreement. In consideration for providing Services other than carrying out certain duties and obligations set out in the Servicing Agreement, the Issuer shall pay to the Servicer a fee (inclusive of VAT, if any) of up to an aggregate amount calculated on the basis of the number of days elapsed in each calendar month over a 365-day year (or over a 366-day year in a leap year) by applying a rate of 0.25 per cent. per annum on the aggregate Current Balance of the Loans (excluding any Enforced Loans) on the Collection Period Start Date at the start of the immediately preceding Collection Period (the **"Servicer Fee"**).

The Servicer Fee is payable monthly in arrear on each Interest Payment Date in the manner contemplated by and in accordance with the Pre-Enforcement Revenue Priority of Payments or, as the case may be, the Post-Enforcement Priority of Payments.

Removal of the Servicer

Subject to the prior written consent of the Security Trustee, the Issuer may at once or at any time thereafter while such default continues, by notice in writing to the Servicer (with a copy to the Security Trustee and the Back-Up Servicer Facilitator), terminate the Servicer's appointment under the Servicing Agreement if a Servicer Termination Event occurs and is continuing (see *"Servicer Termination Events"* in the *"Transaction Overview – Triggers Tables – Non-Rating Triggers Table"*).

Voluntary Resignation

The Servicer may voluntarily resign by giving not less than three months' written notice to the Security Trustee, the Issuer and the Back-Up Servicer Facilitator (or such shorter time as may be agreed between the Servicer, the Issuer, the Security Trustee and the Back-Up Servicer Facilitator), provided that: (i) a substitute servicer shall be appointed, such appointment to be effective not later than the date of such termination; (ii) such substitute servicer is qualified to act as such under the FSMA and has the requisite experience of servicing residential mortgage loans in the United Kingdom and is approved by the Issuer and the Security Trustee; (iii) such substitute servicer enters into a servicing agreement with the Issuer on terms commercially acceptable in the market, pursuant to which the substitute servicer agrees to assume and perform all the material duties and obligations of the Servicer under the Servicing Agreement; (iv) (if Class A Notes remain outstanding) the then current ratings of the Class A Notes are not adversely affected as a result thereof, unless the Security Trustee and the Class A Noteholders (the Class A Noteholders acting by way of an Extraordinary Resolution) otherwise agree; and (v) such substitute servicer would not cause the Issuer to become subject to tax anywhere other than the United Kingdom or result in the Issuer suffering any additional taxes which the Issuer would not have suffered absent such appointment.

Delivery of documents and records

If the appointment of the Servicer is terminated or the Servicer resigns, the Servicer must deliver to the Issuer or the Security Trustee (or as the Issuer or the Security Trustee shall direct in writing and, in the event of a conflict between directions from the Issuer and directions from the Security Trustee, the directions from the Security Trustee shall prevail), *inter alia*, the Title Deeds and Loan Files relating to the Loans and their Related Security in its possession.

Neither the Note Trustee nor the Security Trustee is obliged to act as servicer in any circumstances.

Enforcement Procedures

To the extent that any amount cannot be collected from any Borrower and the Servicer is unable to undertake its primary obligation to collect such amounts, the Loan will be passed to the special servicing team of the Servicer, who will undertake debt collection activities in addition to the cash management activities outlined above. The Servicer will, in relation to any default by a Borrower under or in connection with a Loan, comply with the enforcement procedures or, to the extent that the enforcement procedures are not applicable having regard to the nature of the default in question, take such action as complies with the standard of a Reasonable, Prudent Residential Mortgage Servicer providing debt collection services in respect of such default, provided that:

- (a) the Servicer shall only become obliged to comply with the enforcement procedures (to the extent applicable) or to take action as aforesaid after it has become aware of the default; and
- (b) it is acknowledged by the Issuer that mortgage servicers generally exercise discretion in pursuing their respective enforcement procedures and that the Servicer may exercise such discretion as would be exercised by a Reasonable, Prudent Residential Mortgage Servicer in applying the enforcement procedures to any particular defaulting Borrower or taking action as referred to above or in enforcing any relevant guarantee but without prejudice to the other provisions of the Servicing Agreement in connection with the payment of money into the relevant Collection Account; and
- (c) the Servicer may exercise forbearance or take such other action in accordance with the practice of a Reasonable, Prudent Residential Mortgage Servicer in relation to the recovery of amounts from Borrower(s) and/or the relevant Property.

Issuer's Liability

The Issuer shall fully and continually indemnify the Servicer against any loss, damage, cost, charge, award, claim, demand, expense, judgment, decree, action, proceeding or other liability, including legal costs and expenses properly incurred (including, in each case, Irrecoverable VAT in respect thereof but excluding any other Tax), which the Servicer sustains or incurs in connection with the performance of the Services under the Servicing Agreement other than any losses, liabilities, claims, expenses or damages (including, in each case and without limitation, any amounts in respect of Irrecoverable VAT in relation thereto) incurred or sustained by the Servicer as a result of its fraud, wilful default or Gross Negligence.

"Irrecoverable VAT" means any amount in respect of VAT incurred by a party to the Transaction Documents (for the purposes of this definition, a **"Relevant Party"**) as part of a payment in respect of which it is entitled to be reimbursed or indemnified under the relevant Transaction Documents to the extent that the Relevant Party does not or will not receive and retain a credit, deduction or repayment of such VAT as input tax (as that expression is defined in section 24(1) VATA or under Article 168 of the Council Directive of 28 November 2006 on the common system of value added tax (EC Directive 2006/112) or any provision of a similar nature, under the law of a member state of the European Union or elsewhere).

Limit to Servicer's Liability

The Servicer's liability in contract, tort (including negligence or breach of statutory or regulatory duty) or otherwise in respect of the Servicing Agreement shall: (a) be limited to £2,000,000 (two million pounds) in aggregate for so long as the Servicer is appointed under the Servicing Agreement; and (b) not include any claim for any increased costs and expenses, loss of profit, business, contracts, revenues or anticipated savings or for any special indirect or consequential damage of any nature whatsoever.

However, the Servicer's limitation of liability pursuant to the Servicing Agreement shall not apply in respect of any liability arising as a result of the fraud, wilful default or Gross Negligence of the Servicer. In the Servicing Agreement, "**Gross Negligence**" means any act or omission of the Servicer which falls below the level of care and skill that could reasonably be expected of a prudent party, in circumstances where that act, conduct or omission (as applicable) also shows a deliberate and/or manifestly careless or reckless disregard of potential consequences of such act or omission on the interests of another party and could reasonably be expected to cause significant prejudice to the interests of that other party.

Governing Law

The Servicing Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Cross-collateral Mortgages and Cross-collateral Rights

The conditions of each of the Mortgages (each a "**Cross-collateral Mortgage**") provide, among other things, some rights (the "**Cross-collateral Rights**") which allow the relevant mortgagee or (in Scotland) heritable creditor of any such Cross-collateral Mortgage:

- (a) to declare immediately due and repayable each liability secured by that Cross-collateral Mortgage and to exercise the statutory power of sale under that Cross-collateral Mortgage if and when the mortgagee or heritable creditor of any other Cross-collateral Mortgage in the name of the same mortgagor is entitled to declare immediately due and repayable any liability secured by that other Cross-collateral Mortgage; and
- (b) to apply the proceeds of enforcement under the Cross-collateral Mortgages of the relevant mortgagor against all liabilities secured by the Cross-collateral Mortgages.

On or about the Closing Date, the Issuer will accede to a cross-collateral mortgage rights deed (the "**Cross-collateral Mortgage Rights Deed**") to regulate the respective rights between each person who as of the date of this Prospectus has or may have a beneficial interest in any Mortgage that is a Cross-collateral Mortgage that includes Cross-collateral Rights which may apply to one or more of the Mortgages.

The Cross-collateral Mortgage Rights Deed seeks to provide that each party thereto who is a beneficial owner of a Cross-collateral Mortgage: (i) shall only have Cross-collateral Rights in respect of Cross-collateral Mortgages that it beneficially owns; (ii) waives all rights to exercise Cross-collateral Rights in respect of other Cross-collateral Mortgages which are not beneficially owned by it; (iii) waives all rights to take any action or proceedings against any other beneficial owner of Cross-collateral Mortgages to exercise the Cross-collateral Rights of that other beneficial owner; (iv) waives any rights to the proceeds of enforcement of Cross-collateral Mortgages not beneficially owned by it; and (v) agrees that if it enforces a Cross-collateral Mortgage in respect of which Cross-collateral Rights attach, the proceeds of such enforcement after deduction of all related costs and expenses shall be applied by or on behalf of it in respect of the Cross-collateral Mortgages beneficially owned by it firstly to repay all amounts owing by the mortgagee or heritable creditor under the enforced Cross-collateral Mortgage beneficially owned by it in accordance with the applicable Mortgage Conditions and, secondly, to the extent there are additional proceeds of enforcement, apply such proceeds in accordance with the approach of a Reasonable, Prudent Residential Mortgage Lender.

CCFS covenants that it will use its reasonable endeavours to prevent, and will not facilitate or otherwise permit, the enforcement of any Cross-collateral Rights by any other party to the Cross-collateral Mortgage Rights Deed in respect of any Mortgage (as defined in the Cross-collateral Mortgage Rights Deed) except in the circumstances and to the extent that such party to the Cross-collateral Mortgage Rights Deed is not prohibited by the provisions of a Cross-collateral Mortgage Rights Accession Deed (as defined in the Cross-collateral Mortgage Rights Deed) from exercising Cross-collateral Rights in respect of that Mortgage.

Deed of Charge

On the Closing Date, the Issuer will enter into the Deed of Charge with, *inter alios*, the Security Trustee.

Security

Under the terms of the Deed of Charge, the Issuer will provide the Security Trustee with the benefit of, *inter alia*, the following security (the "**Security**") as trustee for itself and for the benefit of the Secured Creditors (including the Noteholders):

- (a) an assignment by way of security of (and, to the extent not assigned, a charge by way of first fixed charge over) the Issuer's rights, title, interest and benefit in, to and under the Transaction Documents (other than the Trust Deed, the Deed of Charge, the Scottish Supplemental Charge and the Scottish Declaration of Trust) and any sums derived therefrom (provided that the assignment by way of security of the Issuer's rights under the Swap Agreement shall be subject to any rights of set-off or netting provided for thereunder);
- (b) an assignment by way of security of (and, to the extent not assigned, a charge by way of first fixed charge over) the Issuer's interest in the English Loans and their Related Security and other related rights comprised in the Portfolio (other than in respect of the Scottish Loans) and any sums derived therefrom;
- (c) an assignment by way of security of (and, to the extent not assigned, a charge by way of first fixed charge over) the Issuer's rights, title, interest and benefit in, to and under Insurance Policies assigned to the Issuer pursuant to the Mortgage Sale Agreement;
- (d) an assignment in security of the Issuer's interest in the Scottish Loans and their Related Security (comprising the Issuer's beneficial interest under the trust declared by the Seller over such Scottish Loans and their Related Security for the benefit of the Issuer pursuant to the Scottish Declaration of Trust) (the "**Scottish Supplemental Charge**");
- (e) a charge by way of first fixed charge over the Issuer's interest in its bank and/or securities accounts (including the Deposit Account and the Swap Collateral Cash Account) maintained with the Issuer Account Bank and the Swap Collateral Securities Account maintained with the Custodian and any other bank or custodian and any sums or securities standing to the credit thereof;
- (f) a charge by way of first fixed charge over the Issuer's interest in all Authorised Investments permitted to be made by the Issuer or the Cash Manager (acting on the instructions of the Servicer) on its behalf;
- (g) an assignment by way of first fixed security (and, to the extent not assigned, a charge by way of first fixed charge over) (but subject to the right of reassignment) over the benefit of the Issuer's rights, title, interest and benefit under the Non-DD Collection Account Trust (created pursuant to the Non-DD Collection Account Declaration of Trust together with the Non-DD Collection Account Accession Undertaking) and the Collection Accounts Trust (created pursuant to the Collection Accounts Declaration of Trust); and
- (h) a floating charge over all assets of the Issuer not otherwise subject to the charges referred to above or otherwise effectively assigned by way of security (other than item (d) above), including over all of the

Issuer's property, assets, rights and revenues as are situated in Scotland or governed by Scots law (whether or not such assets are the subject of the charges referred to above).

"Authorised Investments" means:

- (a) Sterling gilt-edged securities;
- (b) money market funds;
- (c) Sterling demand or time deposits and certificates of deposit; and
- (d) short-term debt obligations (including commercial paper),

provided that in all cases such investments will only be made such that there is no withholding or deduction for or on account of taxes applicable thereto and such investments: (i) (aa) have a maturity date of 90 days or less and mature on or before the next following Interest Payment Date or within 90 days, whichever is sooner, and are rated at least F1+ (short term) and/or AA- (long term) by Fitch and at least P-1 (short term) and A1 (long term) by Moody's (or, as applicable, AAmmf by Fitch and Aaa-mf by Moody's, in respect of money market funds) or (bb) have a maturity date of 30 days or less and mature on or before the next Interest Payment Date or within 30 days, whichever is the sooner, and are rated at least F1 (short term) and A (long term) by Fitch and at least P-1 (short term) and A2 (long term) by Moody's (or, as applicable, AAmmf by Fitch and Aaa-mf by Moody's, in respect of money market funds) and (ii) may be broken or demanded by the Issuer (at no cost to the Issuer) on or before the next following Interest Payment Date or within 30 to 90 days, whichever is sooner, as specified in sub-paragraph (i) above, save that where such investments would result in the recharacterisation of the programme, the Notes or any transaction under the Transaction Documents as a "re-securitisation" or a "synthetic securitisation" as defined in Articles 4(63) and 242(11), respectively, of Regulation (EU) No. 575/2013 as it forms part of domestic law in the United Kingdom by virtue of the EUWA, such investments shall not qualify as authorised investments.

"Transaction Party" means any person who is a party to a Transaction Document and **"Transaction Parties"** means some or all of them.

The floating charge created by the Deed of Charge may "crystallise" and become a fixed charge over the relevant class of assets owned by the Issuer at the time of crystallisation. Crystallisation will occur automatically (subject to applicable law) following the occurrence of specific events set out in the Deed of

Charge, including, among other events, service of an Enforcement Notice, except in relation to the Issuer's Scottish assets, where crystallisation will occur on the appointment of an administrative receiver or upon commencement of the winding up of the Issuer. A crystallised floating charge will rank ahead of the claims of unsecured creditors which are in excess of the prescribed part but will rank behind the expenses of any administration or liquidator, the claims of preferential creditors and the beneficiaries of the prescribed part on enforcement of the Security.

Pre-Enforcement Revenue Priority of Payments and Pre-Enforcement Redemption Priority of Payments

Prior to the Note Trustee serving an Enforcement Notice on the Issuer pursuant to Condition 11 (*Events of Default*) of the Notes, declaring the Notes to be immediately due and payable, as the case may be, the Cash Manager (on behalf of the Issuer) shall apply monies standing to the credit of the Deposit Account as described in "*Cashflows – Application of Available Revenue Receipts prior to the service of an Enforcement Notice on the Issuer*" and "*Cashflows – Application of Available Redemption Receipts prior to the service of an Enforcement Notice on the Issuer*" below and apply monies and securities standing to the credit of the Swap Collateral Accounts as described in "*Cashflows – Swap Collateral*".

Post-Enforcement Priority of Payments

After the Note Trustee has served an Enforcement Notice on the Issuer pursuant to Condition 11 (*Events of Default*) of the Notes, declaring the Notes to be immediately due and payable, the Security Trustee (or the Cash Manager on its behalf) or any Receiver appointed by it shall apply the monies standing to the credit of the Deposit Account in accordance with the Post-Enforcement Priority of Payments defined in "*Cashflows – Distributions following the service of an Enforcement Notice on the Issuer*" below and apply the monies and securities standing to the credit of each Swap Collateral Account in accordance with the Swap Collateral Account Priority of Payments defined in "*Cashflows – Swap Collateral*" below.

The Security will become enforceable after an Enforcement Notice has been served on the Issuer pursuant to Condition 11 (*Events of Default*) of the Notes provided that, if the Security has become enforceable otherwise than by reason of a default in payment of any amount due on the Notes, the Security Trustee will not be entitled to dispose of the assets comprised in the Security or any part thereof unless either: (a) the Cash Manager certifies to the Security Trustee (upon which certification the Security Trustee can rely without liability) that a sufficient amount would be realised to allow discharge in full on a *pro rata* and *pari passu* basis of all amounts owing to the Noteholders (and all persons ranking in priority to the Noteholders as set out in the Post-Enforcement Priority of Payments) or (b) the Security Trustee is of the opinion (which shall be binding on the Secured Creditors) that the cashflow expected to be received by the Issuer will not (or that there is a significant risk that it will not) be sufficient, having regard to any other relevant actual, contingent or prospective liabilities of the Issuer, to discharge in full in due course all amounts owing: (i) to the Noteholders (and all persons ranking in priority to the Noteholders in the order of priority set out in the Post-Enforcement Priority of Payments); and (ii) once all the Noteholders (and all such prior ranking persons) have been repaid, to the remaining Secured Creditors in the order of priority set out in the Post-Enforcement Priority of Payments; which opinion shall be binding on the Secured Creditors and reached after considering at any time and from time to time the advice of any financial adviser (or such other professional adviser selected by the Security Trustee for the purpose of giving such advice). Upon the service of an Enforcement Notice in accordance with Condition 11 (*Events of Default*) of the Notes.

The fees and expenses of the aforementioned financial adviser or other professional adviser selected by the Security Trustee shall be paid by the Issuer in accordance with the applicable Priority of Payments. The Security Trustee shall be entitled to rely upon any financial or other professional advice referred to above without further enquiry and shall incur no liability to any person for so doing.

For the purposes of SECN 2.2.18R(4), no provision of the Deed of Charge (or any of the other Transaction Documents) requires automatic liquidation upon default of the Issuer.

Governing Law

The Deed of Charge and any non-contractual obligations arising out of or in connection with it will be governed by English law and aspects relating to Scottish Loans and their Related Security (including each Scottish Supplemental Charge entered into pursuant thereto) will be governed by Scots law.

Trust Deed

On or about the Closing Date, the Issuer, the Security Trustee and the Note Trustee will enter into the Trust Deed pursuant to which the Issuer and the Note Trustee will agree that the Notes are subject to the provisions in the Trust Deed. The Conditions and the forms of each class of Notes are each constituted by, and set out in, the Trust Deed.

The Note Trustee will agree to hold the benefit of the Issuer's covenant to pay amounts due in respect of the Notes on trust for the Noteholders.

In accordance with the terms of the Trust Deed, the Issuer will pay a fee to the Note Trustee for its services under the Trust Deed at the rate and times agreed between the Issuer and the Note Trustee (exclusive of VAT) together with payment of any liabilities incurred by the Note Trustee in relation to the Note Trustee's performance of its obligations under or in connection with the Trust Deed and the other Transaction Documents.

Retirement of Note Trustee

The Note Trustee may retire at any time upon giving not less than 60 days' notice in writing to the Issuer without giving any reason therefor and without being responsible for any liabilities occasioned by such retirement. The holders of the Most Senior Class outstanding may, by Extraordinary Resolution, remove all trustees (but not some only) for the time being who are acting pursuant to the Trust Deed and the Deed of Charge. The retirement of the Note Trustee shall not become effective unless there remains a trust corporation entitled by rules made under the Public Trustee Act 1906 to carry out the functions of a custodian trustee (a "**Trust Corporation**") in office after such retirement or removal by Extraordinary Resolution. The Issuer will agree in the Trust Deed that, in the event of the sole trustee or the only trustee under the Trust Deed giving notice of its retirement, it shall use its best endeavours to procure a new trustee to be appointed as soon as practicable thereafter and if, after 60 days from the date the Note Trustee gives its notice of retirement or the applicable Extraordinary Resolution of the holders of the Most Senior Class, the Issuer is not able to find such replacement, the Note Trustee will be entitled to procure that a new trustee be appointed but no such appointment shall take effect unless previously approved by Extraordinary Resolution of the holders of the Most Senior Class.

Governing Law

The Trust Deed and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Agency Agreement

Pursuant to an agency agreement (the "**Agency Agreement**") dated on or prior to the Closing Date and made between the Issuer, the Note Trustee and the Security Trustee, the Principal Paying Agent, the Registrar and the Agent Bank, provision is made for, *inter alia*, the payment of principal and interest in respect of the Notes.

Governing Law

The Agency Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Cash Management Agreement

On the Closing Date, the Cash Manager, the Issuer, the Seller, the Servicer, the Swap Provider and the Security Trustee will enter into a cash management agreement (the "**Cash Management Agreement**").

Cash Management Services to be provided to the Issuer

Pursuant to the Cash Management Agreement, the Cash Manager will agree to provide certain cash management and other services to the Issuer or, upon the Security Trustee notifying the Cash Manager that an Enforcement Notice has been served on the Issuer, the Security Trustee. The Cash Manager's principal function will be effecting payments to and from the Deposit Account. In addition, the Cash Manager will, among other things, make the necessary determinations on each Calculation Date to enable it to apply Available Revenue Receipts and Available Redemption Receipts in accordance with the Priorities of Payments and maintain the following ledgers (the "**Ledgers**") on behalf of the Issuer:

- (a) the "**Redemption Ledger**", which will record all Redemption Receipts received by the Issuer and the distribution of the Redemption Receipts in accordance with the Pre-Enforcement Redemption Priority of Payments or the Post-Enforcement Priority of Payments (as applicable);
- (b) the "**Revenue Ledger**", which will record all Revenue Receipts, any Swap Collateral Account Surplus, amounts credited to the Deposit Account in accordance with item (n) of the Pre-Enforcement Revenue Priority of Payments and the distribution of the Revenue Receipts and the distribution of any other relevant amounts recorded on the Revenue Ledger in accordance with the Pre-Enforcement Revenue Priority of Payments or the Post-Enforcement Priority of Payments (as applicable) or by way of Third Party Amounts;
- (c) the "**General Reserve Fund Ledger**", which will record amounts credited to, and debited from, the General Reserve Fund;
- (d) the "**Principal Deficiency Ledger**", which will record on the appropriate sub-ledger as a debit deficiencies arising from Losses on the Portfolio (on the date the Cash Manager is informed of such Losses by the Servicer) and Principal Addition Amounts (on the Calculation Date on which such Principal Addition Amounts are determined by the Cash Manager) and record as a credit Available Revenue Receipts applied as Available Redemption Receipts (including any amounts in respect of Enhanced Amortisation Amounts) pursuant to the Pre-Enforcement Revenue Priority of Payments (if any) on each Interest Payment Date;
- (e) the "**Issuer Profit Ledger**", which shall record as a credit any amounts retained by the Issuer as profit in accordance with the Pre-Enforcement Revenue Priority of Payments and the Post-Enforcement Priority of Payments and as a debit any amount used to discharge any tax liability of the Issuer;
- (f) the "**Swap Collateral Ledger**", (to be opened on each Swap Collateral Account) which shall record as a credit on each Swap Collateral Account, as applicable (i) any Swap Collateral received from the Swap Provider, (ii) any Replacement Swap Premium received by the Issuer from a replacement swap provider, (iii) any termination payment received by the Issuer from an outgoing Swap Provider, and (iv) Swap Tax Credits; and
- (g) the "**Capitalised Borrower Product Switch Fee Ledger**" (to be opened on the Deposit Account), which shall record as a debit on each Interest Payment Date the then relevant shortfall under paragraph (c) of the definition of "Product Switch Criteria" (for the avoidance of doubt, where the amount of such shortfall (or part thereof) is subsequently paid to the Seller, such amount shall be deemed to be credited to the Capitalised Borrower Product Switch Fee Ledger).

Amounts and securities standing to the credit of each Swap Collateral Account (including interest, distributions and redemption or sale proceeds thereon or thereof) and recorded on the relevant Swap Collateral Ledger will be applied by the Cash Manager in accordance with the Swap Collateral Account Priority of Payments.

The Cash Manager shall (assuming delivery by the Servicer of the Servicer Report by no later than the fifth Business Day of that month) provide the Servicer with the Investor Reports by no later than one Business Day following each relevant Calculation Date. In providing the reporting services on behalf of the Issuer, the Cash Manager will not assume any liability for CCFS's obligations as the entity responsible to fulfil the reporting obligations under the UK Transparency Rules and/or CCFS's contractual obligations in respect of the EU Securitisation Regulation.

Cash Manager and Directions from the Security Trustee

The Cash Manager will act upon the direction of the Security Trustee (given in accordance with the terms and provisions of the Deed of Charge) upon the Security Trustee notifying the Cash Manager that an Enforcement Notice has been served on the Issuer.

Remuneration of Cash Manager

The Cash Manager will be paid a cash management fee for its cash management services under the Cash Management Agreement. Such fees will be determined under a separate fee letter between the Issuer and the Cash Manager. Any sum (or other consideration) payable (or provided) by the Issuer to the Cash Manager in respect of that fee shall be deemed to be exclusive of VAT, if any, chargeable on any supply for which the cash management fee is the consideration (in whole or in part) for VAT purposes. The cash management fee is payable monthly in arrear on each Interest Payment Date in the manner contemplated by and in accordance with the provisions of the Pre-Enforcement Revenue Priority of Payments or, as the case may be, the Post-Enforcement Priority of Payments.

Termination of Appointment and Replacement of Cash Manager

If any of the following events (the "**Cash Manager Termination Events**") shall occur:

- (a) default is made by the Cash Manager in the payment, on the due date, of any payment due and payable by it under the Cash Management Agreement and such default continues unremedied for a period of three Business Days after the earlier of the Cash Manager becoming aware of such default and receipt by the Cash Manager of written notice from the Issuer or (following the service of an Enforcement Notice) the Security Trustee, as the case may be, requiring the same to be remedied; or
- (b) default is made by the Cash Manager in the performance or observance of any of its other covenants and obligations under the Cash Management Agreement, which in the opinion of the Note Trustee as notified to the Security Trustee is materially prejudicial to the interests of the Noteholders, and such default continues unremedied for a period of 30 Business Days after the earlier of the Cash Manager becoming aware of such default and receipt by the Cash Manager of written notice from the Issuer or (following the service of an Enforcement Notice) the Security Trustee, as the case may be, requiring the same to be remedied; or
- (c) an Insolvency Event occurs in respect of the Cash Manager; or
- (d) it becomes unlawful for the Cash Manager to perform its obligations under the Cash Management Agreement or under any other Transaction Document,

then prior to the delivery of an Enforcement Notice, the Issuer (with the written consent of the Security Trustee), or following the delivery of an Enforcement Notice, the Security Trustee, may, at once or at any time thereafter while such default continues, by notice in writing to the Cash Manager (with a copy to the Security Trustee if such notice is delivered by the Issuer), terminate its appointment as Cash Manager under the Cash

Management Agreement with effect from a date (not earlier than the date of the notice) specified in such notice. In determining whether to give or withhold consent to the termination of the Cash Manager by the Issuer, the Security Trustee will have regard to factors including, *inter alia*, the availability of a substitute cash manager. Upon termination of the appointment of the Cash Manager, the Issuer shall use reasonable endeavours to appoint a substitute cash manager that satisfies the conditions set out below.

Any substitute cash manager:

- (a) must agree to enter into an agreement with the Issuer on terms substantially similar to the Cash Management Agreement (subject to such terms being commercially acceptable in the market), pursuant to which the substitute cash manager agrees to assume and perform all material duties and obligations of the Cash Manager under the Cash Management Agreement;
- (b) must be a party that the Rating Agencies have previously confirmed by whatever means such Rating Agencies consider appropriate (provided that the Issuer is permitted to and does confirm in writing (including by email) to the Security Trustee that such confirmation has been obtained) the appointment of which will not (if Class A Notes remain outstanding) cause the then current ratings of the Class A Notes to be adversely affected; and
- (c) will be subject to the prior written approval of the Security Trustee.

For the avoidance of doubt, upon termination of the appointment of the Cash Manager, if the Issuer is unable to find a suitable third party willing to act as a substitute cash manager, this shall not constitute any breach of the provisions of the Cash Management Agreement.

Resignation of the Cash Manager

The Cash Manager may resign on giving not less than 45 days' written notice (or such shorter time as may be agreed between the Cash Manager, the Issuer, the Servicer and the Security Trustee) of its resignation to the Issuer, the Servicer, the Seller and the Security Trustee, provided that:

- (a) a substitute cash manager shall be appointed, such appointment to be effective not later than the date of such termination;
- (b) such substitute cash manager has the requisite cash management experience to perform the functions to be given to it under the Cash Management Agreement and is approved by the Issuer and the Security Trustee;
- (c) such substitute cash manager enters into a cash management agreement with the Issuer on terms commercially acceptable in the market, pursuant to which the substitute cash manager agrees to assume and perform all material duties and obligations of the Cash Manager under the Cash Management Agreement; and
- (d) (if Class A Notes remain outstanding) the then current ratings of the Class A Notes are not adversely affected as a result thereof, unless the Security Trustee or the relevant Class or Classes of Noteholders (acting by way of an Extraordinary Resolution) otherwise agree.

If, by the end of the notice period, a successor Cash Manager has not been appointed, the Cash Manager may itself select a successor to be appointed in accordance with the Cash Management Agreement.

Governing Law

The Cash Management Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Bank Account Agreement

Pursuant to the terms of a bank account agreement entered into on or about the Closing Date between the Issuer, the Issuer Account Bank, the Cash Manager and the Security Trustee (the "**Bank Account Agreement**"), the Issuer will maintain with the Issuer Account Bank the Deposit Account and the Swap Collateral Cash Account which will be operated in accordance with the Bank Account Agreement, the Cash Management Agreement, the Deed of Charge and, in relation to the Swap Collateral Accounts, the Swap Agreement. The Issuer Account Bank is required to have the Account Bank Rating.

Interest

If any amount is standing to the credit of an Issuer Account (other than the Deposit Account), such amount will bear interest (including negative interest) at a rate and as agreed from time to time in writing between the Issuer and the Issuer Account Bank.

A negative interest rate would result in a charge payable by the Issuer to the Issuer Account Bank and will be paid using Available Revenue Receipts subject to and in accordance with the applicable Priority of Payments.

Governing Law

The Bank Account Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Custody Agreement

Pursuant to the terms of a custody account agreement entered into on or about the Closing Date between, *inter alia*, the Issuer and the Custodian (the "**Custody Agreement**"), the Issuer will maintain with the Custodian the Swap Collateral Securities Account, which will be operated in accordance with the Custody Agreement and the Swap Agreement. The Custodian is required to have the Account Bank Rating.

Governing Law

The Custody Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Corporate Services Agreement

On or prior to the Closing Date, the Issuer, the Corporate Services Provider, the Share Trustee, Holdings and the Security Trustee will enter into a corporate services agreement (the "**Corporate Services Agreement**") pursuant to which the Corporate Services Provider will provide the Issuer and Holdings with certain corporate and administrative functions against the payment of a fee. Such services include, *inter alia*, the performance of all general book-keeping, secretarial, registrar and company administration services for the Issuer and Holdings (including the provision of directors), providing the directors with information in connection with the Issuer and Holdings, and the arrangement for the convening of shareholders' and directors' meetings.

Governing Law

The Corporate Services Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Non-DD Collection Account Declaration of Trust

On 5 December 2013, CCFS, the Security Trustee and others entered into the Non-DD Collection Account Declaration of Trust (the "**Non-DD Collection Account Declaration of Trust**") pursuant to which CCFS declared a trust (the "**Non-DD Collection Account Trust**") in favour of, *inter alia*: (a) CCFS and (b) certain

other additional beneficiaries that may accede to the terms of the Non-DD Collection Account Trust over all its rights, title, interest and benefit (both present and future) in the Non-DD Collection Account, including all amounts standing to the credit of the Non-DD Collection Account, absolutely for each of the beneficiaries (including, following the execution of the Non-DD Collection Account Accession Undertaking (as defined below), the Issuer) in the manner and in the proportions specified in the Non-DD Collection Account Declaration of Trust.

On or prior to the Closing Date, the Issuer, CCFS, the Security Trustee and others will enter into an accession undertaking (the "**Non-DD Collection Account Accession Undertaking**") under which the Issuer and the Security Trustee will accede to the terms of the Non-DD Collection Account Declaration of Trust as a beneficiary of the Non-DD Collection Account Trust.

The Issuer's share of the Non-DD Collection Account Trust at any relevant time (the "**Non-DD Issuer Trust Share**") shall equal all amounts credited to the Non-DD Collection Account at such time in respect of the Loans and their Related Security comprised in the Portfolio taking into account any amounts previously paid to the Issuer in respect of the Loans and their Related Security.

Additional beneficiaries may from time to time on and from the Closing Date accede to the Non-DD Collection Account Declaration of Trust without the consent of the Issuer or the Security Trustee, however any such accession will not affect the manner in which the Non-DD Issuer Trust Share is calculated.

Governing Law

The Non-DD Collection Account Declaration of Trust and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Collection Accounts Declaration of Trust

On or prior to the Closing Date, the Issuer, CCFS, and the Security Trustee will enter into a collection accounts declaration of trust (the "**Collection Accounts Declaration of Trust**") pursuant to which CCFS (as Collection Accounts Trustee (as defined therein)) will declare a trust (the "**Collection Accounts Trust**") in favour of the Issuer over all its rights, title, interest and benefit (both present and future) in the CMF 2025-1 Collection Account absolutely for the beneficiaries in the manner and in the proportions specified in the Collection Accounts Declaration of Trust.

Additional beneficiaries may from time to time on and from the Closing Date accede to the Collection Accounts Declaration of Trust without the consent of the Issuer or the Security Trustee; however, any such accession will not affect the manner in which the Issuer's share in the Collection Accounts Trust is calculated.

Governing Law

The Collection Accounts Declaration of Trust and any non-contractual obligations arising out of or in connection with it will be governed by English law.

The Collection Account Agreement

On or prior to the Closing Date, the Issuer, CCFS, the Security Trustee and the Collection Account Bank will enter into a collection account agreement (the "**Collection Account Agreement**") pursuant to which CCFS (as Collection Accounts Trustee (as defined therein)) will appoint the Collection Account Bank as account bank in relation to the CMF 2025-1 Collection Account.

All Revenue Receipts and Redemption Receipts received in respect of the Loans from Borrowers will be paid into the CMF 2025-1 Collection Account. The Collection Account Bank will, unless it receives any instruction to the contrary from the Servicer or (following the delivery of an Enforcement Notice) the Security Trustee, automatically transfer the aggregate amount of funds standing to the credit of the CMF 2025-1 Collection

Account that are available to be withdrawn at that time in excess of the minimum required balance on each Business Day. The Collection Account Bank shall be entitled at any time to deduct from amounts standing to the credit of the CMF 2025-1 Collection Account any amounts to satisfy any of its obligations and/or liabilities properly incurred under the Direct Debiting Scheme and/or in respect of other unpaid sums relating to amounts received in respect of the Loans from Borrowers or to pay certain other amounts due or owing to the Collection Account Bank.

Certain fees and expenses of the Collection Account Bank will be paid by the Issuer, subject to and in accordance with the Priority of Payments.

Governing Law

The Collection Account Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

Other Agreements

For a description of the Swap Agreement, see "*Credit Structure*" below.

CREDIT STRUCTURE

The Notes are obligations of the Issuer only. The Notes are not obligations of, or the responsibility of, or guaranteed by, any person other than the Issuer. There are a number of features in the transaction which enhance the likelihood of timely receipt of payments by the Noteholders, which are described in more detail below.

1. General Reserve Fund and General Reserve Fund Ledger

On the Closing Date, the Issuer will establish a fund which will be credited with the General Reserve Fund Required Amount from part of the proceeds of the Noteholders' subscription for the Class X Notes on the Closing Date (the "**General Reserve Fund**") to provide credit enhancement and liquidity support for the Class A Notes. The General Reserve Fund Required Amount will be deposited in the Deposit Account on the Closing Date (with a corresponding credit being made to the General Reserve Fund Ledger). The Issuer may invest the amounts standing to the credit of the General Reserve Fund from time to time in Authorised Investments.

The Cash Manager will maintain the General Reserve Fund Ledger pursuant to the Cash Management Agreement to record the balance from time to time of the General Reserve Fund.

On each Interest Payment Date up to and including the Final Redemption Date:

- the General Reserve Fund will be replenished up to the General Reserve Fund Required Amount from Available Revenue Receipts (to the extent available) in accordance with the provisions of the Pre-Enforcement Revenue Priority of Payments;
- the Cash Manager will apply as Available Revenue Receipts the General Reserve Fund Excess Amount (if any); and
- if there is a Revenue Deficit, the Cash Manager will apply an amount from the General Reserve Fund equal to the lesser of (i) the amount standing to the credit of the General Reserve Fund Ledger on such Interest Payment Date and (ii) the amount of such Revenue Deficit (such amount being the "**General Reserve Fund Release Amount**"), in meeting such Revenue Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments.

The "**Revenue Deficit**" shall be, on any Interest Payment Date, an amount equal to the aggregate of any shortfall in Available Revenue Receipts to pay items (a) to (g) of the Pre-Enforcement Revenue Priority of Payments as determined by the Cash Manager on the immediately preceding Calculation Date.

In the event of a General Reserve Fund Amortising Trigger Event, the General Reserve Fund Required Amount will be 1.25 per cent. of the aggregate current Principal Amount Outstanding of the Collateralised Notes on the Interest Payment Date immediately preceding the General Reserve Fund Amortising Trigger Event occurring.

On the Final Redemption Date only, all amounts standing to the credit of the General Reserve Fund Ledger (after first having applied any General Reserve Fund Release Amount to meet any Revenue Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order they appear in the Pre-Enforcement Revenue Priority of Payments, and debiting such amounts from the General Reserve Fund Ledger in accordance with the Pre-Enforcement Revenue Priority of Payments on such Final Redemption Date) will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments.

The "**General Reserve Fund Excess Amount**" on any Interest Payment Date will be an amount equal to the greater of:

- (a) zero; and
- (b) the amount standing to the credit of the General Reserve Fund Ledger on such Interest Payment Date, less the General Reserve Fund Required Amount on such Interest Payment Date.

"**General Reserve Fund Required Amount**" means:

- (a) on any Interest Payment Date up to (but excluding) the Final Redemption Date:
 - (i) if a General Reserve Fund Amortising Trigger Event has not occurred prior to the Calculation Date immediately preceding such Interest Payment Date, an amount equal to 1.25 per cent. of the then aggregate current Principal Amount Outstanding of the Collateralised Notes on that Interest Payment Date before the application of the Pre-Enforcement Redemption Priority of Payments; and
 - (ii) if a General Reserve Fund Amortising Trigger Event has occurred prior to the Calculation Date immediately preceding the Interest Payment Date, an amount equal to 1.25 per cent. of the then aggregate current Principal Amount Outstanding of the Collateralised Notes on the Interest Payment Date immediately preceding the occurrence of a General Reserve Fund Amortising Trigger Event; and
- (b) on each Interest Payment Date on and following the Final Redemption Date, zero.

"**General Reserve Fund Amortising Trigger Event**" shall occur if:

- (a) the Collateralised Notes are not redeemed in full on the Optional Redemption Date; or
- (b) Cumulative Defaults in respect of the Loans comprising the Portfolio are greater than 5 per cent. of the aggregate Current Balance of the Loans comprised in the Portfolio as at the Cut-Off Date.

"**Cumulative Defaults**" means, at any time, the Current Balance of all Loans that have been repossessed calculated at the point when the relevant Loan was repossessed.

2. **Use of Available Redemption Receipts to pay Senior Expenses Deficit**

On each Calculation Date prior to the service of an Enforcement Notice, if there is a Senior Expenses Deficit, the Cash Manager will, pursuant to item (a) of the Pre-Enforcement Redemption Priority of Payments, apply an amount of Available Redemption Receipts (to the extent available) equal to the lesser of:

- (a) the amount of Available Redemption Receipts available for application pursuant to the Pre-Enforcement Redemption Priority of Payments on such Interest Payment Date; and
- (b) the amount of such Senior Expenses Deficit

(such amount being the "**Principal Addition Amounts**"), in meeting such Senior Expenses Deficit against the relevant items in the Pre-Enforcement Revenue Priority of Payments in the order that they appear in the Pre-Enforcement Revenue Priority of Payments.

The "**Senior Expenses Deficit**" shall be, on any Interest Payment Date, an amount equal to any shortfall in Available Revenue Receipts and any General Reserve Fund Release Amounts (and prior to the application of Available Redemption Receipts) to pay items (a) to (f) of the Pre-Enforcement Revenue Priority of Payments on such Interest Payment Date, as determined by the Cash Manager on the immediately preceding Calculation Date.

Any Available Redemption Receipts applied as Principal Addition Amounts will be recorded as a debit on the Principal Deficiency Ledger (as further described below).

For more information about the application of Available Redemption Receipts to pay Senior Expenses Deficits, see the section "*Transaction Overview – Credit Structure and Cashflow*" and "*Credit Structure*".

3. Principal Deficiency Ledger

A Principal Deficiency Ledger will be established to record any Losses affecting the Loans in the Portfolio and/or any Principal Addition Amounts.

"**Losses**" means the aggregate of (a) all realised losses on the Loans which are not recovered from the proceeds following the sale of the Property to which such Loan relates or any losses realised by the Issuer on the Loans as a result of the failure of the Collection Account Bank to remit funds to the Issuer and (b) any loss to the Issuer as a result of an exercise of any set off by any Borrower in respect of its Loan.

The "**Principal Deficiency Ledger**" will comprise sub-ledgers corresponding to each Class of Notes (each, a "**Principal Deficiency Sub-Ledger**"). Any Losses on the Portfolio and/or any Principal Addition Amounts will be recorded as a debit (on the date that the Cash Manager is informed of such Losses by the Servicer or such Principal Addition Amounts are determined by the Cash Manager (as applicable)):

- (a) first, to the Class Z Principal Deficiency Sub-Ledger up to a maximum amount equal to the Principal Amount Outstanding of the Class Z Notes; then
- (b) to the Class A Principal Deficiency Sub-Ledger up to a maximum amount equal to the aggregate Principal Amount Outstanding of the Class A Notes.

Investors should note that realised Losses in any period will be calculated after applying any recoveries following enforcement of a Loan to outstanding fees and interest amounts due and payable on the relevant Loan.

The Cash Manager will record as a credit to the Principal Deficiency Ledger (i) Available Revenue Receipts and General Reserve Fund Release Amounts applied pursuant to items (g) and (i) of the Pre-Enforcement Revenue Priority of Payments (if any) (which amounts shall, for the avoidance of doubt, thereupon become Available Redemption Receipts) and (ii) Enhanced Amortisation Amounts applied in accordance with item (k) of the Pre-Enforcement Revenue Priority of Payments (which amounts shall, for the avoidance of doubt, thereupon become Available Redemption Receipts). Any amount credited to the Principal Deficiency Ledger in respect of Enhanced Amortisation Amounts will be reduced to the extent of any future Losses arising in respect of the Portfolio.

4. Interest Rate Risk for the Notes

Swap Agreement

On or about the Closing Date, the Issuer and the Swap Provider will enter into the ISDA Master Agreement, schedule, credit support annex and confirmation (as amended or supplemented from time to time) relating to each Swap Transaction (the "**Swap Agreement**").

"**ISDA Master Agreement**" means the ISDA 2002 Master Agreement, as published by ISDA.

Swap Transactions

Some of the Loans in the Portfolio pay or will pay a fixed rate of interest for an initial period of time. However, the Issuer's liabilities under the Floating Rate Notes are based on the Compounded Daily SONIA for the relevant period.

To provide a hedge against the possible variance between:

- (a) the fixed rates of interest payable on the Fixed Rate Loans in the Portfolio; and
- (b) the rate of interest under the Floating Rate Notes being calculated by reference to Compounded Daily SONIA,

the Issuer will enter into the Initial Swap Transaction with the Swap Provider under the Swap Agreement on the Closing Date.

Under the relevant Swap Transaction, for each Swap Calculation Period falling prior to the termination date of the Swap Transaction, the following amounts will be calculated:

- (a) the amount produced by applying the Compounded Daily SONIA (provided that, for the purposes of the Swap Agreement, Compounded Daily SONIA shall be calculated by the Swap Provider, as calculation agent under the Swap Agreement) to the Notional Amount (as defined in the relevant Swap Transaction) of such Swap Transaction for the relevant Swap Calculation Period and multiplying the resulting amount by the Day Count Fraction (as defined below) (the "**Swap Provider Swap Amount**"); and
- (b) the amount produced by applying a Fixed Rate (as defined in the Swap Agreement) to the Notional Amount (as defined in the relevant Swap Transaction) of such Swap Transaction for the relevant Swap Calculation Period and multiplying the resulting amount by the Day Count Fraction (the "**Issuer Swap Amount**").

After these two amounts are calculated in relation to a Swap Payment Date, the following payments will be made on that Swap Payment Date:

- (a) if the Swap Provider Swap Amount for that Swap Payment Date is greater than the Issuer Swap Amount for that Swap Payment Date, then the Swap Provider will pay an amount equal to the excess to the Issuer;
- (b) if the Issuer Swap Amount for that Swap Payment Date is greater than the Swap Provider Swap Amount for that Swap Payment Date, then the Issuer will pay an amount equal to the excess to the Swap Provider; and
- (c) if the two amounts are equal, neither party will make a payment to the other.

To the extent that the Swap Provider Swap Amount on any Swap Payment Date is a negative amount, the Issuer will be required to pay an amount equal to the absolute value of such negative Swap Provider Swap Amount to the Swap Provider, together with the Issuer Swap Amount, on the relevant Swap Payment Date.

For the purposes of calculating both the Issuer Swap Amount and the Swap Provider Swap Amount in respect of a Swap Calculation Period, the notional amount of the Initial Swap Transaction will be set out in a pre-agreed table to the Initial Swap Transaction and based on the expected repayment profile of the Fixed Rate Loans assuming a 4.51 per cent. weighted average constant prepayment rate on the Current Balance of the Fixed Rate Loans in the Portfolio as at the Cut-Off Date.

The Issuer will make a single up-front payment to the Swap Provider on or around the Closing Date under the terms of the Swap Agreement.

To mitigate the risk between the fixed rate of interest which will be paid under any Relevant Product Switch Loans retained in the Portfolio and the Floating Rate Notes rate of interest based on Compounded Daily SONIA, the Issuer may enter into further interest rate swap transactions under the Swap Agreement from time to time in connection with the Product Switch Criteria (each a "Product Switch Swap Transaction"), whereby the notional amount of such Product Switch Swap Transaction would reflect the amortising notional profile corresponding to such Relevant Product Switch Loan(s) included in the Portfolio in respect of that Swap Calculation Period for which the Product Switch Swap Transaction is entered into. Alternatively, the Issuer may adjust, amend, vary, supplement and/or modify the notional amount profile of one or more existing Swap Transactions such that the aggregate notional amounts of such Swap Transactions match the amortisation profile of the Fixed Rate Loans in the Portfolio inclusive of the Relevant Product Switch Loans.

For the purposes of determining the amounts payable under the Swap Transactions, the following definitions apply:

"Day Count Fraction" means, in respect of any Swap Calculation Period, the number of calendar days in that Swap Calculation Period divided by 365;

"Swap Calculation Period" means (other than the first Swap Calculation Period), each period that commences on (and includes) a Swap Payment Date and ends on (but excludes) the immediately following Swap Payment Date and in respect of the first Swap Calculation Period in respect of the Initial Swap Transaction only, means the period commencing on (and including) the Closing Date and ending on (but excluding) the Swap Payment Date falling in October 2025; and

"Swap Payment Date" means the 16th of each calendar month in each year commencing (in respect of the Initial Swap Transaction only) the Interest Payment Date falling in October 2025 and ending on the termination date of the relevant Swap Transaction, in each case subject to adjustment in accordance with the following business day convention as set out in the Swap Agreement.

The Swap Transactions may not fully hedge the Issuer's interest rate risk as discussed under the section entitled *"Risk Factors – Counterparty and Third Party Risks – Interest rate risk"* above.

General

If a payment is made by the Swap Provider (other than (i) any early termination amount received by the Issuer under the Swap Agreement, (ii) Swap Collateral, (iii) any Replacement Swap Premium paid to the Issuer, and (iv) amounts in respect of Swap Tax Credits on such Interest Payment Date other than, in each case, any Swap Collateral Account Surplus which is to be applied as Available Revenue Receipts in accordance with the Swap Collateral Account Priority of Payments), that payment will be included in the Available Revenue Receipts and will be applied on the relevant Swap Payment Date

according to the applicable Priority of Payments. If a payment is to be made by the Issuer, it will be made according to the applicable Priority of Payments of the Issuer.

Under the terms of the Swap Agreement, in the event that the relevant rating(s) of the Swap Provider assigned by a Rating Agency falls below the required swap rating (the "**Required Swap Rating**") (as to which see further the section entitled "*Transaction Overview – Triggers Tables*"), the Swap Provider will, in accordance with the Swap Agreement, be required to take certain remedial measures within the timeframe stipulated in the Swap Agreement and at its own cost which may include providing collateral for its obligations under the Swap Transactions, arranging for its obligations under the Swap Transactions to be transferred to an entity with the Required Swap Ratings or procuring another eligible entity with the Required Swap Ratings to become co-obligor or guarantor, as applicable, in respect of its obligations under the Swap Transactions. If there is an early termination of the Swap Agreement, the Cash Manager (on behalf of the Issuer) or, following the service of an Enforcement Notice, the Security Trustee shall instruct the Custodian to liquidate any securities constituting Swap Collateral in the Swap Collateral Securities Account on a delivery versus payment basis promptly following such early termination of the Swap Agreement. However, no assurance can be given that, at the time that such actions are required, sufficient collateral will be available to the Swap Provider for posting or that another entity with the Required Swap Rating will be available to become a replacement swap provider, co-obligor or guarantor or that the applicable Swap Provider will be able to take the requisite other action. If the remedial measures following a downgrade below the Required Swap Rating are not taken within the applicable time frames, this will in certain circumstances permit the Issuer to terminate the Swap Agreement early.

The Swap Transactions may be terminated in certain circumstances, including the following, each as more specifically defined in the Swap Agreement (an "**Early Termination Event**"):

- (a) if there is a failure by a party to pay amounts due under the Swap Agreement and any applicable grace period has expired;
- (b) if certain insolvency events occur with respect to the Swap Provider;
- (c) if a material misrepresentation is made by the Swap Provider under the Swap Agreement;
- (d) if a breach of a provision of the Swap Agreement by the Swap Provider is not remedied within the applicable grace period;
- (e) if a change of law results in the obligations of one of the parties becoming illegal;
- (f) if certain force majeure events occur and result in one of the parties being prevented from performing its obligations, receiving payments or complying with any material provision of the Swap Agreement;
- (g) in certain circumstances, if a deduction or withholding for or on account of taxes is imposed on payments under the Swap Transactions due to a change in law;
- (h) if the Swap Provider is downgraded and fails to comply with the requirements of the downgrade provisions contained in the Swap Agreement and described above;
- (i) service by the Note Trustee of an Enforcement Notice on the Issuer pursuant to Condition 11 (*Events of Default*) of the Notes;
- (j) if there is a redemption in full of the Collateralised Notes pursuant to Condition 8.2 (*Mandatory Redemption prior to the service of an Enforcement Notice or on the Call Option Redemption Date*), Condition 8.3 (*Mandatory Redemption of the Notes in Full*) or Condition 8.4 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*); and

- (k) any of the Transaction Documents are amended, modified, or supplement or any waiver is given in respect of a Transaction Document without the Swap Provider's prior written consent (such consent not to be unreasonably withheld or delayed) where such amendment, modification, supplement or waiver would, in the reasonable opinion of the Swap Provider, materially adversely affect (i) the Pre-Enforcement Priority of Payments, the Post-Enforcement Priority of Payments or the Swap Collateral Account Priority of Payments; (ii) the amount, timing or priority of any payments or deliveries due to be made by or to the Swap Provider; (iii) the Swap Provider's status as a Secured Creditor; (iv) the rights of the Swap Provider in relation to the Security (howsoever described, and including as a result of changing the nature or the scope of, or releasing such Security granted by the Issuer in favour of the Security Trustee on behalf of the Secured Creditors); (v) any other terms which would modify a payment date under any Swap Agreement or cause the Notes to be redeemed in full or the Portfolio to be sold or otherwise disposed of in full (other than as permitted or contemplated by the Transaction Documents as at the date of the Swap Agreement); or (vi) the definitions of any terms used in any Transaction Documents relating to the matters in (i) to (v) above.

Under the terms of the Swap Agreement, upon an early termination of the Swap Transactions, depending on the type of Early Termination Event and the circumstances prevailing at the time of termination, the Issuer or the Swap Provider may be liable to make a termination payment to the other. This termination payment will be calculated and made in Sterling. The amount of any termination payment may reflect, among other things, the cost of entering into a replacement transaction at the time, third party market data such as rates, prices, yields and yield curves, or similar information derived from internal sources of the party making the determination and will include any unpaid amounts that became due and payable on or prior to the date of termination.

Depending on the terms of the Swap Transactions and the circumstances prevailing at the time of termination, any such termination payment could be substantial and may affect the funds available for paying amounts due to the Noteholders.

The Issuer will use its reasonable endeavours, upon termination of the Swap Agreement, to find a replacement Swap Provider although no guarantees of such replacement can be given.

The Issuer is not obliged under the Swap Agreement to gross up payments made by it if a withholding or deduction for or on account of taxes is imposed on payments made under the Swap Transactions.

The Swap Provider will generally be obliged to gross up payments made by it to the Issuer if a withholding or deduction for or on account of tax (other than withholding tax imposed under FATCA) is imposed on payments made by it under the Swap Agreement.

The Swap Agreement and any non-contractual obligations arising out of or in connection with it will be governed by English law.

 - (ii) *second*, in or towards payment of a Replacement Swap Premium (if any) payable by the Issuer to a replacement swap provider in order to enter into a Replacement Swap Agreement with the Issuer with respect to the Swap Agreement being terminated; and
 - (iii) *third*, any surplus on such day to be transferred to the Deposit Account to be applied as Available Revenue Receipts;
- (e) following the designation of an Early Termination Date in respect of the Swap Agreement for any reason where the Issuer does not enter into a Replacement Swap Agreement in respect of the Swap Agreement on or around the Early Termination Date of the Swap Agreement and, on the date on which the relevant payment is due, in or towards payment of any termination payment due to the outgoing Swap Provider; and

- (f) following payments of amounts due pursuant to paragraph (e) above, if amounts remain standing to the credit of a Swap Collateral Account, such amounts may be applied only in accordance with the following provisions:
- (i) *first*, in or towards payment of a Replacement Swap Premium (if any) payable by the Issuer to a replacement swap provider in order to enter into a Replacement Swap Agreement with the Issuer with respect to the Swap Agreement; and
 - (ii) *second*, any surplus remaining after payment of such Replacement Swap Premium to be transferred to the Deposit Account to be applied as Available Revenue Receipts,

provided, with respect to paragraph (f) above, that for so long as the Issuer does not enter into a Replacement Swap Agreement with respect to the Swap Agreement, on each Swap Payment Date following the designation of an Early Termination Date, the Issuer (or the Cash Manager on its behalf) will be permitted to withdraw an amount from the Swap Collateral Accounts (which shall be debited to the relevant Swap Collateral Ledger), equal to the excess of the Swap Provider Swap Amount over the Issuer Swap Amount which would have been paid by the Swap Provider to the Issuer on such Swap Payment Date but for the designation of an Early Termination Date under the Swap Agreement, such surplus to be transferred to the Deposit Account to be applied as Available Revenue Receipts; and

provided further that for so long as the Issuer does not enter into a Replacement Swap Agreement with respect to the Swap Agreement on or prior to the earlier of:

- (A) the Calculation Date immediately before the Interest Payment Date on which the Principal Amount Outstanding of all Collateralised Notes would be reduced to zero (taking into account any Swap Collateral Account Surplus to be applied as Available Revenue Receipts on such Interest Payment Date); or
- (B) the day on which an Enforcement Notice is given pursuant to Condition 11 (*Events of Default*); or
- (C) the date on which the Current Balance of the Fixed Rate Loans (excluding any Enforced Loans) is reduced to zero,

then the amount standing to the credit of such Swap Collateral Account on such day shall be transferred to the Deposit Account to be applied as Available Revenue Receipts as soon as reasonably practicable thereafter.

"Swap Collateral Account Surplus" means the amounts applied as Available Revenue Receipts pursuant to the Swap Collateral Account Priority of Payments.

The Swap Collateral Accounts will be opened in the name of the Issuer and will be held at a financial institution which satisfies the Account Bank Rating. The Swap Collateral Accounts and Swap Collateral Ledgers will be established and maintained in respect of the Swap Agreement. As security for the payment of all monies payable in respect of the Notes and the other Secured Obligations, the Issuer will grant a first fixed charge over the Issuer's interest in the Swap Collateral Accounts and the debts represented thereby (which may, however, take effect as a floating charge and therefore rank behind the claims of any preferential creditors of the Issuer).

DESCRIPTION OF THE GLOBAL NOTES

General

Each Class of Notes as at the Closing Date will each be represented by a Global Note. All capitalised terms not defined in this paragraph shall be as defined in the Conditions of the Notes.

The Global Notes will be registered in the name of the nominee for the Common Safekeeper for both Euroclear and Clearstream, Luxembourg. The Registrar will maintain a register in which it will register the nominee for the Common Safekeeper as the owner of the Global Note.

Upon confirmation by the Common Safekeeper that it has custody of the Global Notes, Euroclear or Clearstream, Luxembourg, as the case may be, will record in book-entry form interests representing beneficial interests in the Global Note attributable thereto ("**Book-Entry Interests**").

The Notes are intended to be held in a manner which will allow Eurosystem eligibility. This simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Book-Entry Interests in respect of each Global Note will be recorded in denominations of £100,000 and higher integral multiples of £1,000 (an "**Authorised Denomination**"). Ownership of Book-Entry Interests is limited to persons that have accounts with Euroclear or Clearstream, Luxembourg ("**Participants**") or persons that hold interests in the Book-Entry Interests through Participants or through other Indirect Participants ("**Indirect Participants**"), including, as applicable, banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with Euroclear or Clearstream, Luxembourg, either directly or indirectly. Book-Entry Interests will not be held in definitive form. Instead, Euroclear and Clearstream, Luxembourg, as applicable, will credit the Participants' accounts with the respective Book-Entry Interests beneficially owned by such Participants on each of their respective book-entry registration and transfer systems. The accounts initially credited will be designated by the Joint Lead Managers. Ownership of Book-Entry Interests will be shown on, and transfers of Book-Entry Interests or the interests therein will be effected only through, records maintained by Euroclear or Clearstream, Luxembourg (with respect to the interests of their Participants) and on the records of Participants or Indirect Participants (with respect to the interests of Indirect Participants). The laws of some jurisdictions or other applicable rules may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may therefore impair the ability to own, transfer or pledge Book-Entry Interests.

So long as a nominee for the Common Safekeeper is the registered holder of the Global Note underlying the Book-Entry Interests, the nominee for the Common Safekeeper will be considered the sole Noteholder of the Global Note for all purposes under the Trust Deed. Except as set out under "*Issuance of Registered Definitive Notes*" below, Participants or Indirect Participants will not be entitled to have Notes registered in their names, will not receive or be entitled to receive physical delivery of the Notes in definitive registered form and will not be considered the holders thereof under the Trust Deed. Accordingly, each person holding a Book-Entry Interest must rely on the rules and procedures of Euroclear or Clearstream, Luxembourg, as the case may be, and Indirect Participants must rely on the procedures of the Participants or Indirect Participants through which such person owns its interest in the relevant Book-Entry Interests, to exercise any rights and obligations of a holder of the Notes under the Trust Deed. See "*Action in respect of the Global Notes and the Book-Entry Interests*" below.

Unlike legal owners or holders of the Notes, holders of the Book-Entry Interests will not have the right under the Trust Deed to act upon solicitations by the Issuer or consents or requests by the Issuer for waivers or other actions from Noteholders. Instead, a holder of Book-Entry Interests will be permitted to act only to the extent it has received appropriate proxies to do so from Euroclear or Clearstream, Luxembourg, as the case may be,

and, if applicable, their Participants. There can be no assurance that procedures implemented for the granting of such proxies will be sufficient to enable holders of Book-Entry Interests to vote on any requested actions on a timely basis. Similarly, upon the occurrence of an Event of Default under the Global Note, holders of Book-Entry Interests will be restricted to acting through Euroclear or Clearstream, Luxembourg unless and until Registered Definitive Notes are issued in accordance with the Conditions. There can be no assurance that the procedures to be implemented by Euroclear and Clearstream, Luxembourg under such circumstances will be adequate to ensure the timely exercise of remedies under the Trust Deed.

In the case of a Global Note, unless and until Book-Entry Interests are exchanged for Registered Definitive Notes, the Global Note held by the Common Safekeeper may not be transferred except as a whole by the Common Safekeeper to a successor of the Common Safekeeper.

Purchasers of Book-Entry Interests in a Global Note will hold Book-Entry Interests in the Global Note relating thereto. Investors may hold their Book-Entry Interests in respect of a Global Note directly through Euroclear or Clearstream, Luxembourg (in accordance with the provisions set out under "*Transfers and Transfer Restrictions*" below), if they are account holders in such systems, or indirectly through organisations which are account holders in such systems. Euroclear and Clearstream, Luxembourg will hold Book-Entry Interests in the Global Note on behalf of their account holders through securities accounts in the respective account holders' names on Euroclear's and Clearstream, Luxembourg's respective book-entry registration and transfer systems.

Although Euroclear and Clearstream, Luxembourg have agreed to certain procedures to facilitate transfers of Book-Entry Interests among account holders of Euroclear and Clearstream, Luxembourg, they are under no obligation to perform or to continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Arranger, the Joint Lead Managers, the Note Trustee, the Security Trustee or any of their respective agents will have any responsibility for the performance by Euroclear or Clearstream, Luxembourg or their respective Participants or account holders of their respective obligations under the rules and procedures governing their operations.

Payments on the Global Notes

Payment of principal and interest on, and any other amount due in respect of, the Global Notes will be made in Sterling by or to the order of U.S. Bank Europe DAC, UK Branch (the "**Principal Paying Agent**"), on behalf of the Issuer to the order of the Common Safekeeper or its nominee as the registered holder thereof with respect to the Global Notes. Each holder of Book-Entry Interests must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of any amounts paid by or on behalf of the Issuer to the order of the Common Safekeeper or their nominees in respect of those Book-Entry Interests. All such payments will be distributed without deduction or withholding for or on account of any taxes, duties, assessments or other governmental charges of whatever nature except as may be required by law. If any such deduction or withholding is required to be made, then neither the Issuer, the Paying Agents nor any other person will be obliged to pay additional amounts in respect thereof.

In accordance with the rules and procedures for the time being of Euroclear or, as the case may be, Clearstream, Luxembourg, after receipt of any payment from the Principal Paying Agent to the order of the Common Safekeeper, the respective systems will promptly credit their Participants' accounts with payments in amounts proportionate to their respective ownership of Book-Entry Interests as shown in the records of Euroclear or Clearstream, Luxembourg. On each record date (the "**Record Date**"), Euroclear and Clearstream, Luxembourg will determine the identity of the Noteholders for the purposes of making payments to the Noteholders. The Record Date in respect of the Notes (a) where the Notes are in global registered form, shall be at the close of the Business Day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) prior to the relevant Interest Payment Date and (b) where the Notes are in definitive registered form, shall be the date falling 15 days prior to the relevant Interest Payment Date. The Issuer expects that payments by Participants to owners of interests in Book-Entry Interests held through such Participants or Indirect Participants will be governed by standing customer instructions and customary practices, as is now the case

with the securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participants or Indirect Participants. None of the Issuer, any agent of the Issuer, the Arranger, the Joint Lead Managers, the Note Trustee or the Security Trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of a Participant's ownership of Book-Entry Interests or for maintaining, supervising or reviewing any records relating to a Participant's ownership of Book-Entry Interests.

Information Regarding Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg have advised the Issuer as follows:

- Euroclear and Clearstream, Luxembourg each hold securities for their account holders and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders, thereby eliminating the need for physical movements of certificates and any risk from lack of simultaneous transfers of securities.
- Euroclear and Clearstream, Luxembourg each provide various services, including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg each also deal with domestic securities markets in several countries through established depositary and custodial relationships. The respective systems of Euroclear and of Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective account holders may settle trades with each other.
- Account holders in both Euroclear and Clearstream, Luxembourg are worldwide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to both Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.
- An account holder's overall contractual relations with either Euroclear or Clearstream, Luxembourg are governed by the respective rules and operating procedures of Euroclear or Clearstream, Luxembourg and any applicable laws. Both Euroclear and Clearstream, Luxembourg, act under such rules and operating procedures only on behalf of their respective account holders, and have no record of or relationship with persons holding through their respective account holders.

The Issuer understands that under existing industry practices, if any of the Issuer, the Note Trustee or the Security Trustee requests any action of owners of Book-Entry Interests or if an owner of a Book-Entry Interest desires to give instructions or take any action that a holder is entitled to give or take under the Trust Deed or the Deed of Charge, Euroclear or Clearstream, Luxembourg as the case may be, would authorise the Participants owning the relevant Book-Entry Interests to give instructions or take such action, and such Participants would authorise Indirect Participants to give or take such action or would otherwise act upon the instructions of such Indirect Participants.

Redemption

In the event that a Global Note (or portion thereof) is redeemed, the Principal Paying Agent will deliver all amounts received by it in respect of the redemption of such Global Note to the order of the Common Safekeeper and, upon final payment, will surrender such Global Note (or portion thereof) to or to the order of the Principal Paying Agent for cancellation. Appropriate entries will be made in the Register. The redemption price payable in connection with the redemption of Book-Entry Interests will be equal to the amount received by the Principal Paying Agent in connection with the redemption of the Global Note (or portion thereof) relating thereto. For any redemptions of the Global Note in part, selection of the relevant Book-Entry Interest relating thereto to be redeemed will be made by Euroclear or Clearstream, Luxembourg, as the case may be, on a *pro rata* basis (or on such basis as Euroclear or Clearstream, Luxembourg, as the case may be, deems fair and appropriate). Upon any redemption in part, the Principal Paying Agent will mark down the schedule to such Global Note by the principal amount so redeemed.

Cancellation

Cancellation of any Note represented by a Global Note and required by the Conditions to be cancelled following its redemption will be effected by endorsement by or on behalf of the Principal Paying Agent of the reduction in the principal amount of the relevant Global Note on the relevant schedule thereto and the corresponding entry on the Register.

Transfers and Transfer Restrictions

All transfers of Book-Entry Interests will be recorded in accordance with the book-entry systems maintained by Euroclear or Clearstream, Luxembourg, as applicable, pursuant to customary procedures established by each respective system and its Participants. See "*General*" above.

Issuance of Registered Definitive Notes

Holders of Book-Entry Interests in the Global Note will be entitled to receive Notes in definitive registered form (such exchanged Global Notes in definitive registered form, "**Registered Definitive Notes**") in exchange for their respective holdings of Book-Entry Interests if (a) both Euroclear and Clearstream, Luxembourg are closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announce an intention permanently to cease business or to cease to make book-entry systems available for settlement of beneficial interests in such Global Notes and do in fact do either of those things and no alternative clearing system satisfactory to the Note Trustee is available or (b) as a result of any amendment to, or change in, the laws or regulations of the United Kingdom (or of any political subdivision thereof) or of any authority therein or thereof having power to tax or in the interpretation or administration by a revenue authority or a court or in the administration of such laws or regulations which becomes effective on or after the Closing Date, the Issuer or any Paying Agent is or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required were the Notes in definitive registered form. Any Registered Definitive Notes issued in exchange for Book-Entry Interests in the Global Note will be registered by the Registrar in such name or names as the Issuer shall instruct the Principal Paying Agent based on the instructions of Euroclear or Clearstream, Luxembourg, as the case may be. It is expected that such instructions will be based upon directions received by Euroclear or Clearstream, Luxembourg from their Participants with respect to ownership of the relevant Book-Entry Interests. Holders of Registered Definitive Notes issued in exchange for Book-Entry Interests in the Global Note will not be entitled to exchange such Registered Definitive Notes for Book-Entry Interests in such Global Note. Any Notes issued in definitive form will be issued in registered form only and will be subject to the provisions set out under "*Transfers and Transfer Restrictions*" above and provided that no transfer shall be registered for a period of 15 days immediately preceding any due date for payment in respect of the Note or, as the case may be, the due date for redemption. Registered Definitive Notes will be issued in a denomination that is an integral multiple of the minimum Authorised Denomination. See "*Risk Factors – Risks relating to the characteristics of the notes – Registered Definitive Notes and denominations in integral multiples*" above.

Action in respect of the Global Notes and the Book-Entry Interests

Not later than 10 days after receipt by the Issuer of any notices in respect of a Global Note or any notice of solicitation of consents or requests for a waiver or other action by the holder of such Global Note, the Issuer will deliver to Euroclear and Clearstream, Luxembourg a notice containing (a) such information as is contained in such notice, (b) a statement that at the close of business on a specified record date Euroclear and Clearstream, Luxembourg will be entitled to instruct the Issuer as to the consent, waiver or other action, if any, pertaining to the Book-Entry Interests or the Global Note and (c) a statement as to the manner in which such instructions may be given. Upon the written request of Euroclear or Clearstream, Luxembourg, as applicable, the Issuer shall endeavour insofar as practicable to take such action regarding the requested consent, waiver or other action in respect of the Book-Entry Interests or the Global Note in accordance with any instructions set out in such request. Euroclear or Clearstream, Luxembourg are expected to follow the procedures described under "*General*" above with respect to soliciting instructions from their respective Participants. The Registrar will

not exercise any discretion in the granting of consents or waivers or the taking of any other action in respect of the Book-Entry Interests or the Global Notes.

Notices

While the Notes are represented by Global Notes, the Issuer may, at its option, send to Euroclear and Clearstream, Luxembourg a copy of any notices addressed to Noteholders for communication by Euroclear and Clearstream, Luxembourg to the Noteholders. Alternatively, such notices regarding the Notes may instead be published in the *Financial Times* or, if such newspaper shall cease to be published or if timely publication therein is not practicable, in such other English newspaper or newspapers as the Note Trustee shall approve in advance having a general circulation in the United Kingdom; provided that if, at any time, the Issuer procures that the information contained in such notice shall appear on a page of the Reuters screen, the Bloomberg screen or any other medium for electronic display of data as may be previously approved in writing by the Note Trustee and notified to Noteholders, publication in such newspaper shall not be required with respect to such information so long as the rules of the London Stock Exchange allow. The Issuer may elect not to publish any notice in a newspaper for so long as the Notes are held in global form and notice is given to Euroclear and Clearstream, Luxembourg. The Note Trustee may, in accordance with Condition 16.2 (*Note Trustee's Discretion to Select Alternative Method*), sanction other methods of giving notice to all or some of the Noteholders if such method is reasonable having regard to, among other things, the market practice then prevailing and the requirements of the relevant stock exchange. See also Condition 16 (*Notice to Noteholders*) of the Notes.

New Safekeeping Structure and Eurosystem Eligibility

The Notes are intended to be held in a new safekeeping structure ("NSS") and in a manner which would allow Eurosystem eligibility and will be deposited with one of the ICSDs as common safekeeper. However, the deposit of the Notes with one of the ICSDs as common safekeeper upon issuance or otherwise does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem at issuance or at any time during their life. Such recognition will depend upon the European Central Bank being satisfied that Eurosystem eligibility criteria have been met.

Issuer-ICSDs Agreement

Prior to the issuance of the Notes, the Issuer will enter into an Issuer-ICSDs Agreement with the ICSDs in respect of the Notes. The Issuer-ICSDs Agreement provides that the ICSDs will, in respect of any of the Notes (while being held in the NSS), maintain their respective portion of the issue outstanding amount through their records. The Issuer-ICSDs Agreement will be governed by English law.

TERMS AND CONDITIONS OF THE NOTES

The following are the terms and conditions of the Notes in the form (subject to amendment) in which they will be set out in the Trust Deed (as defined below).

1. GENERAL

The £527,900,000 Class A mortgage backed floating rate notes due July 2062 (the "**Class A Notes**"), the £50,621,000 Class Z mortgage backed fixed rate notes due July 2062 (the "**Class Z Notes**" and, together with the Class A Notes, the "**Collateralised Notes**" and the holders thereof the "**Collateralised Noteholders**"), the £7,232,000 Class X mortgage backed fixed rate notes due July 2062 (the "**Class X Notes**", and together with the Collateralised Notes, the "**Notes**"), in each case of CMF 2025-1 PLC (the "**Issuer**") are constituted by a trust deed (the "**Trust Deed**") dated on or about 4 September 2025 (the "**Closing Date**") and made between, among others, the Issuer and U.S. Bank Trustees Limited as trustee for the Noteholders (in such capacity, the "**Note Trustee**"). Any reference in these terms and conditions (the "**Conditions**") to a "**Class**" of Notes or of Noteholders shall be a reference to the Class A Notes, the Class Z Notes or the Class X Notes, as the case may be, or to the respective holders thereof. Any reference in these Conditions to the Noteholders means the registered holders for the time being of the Notes, or if preceded by a particular Class designation of Notes, the registered holders for the time being of such Class of Notes. The security for the Notes is constituted by and pursuant to a deed of charge and assignment (the "**Deed of Charge**") dated on the Closing Date and made between, among others, the Issuer and U.S. Bank Trustees Limited as trustee for the Secured Creditors (in such capacity, the "**Security Trustee**").

Pursuant to an agency agreement (the "**Agency Agreement**") dated on or prior to the Closing Date and made between the Issuer, the Security Trustee, the Note Trustee, U.S. Bank Europe DAC, UK Branch as principal paying agent (in such capacity, the "**Principal Paying Agent**" and, together with any further or other paying agent appointed under the Agency Agreement, the "**Paying Agents**"), U.S. Bank Europe DAC, UK Branch as registrar (in such capacity, the "**Registrar**") and U.S. Bank Europe DAC, UK Branch as agent bank (in such capacity, the "**Agent Bank**"), provision is made for, *inter alia*, the payment of principal and interest in respect of the Notes.

The statements in these Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed, the Deed of Charge, the Agency Agreement and a master definitions and construction schedule (the "**Master Definitions and Construction Schedule**") entered into by, among others, the Issuer, the Note Trustee and the Security Trustee on the Closing Date and the other Transaction Documents (as defined therein).

Physical copies of the Trust Deed, the Deed of Charge, the Agency Agreement, the Master Definitions and Construction Schedule and the other Transaction Documents are available for inspection during normal business hours at the specified office for the time being of each of the Paying Agents. The Noteholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Transaction Documents applicable to them.

2. INTERPRETATION

2.1 Definitions

Capitalised terms not otherwise defined in these Conditions shall bear the meanings given to them in the Master Definitions and Construction Schedule available as described above.

2.2 Interpretation

These Conditions shall be construed in accordance with the principles of construction set out in the Master Definitions and Construction Schedule.

3. FORM, DENOMINATION AND TITLE

3.1 Form and Denomination

Each Class of Notes will initially be represented by a global note certificate in registered form (a "**Global Note**").

For so long as any of the Notes are represented by a Global Note, transfers and exchanges of beneficial interests in such Global Note and entitlement to payments thereunder will be effected subject to and in accordance with the rules and procedures from time to time of Euroclear Bank SA/NV ("**Euroclear**") or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"), as appropriate. Each Global Note will be deposited with a common safekeeper for Euroclear and Clearstream, Luxembourg and registered in the name of a nominee thereof.

For so long as the Notes are represented by a Global Note, and for so long as Euroclear and Clearstream, Luxembourg so permit, the Notes shall be tradable only in the minimum nominal amount of £100,000 and higher integral multiples of £1,000, notwithstanding that no Registered Definitive Notes (as defined below) will be issued with a denomination above £199,000. A Global Note will be exchanged for the relevant Note in definitive registered form (such exchanged Global Notes in definitive registered form, the "**Registered Definitive Notes**") only if either of the following applies:

- (a) both Euroclear and Clearstream, Luxembourg:
 - (i) are closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise); or
 - (ii) announce an intention permanently to cease business or to cease to make book-entry systems available for settlement of beneficial interests in such Global Notes and do in fact do either of those things,and in either case no alternative clearing system satisfactory to the Note Trustee is available; or
- (b) as a result of any amendment to, or change in, the laws or regulations of the United Kingdom (or of any political subdivision thereof) or of any authority therein or thereof having power to tax, or in the interpretation or administration by a revenue authority or a court or in the application of such laws or regulations, which becomes effective on or after the Closing Date, the Issuer or any Paying Agent is or will be required to make any deduction or withholding for or on account of tax from any payment in respect of the Notes which would not be required were the relevant Notes in definitive registered form.

If Registered Definitive Notes are issued in respect of Notes originally represented by a Global Note, the beneficial interests represented by such Global Note shall be exchanged by the Issuer for the relevant Notes in registered definitive form. The aggregate principal amount of the Registered Definitive Notes shall be equal to the Principal Amount Outstanding of the Notes at the date on which notice of exchange is given of the Global Note, subject to and in accordance with the detailed provisions of these Conditions, the Agency Agreement, the Trust Deed and the relevant Global Note.

Registered Definitive Notes (which, if issued, will be in the denomination set out below) will be serially numbered and will be issued in registered form only.

The minimum denomination of the Notes in global and (if issued and printed) definitive form will be £100,000.

References to "**Notes**" in these Conditions shall include the Global Notes and the Registered Definitive Notes.

3.2 Title

Title to the Global Notes shall pass by and upon registration in the register (the "**Register**") which the Issuer shall procure to be kept by the Registrar. The registered holder of a Global Note may (to the fullest extent permitted by applicable laws) be deemed and treated at all times, by all persons and for all purposes (including the making of any payments), as the absolute owner of such Global Note regardless of any notice of ownership, theft or loss or any trust or other interest therein or of any writing thereon (other than the endorsed form of transfer).

Title to a Registered Definitive Note shall only pass by and upon registration of the transfer in the Register.

Registered Definitive Notes may be transferred upon the surrender of the relevant Registered Definitive Note, with the form of transfer endorsed on it duly completed and executed, at the specified office of the Registrar. Such transfers shall be subject to the minimum denominations specified in Condition 3.1 (*Form and Denomination*) above. All transfers of Registered Definitive Notes are subject to any restrictions on transfer set out on the Registered Definitive Notes and the detailed regulations concerning transfers in the Agency Agreement.

Each new Registered Definitive Note to be issued upon transfer of such Registered Definitive Note will, within five Business Days of receipt and surrender of such Registered Definitive Note (duly completed and executed) for transfer, be available for delivery at the specified office of the Registrar or be mailed at the risk of the transferee entitled to such Registered Definitive Note to such address as may be specified in the relevant form of transfer.

Registration of a Registered Definitive Note on transfer will be effected without charge by the Registrar, but subject to payment of (or the giving of such indemnity as the Registrar may require for) any tax, stamp duty or other government charges which may be imposed in relation to it.

4. STATUS AND RELATIONSHIP BETWEEN THE NOTES AND SECURITY

4.1 Status and relationship between the Notes

- (a) The Class A Notes constitute direct, secured and (subject to the limited recourse provision in Condition 12 (*Enforcement*)) unconditional obligations of the Issuer. The Class A Notes rank *pro rata* and *pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, as provided in these Conditions and the Transaction Documents.
- (b) The Class Z Notes constitute direct, secured and (subject to the limited recourse provision in Condition 12 (*Enforcement*) and Condition 17 (*Subordination by Deferral*)) unconditional obligations of the Issuer. The Class Z Notes rank *pari passu* without preference or priority among themselves in relation to payment of interest and principal at all times, but subordinate to the Class A Notes, as provided in these Conditions and the Transaction Documents. Accordingly, the interests of the persons who for the time being are registered in the Register as holders of Class Z Notes (the "**Class Z Noteholders**") will be subordinated to the interests of the persons who for the time being are registered in the Register as holders of Class A Notes (the "**Class A Noteholders**" (so long as any Class A Notes remain outstanding).
- (c) The Class X Notes constitute direct, secured and (subject as provided in Condition 17 (*Subordination by Deferral*) and the limited recourse provisions in Condition 12 (*Enforcement*)) unconditional obligations of the Issuer. The Class X Notes rank *pari passu* without preference or priority among themselves in relation to the payment of interest and principal at all times, but subordinate to all

payments due in respect of the Collateralised Notes, as provided in these Conditions and the Transaction Documents. Accordingly, the interests of the persons who for the time being are registered in the Register as holders of the Class X Notes (the "**Class X Noteholders**") will be subordinated to the interests of the holders of the Collateralised Notes (so long as any Collateralised Notes remain outstanding).

- (d) The Trust Deed and the Deed of Charge contain provisions requiring the Note Trustee and the Security Trustee, respectively, to have regard to the interests of holders of each Class of Notes (except where expressly provided otherwise) but where there is a conflict of interests between one or more Classes of Notes, the Note Trustee and the Security Trustee shall have regard (except as expressly provided otherwise) to the interests of the holders of the Class or Classes of Notes ranking in priority to the other relevant Classes of Notes in the Post-Enforcement Priority of Payments.
- (e) The Trust Deed also contains provisions limiting the powers of any Class of Noteholders to request or direct the Note Trustee to take any action or to pass an effective Extraordinary Resolution according to the effect thereof on the interests of the holders of the Most Senior Class. Except in certain circumstances described in Condition 13 (*Meetings of Noteholders, Modification, Waiver and Substitution*), the Trust Deed contains no such limitation on the powers of the holders of the Most Senior Class, the exercise of which will be binding (save in respect of a Basic Terms Modification) on the holders of all other Classes of Notes, in each case irrespective of the effect thereof on their respective interests.

As long as any Notes are outstanding but subject to Condition 13.5 (*Modification to the Transaction Documents*), the Security Trustee shall not have regard to the interests of the other Secured Creditors.

4.2 Security

- (a) The security constituted by or pursuant to the Deed of Charge is granted to the Security Trustee for it to hold on trust for the Noteholders and the other Secured Creditors, upon and subject to the terms and conditions of the Deed of Charge.
- (b) The Noteholders and the other Secured Creditors will share in the benefit of the security constituted by or pursuant to the Deed of Charge, upon and subject to the terms and conditions of the Deed of Charge.

5. COVENANTS

Save with the prior written consent of the Note Trustee or unless otherwise permitted under these Conditions or any of the Transaction Documents, the Issuer shall not, so long as any Note remains outstanding:

- (a) **Negative pledge:** create or permit to subsist any encumbrance (unless arising by operation of law) or other security interest whatsoever over any of its assets or undertakings;
- (b) **Restrictions on activities:** (i) engage in any activity whatsoever which is not incidental to or necessary in connection with any of the activities in which the Transaction Documents provide or envisage that the Issuer will engage or (ii) have any subsidiaries, any subsidiary undertaking (as defined in the Companies Act 1985 and the Companies Act 2006 (as applicable)) or any employees (but shall procure that, at all times, it shall retain at least one independent director) or premises;
- (c) **Disposal of assets:** assign, transfer, sell, lend, lease, part with or otherwise dispose of, or deal with, or grant any option or present or future right to acquire all or any of its assets or undertakings or any interest, estate, right, title or benefit therein or attempt or purport to do any of the foregoing;

- (d) **Equitable and Beneficial Interest:** permit any person, other than itself and the Security Trustee, to have any equitable or beneficial interest in any of its assets or undertakings or any interest, estate, right, title or benefit therein;

cease to bear interest from and including the due date for redemption unless, upon due presentation in accordance with Condition 7 (*Payments*), payment of the principal in respect of the Note is improperly withheld or refused or default is otherwise made in respect of the payment, in which event interest shall continue to accrue as provided in the Trust Deed.

The Agent Bank shall cause the Rate of Interest and the Interest Amounts for each Class of Notes in respect of each Interest Period and each Interest Payment Date to be notified to the Issuer, the Cash

The Issuer will be required to continually comply with UK EMIR while it is party to any interest rate swaps. The Agent Bank may not resign its duties or be removed without a successor having been appointed on terms commercially acceptable in the market.

6.8 Determinations and Reconciliation

- (a) In the event that the Cash Manager does not receive a Servicer Report with respect to a Collection Period (each such period, a "**Determination Period**"), the Cash Manager may use the three most recently received Servicer Reports in respect of the preceding Collection Periods (or, where there are not at least three previous Servicer Reports, any previous Servicer Reports) for the purposes of calculating the amounts available to the Issuer to make payments, as set out in Condition 6.8(b). When the Cash Manager receives the Servicer Report relating to the Determination Period, it will make the reconciliation calculations and reconciliation payments as set out in Condition 6.8(c). Any: (i) calculations properly made on the basis of such estimates in accordance with Conditions 6.8(b) and/or 6.8(c); (ii) payments made under any of the Notes and Transaction Documents in accordance with such calculations; and (iii) reconciliation calculations and reconciliation payments made as a result of such reconciliation calculations, each in accordance with Conditions 6.8(b) and/or 6.8(c), shall be deemed to be made in accordance with the provisions of the Transaction Documents and will in themselves not lead to an Event of Default and no liability will attach to the Cash Manager in connection with the exercise by it of its powers, duties and discretion for such purposes.
- (b) In respect of any Determination Period, the Cash Manager shall, on the Calculation Date immediately following the Determination Period:

- (i) determine the Interest Determination Ratio (as defined above) by reference to the three most recently received Servicer Reports (or, where there are not at least three previous Servicer Reports, any previous Servicer Reports) received in the preceding Collection Periods;
 - (ii) calculate the Revenue Receipts for such Determination Period as the product of (A) the Interest Determination Ratio and (B) all collections received by the Issuer during such Determination Period (the "**Calculated Revenue Receipts**"); and
 - (iii) calculate the Redemption Receipts for such Determination Period as the product of (A) 1 minus the Interest Determination Ratio and (B) all collections received by the Issuer during such Determination Period (the "**Calculated Redemption Receipts**").
- (c) Following the end of any Determination Period, upon receipt by the Cash Manager of the Servicer Report in respect of such Determination Period, the Cash Manager shall reconcile the calculations made in accordance with Condition 6.8(b) above to the actual collections set out in the Servicer Reports by allocating the Reconciliation Amount (as defined above) as follows:
- (i) if the Reconciliation Amount is a positive number, the Cash Manager shall apply an amount equal to the lesser of (A) the absolute value of the Reconciliation Amount and (B) the amount standing to the credit of the Revenue Ledger, as Available Redemption Receipts (with a corresponding debit of the Revenue Ledger); and
 - (ii) if the Reconciliation Amount is a negative number, the Cash Manager shall apply an amount equal to the lesser of (A) the absolute value of the Reconciliation Amount and (B) the amount standing to the credit of the Redemption Ledger, as Available Revenue Receipts (with a corresponding debit of the Redemption Ledger),

provided that the Cash Manager shall apply such Reconciliation Amount in determining Available Revenue Receipts and Available Redemption Receipts for such Collection Period in accordance with the terms of the Cash Management Agreement and the Cash Manager shall promptly notify the Issuer and the Security Trustee of such Reconciliation Amount.

7.4 Change of Paying Agents

The Issuer reserves the right, subject to the prior written approval of the Note Trustee, at any time to vary or terminate the appointment of the Principal Paying Agent or the Registrar and to appoint additional or other agents provided that there will at all times be a person appointed to perform the obligations of the Principal Paying Agent with a specified office in London and the Registrar with a specified office in London.

7.7 Payment of Interest

If interest is not paid in respect of a Note of any Class on the date when due and payable (other than because the due date is not a Presentation Date (as defined in Condition 7.5 (*No Payment on non-Business Day*)) or by reason of non-compliance by the Noteholder with Condition 7.1 (*Payments of Interest and Principal*)), then such unpaid interest shall itself bear interest at the Rate of Interest applicable from time to time to such Note until such interest and interest thereon are available for payment and notice thereof has been duly given in accordance with Condition 16 (*Notice to Noteholders*).

8. REDEMPTION

8.1 Redemption at Maturity

Unless previously redeemed in full or purchased and cancelled as provided below, the Issuer will redeem the Notes at their respective Principal Amount Outstanding on the Interest Payment Date falling in July 2062 (the "**Final Maturity Date**").

8.2 Mandatory Redemption prior to the service of an Enforcement Notice or on the Call Option Redemption Date

- (a) On each Interest Payment Date prior to the service of an Enforcement Notice or on the Call Option Redemption Date:
- (i) each Class of Notes (other than the Class X Notes) shall be redeemed in an amount equal to the Available Redemption Receipts available for such purpose in accordance with the Pre-Enforcement Redemption Priority of Payments which shall be applied in the following order of priority:
 - (A) to repay the Class A Notes until they are each repaid in full; and thereafter be applied;
 - (B) to repay the Class Z Notes until they are each repaid in full; and

- (b) The Principal Amount Outstanding of each Class of Notes shall be redeemed on each Interest Payment Date in accordance with the relevant Priority of Payments. The principal amount to be redeemed in respect of a Note of a particular Class (the "**Note Principal Payment**") on any Interest Payment Date prior to the service of an Enforcement Notice shall be (i) in respect of Notes of a particular Class other than the Class X Notes, the Available Redemption Receipts available for such purpose on such Interest Payment Date in accordance with the Pre-Enforcement Redemption Priority of Payments and (ii) in respect of the Class X Notes, the Available Revenue Receipts available for such purpose on such Interest Payment Date in accordance with the Pre-Enforcement Revenue Priority of Payments, each as calculated on the Calculation Date immediately preceding such Interest Payment Date multiplied by the relevant Pool Factor. With respect to each Note of a particular Class on (or as soon as practicable after) each Calculation Date, the Issuer shall determine (or cause the Cash Manager to determine) (A) the amount of any Note Principal Payment due on the Interest Payment Date next following such Calculation Date, (B) the Principal Amount Outstanding of each such Note and (C) the fraction expressed as a decimal to the sixth decimal point (the "**Pool Factor**"), of which the numerator is the Principal Amount Outstanding of that Note (as referred to in sub-paragraph (B) above) and the denominator is the Principal Amount Outstanding of the relevant Class of Notes. Each determination by or on behalf of the Issuer of any principal repayment, the Principal Amount Outstanding of a Note and the Pool Factor shall in each case (in the absence of manifest error) be final and binding on all persons.
- (c) The Issuer will cause each determination of a principal repayment, Principal Amount Outstanding and Pool Factor to be notified by not less than two Business Days prior to the relevant Interest Payment Date to the Note Trustee, the Paying Agents, the Agent Bank and (for so long as the Notes are listed on the Official List of the FCA and are admitted to trading on the regulated market of the London Stock Exchange), and will immediately cause notice of each such determination to be given in accordance with Condition 16 (*Notice to Noteholders*) not later than two Business Days prior to the relevant Interest Payment Date. If no principal repayment is due to be made on the Notes on any Interest Payment Date a notice to this effect will be given to the holders of the Notes.

8.3 Mandatory Redemption of the Notes in Full

- (a) On or after the Optional Redemption Date

On giving not more than 60 days' nor fewer than two Business Days' notice to the Noteholders in accordance with Condition 16 (*Notice to Noteholders*) and the Note Trustee, on any Interest Payment Date on or after the Optional Redemption Date upon the occurrence of a sale of the Loans and their

Related Security comprising the Portfolio in accordance with the provisions of the Mortgage Sale Agreement, the Optional Purchase Price received by the Issuer (excluding an amount equal to the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger, which amount shall be paid to the Seller) will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments with the result that the Collateralised Notes will be redeemed in full and the Class X Notes may (subject to availability of funds for such purposes) be redeemed in full or in part, in accordance with Condition 8.2 (*Mandatory Redemption prior to the service of an Enforcement Notice or on the Call Option Redemption Date*).

(b) Ten per cent. clean-up call

On giving not more than 60 days' nor fewer than 14 Business Days' notice to the Noteholders in accordance with Condition 16 (*Notice to Noteholders*) and the Note Trustee, on any Interest Payment Date upon the occurrence of a sale of the Loans and their Related Security comprising the Portfolio in accordance with the provisions of the Mortgage Sale Agreement where the aggregate Current Balance of the Loans (excluding any Enforced Loans) was equal to or less than 10 per cent. of the aggregate Principal Amount Outstanding of the Collateralised Notes on the Closing Date, the Optional Purchase Price received by the Issuer (excluding an amount equal to the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger, which amount shall be paid to the Seller) will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments with the result that the Collateralised Notes will be redeemed in full and the Class X Notes may (subject to availability of funds for such purposes) be redeemed in full or in part, on such Interest Payment Date in accordance with Condition 8.2 (*Mandatory Redemption prior to the service of an Enforcement Notice or on the Call Option Redemption Date*).

8.4 Mandatory Redemption of the Notes for Taxation or Other Reasons

If:

- (a) by reason of a change in tax law (or the application or official interpretation thereof), which change becomes effective on or after the Closing Date, on or before the next Interest Payment Date the Issuer or the Paying Agents would be required to deduct or withhold from any payment of principal or interest on any Notes (other than because the relevant holder has some connection with the United Kingdom other than the holding of such Notes) any amount for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the United Kingdom or any political subdivision thereof or any authority thereof or therein having power to tax; or
- (b) by reason of a change in law (or the application or official interpretation thereof), which change becomes effective on or after the Closing Date, it has become or will become unlawful for the Issuer to make, fund or allow to remain outstanding all or any of the Notes,

then the Issuer shall, if the same would avoid the effect of such relevant event described in paragraph (a) or (b) above, appoint a Paying Agent in another jurisdiction or use its reasonable endeavours to arrange the substitution of a company incorporated and/or tax-resident in another jurisdiction approved in writing by the Note Trustee as principal debtor under the Notes and the Trust Deed, provided that:

- (i) the Note Trustee is satisfied that such substitution will not be materially prejudicial to the interests of the holders of the Notes (and in making such determination, the Note Trustee may rely, without further investigation or inquiry, on (A) any confirmation made orally to the Issuer (in which case the Servicer on behalf of the Issuer shall confirm the same in writing to the Note Trustee) or in writing from each of the Rating

Agencies that the then current ratings of the Class A Notes (while the Class A Notes remain outstanding) would not be adversely affected by such substitution or (B) if no such confirmation from the Rating Agencies is forthcoming, the Servicer on behalf of the Issuer has certified in writing to the Cash Manager, the Note Trustee and the Security Trustee that such proposed action (I) (while any Class A Notes remain outstanding) has been notified to the Rating Agencies, (II) would not have an adverse impact on the Issuer's ability to make payment when due in respect of the Notes, (III) would not affect the legality, validity and enforceability of any of the Transaction Documents or any Security and (IV) (while any of the Class A Notes remain outstanding) would not have an adverse effect on the rating of the Class A Notes) (upon which confirmation or certificate the Note Trustee and the Security Trustee shall be entitled to rely absolutely without liability to any person for so doing); and

- (ii) such substitution would not require registration of any new security under U.S. securities laws or materially increase the disclosure requirements under U.S. law.

A "**Redemption Event**" shall occur if the Issuer satisfies the Note Trustee immediately before giving the notice referred to below that one or more of the events described in paragraph (a) or (b) above is continuing and that the appointment of a Paying Agent or a substitution as referred to above would not avoid the effect of the relevant event or that, having used its reasonable endeavours, the Issuer is unable to arrange such appointment or substitution.

On any Interest Payment Date on which the Loans and their Related Security comprising the Portfolio are sold pursuant to the Mortgage Sale Agreement following the occurrence of a Redemption Event, the Optional Purchase Price received by the Issuer (excluding an amount equal to the amount of any debit on the Capitalised Borrower Product Switch Fee Ledger, which such amount shall be paid to the Seller) will be applied as Available Revenue Receipts in accordance with the Pre-Enforcement Revenue Priority of Payments with the result that the Collateralised Notes will be redeemed in full and the Class X Notes may (subject to availability of funds for such purposes) be redeemed in full or in part, in accordance with Condition 8.2 (*Mandatory Redemption prior to the service of an Enforcement Notice or on the Call Option Redemption Date*). The Issuer shall give not more than 60 days' nor fewer than 30 Business Days' notice of any such redemption of the Collateralised Notes to the Noteholders in accordance with Condition 16 (*Notice to Noteholders*) and the Note Trustee.

8.5 Principal Amount Outstanding

The "**Principal Amount Outstanding**" of each Class of Notes on any date shall be, in each case, their original principal amount less the aggregate amount of all principal payments in respect of such Class of Notes which have been made since the Closing Date.

8.6 Notice of Redemption

Any such notice as is referred to in Condition 8.3 (*Mandatory Redemption of the Notes in Full*) or Condition 8.4 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*) above shall be irrevocable and, upon the expiry of such notice, the Issuer shall be bound to redeem the relevant Notes at the applicable amounts specified above. Any certificate or legal opinion given by or on behalf of the Issuer pursuant to Clause 33.2 (*Exercise of Call Option*) of the Mortgage Sale Agreement may be relied on by the Note Trustee without further investigation and, if so relied on, shall be conclusive and binding on the Noteholders.

8.7 No Purchase by the Issuer

The Issuer will not be permitted to purchase any of the Notes.

8.8 Cancellation on redemption in full and/or the exercise of the Call Option

All Notes redeemed in full will be cancelled upon redemption. Notes cancelled upon redemption in full may not be resold or re-issued.

9. TAXATION

All payments in respect of the Notes by or on behalf of the Issuer shall be made without withholding or deduction for, or on account of, all present and future taxes, levies, imposts, duties, fees, deductions, withholdings or charges of any nature whatsoever and wheresoever imposed, including income tax, corporation tax, value added tax or other tax in respect of added value and any franchise, transfer, sales, gross receipts, use, business, occupation, excise, personal property, real property or other tax imposed by any national, local or supranational taxing or fiscal authority or agency together with any penalties, fines or interest thereon ("**Taxes**"), unless the withholding or deduction of the Taxes is required by applicable law. In that event, subject to Condition 8.4 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*), the Issuer or, as the case may be, the Paying Agent shall make such payment after the withholding or deduction has been made and shall account to the relevant authorities for the amount required to be withheld or deducted. Neither the Issuer nor any Paying Agent nor any other person shall be obliged to make any additional payments to Noteholders in respect of such withholding or deduction.

10. PRESCRIPTION

Claims in respect of principal and interest on the Notes will be prescribed after ten years (in the case of principal) and five years (in the case of interest) from the Relevant Date in respect of the relevant payment.

In this Condition 10, the "**Relevant Date**", in respect of a payment, is the date on which such payment first becomes due or (if the full amount of the monies payable on that date has not been duly received by the Principal Paying Agent or the Note Trustee on or prior to such date) the date on which, the full amount of such monies having been received, notice to that effect is duly given to the relevant Noteholders in accordance with Condition 16 (*Notice to Noteholders*).

 - II. the Issuer, the Relevant Party or the Servicer (on behalf of the Issuer) certifies in writing to the Note Trustee and the Security Trustee that the Rating Agencies have been informed of the proposed modification and none of the Rating Agencies has indicated that such modification would result (if the Class A Notes remaining outstanding) in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes by such Rating Agency or (y) such Rating Agency placing any Class A Notes on rating watch negative (or equivalent).
- (b) for the purpose of complying with any changes in the requirements of, or enabling the Issuer to comply with an obligation in respect of, the UK Securitisation Framework or the EU Securitisation Regulation (including in respect of risk retention or relating to the treatment of the Notes as a simple, transparent and standardised securitisation) after the Closing Date, including as a result of the adoption of regulatory or implementing technical standards in relation to the UK Securitisation Framework or the EU Securitisation Regulation or any other legislation or regulations or official guidance in relation thereto, provided that the Issuer certifies to the Note Trustee and the Security Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect (upon which certificate the Note Trustee and the Security Trustee shall be entitled to rely absolutely without liability to any person doing so);

Issuer (in the case of the Relevant Party or the Servicer), the Security Trustee and the Note Trustee that no Rating Agency Confirmation has been received within 30 days of a written request for such Rating Agency Confirmation) that such modification would not (if the Class A Notes remain outstanding) result in a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes by such Rating Agency and would not result in any Rating Agency placing any Class A Notes on rating watch negative (or equivalent) and, if relevant, delivers a copy of each such confirmation to the Issuer (in the case of the Relevant Party or the Servicer), the Note Trustee and the Security Trustee; or

- (B) the Issuer or the Servicer (on behalf of the Issuer) certifies in writing to the Note Trustee and the Security Trustee that the Rating Agencies have been informed of the proposed modification and none of the Rating Agencies has indicated that such modification (if the Class A Notes remain outstanding) would result in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes by such Rating Agency or (y) such Rating Agency placing any Class A Notes on rating watch negative (or equivalent);
- (iii) the replacement seller and/or servicer will accede to the Deed of Charge and be bound by the provisions therein;
- (iv) the replacement servicer is qualified to act as such under the FSMA and has the requisite experience of servicing residential mortgage loans in the United Kingdom; and

- (d) for the purpose of enabling the Notes to be (or to remain) listed on the London Stock Exchange, provided that the Issuer certifies to the Note Trustee and the Security Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (e) for the purpose of enabling the Issuer or any of the other Transaction Parties to comply with FATCA, provided that the Issuer or the relevant Transaction Party, as applicable, certifies to the Note Trustee and the Security Trustee in writing that such modification is required solely for such purpose and has been drafted solely to such effect;
- (f) for the purpose of complying with, or implementing or reflecting, any changes in the manner in which the Notes are held which will allow Bank of England's sterling monetary framework, that is, in a manner which would allow such Notes to be recognised as eligible collateral for the Bank of England's monetary policy and intra-day credit operations by the Bank of England either upon issue or at any or all times during the life of the Notes, provided that the Issuer certifies in writing to the Note Trustee and the Security Trustee that such modification is required solely for such purpose and has been drafted solely to such effect,

(the certificate to be provided by the Issuer, the Servicer (on behalf of the Issuer), and/or the Relevant Party and/or any other relevant Transaction Party, as the case may be, pursuant to Condition 13.6(a) to (f) above being a "**Modification Certificate**"); or

- (g) for the purpose of changing the reference rate or the base rate that then applies in respect of the Floating Rate Notes to an alternative base rate (including where such base rate may remain linked to SONIA but may be calculated in a different manner) (any such rate, which may include an alternative screen rate, an "**Alternative Base Rate**") and making such other amendments as are necessary or advisable in the commercially reasonable judgment of the Issuer (or the Servicer on its behalf) to facilitate such change (a "**Base Rate Modification**"), **provided that** the Issuer (or the Servicer on its behalf) certifies to the Note Trustee and the Security Trustee in writing (such certificate, a "**Base Rate Modification Certificate**") that:

- (i) such Base Rate Modification is being undertaken due to:

- (A) an alternative manner of calculating a SONIA-based rate being introduced and becoming a standard means of calculating interest for similar transactions;
- (B) a material disruption to SONIA, an adverse change in the methodology of calculating SONIA or SONIA ceasing to exist or be published;
- (C) the insolvency or cessation of business of the SONIA administrator (in circumstances where no successor SONIA administrator has been appointed);
- (D) a public statement by the SONIA administrator that it will cease publishing SONIA permanently or indefinitely (in circumstances where no successor SONIA administrator has been appointed that will continue publication of SONIA);
- (E) a public statement by the supervisor of the SONIA administrator that SONIA has been or will be permanently or indefinitely discontinued or will be changed in an adverse manner;
- (F) public statement by the supervisor of the SONIA administrator that means SONIA may no longer be used or that its use is subject to restrictions or adverse consequences; or
- (G) the reasonable expectation of the Issuer (or the Servicer on its behalf) that any of the events specified in paragraphs (A) to (F) above will occur or exist within six months of the proposed effective date of such Base Rate Modification; and

- (ii) such Alternative Base Rate is:

- (A) a base rate published, endorsed, approved or recognised by the Federal Reserve or the Bank of England, any regulator in the United States, the United Kingdom or the European Union or any stock exchange on which the Notes are listed (or any relevant committee or other body established, sponsored or approved by any of the foregoing);
- (B) a base rate utilised in a material number of publicly listed new issues of Sterling-denominated asset-backed floating rate notes prior to the effective date of such Base Rate Modification;

- (C) a base rate utilised in a publicly listed new issue of Sterling-denominated asset-backed floating rate notes where the originator of the relevant assets is CCFS or an affiliate thereof; or
- (D) such other base rate as the Servicer (on behalf of the Issuer) reasonably determines,

and in each case, the change to the Alternative Base Rate will not, in its opinion, be materially prejudicial to the interest of the Noteholders; and, for the avoidance of doubt, the Issuer (or the Servicer on its behalf) may propose an Alternative Base Rate on more than one occasion provided that the conditions set out in this Condition 13.6(g) are satisfied;

- (h) for the purpose of changing the base rate that then applies in respect of the Swap Agreement to an alternative base rate as is necessary or advisable in the commercially reasonable judgment of the Issuer (or the Servicer on its behalf) and the Swap Provider solely as a consequence of a Base Rate Modification and solely for the purpose of aligning the base rate of the Swap Agreement to the base rate of the Notes following such Base Rate Modification (a "**Swap Rate Modification**"), provided that the Servicer, on behalf of the Issuer, certifies to the Note Trustee and the Security Trustee in writing that such modification is required solely for such purpose and it has been drafted solely to such effect (such certificate being a "**Swap Rate Modification Certificate**"),

provided that, in the case of any modification made pursuant to paragraphs (a) to (h) above:

- (i) at least 30 calendar days' prior written notice of any such proposed modification has been given to the Note Trustee and the Security Trustee;
- (ii) the Modification Certificate, Base Rate Modification Certificate or Swap Rate Modification Certificate, as applicable, in relation to such modification shall be provided to the Note Trustee and the Security Trustee both at the time the Note Trustee and the Security Trustee are notified of the proposed modification and on the date that such modification takes effect; and
- (iii) the consent of each Secured Creditor which is party to the relevant Transaction Document has been obtained; and
- (iv) other than in the case of a modification pursuant to paragraph (a)(ii) above, either:
 - (A) the Issuer or the Servicer (on behalf of the Issuer) obtains from each of the Rating Agencies a Rating Agency Confirmation (or certifies in the Modification Certificate, Base Rate Modification Certificate or Swap Rate Modification Certificate that no such Rating Agency Confirmation has been received within 30 days of a written request for such Rating Agency Confirmation) that such modification would not (if the Class A Notes remain outstanding) result in (x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes by such Rating Agency or (y) such Rating Agency placing any Class A Notes on rating watch negative (or equivalent); or
 - (B) the Issuer or the Servicer (on behalf of the Issuer) certifies in the Modification Certificate, Base Rate Modification Certificate or Swap Rate Modification Certificate, as applicable, that it has informed the Rating Agencies of the proposed modification and none of the Rating Agencies has indicated that such modification (if the Class A Notes remain outstanding) would result in

(x) a downgrade, withdrawal or suspension of the then current ratings assigned to the Class A Notes by such Rating Agency or (y) such Rating Agency placing any Class A Notes on rating watch negative (or equivalent); and

- (v) the Issuer certifies in writing to the Note Trustee and the Security Trustee (which certification may be in the Modification Certificate, Base Rate Modification Certificate or Swap Rate Modification Certificate, as applicable) that (x) the Issuer has provided at least 30 calendar days' notice to the Noteholders of each Class of the proposed modification in accordance with Condition 16 (*Notice to Noteholders*) and by publication on Bloomberg on the "Company News" screen relating to the Notes, and (y) Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding have not contacted the Issuer in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which such Notes may be held) within such notification period notifying the Issuer that such Noteholders do not consent to the modification; and
- (i) for the purpose of (i) entering into a Product Switch Swap Transaction in connection with the Product Switch Swap Condition or (ii) adjusting, amending, varying, supplementing and/or modifying any existing Swap Transaction in connection with the Product Switch Swap Condition (in each case, the Issuer acting on the instructions of the Servicer in concurring with the Note Trustee or the Security Trustee (as applicable) that such Product Switch Swap Transaction is being entered into or adjusted, amended, varied, supplemented and/or modified for such purpose)).

If Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding have notified the Issuer in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which such Notes may be held) within the notification period referred to above that they do not consent to the modification, then such modification will not be made unless an Extraordinary Resolution of the Noteholders of the Most Senior Class of Notes then outstanding is passed in favour of such modification in accordance with Condition 13 (*Meetings of Noteholders, Modification, Waiver and Substitution*).

Objections made in writing other than through the applicable clearing system must be accompanied by evidence to the Issuer's satisfaction (having regard to prevailing market practices) of the relevant Noteholder's holding of the Notes.

Other than where specifically provided in this Condition 13.6 or any Transaction Document:

- (A) when implementing any modification pursuant to this Condition 13.6 (save to the extent the Note Trustee considers that the proposed modification would constitute a Basic Terms Modification), neither the Note Trustee nor the Security Trustee shall consider the interests of the Noteholders, any other Secured Creditor or any other person but shall act and rely solely and without further investigation on the Modification Certificate, the Base Rate Modification Certificate or the Swap Rate Modification Certificate provided to it by the Issuer or the relevant Transaction Party, as the case may be, pursuant to this Condition 13.6 and shall not be liable to the Noteholders, any other Secured Creditor for so acting or relying, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such person; and

- (B) neither the Note Trustee nor the Security Trustee shall be obliged to agree to any modification which, in the sole opinion of the Note Trustee and/or the Security Trustee, would have the effect of (x) exposing the Note Trustee and/or the Security Trustee to any liability against which it has not been indemnified and/or secured and/or prefunded to its satisfaction or (y) increasing the obligations or duties, or decreasing the rights or protection, of the Note Trustee and/or the Security Trustee in the Transaction Documents and/or these Conditions.

Any such modification shall be binding on all Noteholders and shall be notified by the Issuer as soon as reasonably practicable to:

- I. so long as any of the Notes rated by the Rating Agencies remains outstanding, each Rating Agency;
 - II. the Secured Creditors; and
 - III. the Noteholders in accordance with Condition 16 (*Notice to Noteholders*).
- (j) Nothing in this Condition 13.6 shall nullify or restrict the right of the Issuer and the Swap Provider to make certain amendments to the Swap Agreement in accordance with the Benchmarks Supplement as it forms part of the Swap Agreement. The Issuer shall notify the Noteholders of such amendments in accordance with Condition 16 (*Notice to Noteholders*) as soon as reasonably practicable following the effective date of such amendments.

13.7 Authorisation or Waiver of Breach

The Note Trustee and/or the Security Trustee (in the case of the Security Trustee, acting in accordance with the Deed of Charge), as applicable, may, without the consent or sanction of the Noteholders or the other Secured Creditors and without prejudice to its rights in respect of any further or other breach, from time to time and at any time, authorise or waive any proposed or actual breach of any of the covenants or provisions contained in or arising pursuant to the Conditions or any of the Transaction Documents by any party thereto, but only if in the opinion of the Note Trustee or, as the case may be, the Security Trustee, the interests of the Most Senior Class or if there are no Notes then outstanding, all the Secured Creditors will not be materially prejudiced thereby. The Note Trustee shall not exercise any powers conferred on it by this Condition 13.7 in contravention of any express direction given by Extraordinary Resolution of the holders of the Most Senior Class or, by a direction under Condition 11 (*Events of Default*) but so that no such direction or request shall affect any waiver, authorisation or determination previously given or made.

13.8 Notification of modifications, waivers, authorisations or determinations

Any such modification, waiver, authorisation or determination by the Note Trustee and/or the Security Trustee, as applicable, in accordance with these Conditions or the Transaction Documents shall be binding on the Noteholders and, unless the Note Trustee or, as the case may be, the Security Trustee agrees otherwise, any such modification shall be notified by the Issuer to the Noteholders in accordance with Condition 16 (*Notice to Noteholders*), the Rating Agencies (while any Notes remain outstanding) and the Secured Creditors as soon as practicable thereafter.

- 13.9 In connection with any such substitution of principal debtor referred to in Condition 8.4 (*Mandatory Redemption of the Notes for Taxation or Other Reasons*), the Note Trustee and the Security Trustee may also agree, without the consent of the Noteholders or the other Secured Creditors, to a change of the laws governing the Notes, these Conditions and/or any of the Transaction Documents, provided that such change would not, in the opinion of the Note Trustee or, as the case may be, the Security

Trustee (in the case of the Security Trustee, acting in accordance with the Deed of Charge), be materially prejudicial to the interests of the Noteholders or the other Secured Creditors.

- 13.10 In determining whether a proposed action will not be materially prejudicial to the Noteholders or any Class thereof, the Note Trustee and the Security Trustee may, among other things, have regard to whether the Rating Agencies have confirmed in writing to the Issuer or any other party to the Transaction Documents that any proposed action will not result in the withdrawal or reduction of, or entail any other adverse action with respect to, the then current ratings of the Class A Notes (while the Class A Notes remain outstanding). It is agreed and acknowledged by the Note Trustee and the Security Trustee that, notwithstanding the foregoing, a credit rating is an assessment of credit and does not address other matters that may be of relevance to the Noteholders. In being entitled to take into account that each of the Rating Agencies has confirmed that the then current ratings of the Class A Notes (while the Class A Notes remain outstanding) would not be adversely affected, it is agreed and acknowledged by the Note Trustee and the Security Trustee this does not impose or extend any actual or contingent liability for each of the Rating Agencies to the Security Trustee, the Note Trustee, the Noteholders or any other person, or create any legal relations between each of the Rating Agencies and the Security Trustee, the Note Trustee, the Noteholders or any other person, whether by way of contract or otherwise.
- 13.11 Where, in connection with the exercise or performance by each of them of any right, power, trust, authority, duty or discretion under or in relation to these Conditions or any of the Transaction Documents (including in relation to any modification, waiver, authorisation, determination, substitution or change of laws as referred to above), the Note Trustee or the Security Trustee is required to have regard to the interests of the Noteholders of any Class or Classes, it shall (a) have regard to the general interests of the Noteholders of such Class or Classes but shall not have regard to any interests arising from circumstances particular to individual Noteholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise or performance for individual Noteholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political subdivision thereof, and the Note Trustee or, as the case may be, the Security Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer, the Note Trustee or the Security Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders and (b) subject to the more detailed provisions of the Trust Deed and the Deed of Charge, as applicable, have regard to the interests of holders of each Class of Notes (except where expressly provided otherwise) but requiring the Note Trustee and the Security Trustee where there is a conflict of interest between one or more Classes of Notes in any such case to have regard (except as expressly provided otherwise) to the interests of the holders of the Class or Classes of Notes ranking in priority to the other relevant Classes of Notes.
- 13.12 Other than in respect of any matter requiring an Extraordinary Resolution, Noteholders are required to vote by way of an Ordinary Resolution.
- 13.13 "**Ordinary Resolution**" means, in respect of the holders of any of the Classes of Notes:
- (a) a resolution passed at a meeting of Noteholders duly convened and held in accordance with the Trust Deed and these Conditions by a clear majority of the Eligible Persons voting thereat on a show of hands or, if a poll is duly demanded, by a clear majority of the votes cast on such poll;
 - (b) a resolution in writing signed by or on behalf of the Noteholders of not less than a clear majority in aggregate Principal Amount Outstanding of the relevant Class of Notes, which resolution may be contained in one document or in several documents in like form each signed by or on behalf of one or more of the Noteholders of the relevant Class; or

- (c) consent given by way of electronic consents through the relevant Clearing System(s) (in a form satisfactory to the Note Trustee) by or on behalf of the Noteholders of not less than a clear majority in aggregate Principal Amount Outstanding of the relevant Class of Notes.

13.14 **"Extraordinary Resolution"** means, in respect of the holders of any of the Classes of Notes:

- (a) a resolution passed at a meeting of Noteholders duly convened and held in accordance with the Trust Deed and these Conditions by a majority consisting of not less than three-quarters of Eligible Persons voting at such meeting upon a show of hands or, if a poll is duly demanded, by a majority consisting of not less than three-quarters of the votes cast on such poll;
- (b) a resolution in writing signed by or on behalf of the Noteholders of not less than three-quarters in aggregate Principal Amount Outstanding of the relevant Class of Notes, which resolution may be contained in one document or in several documents in like form each signed by or on behalf of one or more of the Noteholders of the relevant Class; or
- (c) consent given by way of electronic consents through the relevant Clearing System(s) (in a form satisfactory to the Note Trustee) by or on behalf of the Noteholders of not less than three-quarters in aggregate Principal Amount Outstanding of the relevant Class of Notes.

13.15 **"Eligible Person"** means any one of the following persons who shall be entitled to attend and vote at a meeting:

- (a) a bearer of any Voting Certificate; and
- (b) a proxy specified in any Block Voting Instruction.

13.16 **"Voting Certificate"** means an English language certificate issued by a Paying Agent in which it is stated:

- (a) that on the date thereof the Notes (not being the Notes in respect of which a Block Voting Instruction has been issued and is outstanding in respect of the meeting specified in such Voting Certificate) are blocked in an account with a clearing system and that no such Notes will cease to be so blocked until the first to occur of:
 - (i) the conclusion of the meeting specified in such Voting Certificate; and
 - (ii) the surrender of the Voting Certificate to the Paying Agent who issued the same; and
- (b) that the bearer thereof is entitled to attend and vote at such meeting in respect of the Notes represented by such Voting Certificate.

13.17 **"Block Voting Instruction"** means an English language document issued by a Paying Agent in which:

- (a) it is certified that on the date thereof Notes (not being Notes in respect of which a Voting Certificate has been issued and is outstanding in respect of the meeting specified in such Block Voting Instruction) are blocked in an account with a clearing system and that no such Notes will cease to be so blocked until the first to occur of:
 - (i) the conclusion of the meeting specified in such Block Voting Instruction; and
 - (ii) the Notes ceasing with the agreement of the Paying Agent to be so blocked and the giving of notice by the Paying Agent to the Issuer of the necessary amendment to the Block Voting Instruction;

- (b) it is certified that each holder of such Notes has instructed such Paying Agent that the vote(s) attributable to the Notes so blocked should be cast in a particular way in relation to the resolution(s) to be put to such meeting and that all such instructions are, during the period commencing 48 hours prior to the time for which such meeting is convened and ending at the conclusion or adjournment thereof, neither revocable nor capable of amendment;
 - (c) the aggregate principal amount or aggregate total amount of the Notes so blocked is listed distinguishing with regard to each such resolution between those in respect of which instructions have been given that the votes attributable thereto should be cast in favour of the resolution and those in respect of which instructions have been so given that the votes attributable thereto should be cast against the resolution; and
 - (d) one or more persons named in such Block Voting Instruction (each hereinafter called a "**proxy**") is or are authorised and instructed by such Paying Agent to cast the votes attributable to the Notes so listed in accordance with the instructions referred to in paragraph (c) above as set out in such Block Voting Instruction, provided that no such person shall be named as a proxy whose appointment has been revoked and in relation to whom the relevant Paying Agent has been notified in writing of such revocation by the time which is 48 hours before the time fixed for such meeting.
- 13.18 Details of any Extraordinary Resolution and any Ordinary Resolution passed in accordance with the provisions of the Trust Deed shall be notified to each of the Rating Agencies by the Principal Paying Agent on behalf of the Issuer.

13.19 Issuer Substitution Condition

The Note Trustee and Security Trustee may agree, subject to such amendment of these Conditions and of any of the Transaction Documents, and to such other conditions as the Note Trustee and Security Trustee may require and subject to the terms of the Trust Deed, but without the consent of the Noteholders, to the substitution of another body corporate in place of the Issuer as principal debtor under the Trust Deed and the Notes and in respect of the other Secured Obligations, provided that the conditions set out in the Trust Deed are satisfied including, *inter alia*, that the Notes are unconditionally and irrevocably guaranteed by the Issuer (unless all of the assets of the Issuer are transferred to such body corporate) and that such body corporate is a single purpose vehicle and undertakes itself to be bound by provisions corresponding to those set out in Condition 5 (*Covenants*) (the "**Issuer Substitution Condition**"). In the case of a substitution pursuant to this Condition 13.19, the Note Trustee and Security Trustee may in their absolute discretion agree, without the consent of the Noteholders, to a change in law governing the Notes and/or any of the Transaction Documents unless such change would, in the opinion of the Note Trustee and Security Trustee (acting on the direction of the Note Trustee), be materially prejudicial to the interests of the Noteholders.

14. INDEMNIFICATION AND EXONERATION OF THE NOTE TRUSTEE AND THE SECURITY TRUSTEE

The Trust Deed and the Deed of Charge contain provisions governing the responsibility (and relief from responsibility) of the Note Trustee and the Security Trustee, respectively, and providing for their indemnification in certain circumstances, including provisions relieving them from taking action or, in the case of the Security Trustee, enforcing the Security, unless indemnified and/or prefunded and/or secured to their satisfaction.

The Trust Deed and the Deed of Charge also contain provisions pursuant to which the Note Trustee and the Security Trustee are entitled, *inter alia*, (a) to enter into business transactions with the Issuer and/or any other party to any of the Transaction Documents and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any other party to any of the Transaction Documents, (b) to exercise and enforce its rights, comply with its obligations and perform

its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, individual Noteholders and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

15. REPLACEMENT OF NOTES

If any Note is mutilated, defaced, lost, stolen or destroyed, it may be replaced at the specified office of the Registrar subject to all applicable laws and stock exchange requirements. Replacement of any mutilated, defaced, lost, stolen or destroyed Note will only be made on payment of such costs as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. A mutilated or defaced Note must be surrendered before a new one will be issued.

If the Issuer Substitution Condition is satisfied in accordance with these Terms and Conditions and the Trust Deed, the Issuer may, without the consent of the Noteholders, issue one or more classes of replacement notes to replace one or more Classes of Notes, each class of which shall have terms and conditions which may differ from the terms and conditions of the Class of Notes which it replaces.

16. NOTICE TO NOTEHOLDERS

16.1 Publication of Notice

- (a) Subject to paragraphs (c) and (d) below, any notice to Noteholders shall be validly given if published in the *Financial Times* or, if such newspaper shall cease to be published or if timely publication therein is not practicable, in such other English newspaper or newspapers as the Note Trustee shall approve in advance having a general circulation in the United Kingdom, provided that if, at any time, (i) the Issuer procures that the information concerned in such notice shall appear on a page of the Reuters screen, the Bloomberg screen or any other medium for electronic display of data as may be previously approved in writing by the Note Trustee and notified to Noteholders (in each case a "**Relevant Screen**"), or (ii) paragraph (c) below applies and the Issuer has so elected, publication in the newspaper set out above or such other newspaper or newspapers shall not be required with respect to such notice. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication shall have been made in the newspaper or newspapers in which (or on the Relevant Screen) publication is required.
- (b) In respect of Notes in definitive form, notices to Noteholders will be sent to them by first class post (or its equivalent) or (if posted to an address outside the United Kingdom) by airmail at the respective addresses on the Register. Any such notice will be deemed to have been given on the fourth day after the date of posting.
- (c) While the Notes are represented by Global Note, notices to Noteholders will be valid if published as described above or, at the option of the Issuer, if submitted to Euroclear and/or Clearstream, Luxembourg for communication by them to Noteholders. Any notice delivered to Euroclear and/or Clearstream, Luxembourg, as aforesaid shall be deemed to have been given on the day of such delivery.
- (d) So long as the relevant Notes are admitted to trading on, and listed on the official list of, the London Stock Exchange all notices to the Noteholders will be valid if published in a manner which complies with the rules and regulations of the London Stock Exchange (which includes delivering a copy of such notice to the London Stock Exchange) and any such notice will be deemed to have been given on the date sent to the London Stock Exchange.

16.2 Note Trustee's Discretion to Select Alternative Method

The Note Trustee shall be at liberty to sanction some other method of giving notice to the Noteholders or category of them if, in its sole opinion, such other method is reasonable having regard to market practice then prevailing and to the requirements of the stock exchanges, competent listing authorities and/or quotation systems on or by which the Notes are then listed, quoted and/or traded and provided that notice of such other method is given to the Noteholders in such manner as the Note Trustee shall require.

17. SUBORDINATION BY DEFERRAL

17.1 Interest

If, on any Interest Payment Date, the Issuer has insufficient funds to make payment in full of all amounts of interest (which shall, for the purposes of this Condition 17, include any interest previously deferred under this Condition 17.1 and accrued interest thereon) payable in respect of the Notes other than the Most Senior Class of Notes after having paid or provided for items of higher priority in the Pre-Enforcement Revenue Priority of Payments, then the Issuer shall be entitled to defer to the next Interest Payment Date the payment of interest (such interest, the "**Deferred Interest**") in respect of the Notes other than the Most Senior Class of Notes to the extent only of any insufficiency of funds.

17.2 General

Any amounts of Deferred Interest in respect of a Class of Notes shall accrue interest ("**Additional Interest**") at the same rate and on the same basis as scheduled interest in respect of the corresponding Class of Notes, but shall not be capitalised. Such Deferred Interest and Additional Interest shall, in any event, become payable on the next Interest Payment Date (unless and to the extent that Condition 17.1 (*Interest*) applies) or on such earlier date as the relevant Class of Notes becomes due and repayable in full in accordance with these Conditions.

17.3 Notification

As soon as practicable after becoming aware that any part of a payment of interest on a Class of Notes will be deferred or that a payment previously deferred will be made in accordance with this Condition 17, the Issuer will give notice thereof to the relevant Class of Noteholders, as appropriate, in accordance with Condition 16 (*Notice to Noteholders*). Any deferral of interest in accordance with this Condition 17 will not constitute an Event of Default. The provisions of this Condition 17 shall cease to apply on the Final Maturity Date, or any earlier date on which the Notes are redeemed in full or, are required to be redeemed in full, at which time all deferred interest and accrued interest thereon shall become due and payable.

18. NON-RESPONSIVE RATING AGENCY

- (a) In respect of the exercise of any power, duty, trust, authority or discretion as contemplated hereunder or in relation to the Notes and any of the Transaction Documents, the Note Trustee and the Security Trustee shall be entitled but not obliged to take into account any written confirmation or affirmation (in any form acceptable to the Note Trustee and the Security Trustee) from the relevant Rating Agencies that the then current ratings of the Class A Notes (while the Class A Notes remain outstanding) will not be reduced, qualified, adversely affected or withdrawn thereby (a "**Rating Agency Confirmation**").
- (b) If a Rating Agency Confirmation or other response by a Rating Agency is a condition to any action or step under any Transaction Document and a written request for such Rating Agency Confirmation or response is delivered to each Rating Agency by or on behalf of the Issuer (copied to the Note Trustee and the Security Trustee, as applicable) and:

- (i) (A) one Rating Agency (such Rating Agency, a "**Non-Responsive Rating Agency**") indicates that it does not consider such Rating Agency Confirmation or response necessary in the circumstances or that it does not, as a matter of practice or policy, provide such Rating Agency Confirmation or response or (B) within 30 days of delivery of such request, no Rating Agency Confirmation or response is received and/or such request elicits no statement by such Rating Agency that such Rating Agency Confirmation or response could not be given; and
- (ii) one Rating Agency gives such Rating Agency Confirmation or response based on the same facts,

then such condition to receive a Rating Agency Confirmation or response from each Rating Agency shall be modified so that there shall be no requirement for the Rating Agency Confirmation or response from the Non-Responsive Rating Agency if the Issuer provides to the Note Trustee and the Security Trustee a certificate signed by two directors certifying and confirming that each of the events in sub-paragraph (i)(A) or (B) and paragraph (ii) above has occurred. If no such Rating Agency Confirmation is forthcoming and two directors of the Issuer have certified the same in writing to the Security Trustee and the Note Trustee (an "**Issuer Certificate**"), upon which Issuer Certificate the Note Trustee and the Security Trustee shall be entitled to rely absolutely without liability to any person for so doing, the Note Trustee and the Security Trustee shall be entitled (but not obliged) to assume that such proposed action:

- (A) (while any of the Notes remain outstanding) has been notified to the Rating Agencies;
- (B) would not adversely impact on the Issuer's ability to make payment when due in respect of the Notes;
- (C) would not affect the legality, validity and enforceability of any of the Transaction Documents or any Security; and
- (D) (while any of the Class A Notes remain outstanding) the then current rating of the Class A Notes would not be reduced, qualified, adversely affected or withdrawn,

It is agreed and acknowledged by the Note Trustee and the Security Trustee that this does not impose or extend any actual or contingent liability for each of the Rating Agencies to the Security Trustee, the Note Trustee, the Noteholders or any other person or create any legal relations between each of the Rating Agencies and the Security Trustee, the Note Trustee, the Noteholders or any other person whether by way of contract or otherwise.

19. JURISDICTION AND GOVERNING LAW

- (a) The Courts of England (the "**Courts**") are to have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Notes and the Transaction Documents (including a dispute relating to non-contractual obligations or a dispute regarding the existence, validity or termination of any of the Notes or the Transaction Documents or the consequences of their nullity) and accordingly any legal action or proceedings arising out of or in connection with the Notes and/or the Transaction Documents may be brought in such Courts.
- (b) The Transaction Documents, the Notes and these Conditions (and any non-contractual obligations arising out of or in connection with them) are governed by, and shall be construed in accordance with, English law except that, to the extent that the provisions of the Mortgage Sale Agreement, the Deed of Charge and any transaction or security documents supplemental thereto relate to the Scottish Loans, such provisions and documents shall be construed and/or (as applicable) governed by Scots law.

20. RIGHTS OF THIRD PARTIES

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Notes or these Conditions, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

TAXATION

United Kingdom Taxation

The following applies only to persons who are the beneficial owners of the Notes and is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue & Customs ("HMRC") practice relating only to the United Kingdom withholding tax treatment of payments of interest (as that term is understood for United Kingdom tax purposes) in respect of the Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of the Notes. The United Kingdom tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future (possibly with retrospective effect). Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes carry a right to interest and are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007 (the "Act") for the purposes of section 987 of the Act. The London Stock Exchange is a recognised stock exchange. Securities will be treated as listed on the London Stock Exchange if they are included in the Official List (within the meaning of and in accordance with the provisions of Part 6 of FSMA) and admitted to trading on the London Stock Exchange. Provided, therefore, that the Notes carry a right to interest and are and remain so listed on a "recognised stock exchange", interest on the Notes will be payable without withholding or deduction for or on account of United Kingdom income tax. In other cases, an amount must generally be withheld from payments of interest on the Notes that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.), subject to any available exemptions or reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to that Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which the final regulations defining "foreign passthru payment" are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for the purposes of FATCA withholding unless materially modified after such date. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

EU financial transaction tax

On 14 February 2013, the European Commission issued proposals, including a draft Directive (the "**Commission's Proposal**"), for a financial transaction tax ("**FTT**") to be adopted in certain participating member states of the European Union ("**Member States**") (including Belgium, Germany, Estonia (although Estonia has since stated that it will not participate), Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia). If the Commission's Proposal was adopted, the FTT would be a tax primarily on "financial institutions" (which would include the Issuer) in relation to "financial transactions" (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the financial transaction is issued in a participating Member State.

The FTT may give rise to tax liabilities for the Issuer with respect to certain transactions if the conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's Proposal. Any such tax liabilities may reduce amounts available to the Issuer to meet its obligations under the Notes and may result in investors receiving less interest and/or principal than expected. To the extent that such liabilities may arise at a time when winding up proceedings have been commenced in respect of the Issuer, such liabilities may be regarded as an expense of the liquidation and, as such, be payable out of the floating charge assets of the Issuer (and its general estate) in priority to the claims of Noteholders and other secured creditors. It should also be noted that the FTT could be payable in relation to relevant transactions by investors in respect of the Notes (including secondary market transactions) if the conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's Proposal. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.
